

500X

THE  
SIDE

OF

BEAUTY

The strength of beauty: **500X** is the crossover that combines style and substance, ready to rule the road, with something extra that makes it truly unique. Its two souls, metropolitan and crossover, are designed to appeal to everyone, offering exceptional comfort, technology and segment-leading safety.

**The 500X expresses the values that made the Fiat 500 an icon recognised all over the world.**

In the 500X, seductive Italian design embraces the substance of a comfortable, high-performance car that's always connected to the world.

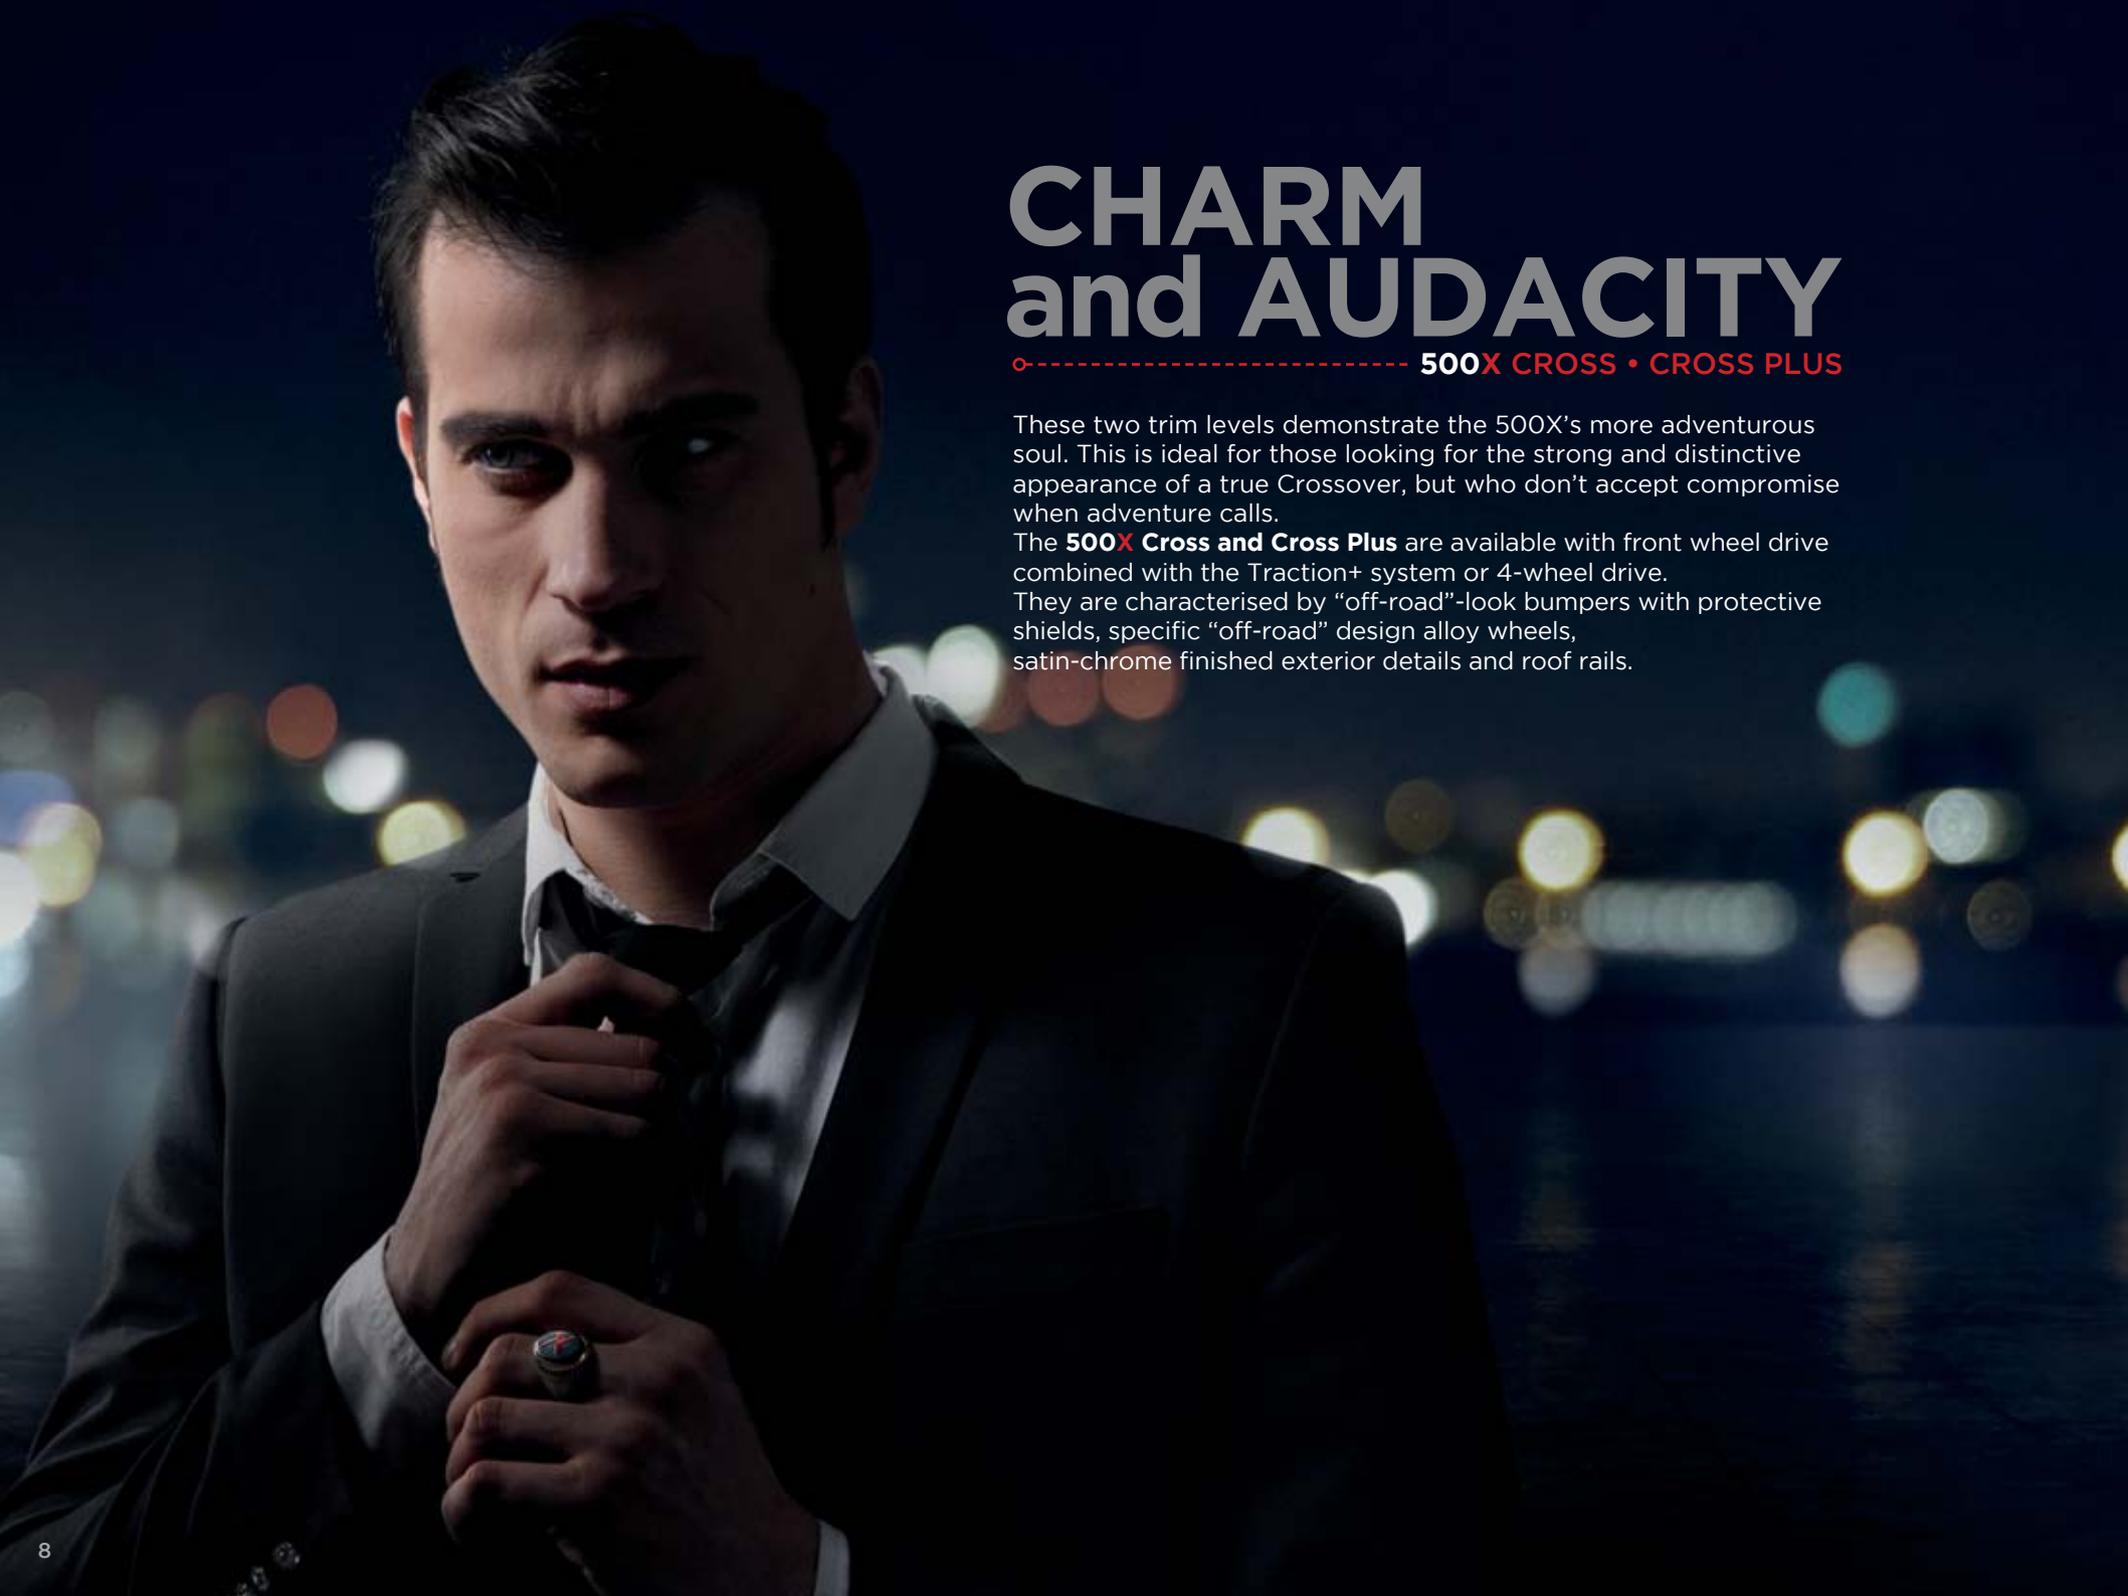

## WORLD CLASS QUALITY

Excellence comes from excellence: the **500X** is produced at the renovated SATA plant in Melfi (Potenza), one of the world's most efficient production sites and the first in Italy to receive Silver Level WCM (World Class Manufacturing) certification due to this method of international production cycle organisation. The plant at Melfi is an organisational model inspired by the principles of streamlined production that reduces the steps in the production chain, simplifying the assembly operations to bring the **500** family's newest wonder into existence.

A man in a dark suit and tie is adjusting his tie. He is looking slightly to the left with a serious expression. The background is dark with out-of-focus lights, creating a bokeh effect. The text is overlaid on the right side of the image.

# CHARM and AUDACITY

----- 500X CROSS • CROSS PLUS

These two trim levels demonstrate the 500X's more adventurous soul. This is ideal for those looking for the strong and distinctive appearance of a true Crossover, but who don't accept compromise when adventure calls.

The **500X Cross and Cross Plus** are available with front wheel drive combined with the Traction+ system or 4-wheel drive.

They are characterised by "off-road"-look bumpers with protective shields, specific "off-road" design alloy wheels, satin-chrome finished exterior details and roof rails.

# CLASS and PERSONALITY

o----- 500X POP • POP STAR • LOUNGE

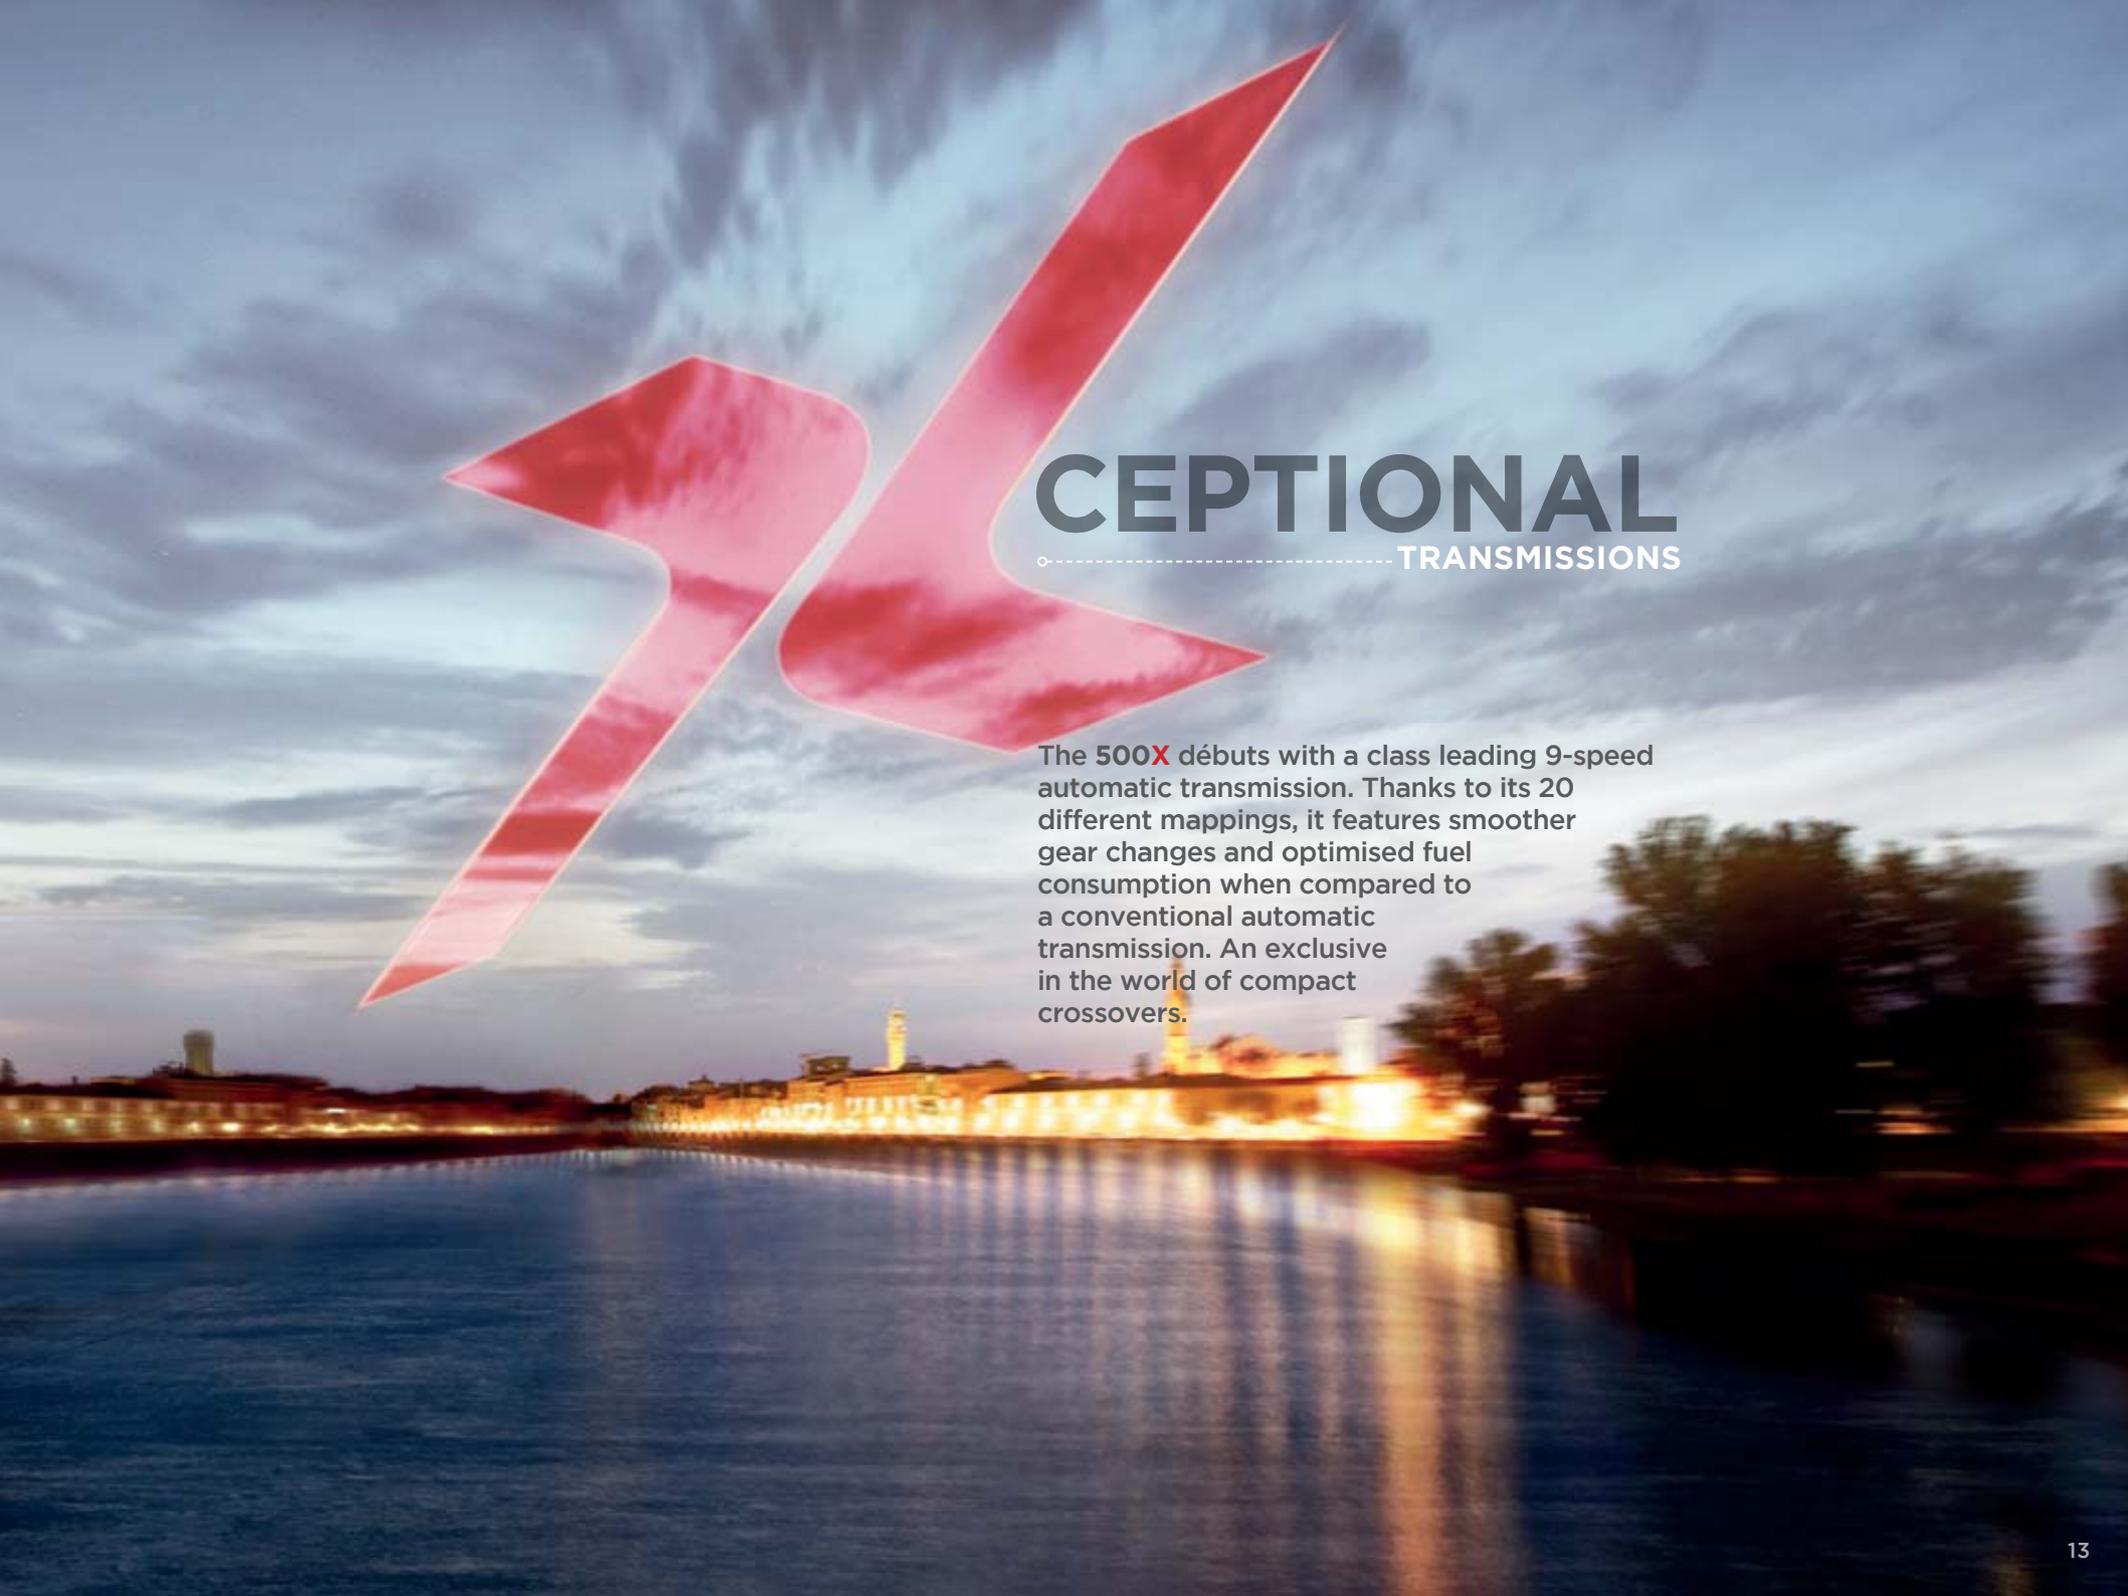

It takes style to get yourself noticed on the city streets.

The versions with a more metropolitan soul do just that, thanks to the styling of the body coloured bumpers and the chrome details that highlight the quality of the **500X**.

# EXCEPTIONAL

TRANSMISSIONS

The **500X** débuts with a class leading 9-speed automatic transmission. Thanks to its 20 different mappings, it features smoother gear changes and optimised fuel consumption when compared to a conventional automatic transmission. An exclusive in the world of compact crossovers.

**The 9-speed automatic transmission** is available in combination with the 2.0 MultiJet II 140 HP engine with 4x4: the superior torque handling and smooth delivery permits outstanding performance and complete comfort, with the exclusivity and safety of four-wheel drive.

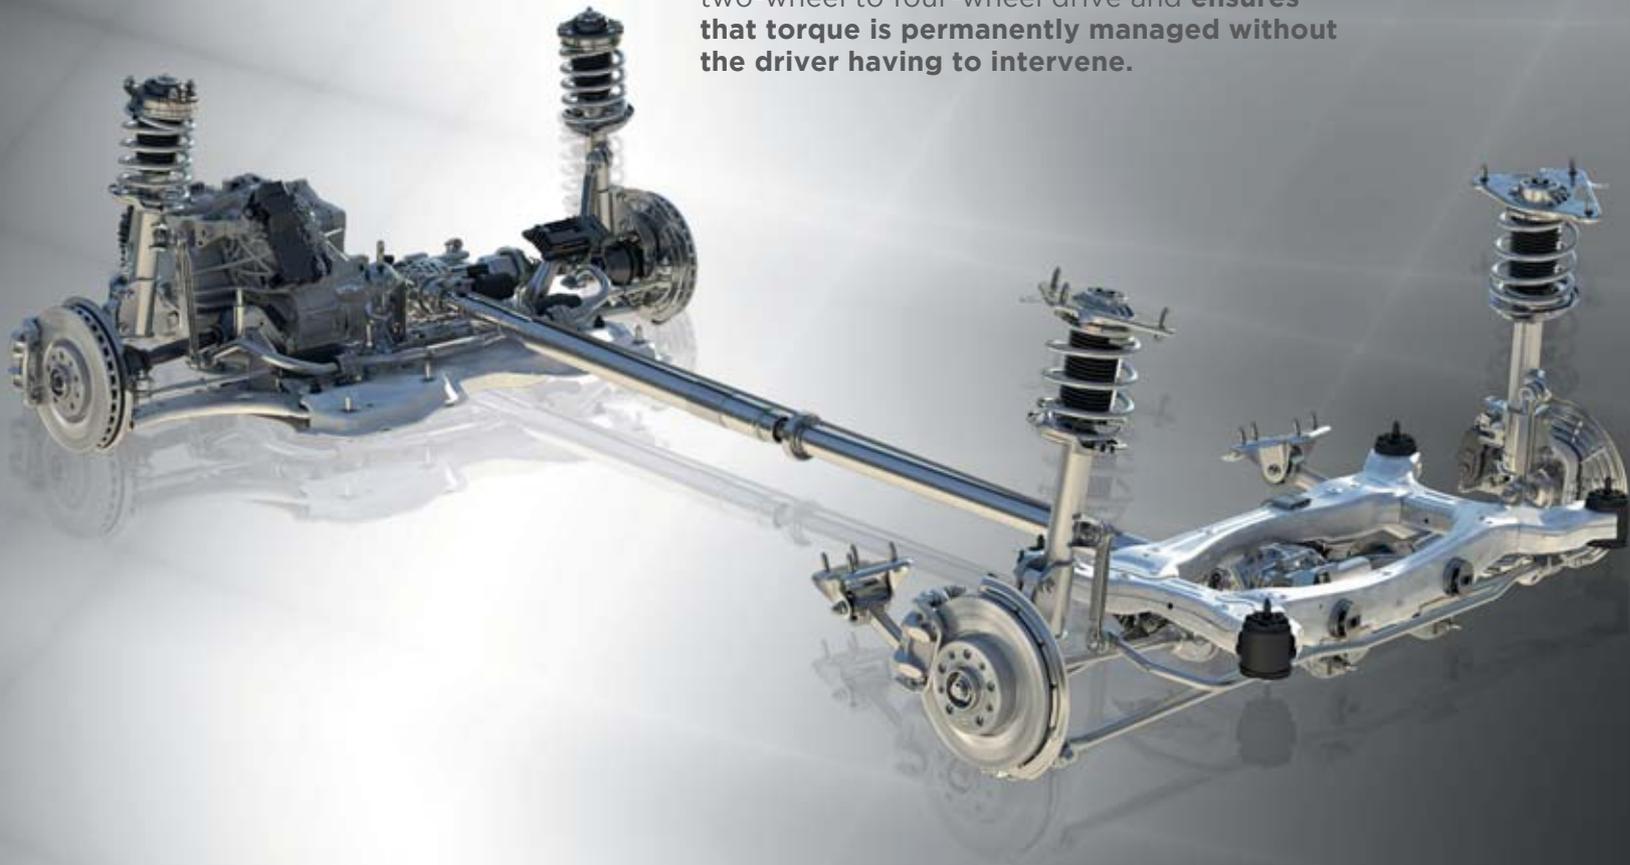

# TREME

DRIVES

The **500X** behaves like a larger crossover, thanks to its superior handling, stability and driving comfort, courtesy of the MacPherson independent rear suspension. What's more, thanks to the availability of three different drive types, 4x2, 4x2 with Traction+ and 4x4, it offers the widest choice in its segment.

## 4x4

A particular feature of the 4x4 on the **500X** is the adoption of a **rear axle disconnection system** that reduces energy wasted by only driving the front wheels when four-wheel drive operation is not required. Rear axle disconnection smoothly switches from two-wheel to four-wheel drive and **ensures that torque is permanently managed without the driver having to intervene.**

## 4x2 TRACTION+

**The Traction+ system**, combined with the 4x2 versions of the Cross and Cross Plus, is an electronic traction control system that uses the braking system to ensure optimal torque distribution between the front wheels, allowing the car to tackle low-grip surfaces.

POP STAR, LOUNGE

Auto

Sport    All-weather

**The Drive Mood Selector** allows the driver to select one of the three available “moods” that optimise driving dynamics, altering the behaviour of the car. It comes as standard on the Pop Star, Lounge, Cross and Cross Plus versions.

The **500X**'s 4x4 system doesn't limit on your thirst for adventure and is perfectly matched with the Cross and Cross Plus versions: thanks to the high ride height, the bumper design which improves the approach and departure angles and the protective shields, these versions are perfectly comfortable both on and off-road.

# CITING ENGINES

The wide engine range of the **500X** offers something for everyone: 1.6 E-torq 110 HP, 1.4 Turbo MultiAir II 140 HP, 1.6 MultiJet II 120 HP with 4x2 and 2.0 MultiJet II 140 HP with 4x4 and 9-speed automatic transmission. All engine versions comply with Euro 6 standards and come as standard with Start&Stop (except the 1.6 E-torq), providing outstanding performance and fuel consumption with limited CO<sub>2</sub> emissions.

	1.6 E-Torq 110 HP*	1.4 MultiAir II 140 HP	1.6 MultiJet II 120 HP	2.0 MultiJet II 140 HP

# TRAORDINARY

..... SAFETY

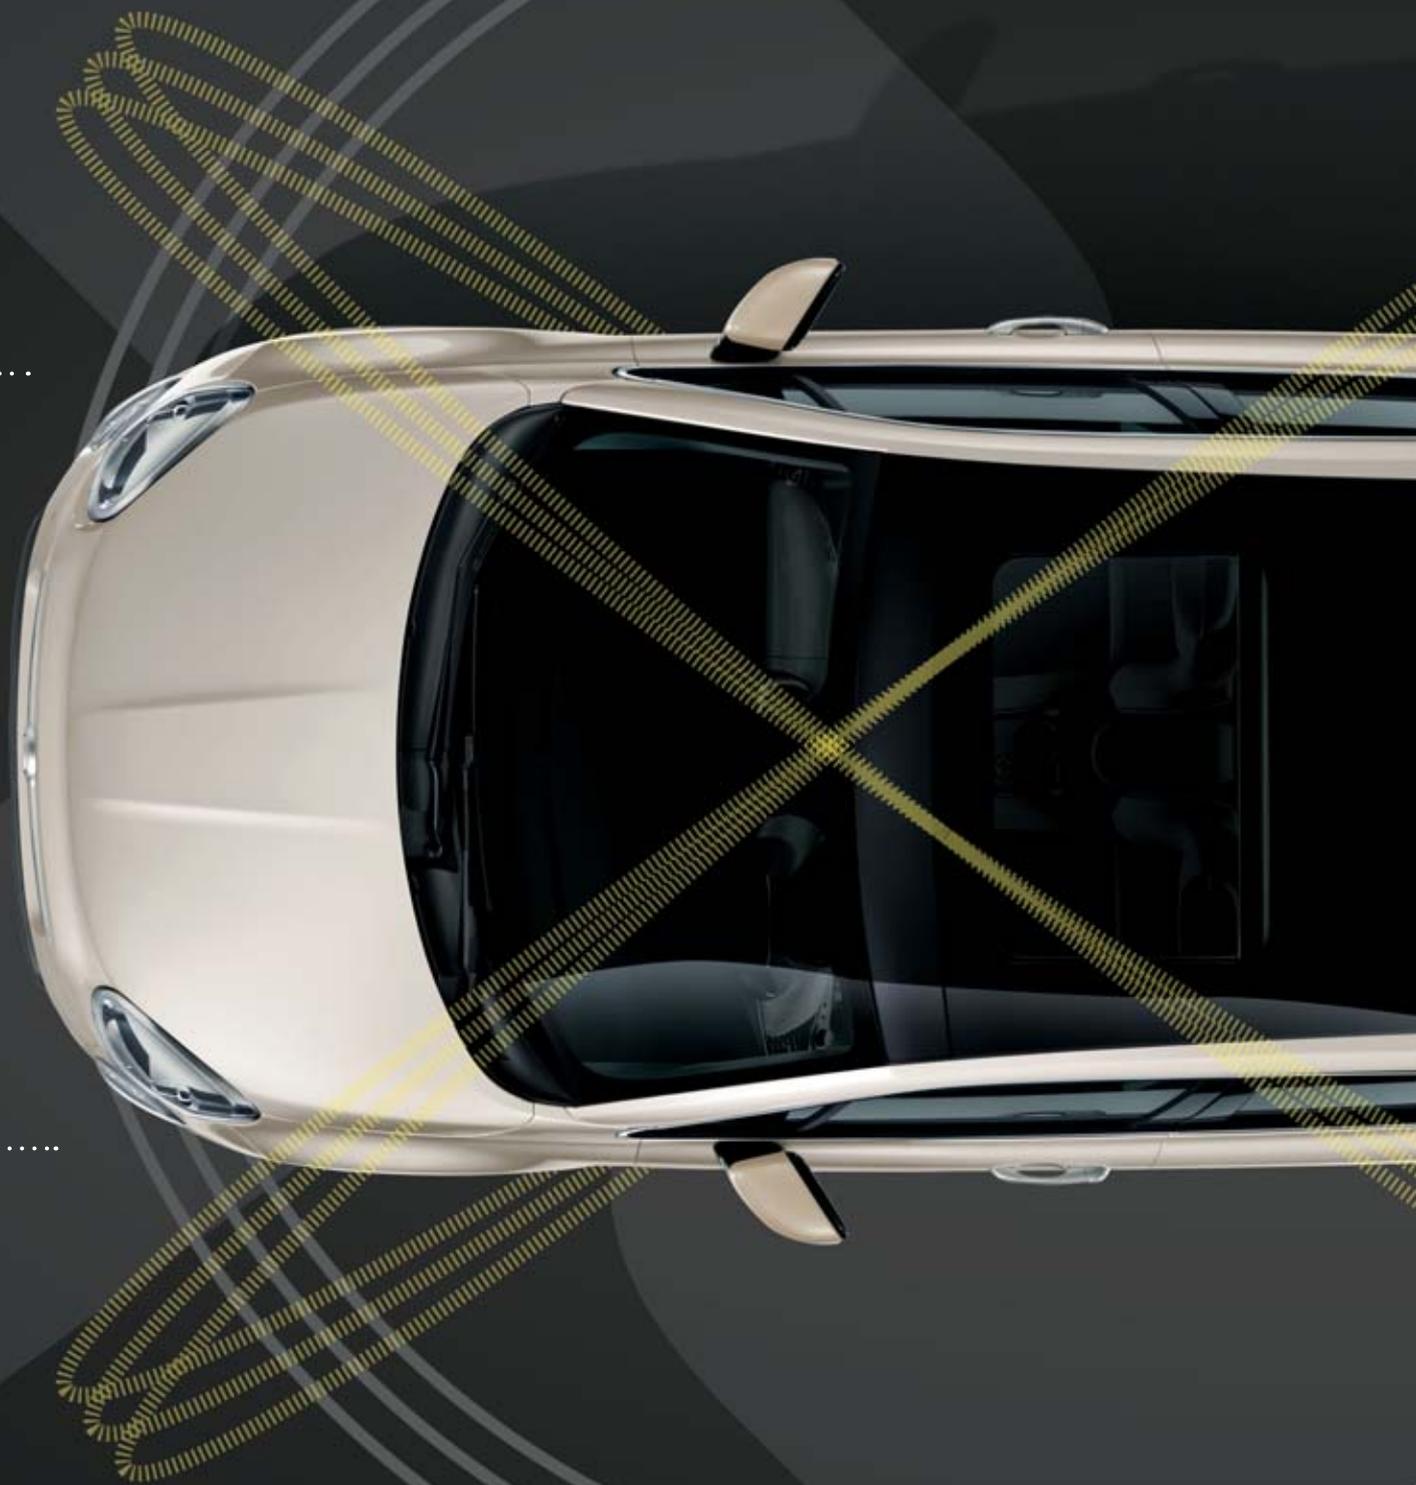

With the **500X** you can enjoy every journey in complete peace of mind thanks to the wealth of safety equipment; which includes, in addition to the 6 airbags and the ESC system fitted as standard, optional active safety systems such as Lane Assist and Blind Spot Detection. Maximum protection, minimum stress for an exceptional driving experience.

BRAKE CONTROL .....

ELECTRIC PARKING BRAKE .....

BLIND SPOT ASSIST .....

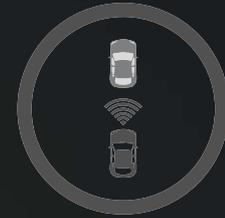

..... LANE ASSIST

..... REAR CAMERA

..... REAR PARKING SENSORS

**Brake Control**

Using radar and video sensors to detect the speed of the vehicle in front in relation to the 500X, the system will advise the driver if they are approaching too fast and therefore there is a risk of collision. Should the driver not intervene, the system automatically activates braking to avoid the impact or mitigate its effects.

**Blind Spot Assist**

Monitors the presence of vehicles in 'blind spots' and advises the driver through a light signal on the dorr mirrors. Includes a function that advises the driver, when reversing, if a vehicle is approaching from the side.

**Lane Assist**

Advises the driver when they change lane involuntarily (without using the indicators). A visual indication on the instrument panel is accompanied by greater resistance of the steering to the change in direction.

# TROVERTED

----- INFOTAINMENT

Sociable and open to the world, the 500X is always connected to the most important social networking sites through the range of Uconnect™ LIVE\* systems.

\* Uconnect™ LIVE systems, where available, require a data enabled smartphone to use.

Uconnect™ Radio Nav 6.5"

On board the **500X** it's easy to enjoy your favourite music wherever you're going with the Beats Audio Hi-Fi system. Thanks to its 9 speakers and amplifier with more than 500 watts of power, it offers clean and high-fidelity audio response at any volume.

# TRA

COMFORT

The **500X** takes care of its passengers with style and the driver is at the centre of all the attention: the dashboard welcomes the driver with a comforting touch and feel, thanks to the quality of the surfaces, finishes and materials, exclusive to the 500X. The seats have been designed to offer optimal comfort: they're wide and welcoming and the sides are embellished with finishes in a refined "prêt-à-porter" material.

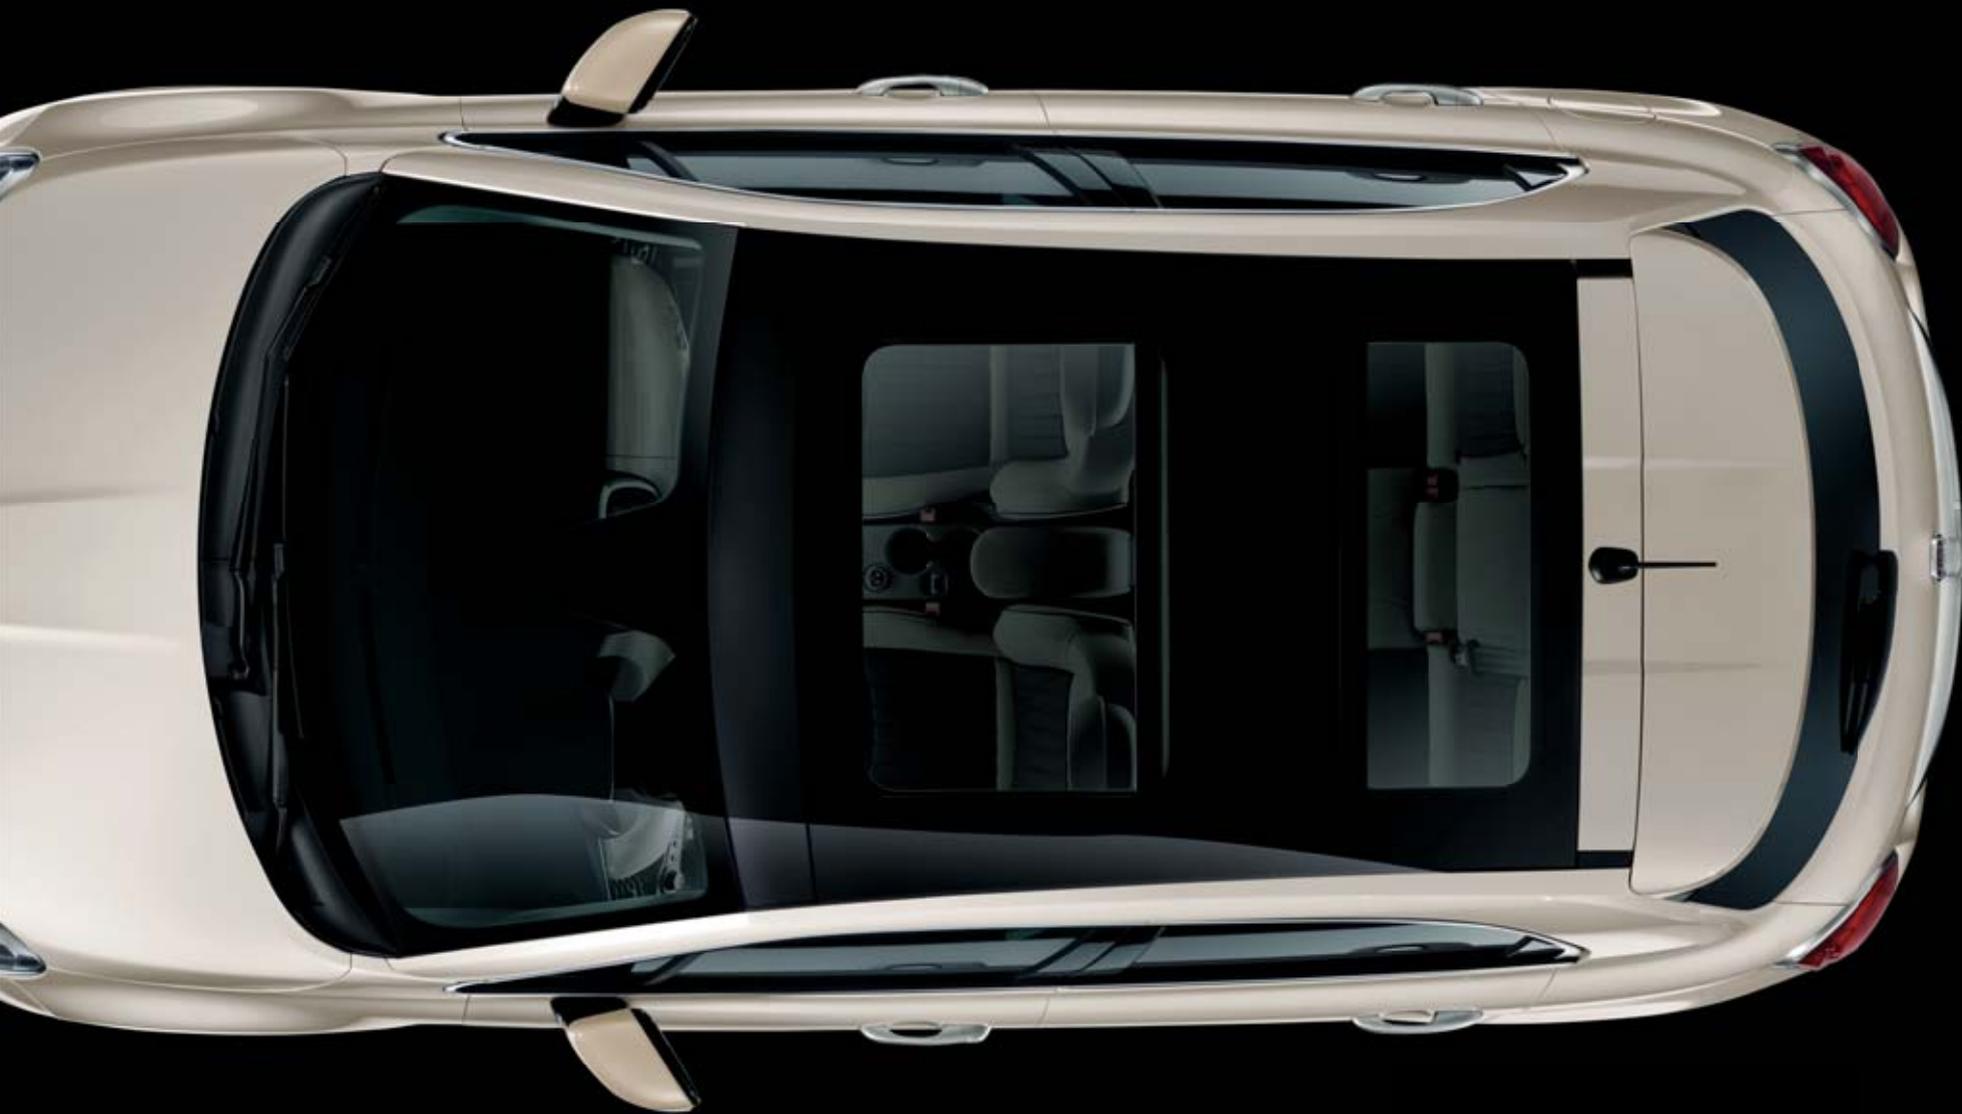

Lounge version with tobacco-coloured perforated leather interior.

Cross Plus version with perforated black leather interior.

Optional electric glass roof

**500X POP - POP STAR**

Interior with structured black fabric and grey technical fabric.

**500X POP STAR**

Interior with structured black/grey fabric and red technical fabric.

**500X LOUNGE**

Electro-welded grey fabric with "prêt-à-porter look"/beige eco-leather inserts.

As an optional extra and only in combination with leather upholstery, front seats with 8-way electrical adjustment are available.

**500X LOUNGE**  
Electro-welded grey fabric with "prêt-à-porter look"/dark brown eco-leather inserts.

**500X CROSS -  
CROSS PLUS**  
Structured grey fabric with three-dimensional knit/black eco-leather inserts.

# CLUSIVE

MOPAR®

Diversity is the only thing that makes us unique. The 500X ensures you can always be yourself with many exclusive accessories and customisations developed by Mopar®. That's why with the 500X it's easy to follow your passions.

## COLORED XTRA PACKS

- Red Xtra pack (mirror covers, mouldings and stickers)
- White Xtra pack (mirror covers, mouldings and stickers)
- Bronze Xtra pack (mirror covers, mouldings and stickers)
- Beige Xtra pack (mirror covers, mouldings and stickers)
- Black Xtra pack (mirror covers and stickers)

**Chrome Xtra pack**  
(mirror covers, fog light surrounds, strip on bonnet, mouldings)

**Many different key covers** to make your Fiat 500X even more personal.

## ORGANISER FOR LUGGAGE COMPARTMENT

## LEISURE XTRA PACKS

### Customisations

For a splash more colour, there are five Xtra packs available (Red, White, Black, Bronze, Beige) comprising mirror covers, door moulding inserts and roof/bonnet stickers which perfectly match the exclusive alloy wheel rims (sold separately). The Chrome Xtra pack is available for those who prefer a sleeker, chromed look.

### Carrying system line

Attractive and functional, the 500X has a wide range of systems for transporting sports equipment for bikes, surfboards, skis and snowboards, as well as lots of accessories designed to make the best use of the luggage compartment with guards, nets and organisers. And, for greater comfort, the 500X offers you two packs dedicated to leisure: Summer and Winter Xtra pack, combining a bike rack or a ski rack respectively with the luggage compartment protection.

### Alloy wheel rims

To transform your car into an exclusive item, MOPAR® has designed a range of 18" alloy wheel rims dedicated to the 500X, available in 5 exclusive finishes.

## ALLOY WHEEL RIMS

# OPTIONAL PACKS

The **500X** is unique, and your chosen 500X has to be unique as well. Thanks to the 8 optional packs, customisation knows no limits: unique content that enhances the exclusivity of the 500X still further. Because exclusivity is not an option.
