SOMETIMES LIFE FORCES YOU
TO TAKE A FEW STEPS BACK.
IT'S UNCONSCIOUS. SEEMS
TO BE THE ONLY OPTION. BUT
IN STEPPING BACKWARDS YOU
CAN DO ONE OF TWO THINGS:
STAY IN THE PAST, LAGGING
BEHIND... OR TAKE ADVANTAGE
OF THE MOMENT, AND SEIZE
THE IMPULSE TO GO FURTHER
THAN EVER BEFORE.

Our global range of cars and product specifications varies from country to country.
Please, visit your local CUPRA website to know more about the product offer available for you.

THE IMPULSE TO FEEL

TIME TO START THINKING
DIFFERENTLY ABOUT WHAT FUELS
US. THERE IS ANOTHER WAY, AND
IT CAN ONLY BE FELT. GIVE IN TO A
NEW WAY OF DRIVING AND A NEW
WAY OF EMBRACING THE THRILL
IN THE ERA OF ELECTRIFICATION.
WITH SWEEPING LINES AND A
DEFYING SPIRIT, A NEW IMPULSE
WILL AWAKEN IN YOU.

Our global range of cars and product specifications varies from country to country.
Please, visit your local CUPRA website to know more about the product offer available for you.

EXTERIOR STYLING

Please, visit your local CUPRA website to know more about the product offer available for you.

A CHALLENGER SPIRIT

THE CUPRA BORN'S EXTERIOR EMBODIES ITS SPIRIT OF AGILITY AND PERFORMANCE. ITS URBAN DESIGN CONVEYS PURE SPORTINESS AND SOPHISTICATION, COMBINING DYNAMIC LINES AND A DARING SHAPE UNIQUE TO A FULLY ELECTRIC VEHICLE. THE IMPULSE FOR A NEW ERA OF ELECTRIC CARS.

↓ A BOLD LOOK

Eye-catching style from every angle. Echoing the sleek lines and character of the model, the rear bumper is shaped to bring out the strength of the CUPRA Born's challenger spirit.

↑ BUILT FOR FEELING

All-round aerodynamic performance. Experience the road like never before with exclusive 20" Blizzard Aero wheels with Glossy Black and Copper finishes that evoke a sporty personality.

Our global range of cars and product specifications varies from country to country. Please, visit your local CUPRA website to know more about the product offer available for you.

↑ *ILLUMINATION
THAT THRILLS*

The coast-to-coast rear light highlights the CUPRA Born's signature exterior with LED technology and impressive display when approaching the vehicle.

↑ *A SHOW
IN ITSELF*

A bright show upon unlocking, providing dynamic style, as well as a warm welcome.

→ *DISTINGUISHED
APPEAL*

The CUPRA logo illuminates the ground when unlocking the vehicle, marking your place in the CUPRA Tribe.

Our global range of cars and product specifications varies from country to country.
Please, visit your local CUPRA website to know more about the product offer available for you.

INTERIOR STYLING

Steering wheel with satellites will be available from 2022.

Please, visit your local CUPRA website to know more about the product offer available for you.

SOPHISTICATED STYLE

STEP INTO THE CUPRA BORN AND EXPERIENCE SOMETHING TANGIBLE. THE CABIN FEATURES A DISTINCTIVE CHARACTER, INTELLIGENTLY MAXIMISING EVERY SPACE. THE INTERIOR ALSO HIGHLIGHTS OUR DEDICATION TO SUSTAINABILITY, MAKING USE OF RECYCLED MATERIALS IN A PROGRESSIVE DESIGN.

↑ LOOKING AHEAD

Intuitive digitalisation at its core. The CUPRA Born houses a 12" floating touchscreen. And the 5,3" Digital Cockpit displays only clear, relevant information along with the gearshift buttons and parking brake.

← RACE-INSPIRED

Seating with a contemporary edge. The CUPRA Born's Bucket Seats are crafted in collaboration with SEAQUAL® YARN and use high-quality, recycled materials that deliver sportive comfort unconventionally found in an electric vehicle.

Our global range of cars and product specifications varies from country to country. Please, visit your local CUPRA website to know more about the product offer available for you.

THE IMPULSE TO INSPIRE

POWER IS THE DRIVING FORCE
THAT AWAKENS US ALL. IT'S THAT
SINGLE MOMENT WHERE WE FEEL
LIMITLESS CONTROL. AN INSTANT
THAT LIVES ON LONGER THAN THE
RIDE ITSELF. AN EMOTION THAT
INSPIRES A NEW ERA.

Our global range of cars and product specifications varies from country to country.
Please, visit your local CUPRA website to know more about the product offer available for you.

THE ULTIMATE IN URBAN
ELECTRIC MOBILITY

Maximum torque meets instant acceleration with CUPRA's first 100% electric vehicle. Our fully electric engines are designed to make you feel a dynamic performance from the start.

- CUPRA Born 45: 150 HP (110 kW), 8.9 sec, 349 km.
- CUPRA Born 58: 204 HP (150 kW), 7.3 sec, 427 km.

• *UNLEASHED CONTROL*

An exhilarating driving experience. The CUPRA Born adjusts suspension to smoothly adapt to every bump and curve.

• *AN ELECTRIFYING EXPERIENCE*

The e-Sound system, specially customised by CUPRA, delivers signature character and emotion, emitting an exterior sound that lets pedestrians know you're around.

• *A CAR WITH A BIG SPIRIT*

An exhilarating CUPRA driving experience. This performance pack incorporates wider tyres with 20" Alloy wheels and DCC for a broader design and a remarkable grip.

Our global range of cars and product specifications varies from country to country. Please, visit your local CUPRA website to know more about the product offer available for you.

THE IMPULSE TO GO FURTHER

ONLY ONE IDEA IS NEEDED TO
SPARK INNOVATION. EMBRACE THE
CHALLENGE THAT MOVES US CLOSER
TOWARDS ANOTHER WAY OF DRIVING
ELECTRIC. TOWARDS THAT IMPULSE
THAT LIVES IN EACH ONE OF US.

CHARGING YOUR CUPRA BORN

AT HOME OR ON THE ROAD, YOU'LL FIND SIMPLE CHARGING SOLUTIONS TO GET YOU WHERE YOU'RE GOING EVERY TIME.

HOME CHARGING

Have your wallbox charger installed at home or work and enjoy powering up at your convenience. Rest assured knowing our chargers adhere to strict safety regulations that prevent electrical overload even during a power cut. There are three compact charging solutions to choose from.

- *CUPRA CHARGER*
The best Plug & Play solution to charge safely, easily and quickly. Available in 1-phase and 3-phase versions for up to 11 kW AC*.

- *CUPRA CHARGER CONNECT*
Connects via wifi to your home and company network for remote manageability. Letting you check updates & data via your smartphone. Unlockable with an RFID authentication card.
- *CUPRA CHARGER PRO*
All the benefits of the CUPRA Charger Connect adding LTE connectivity when a WIFI network is not available & a certified MID electric meter. Also allows you to monitor consumption for further control over car usage.

* Charging times vary in relation to the following factors: external temperature, battery temperature, maximum voltage of your charger system and condition of charger and battery.

PUBLIC CHARGING

It is now easier than ever to switch to electric. Each year, the number of public charging points increases exponentially. As electric-car infrastructure develops, more and more charging points are being installed near hotels, restaurants, and shopping centres, giving you utmost convenience no matter where you're headed.

CUPRA EASY CHARGING APP

One streamlined app to make charging at home or in public hassle-free. The CUPRA Easy Charging App allows you to remotely control your charge at home or at work. When you're on the road, the app gives you access to the nearest charging points from your phone, and helps you navigate there via the best route. You can even use the app to filter charging points by plug type, availability or charging performance, allowing a swift and flexible charging experience wherever you are.

Our global range of cars and product specifications varies from country to country. Please, visit your local CUPRA website to know more about the product offer available for you.

AN INSTANT
CONNECTION

TAP INTO A HIGHER LEVEL OF VEHICLE INTELLIGENCE BY ACTIVATING CUPRA CONNECT ONLINE SERVICES AND ENJOYING REMOTE VEHICLE CONTROL, AS WELL AS ACCESS TO ONLINE MUSIC AND NAVIGATION.

↑ AN UNBREAKABLE
BOND

The ultimate in connectivity. Featuring the newly developed My CUPRA App* that enables you to plan ahead with remote functionalities like setting the temperature or charging percentage right from your smartphone.

*The My CUPRA App will be available soon and some functionalities will be available at a further time.

Our global range of cars and product specifications varies from country to country. Please, visit your local CUPRA website to know more about the product offer available for you.

↑ THERE FOR YOU,
NIGHT AND DAY

Utmost safety and comfort. The eCall service is integrated to directly connect with emergency services in the case of an accident, using both a telephone and data link.

↘ TOGETHER AS ONE

Central integration that never interrupts your driving experience or distracts you from the road. The intuitive 12" Infotainment screen is an ideal mix of touchscreen inputs and touch sensitive buttons. The Navi system allows you to search for charging stations and opening hours, access online navigation and browse over 10,000 radio stations and podcasts.

A PROGRESSIVE
DRIVING EXPERIENCE

THE CUPRA BORN TAKES YOU FURTHER WITH INTUITIVE AND FUTURE-POWERED SOLUTIONS. EVERY FEATURE IS DESIGNED AND ENGINEERED TO ENSURE YOUR UTMOST COMFORT, SAFETY AND CONVENIENCE, EMBARKING YOU ON A NEW ROAD TOWARDS SEAMLESS DRIVEABILITY.

Our global range of cars and product specifications varies from country to country. Please, visit your local CUPRA website to know more about the product offer available for you.

- *A NEW ERA FOR PERFORMANCE*
Enjoy an immersive driving experience with state-of-the-art technology. The AR-HUD (Augmented Reality Head-up Display) overlays driving directions and warnings directly onto the windscreen.

*Some augmented reality HUD functionalities will be available from 2022.

- *SIT BACK AND PARK*
Intelligent Park Assist lets you comfortably relax in your seat as it parks your car for you by automatically carrying out optimum steering movements when entering and exiting a parking space.

- *NO MORE BLIND SPOTS*
Guiding you right into your parking spot. Enjoy 360° visibility around your car with the help of four cameras, the 12" Infotainment screen, as well as the front, rear and exterior mirrors that all work together to give you a clearer view of your surroundings.

- *ONE STEP AHEAD*
Innovative vehicle networking. Intelligent CAR2X technology has the capability to wirelessly connect with other cars to share information like road works or other traffic updates. By constantly analysing traffic solutions, this functionality finds the fastest and safest route for you each time.

→ *ALWAYS
AWARE*

Before opening your door to get out, Exit Assist gives off a visual and acoustic warning when there is approaching traffic. This technology is especially helpful to alert you of upcoming cyclists or motorcyclists, whose approach is usually less noticeable.

→ *ALWAYS BY
YOUR SIDE*

Constantly monitoring driving conditions. Turning Assist and Evasive Steering Assist features provide alerts or correct your path to avoid potential collisions when turning or steering may be necessary.

← *READY FOR
ANYTHING*

In the event of a collision, Pre-Crash Assist uses advanced sensors to brace the vehicle by tightening seatbelts, closing windows and deploying airbags if necessary.

← *BEHIND YOU
ALL THE WAY*

There when you need it. Rear Traffic Alert helps to detect approaching vehicles when backing out of driveways or parking spaces, engaging an auditory warning to begin with, or automatically braking if necessary.

↑ POWER AT YOUR FEET

Maintain sturdy control. Sleek Dark Aluminium pedals are built to last, giving you endless performance along with all the grip you need.

↓ NOT EVEN THE SMALLEST WORRY

The practical semirigid boot tray makes sure to keep dirt and moisture off and comes in two versions for normal or deeper trunks. With the use of the boot tray, the double floor in the deeper trunk allows you to switch dimensions and store objects with double the height in your boot.

Our global range of cars and product specifications varies from country to country. Please, visit your local CUPRA website to know more about the product offer available for you.

CUPRA BORN

↗ DOWN TO THE DETAIL

Keep your interior looking newer for longer. Choose between premium floor mats in Black or Petrol Blue or durable rubber floor mats, and preserve your CUPRA Born's effortless style.

↓ PROTECTION ALL THE WAY

Safety wherever you go. These specially designed front and rear mudflaps catch dirt, debris, mud or stones that may fly up from the road onto the underside or body of your car.

ENVIRONMENTAL INFORMATION

CARBON NEUTRAL

The CUPRA Born is the first model to be delivered to customers net CO₂-neutral. This concept involves offsetting the CO₂ emissions generated during the manufacturing process and the vehicle logistics until it is delivered to the customer.

LIGHTS

Incorporating Eco LED headlamps with light guides allows for a low power consumption in low beam, high beam and fog lights, increasing the headlamps' useful life with respect to halogen headlamps.

The headlamps housing is made with at least 50% recycled material.

BATTERIES

The aluminium casing contributes to making the vehicle lighter.

AERODYNAMICS

Improved and enhanced vehicle aerodynamics, thanks to optimised design throughout the bodywork, wheels and cooling system.

ACOUSTICS

The acoustic package has been adapted to ensure compliance with the sound and comfort expected of a 100% electric vehicle.

TYRES

Tyres with the lowest rolling resistance on the market.

BRAKES

Brake regeneration permits an increase in battery range because the electric motor acts as a generator when braking. It also reduces particle emissions.

BODYWORK

By using aluminium in the body structure we reduce the weight of the vehicle.

SEATS

The use of new PUR foam formulations reduces the emission of volatile organic compounds (VOCs) in the cabin interior by up to 50%.

RECYCLED MATERIALS

SEAQUAL® recycled textile material is used in the seats, partially coming from plastic collected from the sea.

DINAMICA® recycled microfibres are used on seats, armrests, and door panels. Recycled polyester produces up to 80% less energy use and CO₂ emissions in its manufacturing.

Move to ZERO, CUPRA's environmental mission
Climate Change. Resources. Air Quality. Environmental compliance.

Our global range of cars and product specifications varies from country to country.
Please, visit your local CUPRA website to know more about the product offer available for you.

ENVIRONMENTAL INFORMATION

ECOLOGICAL DRIVING

ECO-Assist: The PEA (Predictive Efficiency Assist) function seeks out the most efficient way to reach your destination when there are no driving assistance systems activated (without adaptive cruise control, ACC, or speed control system, GRA). Based on the predictive data provided by the navigational system (slope of the road, information on intersections/roundabouts, etc.), the engine control unit calculates and lets the driver know when they can lift their foot from the accelerator, thus driving in the most efficient way possible.

CUPRA Drive Profile: This allows the customer to choose between different driving profiles that will change the vehicle's behaviour. One of these profiles is the RANGE, which, among other actions, adjusts the climate control and changes the propulsion parameters to reduce energy consumption.

Our global range of cars and product specifications varies from country to country. Please, visit your local CUPRA website to know more about the product offer available for you.

TECHNICAL SPECIFICATIONS

Discover all the technical specifications by engine type, from emissions and consumption data; to performance statistics and transmission types.

Here you'll find all the technical aspects covered so you can make an informed selection when it comes to your CUPRA Born.

The values mentioned are the result of the type approval of the selected model, in accordance with Regulation CE 2018/858. The available power (kW) and acceleration of the model depends on the state of charge of the battery and its temperature.

The accurate range for your vehicle will vary according to a number of different factors which include the route, weather conditions, vehicle load (occupants + luggage), battery age and condition, optional equipment (alloys, tyres, etc.), the use of peripheral energy consumption systems such as heating, air conditioning and heated seats, as well as your driving style. The indicated range has been calculated in compliance with the WLTP regulation which sets out standard test conditions applicable to all car manufacturers. This ensures that the values calculated in accordance with this regulation are comparable for all vehicles.

Our global range of cars and product specifications varies from country to country. Please, visit your local CUPRA website to know more about the product offer available for you.
