that excites

370Z

EMBRACE the rush. An unmistakable connection between driver and machine. Fire up that 3.7-liter V6 and hear 332 hp sing through dual exhaust pipes. Take it into a turn and feel the dynamically balanced chassis just grip and grip. Revel at the world's first available rev-matching manual transmission. The drive of your life is waiting – because no other sports car can match the legendary Z® for pure **EXHILARATION**.

AT ITS CORE, THE HEART OF A LEGEND.

As long as there has been Z,[®] there has been a soulful 6-cylinder leading the way. In this case, the 4th-generation of the legendary VQ V6 engine. With a 3.7-liter displacement for massive muscle, this 332hp dynamo features advanced Variable Valve Event and Lift (VVEL) technology that continuously tunes valve lift and timing for quicker response and a broader torque curve, while optimizing fuel efficiency and reducing emissions. And while all this engineering may sound intriguing on paper, the exhilaration – on the straights or through the corners – is pure, pulse-pounding magic.

3.7^{LITER} V6 | 332_{HP} | 37.3^{kgm} TORQUE

In a sports car, every detail has to be right. That's why you'll find the main gauges adjust with the steering column, to help make sure you have a clear view. The center console controls are located within easy reach, and are easily identifiable by touch. There's even a uniquely bolstered driver's seat for enhanced support, knee pads on both sides of the console, and anti-slip material on the seat cushion.

MAY THE G-FORCE BE WITH YOU.

Designed to conquer every corner, the Nissan 370Z® starts with a low center of gravity and a short wheelbase for quick response. Structural supports under the hood and along the body reinforce the chassis to handle the loads the suspension can dish out. Bring it all together with an enthusiast's wish list of high-performance componentry, and at every turn of the wheel, find pure joy as the 370Z® elevates handling science into pure performance art.

Vehicle Dynamic Control. A great sports car shouldn't just exhilarate, it should also inspire confidence. Vehicle Dynamic Control¹ (VDC) on the 370Z® continuously monitors the speed of each wheel, steering angle, yaw, lateral G-forces and even braking pressure. It compares the data to the steered vehicle path and, if it senses the onset of plowing (understeer) or fishtailing (oversteer), VDC brakes individual wheels and/or reduces engine power to help keep you on your steered course.¹

Lightweight suspension components. The lighter a suspension's components, the more quickly it can react to the driver and bumps in the road. Use of strong yet lightweight aluminum makes the Z® suspension extremely responsive. Its double-wishbone front and 4-link rear design helps to keep the tires vertical to the ground, maximizing their contact patches. Dual flow pass shocks enhance control. And super-light forged 19" alloy wheels are available for even quicker response.

4-piston brake calipers on 14" front rotors. Balance doesn't just apply to cornering. Available on 370Z® Sport and 370Z® Nismo models are its largest brakes ever – 14" front rotors, with the gripping power of 4-piston front calipers. Purpose-designed ducting helps to reduce fade and provide predictable and precise stopping power.

¹ VDC, which should remain on when driving except when freeing the vehicle from mud or snow, cannot prevent accidents due to abrupt steering, carelessness, or dangerous driving techniques.

STATIC WEIGHT RATIO
53 | **47**
FRONT | REAR

Some consider a static 50/50 balance to be the perfect weight distribution for handling. But Nissan engineers realized that a 53 front/47 rear static ratio is actually ideal. At the precise moment the driver accelerates out of a corner's apex, the weight distribution shifts rearward and becomes an approximate 50/50 balance. This translates into enhanced tire contact for better acceleration, quicker turns and a handling feel that's uniquely Z®.

EVEN THE TECHNOLOGY IS DESIGNED TO PERFORM.

Knowledge is king. The available Nissan Hard Drive Navigation System helps steer you clear of traffic jams, thanks to NavTraffic® real-time traffic advisories.^{1,2} Hungry for more than just directions? NavWeather® service provided by SiriusXM® advises you of severe weather and potentially slippery roads that could affect your drive, as well as National Weather Service warnings and 3-day weather forecasts.^{1,2} And with the available RearView Monitor, shift into “Reverse” and you get a glimpse of what’s directly behind you on the navigation system’s large, 7-inch VGA screen.³

Bose® audio system. Because even the most dedicated enthusiast might want to listen to something other than its spine-tingling dual-exhaust note, the 370Z® Coupe and Roadster feature an available Bose® audio system custom-engineered for the unique shape of the interior.

USB input. Plug your iPod® into the USB input and you can control its functions through the audio system or touch-screen monitor, plus get song readouts on the digital display.⁴ No iPod®? No problem. You can also play digital music files from a USB flash drive.⁴

SiriusXM® Satellite Radio. With 170 channels of news, sports, music, and more, there’s always something worth listening to. If your favorite artist is playing on one of those channels, the 370Z’s audio system alerts you, and asks if you want to switch over.²

Bluetooth®. The Bluetooth® Hands-free Phone System lets you make and receive calls through the audio system. On 370Z® models with the available navigation system, you can even stream music from any compatible device via Bluetooth® wireless technology.^{1,5}

¹Never program while driving. GPS mapping may not be detailed in all areas or reflect current road status. ²Required SiriusXM® Satellite Radio, NavTraffic® and NavWeather® subscriptions sold separately after trial period. Installation costs, one-time activation fee, other fees and taxes will apply. NavTraffic® available in select markets. Services available only to those 18 or older in the 48 contiguous states and D.C. Fees and programming subject to change. Subscriptions governed by Customer Agreement available at siriusxm.com. ©2014 Sirius XM Radio Inc. Sirius®, XM® and all related marks and logos are trademarks of Sirius XM Radio Inc. ³Parking aid/convenience feature. Cannot completely eliminate blind spots. May not detect every object and does not warn of moving objects. Always check surroundings and turn to look behind you before moving vehicle. ⁴Driving is serious business and requires your full attention. If you have to use the connected device while driving, exercise extreme caution at all times so full attention may be given to vehicle operation. ⁵Availability of specific features is dependent upon the phone’s Bluetooth® support. Please refer to your phone Owner’s Manual for details. The Bluetooth® word mark and logos are owned by Bluetooth SIG, Inc., and any use of such marks by Nissan is under license. DESIGNED FOR THE REAL WORLD.

Seats contoured to hold you. The 370Z®'s driver seat shows how seriously we take every detail of driving. The upper seatback has cutaway areas to help your arms move freely for steering and shifting. To let you work the pedals more easily, the lower seat cushions also feature cutaways. Along with aggressive side bolsters, the seat also features anti-slip materials to help hold you in place.

A place for everything. While it's exhilarating to attack your favorite set of curves, a sports car also has to function in day-in, day-out driving. To keep things orderly, the 370Z® features three cup holders, a lockable glove compartment, dash-mounted storage (not available with navigation), parcel shelves behind both seats and a handy parcel box behind the passenger seat.

Coupe cargo area. Plenty of open space for the important things in life – like sports gear. An available retractable cargo cover helps keep things out of sight.

Body-color rear spoiler. (Option spec.)

Cargo and load capacity limited by weight and distribution. Always secure all cargo.

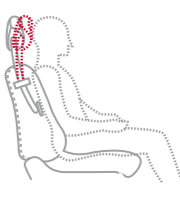

EVEN WHEN REALITY BITES.

High-performance protection. The Nissan Advanced Air Bag System includes dual-stage supplemental front air bags equipped with seat belt sensors and an occupant-classification sensor. These dual-stage air bags adjust their inflation rate, depending on the severity of impact and seat belt use. If the passenger seat is empty, a sensor actually deactivates that air bag. In addition, standard side-impact supplemental air bags are built into the seats, so they move with you as you adjust your seat. Standard curtain side-impact supplemental air bags (door-mounted on Roadster) help protect you and your passenger.¹

6

AIR BAGS¹

¹Air bags are only a supplemental restraint system; always wear your seat belt. Even with the occupant-classification sensor, rear-facing child restraints should not be placed in the front-passenger's seat. All children 12 and under should be properly secured in child restraints, booster seats, or seat belts according to their size. Air bags will only inflate in certain accidents. See your Owner's Manual for more details. Inflated air bags shown for illustration purposes only; actual coverage area may differ. Air bags deflate after deployment.
