COUPE OR CONVERTIBLE?

IT'S A TOUGH ONE

 BUILD YOUR OWN

There is no wrong answer when choosing between coupe or convertible. Each has its own unique character, yet both offer exhilarating performance, state-of-the-art handling, and the freedom of a driver-focused experience.

VEHICLES SHOWN: F-TYPE R COUPE AND F-TYPE R-DYNAMIC CONVERTIBLE IN SORRENTO YELLOW WITH OPTIONAL FEATURES FITTED

PREPARE FOR GOOSEBUMPS

F-TYPE is Jaguar design in its most beautiful form – lean, elegant and athletic from any angle. It's sleek and imposing, featuring a bold new front grille and a long, muscular clamshell hood with signature power bulge and air vents.

VISIONS OF ELEGANCE

Signature 'J' blade LED Daytime Running Lights give the F-TYPE a striking on-road presence, complementing the car's sleek and sculpted style and asserting its powerful stance. One of the most noticeable features of the headlights is the monogram detailing in the headlight cluster design.

DESIGN

PERFORMANCE

TECHNOLOGY

PRACTICALITY

YOUR F-TYPE

When the engine shuts off, the F-TYPE is far from lifeless. Its new muscular, elongated hood sweeps back over the engine, with a pair of air vents hinting at the power that lies below. Additional fender vents feature the iconic leaper, staying true to our principles of making performance-led design as eye-catching as possible.

DESIGN

PERFORMANCE

TECHNOLOGY

PRACTICALITY

YOUR F-TYPE

There will be certain moments when you can't help but stand back and admire the F-TYPE smooth, streamlined contours. Sitting low on its wide rear haunches, it sweeps elegantly towards the exhausts that sit surrounded in an exquisitely crafted rear valance. This is one silhouette that will leave a lasting impression.

CHARACTER AND BEAUTY FROM EVERY POINT OF VIEW

The red glow of the LED tail light is sufficient to discourage other drivers from getting too near. But on the off chance you get to see this stunning tail light up close, there's something enticing about the sheer beauty and attention to detail of the monogram pattern that is so unmistakably Jaguar.

“LUXURIOUS CRAFTSMANSHIP AND NEW HARMONIZING DETAILS”

“When you get inside a Jaguar, it must excite your senses while standing still. F-TYPE is the most beautiful British sports car - freshened both inside and out. The enhanced interior embraces new digital interaction for performance and focus, complementing F-TYPE’s already tactile and engaging controls. New harmonising details also amplify that sense of occasion, and an emotional connection that our customers will never forget.”

ALISTER WHELAN

INTERIOR DESIGN CREATIVE DIRECTOR

DESIGN

YOUR F-TYPE

LUXURY WHEREVER YOU LOOK

The exclusivity of the crafted F-TYPE, clutter-free interior is matched by only one thing – its comfort. Even the tiniest details intensify the sumptuous feel of the car, with fully adjustable seating adapting to any preference. So when you put F-TYPE through its paces, you're not being put through yours.

VEHICLE SHOWN: F-TYPE R FEATURING TAN WINDSOR LEATHER PERFORMANCE SEATS AND OPTIONAL FEATURES FITTED

Inspired by fighter jet ergonomics, controls are placed where they are intuitively accessible. Instruments are clear and simple. While additional aeronautical inspiration can be found in the joystick-shaped SportShift Selector.

THE JOY IS IN THE DETAILS

Out of the corner of your eye, you'll spot the subtle details that are woven throughout the F-TYPE interior. Little nods to our heritage such as the beautifully scripted glovebox button, and the embossed Jaguar leaper on the Windsor leather Performance seats¹. Turning your head, the sense of luxury is deepened as you study the intricacy. Like a true Jaguar, its markings tell a story.

DESIGN

YOUR F-TYPE

HEART, MEET MOUTH

F-TYPE is powered by the most thrilling of Jaguar's gas engines, all of which feature innovative technologies for better fuel consumption and emissions, without compromising on performance. The base engine is a 2.0 liter Turbocharged, delivering 296HP; then there's a 3.0 liter Supercharged V6 with 380HP of output and finally, at the top of the range, is a 5.0 liter Supercharged V8 with an output of 575HP. The most powerful engine can take you from 0-60mph in a hair-raising 3.5 seconds*.

YOUR F-TYPE

SOUNDS EVERY BIT AS GORGEOUS AS IT LOOKS

The moment you push the engine's Start button on the dashboard, the F-TYPE erupts into life, with the Active Sports Exhaust delivering a satisfyingly sporty growl. You can then decide whether to slip away quietly, or to hit the road more vigorously. If it's the latter, simply press the optional switchable active exhaust button on the center console to open the electronic exhaust valves wider, changing the volume from astonishing to simply breathtaking.

R-branded exhaust tips only available on R.

DESIGN

PERFORMANCE

TECHNOLOGY

PRACTICALITY

YOUR F-TYPE

BE MOVED

BE VERY MOVED

There are three drive modes on an F-TYPE: Sport, Dynamic and Rain, Ice, Snow. Switching to Dynamic Mode stiffens the suspension², turns the exhaust note up and quickens the throttle response*. Rain, Ice, Snow Mode is ideal for harsh weather conditions, curbing the power delivery for greater control. Whichever you choose, one thing's certain - from the minute you get behind the wheel, your driving experience will be totally engrossing**.

DESIGN

PERFORMANCE

TECHNOLOGY

PRACTICALITY

YOUR F-TYPE

IT DOESN'T JUST GO LIKE THE WIND. IT WAS SHAPED BY IT

Slicing through the atmosphere, airflow streams over the F-TYPE in swift, engineered lines. The rear spoiler deploys as your speed climbs*, reducing lift and increasing stability even further.

YOUR F-TYPE

AHEAD OF THE CURVE

An Electronic Active Differential^{2**} transfers torque for optimal grip, so you can take most tight corners effortlessly. While Adaptive Dynamics^{2**} rapidly analyzes steering input, maintaining the stiffness of each damper. Together, they produce a balance of excitement and control. Should you have specific tweaks in mind, the optional Configurable Dynamics^{2**} allows you to personalize several characteristics, including throttle sensitivity, transmission shift points, steering weighting, and damper stiffness. Just another way of making our F-TYPE, your F-TYPE.

DESIGN

YOUR F-TYPE

CHASSIS DYNAMICS

Fig 1. Understeer is kept to an absolute minimum.

Fig 2. Power is sustained to maintain constant speed of outer driven wheels.

Fig 3. Torque Vectoring applies brake pressure to slow the inside front and inside rear wheels independently.

**DYNAMICS THAT TURN
A TRIP INTO AN ADVENTURE**

The familiar rumble of F-TYPE sounds as you downshift into the bend. When turning, the Torque Vectoring by Braking system** is activated, delivering independent braking to each of the wheels to help hold you firmly on course, even during the most difficult of hairpins.

All Wheel Drive builds on the exhilarating characteristics of Rear Wheel Drive, so in normal conditions torque is distributed to the rear wheels, delivering true Jaguar agility. In more challenging environments such as snow, torque can be balanced between front and rear wheels to enhance traction. And with Intelligent Driveline Dynamics**, the F-TYPE torque is distributed to supply extra traction before it is needed. In extreme conditions, torque can be distributed to the front wheels - where it's needed most.

FEEL THE MUSIC WITH MERIDIAN™

Thanks to Meridian⁺⁺ audio systems, you can now enjoy music levels to match your Jaguar vehicle's exhilarating performance.

Meridian's approach to in-car audio is all about managing the sound stage; intensifying the levels of depth, clarity and realism of the music, by using a combination of sophisticated acoustic technology and strategically positioned speakers.

Wherever you sit in the car, you'll get the same concert-quality sound. Each strike of the piano, every guitar pick, horn blast, chorus and melody reveals itself with precision and texture, just as the artist intended. It's intimate, dramatic and atmospheric. And it's the most wonderful feeling.

YOUR F-TYPE

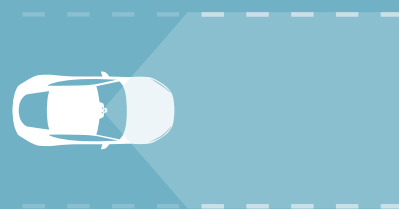

IT'S WAY AHEAD OF YOU

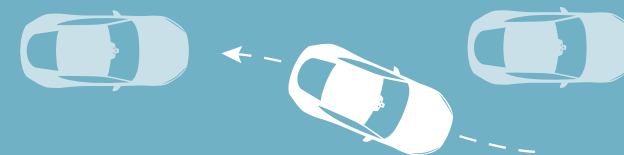

F-TYPE is undeniably a driver's car. So, to help you focus on the sheer pleasure of driving it, we've built in some advanced driver assistance systems that are designed to mitigate the potential for a collision, such as Emergency Braking^{††}. And to help relieve you from the stresses and strains of modern motoring, there are features such as Rear Camera^{**} and Front and Rear Parking Aid^{**}, to make maneuvering about town easier.

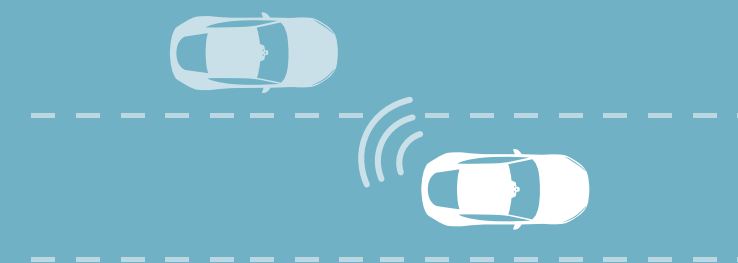

Traffic Sign Recognition^{}** helps to keep you fully informed and aware on the road, by displaying speed limits and no overtaking signs in the instrument cluster where they can easily be seen.

Lane Keep Assist^{}** detects when the vehicle is unintentionally drifting out of the lane, and applies corrective torque to the steering wheel, encouraging you to guide your vehicle back.

Park Assist^{}** (Optional) can help make parking easier by steering your vehicle into and out of a suitable space. After selecting either Drive or Reverse, you only have to control the vehicle's speed and braking. Graphics and notifications will help to guide you through the manoeuvres.

Blind Spot Assist Pack^{}** (Optional⁵) is designed to mitigate the potential for a collision. If another car is in your blind spot when you begin to change lanes, Blind Spot Assist helps to detect the car and applies corrective torque to encourage you to guide your vehicle away from the approaching vehicle. **Rear Traffic Monitor** uses the same system to alert you, via the Touchscreen, of moving vehicles during reversing.
