EXPERIENCE AMAZING

# INTRODUCING THE 2021 LC 500 RANGE

# WHAT FLYING FEELS LIKE.

---

## LC 500

Imagine cruising along the concrete with so much agility that it feels like you're soaring above the road. That's what it's like to drive the 2021 LC 500. With a smooth transition, you can go from 0-100km/h in just 4.7 seconds, revelling in the freedom of an effortless and luxurious driving experience every time you get behind the wheel. And, the thundering engine note only adds to the exhilaration as you shift from driving to gliding.

## LC 500 CONVERTIBLE

Lower the top and raise your heartrate in the first-ever Lexus LC Convertible. With the wind in your hair and your foot on the pedal, you'll be able to experience the incredible exhilaration that comes from driving a convertible with a 5.0-liter V8 engine. The handling is so responsive that you'll forget that you're driving a car. Instead, it will feel like you're accelerating through air, into a space where boundaries don't exist.

Model shown (left) LC 500 (right) LC 500 Convertible.  
South African vehicle specifications may differ.

# THE ART OF FLIGHT

There's an art to creating a car that moves like air. There are thousands of hours of engineering that go into making something that feels so effortless. Everything from the sound of the engine to the shape of the steering wheel have been fine-tuned to create an impression of freedom.

The LC 500 line-up features performance upgrades such as an enhanced Sport S+ mode for greater agility and sharper steering. With one of the most powerful naturally aspirated 5.0-litre V8 engines, it's only natural that every

time you drive, you'll feel like you are gliding, soaring, flying. Changing gears only takes 0.12 seconds using the slick, 10-speed automatic transmission with added paddle shifters. The system also learns your habits every time you drive, selecting the optimum gear based on vehicle speed, acceleration and your driving style – even choosing the ideal gear while cornering, making driving as effortless as it's ever been. In addition, four air intakes and rear aero ducts help reduce lift and drag. That means that even the air itself contributes to the high-speed handling of the car.

## 351 kW

POWER @ 7100 RPM

## 540 Nm

TORQUE @ 4800 RPM

# AN AIR OF ELEGANCE

---

The LC 500 doesn't have to be moving to give off an air of seduction and elegance. The line-up was crafted to capture attention while stirring the senses. The sleek silhouette of both the coupé and the convertible were designed to be easy on the eyes from every angle. With sharp character lines and distinct features, the LC line-up doesn't just stand apart, it raises the expectations of what a luxury car should look like.

Model shown LC 500 Convertible.  
South Africa vehicle specifications may differ.

**A SOPHISTICATED ROOF STYLES**

The LC 500 features a Carbon Fibre Roof while the LC 500 Convertible sports a hydraulic, canvas roof. Whichever one you choose, both cars have chic silhouettes that turn heads.

**B CARBON FIBRE SCUFF PLATE**

The weight of the carbon fibre has been reduced, minimising the overall mass of the car, making it look sleeker, while contrasting gloss and matte finishes add to the vehicle's effortless and elegant nature.

**C BI-LED AUTO HIGH-BEAM SYSTEM**

The intelligent high-beam system offers added illumination so that the full scope of your surroundings is highlighted as you soar along the street. When the road is clear, the system defaults to high-beam mode, then, temporarily switches to low beams when it detects the headlamps or taillamps of vehicles ahead.

**D STAGGERED-WIDTH WHEELS**

The LC 500 and LC 500 Convertible come standard with 21-inch split 10-spoke cast alloy wheels. The staggered width offers greater balance, making driving, even along tricky corners, feel like a breeze. They come in a dark silver tone with a machined finish, capturing attention as you race to new heights.

# EXPERIENCE CLOUD-NINE COMFORT

The LC 500 range epitomises the philosophy of *omotenashi* which represents superior hospitality and comfort in Japan. Every detail of the luxurious, handcrafted interior pleasantly inspires your senses. Meticulously crafted from the finest materials, the modern cockpit envelops you as a driver, making you feel like you're on cloud nine as you race through the air.

The precision-crafted, 3-spoke leather steering wheel was developed by studying the contours of the human hand, measuring the distribution of palm pressure during circuit driving, then manipulating the cross section in order to achieve the ideal grip no matter where your hands are placed. This gives you an air of unparalleled confidence knowing that the LC 500 and the LC 500 Convertible respond to the lightest touch, for maximum control with minimum effort.

Model shown LC 500 Convertible.  
South African vehicle specifications may differ.

**A ATTENTION TO THE LAST DETAIL**

The stitching of the luxurious leather-covered shift lever has been carefully crafted to conceal the thread in the seams, for even more driving comfort.

**B BEAUTIFULLY BLENDED DESIGN**

Organic shapes are beautifully blended with metallic ones throughout the vehicle. The silver door handle is solid but lightweight, considered but simple.

**C 5 DRIVING MODES**

Twist the knob to the right of the steering wheel and experience the thrill of the naturally-aspirated V8 engine. You can select the Eco, Normal, Comfort, Sport or Sport+ mode.

**D MARK LEVINSON® SOUND SYSTEM**

The Lexus LC features a 13-speaker high-resolution Mark Levinson® audio system as well as a DAB phase driver, Miracast, smartphone linking, Apple CarPlay and Android Auto, giving you that cloud nine feeling as you enjoy music that enhances your driving experience.

A **AN OBSESSION WITH QUALITY**

Enjoy high-class finishes on the door panels, centre console and dash pad, leaving you with a lingering impression of luxury.

B **THE COMMAND CENTRE**

The touchpad on the centre console, combined with the steering wheel and dash controls give a cockpit-like feel.

C **EFFORTLESS CONTROL**

The newly designed, small-diameter, 3-spoke heated leather steering wheel is accentuated with dimpled leather to enhance the sporty but luxurious feel.

D **FINISHED TO PERFECTION**

*Takumi* craftsmanship is used to the last detail, incorporated in the carbon fibre components, leatherwork, and hand finishes, creating a luxurious feeling that stays with you long after you've finished driving.

# LC 500

# CONVERTIBLE

CONVERTIBLE

## A 15-SECOND TOP RETRACTION

Expand your worldview in just 15 seconds by retracting the top of your Lexus LC 500 Convertible. With the top down, you can finally understand what true freedom feels like. In fact, our *Takumi* craftsmen were so serious about how you would feel that they tested over 1 000 retraction sequences until they found the one that encapsulates a moment of complete liberation.

## B AIRFLOW MANAGEMENT

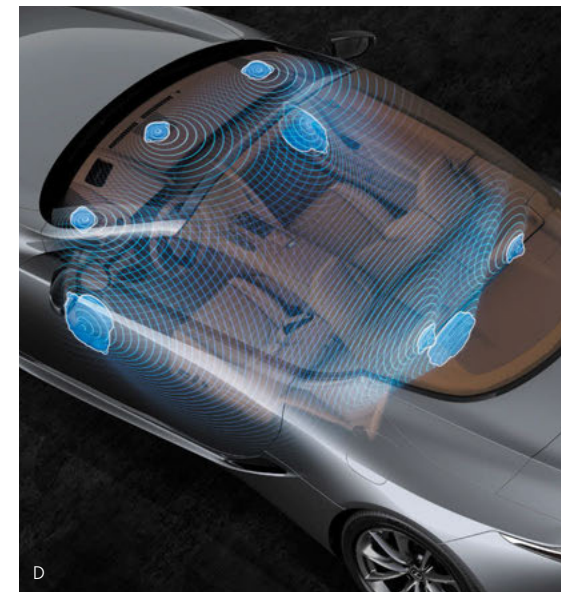

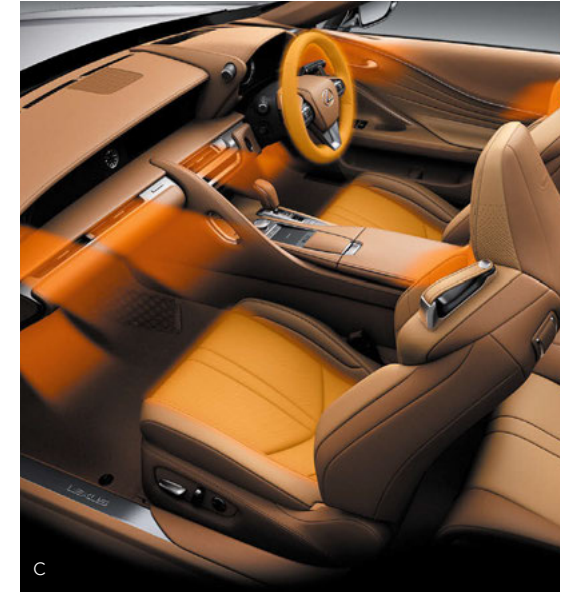

The convertible's uniquely designed wind screen and wind deflector aerodynamically tame the air around you to reduce noise and create a tranquil interior. This means that you can still have effortless conversations, even at higher speeds when the wind is roaring past. With the top retracted, you will experience the true essence of freedom: speed with serenity.

## C ADVANCED CLIMATE CONCIERGE

The advanced Climate Concierge with upper body heating integrates various elements of the heating and air conditioning systems as well as vents to bring you complete comfort regardless of the conditions. Even on cooler days, you can activate your heated steering wheel and seats, giving you the unique experience of feeling the wind in your hair without ever feeling the chill in the air.

## D ENHANCED ACTIVE NOISE CONTROL

Not only does the four-layer top construction minimise road noise, Active Noise Control senses ambient noise within the cabin and counters it. Mark Levinson® and Lexus engineers worked hand in hand to optimise the interior listening environment, crafting a surround sound audio system that adjusts for the additional wind and road noise when the top is retracted.

Images shown for illustrative purposes.

# SOARING SAFELY

Experience the feeling of exhilaration with complete confidence. The Lexus Safety System+ features the most advanced equipment ever seen in the Lexus LC, so you can glide along any road with peace of mind.

The Pre-Crash System is engineered to detect vehicles or pedestrians in the path of your Lexus LC 500 under specific conditions, activating Brake Assist for optimum safety. Lane Departure Alert with Steering Control utilises a camera to monitor visible lane markings and warns if it detects lane departure. The Adaptive High-Speed Cruise Control uses radar and camera technology to help you maintain a preset speed and following distance from the vehicle ahead of you. All of these elements work together to offer supreme safety while you soar through the air.

# LEXUS MAINTENANCE

---

## INTRODUCTION

At Lexus, we take pride in the advanced engineering and craftsmanship of the vehicles we build. For that reason, our Warranty and Distance Plans are designed to provide Lexus owners with seamless vehicle maintenance and complete peace of mind. The Lexus Warranty and Distance Plans both enjoy full support by Lexus SA and offer customers access to specialised servicing, maintenance and repair at any Lexus dealer in South Africa, Namibia and Botswana.

## WARRANTY AND DISTANCE PLANS

To complement its comprehensive Warranty, the LC 500 and LC 500 Convertible feature a Distance Plan Complete that provides for service and maintenance costs. The option to extend the period of cover is available for both the Warranty and Distance Plan Complete. These options can be discussed with your Lexus dealer. To familiarise yourself with the cover provided by Warranty and Distance Plan on the LC 500 and LC 500 Convertible, please consider the information below.

### WARRANTY

- Duration: 7 years or 105 000km from original date of sale.
- Cover: Repair or replacement of components that fail or malfunction as a result of manufacturing or material defect.

### DISTANCE PLAN

The LC 500 and LC 500 Convertible features a Distance Plan Complete that will incept with the vehicle's Warranty.

- Duration: 7 service intervals or up to 105 000km.
- Cover: All servicing as per manufacturer's schedule (at least every 12 months or 15 000km) as well as the replacement of components as a result of normal wear and tear.

Consult with your Lexus dealer for more information on the terms and conditions of the Warranty and Distance Plan Complete offered on the LC 500 and LC 500 Convertible.
