THE RELIABLE TRUCK WITH THE  
COMPASSION FOR WILDLIFE

PANGOLIN

Katala Foundation Inc.

The BT-50 Pangolin is Mazda's tribute to the Philippine Pangolin, which is endemic to our country and is found in the Palawan region.

Today, the Mazda BT-50's biggest task is to be the reliable mobility partner of Katala Foundation, a Palawan-based NGO working on the conservation of the Philippine pangolin and other threatened wildlife species.

## CHAMPIONING WILDLIFE CONSERVATION

Much like the modest but capable pangolin, the BT-50 Pangolin features design enhancements and new functionalities that ensure long, versatile, and steady service, matching the gentle tenacity of its namesake—the world's most trafficked mammal.

## THE ESSENTIALS MATTER

When you're out and about, there's little time to pause for life's frivolous moments. The Mazda BT-50's straightforward interiors are crafted to superior standards of build quality and durability. Showcasing a cabin that is designed to deliver generous amounts of space sans the added fuss of daintiness, the BT-50 is easy to clean and ready to move on at a moment's notice.

With a pickup as versatile as this, you'll be ready for your next adventure in no time.
