The Tiguan.

9528

GET YOUR PERSONAL STYLE

Versatility. And that's just for starters. The Tiguan offers an impressive combination of turbocharged performance, tech-savvy amenities, and available all-wheel drive that delivers on the promise of everyday adventures. Not only does it achieve a level of fun and sophistication, but it looks great doing it too. Some of our most versatile thinking, all under one roof.

Performance. We wanted to create a capable SUV that still gave drivers an exhilarating on-road experience. That's why we gave the Tiguan a choice of either a 150 Ps/250 Nm Petrol or 143 Ps/340 Nm Diesel engine matched with DSG Transmission, all of which help increase agility and handling so you can tackle a variety of road conditions and enjoy adventures with more confidence. It makes the fun-to-drive part come easily.

Versatility. It's chock full of utility. And packs a sporty punch. The new Tiguan is built to handle whatever comes its way. Bring it on. Then bring it on again.

Design. Sure, the new Tiguan is thoughtful and practical, like an SUV should be. It's also a beautifully designed vehicle that injects a sense of fun and playfulness into the category.

The Tiguan. A new world at your fingertips.

Yes, it does look good. But the new Tiguan has more to offer: highlights which help to speed you through everyday life.

2.0 TDI Engine. This turbocharged engine delivers 143 Ps and 340 Nm of torque. It's plenty of power to go far and wide, and have fun doing it.

1.4 TSI Engine. It's lighter and fuel efficient – and turbocharged, so it doesn't sacrifice performance. As if you're getting two engines in one.

DSG Transmission. Combining the convenience of an automatic and the fuel-efficiency of a manual, the DSG gearbox gives you more power with every gear.

Start/Stop Function. Momentarily switches off the engine when the vehicle comes to a standstill. The engine only runs when it is actually needed. This further increases fuel efficiency.
(only available for 1.4 TSI DSG Comfortline)

3-zone Climatronic airconditioning system with allergen filter. The 3-zone Climatronic automatically ensures clean air and healthy air conditioning in the vehicle's cabin. An air quality sensor and an anti-allergenic filter keep the air quality at a consistently high level and reduce the intrusion of unpleasant substances, including fungal spores and allergens.

Tech Specs

Engine	2.0 TDI DSG Highline	1.4 TSI DSG Comfortline
Engine Type	4-cylinder, In-line, Common Rail Turbo Direct Injection Diesel Engine	4-cylinder, In-line, Turbo Fuel-injected Gasoline Engine with BlueMotion Technology
Displacement	1,968 cc (2.0L)	1,395 cc (1.4L)
Max. Output, kW (Ps) at rpm	105 kW (143 Ps) at 3,250-4,000 rpm	110 kW (150 Ps) at 5,000 rpm
Max. Torque, lb-ft (Nm) at rpm	236 lb-ft (340 Nm) at 1,750 -2,750 rpm	185 lb-ft (250 Nm) at 3,500 rpm
0-100 km/h	9.5 secs	9.2 secs

We can't predict. But we can engineer.

The Tiguan is a Volkswagen through and through — refined and refined again. From the fine interior, to the extensive safety features, Composition Media with 6.5" color touchscreen, radio with MP3, USB and AUX-in socket, to the App-Connect for fast and easy connection. Tiguan is just the right car.

Auto LED headlight activation with LED daytime running lights. These headlights create bright beams of light to help improve visibility, lasting longer and using less energy than halogen bulbs. The LED Daytime Running Lights add style to your Tiguan.

40/20/40- Split Folding Seats. There are times when a 60/40 split just isn't enough. The Tiguan lets you fold down one or both sides, or even just the middle, to help maximize flexibility and cargo space.

Proactive Occupant Protection System. In case of an accident, seatbelts will automatically tighten and windows will automatically close to assure maximum functionality of the airbag system. Front, side, head and curtain airbags are there to protect the passengers wherever the impact may be.

Electronic Stabilisation Program (ESP) with Anti-Slip Regulation (ASR), Electronic Differential Lock (EDL) and Engine Drag Torque Control (MSR). These systems detect critical driving conditions, such as a risk of skidding, wheel spin or over/under steering, and take actions to keep the vehicle on course each and every time.

Electric Parking Brake with Auto Hold Function. The convenient Auto Hold function prevents your car from rolling back when pulling away on a slope or during a hill start.

The Tiguan.
