

ALL-NEW DACIA SANDERO SANDERO STEPWAY

PRE ORDER ONLINE NOW AT WWW.DACIA.CO.UK/PREORDER

DACIA

BURSTING WITH CROSSOVER STYLE

At first sight of the All-New Sandero Stepway, you want to jump in it and start your next adventure. With its dynamic front end, modern wheel rims and high ground clearance, we know we've got a proper crossover. New super efficient LED headlights with our new Y-shaped design makes the front of the car appear wider

and gives it even more character. Automatic headlights and windscreen wipers give you with better visibility whatever the weather and our new innovative modular roof bars allow you to carry even more on your trips. Sandero Stepway, the perfect companion for all of your adventures.

DACIA SANDERO STEPWAY

STEP INTO NOW

Keyless entry? Tick... Totally re-designed interior? Tick... Our totally new interior features chrome finishes, special upholstery with subtle orange detailing, height adjustable seats and steering wheel, adjustable headrests, electric parking brake, ingenious storage space: Sandero has never been more practical, comfortable and connected.

Connect your smartphone and be totally connected with our Navi-link system on Essential versions, or our Media Nav system on Comfort trim levels are above, featuring Wireless Apple Car Play and Android Auto.

EMBRACE ITS SLEEK STYLING

Take a look at it. Nice, right? The completely redesigned Sandero is a real head turner. The new front and rear Y-shaped lighting design really makes the new member of the Dacia family stand out in any car park. The All-New Sandero's super efficient LED headlights will light up the road at night like never before and it doesn't stop there. We've totally redesigned our wing mirrors (and painted them

to match the body work; posh right?) and front grille which makes the car more aerodynamic and reduces road noise. Our engineers have been over every little detail of the New Sandero and improved it. After all, it's easy to build an expensive car, but not so easy to design and build the UK's best value for money new car.

DACIA SANDERO

EVERYTHING YOU NEED WITHIN ARMS LENGTH

Everything changes and so has the All-New Sandero's interior: Better comfort, better materials, better design and technologies that are easy to use. As soon as you jump in, you feel comfortable in our new modern interior. The redesigned dashboard is totally driver-focused and provides easy access to all of the

cars functions: new and easy to use heating and air-conditioning controls, built-in 8-inch screen* with navigation and wireless phone replication, Rear parking sensors and Reverse camera and height and depth-adjustable steering wheel

SPACE ON EVERY JOURNEY

All-New Sandero is not only stylish, well equipped and more efficient than ever, but it's also really practical too. With a large boot and folding rear seats, it should provide all the space you need. It also comes with a lot of space for storing things in your car too: cup holders, large door storage pockets and closed glovebox help you stay organised every day.

We've also taken care of the passengers too, increasing leg room and seat width throughout the car for maximum comfort and the best price.

DIMENSIONS

DACIA SANDERO

SANDERO STEPWAY

Dimensions in mm.

SAFETY GUARANTEED AT ALL TIMES

For us at Dacia, nothing is more important than constantly improving the safety of our vehicles, and most of all, our passengers. That's why we've introduced automatic emergency braking (standard), hill start assist, six airbags (standard) and

blind spot sensors, meaning you can relax when out on your adventures. The All-New Dacia Sandero and Sandero Stepway provide everything you need for worry-free driving.

Automatic Emergency Braking: Because sometimes, computers can act faster than a human brain. That's why you can rely on All-New Sandero and All-New Sandero Stepway to avoid or mitigate small accidents with other cars or people. Our new system detects any risk of a collision, so if you don't react or if you don't react quickly enough, the system triggers and optimises braking.

Blind spot warning: It's difficult to see everything when you change lanes. The side front and rear sensors of New Sandero Stepway warn you in the event of a risk of collision with another vehicle from the side or rear.

Rear parking sensors and rear view Camera (on Comfort trim levels) plus front sensors on the Prestige trim level: Annoying parking spaces. You know the ones. They are big enough, but only just, and can be a little awkward to manoeuvre into. Not with our rear view parking camera and front and rear sensors, which will make parking your shiny new car a breeze.

Hill Start Assist: No need to stress when you start on a hill. This function immediately prevents the vehicle from moving backwards when you release the brake pedal. You no longer need the hand brake to help you or your clutch; starting your vehicle is as easy as ABC.

Every precaution has been taken to ensure this publication is accurate and up to date when printed. This document is based on pre-production and prototype models. As part of its ongoing product improvement policy, Dacia reserves the right to change the specifications, vehicles and accessories described and featured at any time. Dacia dealerships are notified of any such changes as quickly as possible. Depending on the country of sale, some versions may differ and some equipment may not be available (as standard, as an option or as an accessory). Please contact your Dacia representative for the latest information. For technical printing reasons, the colours featured in this document may differ slightly from those of the actual paintwork or interior trim. All rights reserved.
