Plenty Of Oomph

With 134kW³ of power and 240Nm³ of torque the 1.5L EcoBoost Petrol engine⁴. is the perfect balance of efficiency and performance. And it's smart too. On highway driving when torque demand is low, the Focus can de-activate one cylinder for greater fuel economy.

Drive It Your Way

Dynamic and highly responsive, the Ford Focus' 8-Speed transmission delivers rapid shifting for effortless acceleration. And when you're controlling it all with paddle shifters on the steering wheel, you'll feel a new sense of control.

Rotary e-Shifter

Just a quick twist and you're in gear. Replacing the standard gearstick, all Focus models feature an advanced rotary dial that simplifies the cabin space and creates a more sophisticated interior.

Selectable Drive Modes

Change driving modes to suit your road, or your mood. Choose from Normal, Eco or Sport drive modes and the system will adjust steering feel and gear shift behaviour.

MOVE LIKE YOU MEAN IT

Whether it's the ST-Line Hatch, Wagon or Active the Ford Focus is more than just a small car. It's a dynamic, agile and powerful companion ready to unleash every ambition. Redesigned from the ground up, this sophisticated car was made with one person in mind. You. The All-New Ford Focus is ready to get you moving like you mean it.

Notes

Stay Focused

The Focus' 180-degree split view camera gives you incredible awareness of your surroundings. You'll be able to spot hazards that can't be seen over your shoulder or in the mirrors.

No Strings Attached

No need for cables thanks to the sophisticated Wireless Charging Pad. Charge your compatible device just by placing it on the pad.

Speak Up

It's all in the power of the voice. With Apple CarPlay and Android Auto you'll be able to control music, hear text messages and find your nearest restaurant, all with voice commands¹. Plus, the SYNC[®]3 system allows you to set and clear directions and view traffic conditions.

Pre-Collision Assist with Pedestrian and Cyclist Detection²

The Forward Collision Warning will alert you if it predicts an accident. If you don't react the Autonomous Emergency Braking (AEB) system and Dynamic Brake Support will automatically apply the brakes to help avoid or mitigate a collision.

Adaptive Cruise Control with Stop & Go & Lane Centring

Cruise on the freeway with ease. Adaptive Cruise Control with Stop & Go is designed to not only adjust your cruising speed but can also stop and relaunch the engine if traffic slows to a standstill. What's more, when engaged, Lane Centring is designed to provide active steering assistance, by following road markings, to help keep you centered in your lane.²

Light The Way

The Dynamic LED headlights use camera technology to pre-emptively alter light patterns, helping illuminate corners before you enter them. While the glare-free high beams adjusts automatically to avoid dazzling other drivers.

Listen Up

Not only does the Focus look good, it sounds good too, thanks to the B&O PLAY speakers that perfectly complement the Focus' distinctive styling. With 10 premium speakers including a Subwoofer you can choose between stereo or surround sound to really transform your playlists.
