BRILLIANCE A BRAND WITH VISION >

Brilliance is a leading automotive group in China with a vision to become amongst the best selling automotive manufacturers in the world. More than 35,000 employees help create a revolutionary line up of vehicles including sedans, SUVs, minibuses and minivans, MPV, Light Trucks and Pickups, and automotive components. As a brand, Brilliance offers a high competitive edge with excellent quality, reliable performance and cutting edge technologies. Capitalizing on its strategic partnerships with industry giants such as BMW, Porsche, Toyota, Mitsubishi, several of its models are designed by famous Italian designers. Brilliance has been commended "the Most Customer-reliable Automobile Manufacturer" and "the First-class National Quality-Standardized Enterprise for Safety" in China.

THE V5 SUV LIGHTNESS OF BEING >

The all new Brilliance V5 SUV shares its underpinning with the spirit of German styling, which is no bad thing at all. Yet unabashedly the V5 SUV holds its own in style, performance and safety. Well assembled and with a family-oriented and urban lifestyle in mind, the V5 is modeled with organically developed curves that convey agility, something uncommonly found in similar SUVs. This natural and fluent flow of body lines conveys an exhilarating and sporty SUV able to tackle any adventure you decide to take it on.

DEFINITIVE INTERIOR➤

Totally surrounded by the very best in driver comfort systems, it would be difficult to ask for more. Yet the V5 delivers just that. There is a state of the art audio system, offering a video choice. Keyless access, a remote control locking system and even a Comfort Window Closing system has been included to ensure that your journey is comfortable and convenient.

The V5 is strong, safe and reliable...oh and spacious too, the Brilliance V5 provides front and rear seat passengers with impressive leg and shoulder room. Cargo space is at a premium and can swallow mountain bikes whole. So, where ever you choose to go, you can take lots and lots with you.

MORE THAN SKIN DEEP➤

The impressive good looks of the V5 extend far beneath its stylish exterior. Its excellent build quality delivers a family sized SUV that is smart, commanding, spacious and secure...inside and out. A choice of a Mitsubishi 1.6 Tech L or Brilliance's own 1.5L turbo engine and a transmission option including 5-gear manual or 5-speed automatic offer a whole new world of skilled performance for the ultimate driving experience.

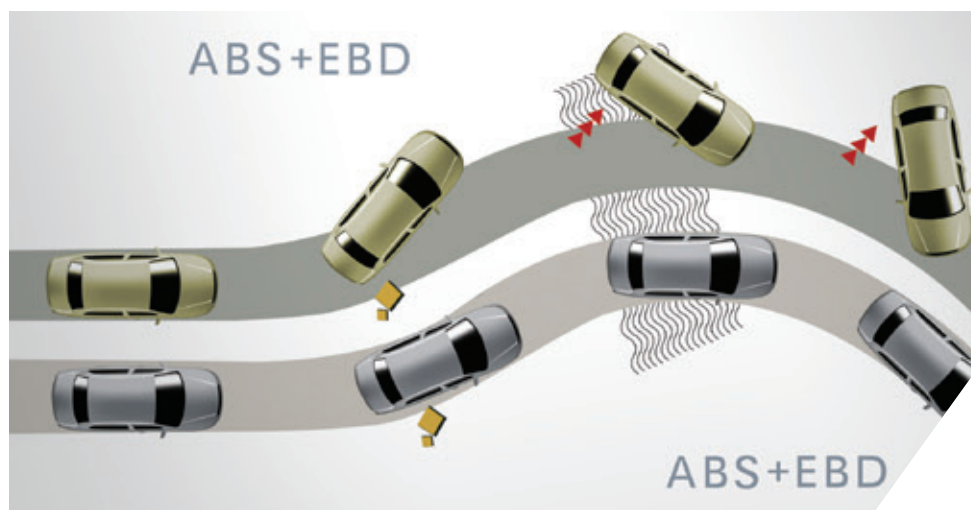

PERFECT CONTROL➤

From time to time we all know heavy braking is inevitable. This is why the V5 is equipped with the ABS +EDS system. This international system will help to prevent wheel lock and aids full control under heavy braking conditions. Heavy-footing on the brakes is indicated by the EBA (Electronic Brake Assist) and BAS (Brake Assist System). A sensor detects your force and speed on the brake pedal to judge the driver's intention of brake by the MASR (Motor Anti-Slip Regulation) computer. There is backup too in the form of TCS (Traction Control System) which enhances your control when traction is lost.

The V5 cleverly includes AYC (Active Yawing Control) which helps to distribute the rear loading on individual wheels to accommodate the location of weight during rear torque actively. This is also supported by the MSR (Motor control Slide Retainer) director torque control of the engine. 'HAS' has been installed too, very useful for those difficult uphill starts or downhill reversals.

SAFETY AND SECURITY SUPREME➤

We know safety is a priority for you and your passengers. This is why Brilliance has made safety its number one priority. The V5 is no exception and is designed with a range of technology to help you drive safely. Its standard safety features include high-strength and anti-collision steel, especially imported from Sweden. This has contributed to the V5 scoring a five-star rating in C-NCAP collision tests. Both driver and co-driver airbags are included, as well as side airbags too. Seatbelt alert systems are in place so you know who isn't wearing the all-important seatbelt. A pre-tensioning three-point safety belt and rear row three-point safety belt is included and springs into action, tightening when in collision mode and releasing at its upper limit to avoid injury.

TECHNICAL SPECS

Majestic Journeys

The V5 cuts a majestic picture on any journey you decide to take it, whether on major highways or narrow city streets. Parking is made easier by power steering, despite its liberal proportions. Lean and environmentally responsible, the Brilliance V5 is spacious, powerful, stylish and safe in every way. In short, the V5 is a SUV worth owning and of which to be utterly proud.
