

Yaris

TOYOTA

OH WHAT A FEELING

You'll feel it with every drive. In every twist and every turn. It's our unwavering commitment to move you, not only today, but well into tomorrow as we relentlessly re-imagine the future of mobility.

With our eyes on the horizon, we're committed to creating a future where all of humankind is empowered with the freedom to move.

Go boldly into the future

... ..

Now completely redesigned throughout, Yaris advances the everyday capabilities of compact mobility. As exciting to drive as it is to admire, the bold styling is based upon the progressive Toyota New Global Architecture (TNGA) platform to help ensure greater body rigidity, as well as eye-catching individuality, including high-contrast two-tone colour combinations for Yaris ZR. Plus, in a significant first for a vehicle of this size, you can also choose to power your Yaris SX or ZR with the efficiency of the next generation Toyota Hybrid System.

The Hybrid System

Four Key Benefits

Toyota Hybrid's latest technology gets you moving powerfully and smoothly every time. Enjoy an uncompromising drive with responsive, dynamic performance.

Further

You don't have to plug in a Toyota Hybrid – the battery charges as you drive, using the engine or energy captured when decelerating or braking. So you can be confident a Toyota Hybrid will take you further for less.

Quiet

The quieter and calmer experience in a Toyota Hybrid is proven to deliver one of the most satisfying and enjoyable drives on the road, with no compromise on vehicle responsiveness.

Reliable

Toyota's Hybrid System offers the reliability and quality you can always expect from Toyota. Tested and trusted for over 23 years – so no matter where you go, you'll have peace of mind in every drive.

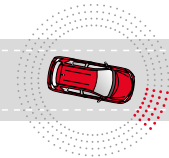

Powerful

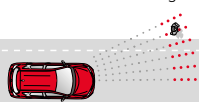

Experience an uncompromising drive in a Toyota Hybrid with responsive, dynamic performance. You get impressive off-the-line torque that gets you moving powerfully and smoothly every time.

Toyota Safety Sense

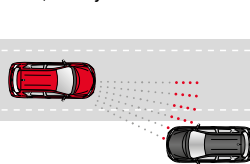

Toyota believe in not just saying "safety comes first" – it's something we actively build into our vehicles and the reason behind our development of Toyota Safety Sense¹ (TSS). TSS is a suite of safety features that help support safe driving, assisting to protect you and your passengers. Yaris has the latest TSS driver assist technologies; features and innovations that are aimed at recognising and helping to avoid certain hazards and collisions, for added peace of mind. For more details on TSS specifications and how they apply to a range of our vehicles, visit toyota.com.au

Born to perform

One look and you know Yaris is ready for action. Its free flowing shape, compact design and low centre of gravity help ensure a truly enjoyable driving experience. More than good looking, every Yaris is also packed with the latest technology and advanced safety features.

The bold exterior lines are also complemented by equally impressive engine performance.

The 1.5 litre 3 cylinder VVT-i petrol engine (model pictured) features the latest technology to achieve outstanding fuel efficiency and produce 88Kw of power and 145Nm of torque.

In a first for its class, Yaris SX and ZR grades are also available with the next generation Toyota Hybrid System that offers exceptional fuel efficiency along with a choice of hybrid driving modes.

Smart space to move

The dynamic Yaris interior provides an instantly welcoming yet sporty atmosphere to help bring the joy of driving to life. Everything is designed to create a more spacious, intuitive and contemporary space, including ergonomically designed controls and a Head-Up Display fitted as standard on Yaris ZR.

The 7" touchscreen display features Apple CarPlay^{®2} and Android Auto^{™,3} for seamless connectivity including access to Siri^{®4} Eyes Free and Google Now^{™,5} voice commands with compatible smartphones. It also includes the latest Toyota AM/FM/Digital Radio⁶ (DAB+), with 6 speakers, Bluetooth^{®7} connectivity, enhanced voice recognition and access to the myToyota[®] app to connect with your smartphone.

Plus you'll find a convenient USB[®] port and 12V DC power supply in the central panel.
