Along with the latest smart technology every Transit Commercial Vehicle is powerful, capable and intelligent, ready to become your next mobile office.

PEACE OF MIND INSIDE AND OUT

Six Airbags Standard. All Transit Commercial Vehicles feature airbags positioned at the front, on both sides and at the head to enhance protection of the driver and front passengers in the event of an accident.

SAFETY FEATURES

Adaptive Cruise Control¹³.

Set your desired speed and Adaptive Cruise Control adjusts to the flow of traffic, slowing down when it senses a vehicle in front and returning to your pre-set speed once it clears.

Pre Collision Assist with Pedestrian Detection (AEB)¹³.

At speeds over 3.6km/h, Pre-Collision Assist with Pedestrian Detection is designed to detect if the car in front has unexpectedly stopped or a pedestrian steps out onto the road and can automatically apply the brakes if you don't.

Lane Keep Assist with Lane Departure Warning¹³.

By monitoring road markings Lane Keep Assist can detect if you appear to unintentionally move out of your lane. If you do, your steering wheel will vibrate to warn you. If lane departure continues it will also apply steering torque to help direct your vehicle back into the lane.

Reverse Camera & Rear Cross Traffic Alert^{13,14}.

Park with confidence using the Rear View Camera. When reversing Rear Cross Traffic Alert can detect approaching vehicles or other hazards and alert you with visual and audible warnings.

Blind Spot Information System (BLIS)¹³.

If its sensors detect that another vehicle enters your blind spot whilst travelling, the system activates a warning indicator light which appears in the side mirror.

Auto Wipers / Headlights (inc. High Beam)¹³.

Drive with ease with Auto High Beams, which automatically turn high beams on and off depending on light levels and surrounding vehicles. Your Auto Wipers will also turn on automatically in the rain and will adjust their speed according to how heavy the rain is.

Tyre Pressure Monitoring System (TPMS)¹⁵.

Available on Transit Custom Sport models. Never miss a beat with the intelligent Tyre Pressure Monitor that will notify you if one of your tyres is significantly under inflated. The monitor constantly assesses each tyre's pressure and lets you know which ones need air and when.

MyKey™

MyKey™ allows you to program restricted driving mode settings into your keys (like top speeds), encouraging responsible driving in employees that may use the van.

Flexible Cargo Space and Load Area Protection⁵.

Designed to maximise space, convenience and practicality, the Transit Commercial range means business, with up to 3.4m load length⁶ on the Transit Custom and up to 4.2m load length⁷ on the Transit Transit Van. You'll be set for the toughest jobs with a fixed steel bulkhead, sealed load floor, full height hardboard lining and multiple tie-down hooks.

High Roof

Sometimes you just need some extra height. Intelligent design combined with a highly functional load space ensures your Transit has never been more ready to work. With an optional high roof available for Transit Custom and Transit Van, expand your max cargo volume up to 8.3m³ and up to 13.0m³ respectively⁸, so you'll never need to compromise.

Rear Liftgate Door and Dual Side Load Doors⁹.

Smart and sophisticated by design, all Transit vans come standard with barn doors, with the option of a rear liftgate door letting you load and unload even in the rain. And when the clock's ticking, easily access your cargo from both sides with versatile dual side load doors¹⁰.

Impressive Towing Ability

With up to 2,800kg¹¹ maximum towing capacity on Transit Custom and up to 3,500kg¹² max towing capacity on the Transit Van and Cab Chassis models, the Transit Commercial range offers impressive pulling power along with a range of safety and driver assistance features.
