power

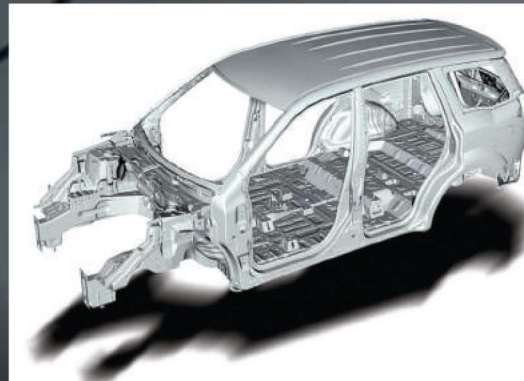

An even more powerful 2.2l mHawk engine provides an impressive output of 103kW @ 4750 r/min and torque of 320Nm @ 2000 to 3000 r/min

+

performance

mHAWK

The monocoque construction provides stability and an excellent power/weight ratio.

safety

The Stylish New XUV500 is fitted with an alarm and electronic immobiliser to ensure it stays with you. It also comes with a passive keyless entry and locking system so you don't have to fumble with your keys in unfriendly places.

Advanced technology ensures your safety, with six airbags - front, thorax and curtain. Side impact beams and crumple zones have been designed to absorb impact and redirect crash energy around the passenger compartment.

Anti-lock Braking System (ABS) with Electronic Brakeforce Distribution (EBD) will bring you safely to a stop in an emergency in the shortest possible without losing control. This is further enhanced with disc brakes on all wheels.

Electronic Stability Program (ESP) with rollover mitigation will keep your wheels on the ground wherever your XUV takes you.
