NEW X-GEAR

GEARED FOR LIFE

The New X-Gear makes no compromises. With its distinctive shape, rugged style and functionalities, this crossover is perfect for every occasion and activity.

FASHIONED FOR THE COLOURS OF LIFE

Dressed for every occasion in and out of the city, on and off the beach, you name it. The New X-Gear will never leave you out of place. Instead, you'll be the centre of attention, always ready for activities – planned or unplanned.

Roof Rails

Hold up to 25kg in weight.

Stylish Rear Lamps

Freshly designed to enhance the rear profile.

Sleeker Headlamps

Light your path in style for maximum road visibility.

V-Strut Front Grille

Gives dynamism to the exterior.

Body Side Moulding & Overfenders

Accentuate The New X-Gear's rugged form.

Alloy Wheels

To complement the overall style.

PREPPED FOR LIFE'S ACTIVITIES

The New X-Gear's spacious interior is perfect for your activities and more. And with its flexible multi-configuration seat arrangement, you'll have the space to go the extra mile.

Spacious Interior with Flexible Seat Arrangement
That'll give you the flexibility to tackle all kinds of activities.

With seats upright, passengers can enjoy class-leading spaciousness, up to 383 Litres (VDA) of trunk space.

A versatile 60/40 seat folding arrangement allows storage of additional items and gear.

Both rear seats can be folded down to maximise The New X-Gear's remarkable 769 Litres (VDA) of storage capacity.

Fine Vision Meter with Multi-Information Display (MID)
Keeps you updated along your journey with its clean layout.

2-Din Audio System with AUX Input
Opens your drive to a world of personalised rhythm.

Steering Wheel with Audio and MID Controls
Lets you be in total control of The New X-Gear.

7-Litre Glove Box
To store maps, travel books, or accessories.

Convertible Cup Holder
Carries one or two drinks simultaneously.

BREAK THE ROUTINES OF LIFE

Engineered to go as far as you aim in life, The New X-Gear leaves no path unexplored with its responsive HR16DE engine. You'll discover that The New X-Gear becomes a companion that'll last the journey.

Minimum Turning Radius

Unified with an outstanding turning radius, The New X-Gear shines through sharp corners and quick turns.

Electric Power Steering (EPS)

Removes the need to supply engine power to a hydraulic system for better fuel consumption and smoother handling.

Responsive HR16DE Engine

Compact and lightweight, the all-aluminum 4-cylinder engine with Drive-by-Wire technology performs with exceptional fuel consumption.

Advanced Suspension

Excellent ride and handling at cruising speed or winding roads, The New X-Gear feels assured on all roads and conditions.

HELPS THE DRIVER TO MAINTAIN COMFORTABLE DRIVING

Even when a risk has not appeared, Nissan technologies make it easier for the driver to maintain safe driving conditions. Some of these innovations reduce the driver’s burden, while other enhance visibility and awareness of the immediate surroundings at night and when parking, for example:

Complex Surface Reflector
A computer-designed reflector funnels the scattered light downwards to increase road illumination by 50% while reducing glare for oncoming traffic.

Fog Lamps
Provide extra illumination in hazy, foggy, and low-visibility conditions.

LED High Mount Stop Lamp
Other cars will get a clear view of the stop lamp from its high mounted position on The New X-Gear.

NATS Immobilizer (Nissan Anti-Theft System)
This in-built immobilizer utilizes multiple codes to prevent unauthorized deciphering of codes. This added measure of security is incorporated into The New X-Gear.

Anti-Pinch Power Window
Detects the presence of an object in the window's path.

Vehicle Speed Sensitive Intermittent Wiper
Operation varies depending on the vehicle speed when it is on intermittent mode.

Front Seatbelts with Pre-tensioner and Load Limiters
Helps to reduce injury to the body in a frontal crash.

HELPS THE DRIVER TO RECOVER FROM DANGEROUS CONDITIONS TO SAFE DRIVING

When a risk appears, warnings and automatic countermeasures help the driver to avoid it.

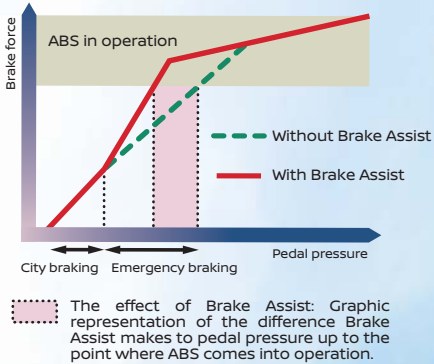

Anti-Lock Braking System
Under slippery or hard braking conditions, control is maintained by the ABS system as the brakes are mechanically pumped at a rate of 20 times per second.

Electronic Brake-Force Distribution
Contributes to safe driving by enhancing braking control to optimise braking performance with different loads.

Brake Assist System
Brake Assist supplies additional stopping power in the case of emergency braking.

HELPS MINIMIZE THE DAMAGE WHEN A COLLISION IS UNAVOIDABLE

In cases where a crash cannot be avoided, additional Nissan technology helps reduce injuries and damages by activating the brakes, restraining passengers, and applying other measures.

Zone Body Construction
The body is divided into two zones: a safety zone that protects passengers via a high strength cabin frame, and crushable zones that safely absorb the impact energy of a crash. The doors are also fitted with guard bars to protect from side impact, keeping all occupants secure during a frontal and side crash.

Dual SRS* Airbags System
Crash zone sensors are placed at the closest point the crush point, behind the front bumper. This improves detection sensitivity in an off-set crash.

Collapsible Steering Wheel
Designed to collapse during a frontal collision, it vastly reduces driver impact.

*Supplemental Restraint System

SAFETY SHIELD
Nissan’s concept of “the vehicle that helps protect people.”

In the area of safety technology, Nissan pursues innovation as part of its “Safety Shield” concept, an advanced, proactive approach to safety issues based on the idea that cars should help protect people. This approach provides various measure to help the driver and passengers better avoid dangers in ways that are optimised to each of a wide range of circumstances that the vehicle may be in, from “risk has not yet appeared” to “post-crash”.

Seeking a symbiosis of people, vehicles and nature.

Nissan's environmental philosophy can be described as “a symbiosis of people, vehicles and nature.” It is our ideal for a sustainable mobile society now and our goal for the future. We established the Nissan Green Program with specific objectives to realise the goal, and we are diligently making concerted efforts to reduce environmental impact at every stage of the vehicle life cycle and our corporate activities.

NISSAN PRODUCT
QUALITY POLICY

To provide each of our customers with a consistently high level of quality, we apply the same high quality standards worldwide -ensuring that all Nissan owners enjoy peace of mind for the lives of their vehicles.

SEAT MATERIAL

Choice of material and immaculate craftsmanship bring extra comfort to driver and passengers.

SPECIFICATIONS

Model			NEW X-GEAR	
Grade			1.6L	
Engine / Transmission			4 A/T	
Engine	Code		HR16DE	
	Type		16-Valve, All-Aluminium 4-Cylinder In-line with Drive-by-Wire Technology	
	Displacement	(cc)	1,598	
	Bore x Stroke	(mm)	78.0 x 83.6	
	Compression Ratio		9.8:1	
	Max. Power	kW (ps)/rpm	77 (105) / 5,200	
	Max. Torque	Nm (kg-m)/rpm	150 (15.3) / 4,400	
	Fuel System		ECCS, electronic fuel injection system	
Fuel Type		Unleaded petrol		
Fuel Tank Capacity		(litres)	52	
Transmission	Type		Electronically controlled 4-speed automatic with lock-up torque converter	
	Gear Ratios	1st	2.861	
		2nd	1.562	
		3rd	1.000	
		4th	0.698	
		Final Drive	4.072	
	Reverse	2.310		
Suspension / Chassis				
Suspension		Front	Independent MacPherson Struts with stabiliser bar	
		Rear	Torsion beam type	
Steering System			Electric Power Steering (EPS)	
Min. Turning Radius (kerb to kerb)		(m)	5.2	
Brake		System	Diagonal Split dual circuit service brake with tandem master cylinder with ABS + EBD + BA	
		Front	Disc	
		Rear	Drum	
Alloy Wheel Size			15" x 5.5JJ	
Tyre Size			185 / 65 R15	
Dimension / Weights				
Tread	Front	(mm)	1,470	
	Rear	(mm)	1,475	
Min. Ground Clearance		(mm)	180	
Kerb Weight		(kg)	1,140	
Seating Capacity		(persons)	5	

- Exterior:**
- V-Strut Front Grille with Smoke Horizontal Panes
 - Headlamps with Complex Surface Reflector
 - Fog Lamps
 - Horizontal Rear Lamp
 - Remote Adjustable Wing Mirrors
 - Front and Rear Bumpers with Silver Sump Guards
 - Body Side Mouldings and Overfenders
 - Roof Rails
 - V-Spoke 15" Alloy Wheels
 - Speed Sensitive Intermittent Front Windscreen Wipers; 1 Speed Intermittent Rear Windscreen Wiper
 - LED High Mount Stop Lamp

- Interior:**
- Fine Vision Meter with Multi-Information Display (MID)
 - Steering Wheel with Audio and MID Controls
 - 2-Din Audio System with AM/FM/CD/MP3 with AUX Input
 - Flexible 2nd Row Seat Arrangements
 - Premium Interior Trim Finishing

- Safety:**
- Dual SRS Airbags System
 - Front Seatbelts with Pre-tensioner and Load Limiters
 - Collapsible Steering Wheel
 - Anti-Lock Braking System (ABS)
 - Electronic Brake-Force Distribution (EBD)
 - Brake Assist System (BA)
 - Electric Power Steering
 - Anti-Pinch Power Window
 - Zone Body Construction
 - NATS Immobilizer
