CLIO R.S. 18 F1

To support the launch of the 2018 Formula 1® season, Renault Sport unveil the special edition CLIO R.S. 18. A future collector's edition specially intended for motorsport enthusiasts, starting with fans of Nico Hülkenberg and Carlos Sainz Jr. And what if you were the next Renault Sport Formula One Team driver?

RENAULT SPORT

Sporty design meets exclusivity

The exclusive styling of the New CLIO R.S. 18's is reflected in the Renault Sport decals added to the door panels and the roof. The blacked out badging and rear diffuser contrasted by the Liquid Yellow details on the side strip, front blade and wheel caps make the overall look even more radical. The doorsills on this special edition model are also uniquely numbered.

A feisty character

Powered by a 1.6L Turbocharged engine, featuring a lowered and stiffened CUP chassis - front suspension featuring hydraulic compression stops, and an exclusive Akrapovic® exhaust system, the New Clio R.S.18 is a purebred sports car, destined to become highly collectible.

F1®-Technology

The engine delivers 162kW at 6,050 rpm and torque of 280Nm is reached from just 2,000 revs. This engine benefits from groundbreaking technology modelled on the DLC (Diamond-like Carbon) pushrods derived from Formula 1®. Its engine verve is complemented by tightly controlled fuel consumption*: 5.9L/100 km. The sporty turbo engine is accentuated by the exclusive coupling with the EDC 6-speed dual-clutch gearbox.

RENAULT SPORT

In yellow and black

Boldly expressing the link between the race track and the road, CLIO R.S.18 bears the same name as the Renault F1® racecar that competes in Grand Prix. It also features the same iconic colour scheme as the Renault Sport Formula One Team car: its Deep Black cloak and an accented Liquid Yellow F1® splitter - a look that exudes performance.

Launch Control

Discover the exhilaration of the most energetic standing start using electronic intelligence to reproduce the efficiency of an experienced racing driver. With paddles at hand, right foot on the accelerator and left foot on the brake, the message, 'Launch Control On' is displayed. As soon as your left foot is raised from the aluminium pedal, the New Clio R.S. 18 explodes off the line, with breathtakingly dynamic gear changes.

R.S. Drive

Pressing this button gives you access to three modes: Normal, Sport and Race. According to the mode, R.S. Drive alters the mapping of the gearbox, ESC behaviour, steering and the sensitivity of the accelerator pedal. Multifaceted and versatile.

Original driving experience

Numbered R.S. door sill, bi-material Alcantara and leather steering wheel, carbon-style design on the air vents: welcome on board your exhilirating CLIO R.S. 18. Why not hop in and head for the open road... or the race track?

When it comes to passion, the New Clio R.S. 18 is unbeatable. Its sporty feel dominates the passenger compartment with exclusive equipment devoted to racing: aluminium pedals, custom dials and paddle shifters.

Onboard features include: 4 Airbags, Power Steering, Climate Control , Auto-on lights and wipers, Renault touchscreen multimedia system with onboard navigation, hands-free card, Hill Start Assist, Cruise control with speed limiter, R.S. Drive (3 modes: Normal, Sport and Race) and the groundbreaking R.S. Monitor.

R.S. Monitor

This is the dedicated telemetry tool that controls and measures your car's performance. Functions include: a lap timer, with memory function; performance data, such as acceleration times; transverse and longitudinal g-force; data for the main engine functions, including oil temperature and brakes plus real-time engine performance data (torque, power etc). As a seasoned driver, you control all the settings of your drive, plus you can save and even share them online with other R.S. drivers.
