

THE NEW TOUAREG.

THE NEW TOUAREG.
MORE POWERFUL,
ADVANCED AND CAPABLE
THAN EVER BEFORE.

More stylish, more powerful, more capable than ever before, the redesigned new Touareg comes with a host of refinements, including optimised engines, improved on- and off-road capabilities, and an all new interior. It's also faster, lighter and easier to handle, thanks to intelligent technology. All of which leaves the competition standing. And puts you streets ahead.

Model shown is SE with optional 20" 'Metropolitan' alloy wheels, Driver's Assistance Pack, Bi-Xenon headlights and metallic paint.

Model shown is Hybrid with optional 19" 'Girona' alloy wheels and metallic paint.

CLEANER THAN EVER, EVEN WHEN IT'S OFF-ROAD.

Meet the new Touareg Hybrid, the first production hybrid vehicle from Volkswagen. It has an innovative EURO 5 compliant 3.0 litre V6 TSI engine with 333 PS and a parallel hybrid drivetrain. A 34.3 kW electric motor is positioned between the petrol engine and the 8 speed auto tiptronic gearbox, which allows you to drive on the electric motor alone with no emissions, up to a speed of about 31 mph. Alternatively, it can provide a noticeable power boost to the petrol engine when required in situations such as overtaking manoeuvres. It can even help accelerate the new Touareg Hybrid from 0 to 62 mph in just 6.5 seconds, faster than many hot hatches.

However, none of these benefits come with a compromise, as the off-road and towing credentials of the new Touareg are unaffected by the hybrid system. In fact, it is the first hybrid off-road vehicle with a trailer load limit of 3.5 tonnes. Its Combined fuel consumption is an impressive 34.4 mpg and it emits just 193 g/km of CO₂ while the petrol engine is in use. Which means, no matter how dirty your new Touareg gets off-road, it's far cleaner than ever before.

* Please see pages 32-33 for CO₂ emissions and fuel consumption figures.

WHEN THE GOING
GETS TOUGH, YOU
WON'T EVEN NOTICE IT.

There isn't anywhere the new Touareg is afraid to go thanks to its superior off-road capabilities. Wherever you choose to go, the innovative driver assistance systems and exceptional levels of interior comfort keep you in the lap of luxury. Which means, when the going gets tough, you won't even notice it. Because whatever the terrain, you'll be travelling in comfort and style.

Take the new Touareg Escape for instance. Its stylish off-road design stands out from the crowd thanks to an increased approach angle of 26 degrees, which means it can scale embankments, gradients and hills without the bumper touching the ground. It also has an increased ground clearance of an extra 10 mm at the front and 15 mm at the rear, so it can wade through deeper water, or overcome large tree trunks or rocks without bottoming out. Volkswagen's 4XMOTION four wheel drive system for optimal traction is also fitted as standard, while a centre and rear differential lock and low gear ratios all help the new Touareg Escape make light work of whatever you throw at it. You might even stray so far off the beaten track that its increased fuel tank capacity may well come in handy.

Model shown is Escape with optional 20" 'Metropolitan' alloy wheels, Bi-Xenon headlights and metallic paint.

EQUIPMENT.

On- or off-road, the new Touareg is the perfect vehicle for going on a voyage of discovery. Smart, capable and stylish, it's equipped with a whole host of technological advancements, making driving more fun, safe and luxurious than ever before. Engine technology, for example, has never been so innovative, as demonstrated by the new Touareg Hybrid, combining the economy of an electric motor with the power of a six cylinder petrol engine. The Start/Stop function, standard on all engines except the 4.2 litre V8 340 PS, prevents unnecessary engine idling by cleverly switching the engine off when your vehicle is stationary and in neutral and starts it again as you depress the accelerator. And, as you'd expect from a well thought out car, the new Touareg is fitted with hill start and hill descent assist as well as an electronic parking brake with auto hold function, designed to make driving just that little bit easier. For the latest in comfort, the 2Zone electronic climate control enables the driver and front passenger to select their preferred temperature setting.

To ensure you reach your destination quickly and safely, all new Touaregs are fitted with an **RNS 850 touch-screen satellite navigation and DAB digital radio system** complete with 8 inch colour TFT display, integrated 60 GB hard disk and two SD card readers. The voice-activated system includes a 7 digit postcode search functionality and displays the surrounding area with 3D landmarks. At the touch of a button, the radio system can be operated from the multifunction leather trimmed steering wheel.

'Karakum' 8J x 18 alloy wheels with 255/55 R18 tyres add an elegant touch to the new Touareg.

Standard on SE and Escape models.

Interior shown is Altitude V8 with optional 4Zone electronic climate control and air suspension (CDC).

The 7 inch multifunction colour display shows a wide range of information and vehicle data on the large TFT screen. For example, navigational directions can be displayed in colour, along with journey data, average fuel consumption, range in tank and exterior temperature to name but a few.

Standard on all models.

The **panoramic glass sunroof** reaches beyond the rear seats, giving an uninterrupted view of the sky above and filling the interior with natural light. This extra dimension of light and space creates a wonderfully relaxing interior ambience. Easily opened at the touch of a button, allowing fresh air to enter and circulate, there is also electric ventilation and an integrated sunblind, providing protection against the heat of the sun.

Standard on Altitude V8, optional on all other models.

The Escape features **4XMOTION** permanent four wheel drive including interaxle differential with electronically-controlled disc lock and low-range box with differential lock on the rear axle as an option; including fuel tank with 100 litre capacity; operation by five selector off-road rotary switch and manual ASR deactivation.

Standard on Escape models.

The different modes of the **hybrid drive** and the load condition of the high voltage battery are displayed on the RNS 850 navigation/radio system's audio display.

The Escape's exterior design emphasises the outstanding off-road capability of the new Touareg, featuring **matt chrome underbody protection** at the front and rear and specially designed off-road lower side underbody protection also in matt chrome. At the rear, a distinctive diffuser and chrome-plated twin exhaust tailpipes complete the impressive off-road look, adding a real sense of style.

Model shown is Escape with optional 20" 'Metropolitan' alloy wheels, Bi-Xenon headlights and metallic paint.

Bi-Xenon headlights feature dynamic curve lighting and static cornering function, providing better illumination of the road ahead on bends and when turning off. New LED daytime running lights are a particular feature, ensuring your vehicle is more visible during the day and giving your Touareg its characteristic look. Light distribution of the dipped beam is matched to speed, so that a longer light beam is emitted when the vehicle is driven faster for improved illumination.

Standard on Altitude V8 and Hybrid, optional on all other models.

There are a number of optional driver assistance systems available, all designed to enhance both comfort and safety. The **Driver's Assistance Pack** includes **ADC (Automatic Distance Control)**, which adjusts the speed of your vehicle to that of the vehicle in front and gives a two stage warning if you get too close, firstly either visually or acoustically, and secondly with a short braking movement, preparing you for a possible emergency stop. **Lane Assist** will warn you via steering wheel vibrations if your vehicle unintentionally leaves a marked lane. **Side Scan (lane change assist)** utilises rear radar sensors to monitor the flow of traffic, giving you a visual warning via an indicator light in the outside mirror if it detects a vehicle in your driver's blind spot as you change lanes. A leather trimmed electrically heated steering wheel adds further comfort to style. Specify this option on Escape models and front and rear **parking sensors**, ultrasonic, optical and audible are also included.

Parking sensors are standard on SE, Altitude, Altitude V8 and Hybrid models. Optional on all models.

Optional '**Girona**' 9J x 19 alloy wheels with 265/50 R19 tyres add a touch of style to the new Touareg.

Optional on all models except Altitude V8.

Optional '**Metropolitan**' 9J x 20 polished alloy wheels with 275/45 R20 tyres add an elegant yet sporty touch to the new Touareg.

Optional on all models except Hybrid.

The Touareg's luxurious interior ensures you feel totally at home in even the remotest location, and with a host of optional extras available, you can furnish it exactly as you wish. 'Vavona' wood inserts add a touch of elegance, for example, and you can also specify a heated multifunction leather steering wheel and 4Zone electronic climate control with automatic air recirculation, ensuring driver and passengers stay comfortable for the duration of the journey. The new Touareg offers an optional 'Dynaudio' soundpack delivering surround-sound acoustics through the twelve performance speakers, and add the optional TV reception* for a phenomenal in-car infotainment experience.

* The TV will only operate when the vehicle is stationary and the handbrake has been applied. TV sound reception is available at all times.

The **cargo management system** features a telescopic rod that divides the surface lengthways and diagonally, and safely secures loads with a tensioning belt fixed to rails. The reversible boot mat is a useful feature if you have to transport a variety of objects.

Optional on all models except Hybrid.

The optional **retractable towbar** enables you to tow trailer loads of up to 3.5 tonnes and can be electrically released and easily folded in again.

Optional on all models.

'Area View' incorporates four cameras located in the front bumper, rear tailgate and in door mirrors which displays the area around your vehicle, making it easier to manoeuvre, drive in terrain with poor visibility or when towing a trailer. It is also possible to see a bird's-eye view of the surrounding terrain. You can even choose a specific camera view, ideal for parking in tight spaces or pulling out of a blind entrance.

Optional on all models.

Interior shown features optional 'Nappa' leather with climate function.

Optional front comfort seats upholstered in soft 'Nappa' leather* provide maximum support for the driver and front passenger. These 12-way electrically adjustable seats provide adjustments for seat height and incline, seat back angle, lengthways position and lumbar support, while electro-pneumatically operated air cushions, integrated in the side bolsters of the backrest, provide additional support whatever the height of the occupant.

Optional front comfort seats in 'Nappa' leather* with climate function and memory pack are particularly pleasant on hot days, ensuring the front seats and backrests remain cool to the touch. They include three ventilation settings for front seat's and windscreen washer jets.

Front comfort seats in 'Vienna' leather are standard on Altitude V8 and Hybrid models.
* 'Nappa' leather is optional on all models. Some parts of leather interior will contain artificial leather.

WHEELS.

The range of standard alloy wheels has been carefully chosen to complement the exterior styling of every Touareg. However, you may wish to add a touch of individuality and personalise your Touareg with a choice of 19 or 20 inch alloy wheels. The optional 20 inch alloy wheels are 'flow-formed' or 'roll-pressed' resulting in a mechanically reworked rim with thinner material cross section, but higher strength, reduced weight and improved mechanical properties. Whichever alloy wheel you choose, you can be certain of Volkswagen's superb design and engineering.

01 'Karakum' 8J x 18 inch standard on SE and Escape models.

02 'Everest' 8½J x 19 inch standard on Altitude and Hybrid models. Optional on SE and Escape models.

03 'Pikes Peak' 9J x 20 inch standard on Altitude V8 models. Optional on SE, Escape and Altitude models.

04 'Girona' 9J x 19 inch optional on all models, except Altitude V8.

05 'Metropolitan' 9J x 20 inch optional on all models, except Hybrid.

Also available but not shown:

'Salamanca' 9J x 19 inch optional on all models, except Altitude V8.

Model shown is SE with optional 20" 'Metropolitan' alloy wheels, Driver's Assistance Pack, Bi-Xenon headlights and metallic paint.

NOTES

- 01) The maximum power output figures are quoted in PS (or Pferdestärke, which is the metric equivalent of horsepower). To convert from metric to imperial horsepower, divide the PS figure by 1.0139.
- 02) Figures are calculated in accordance with manufacturer's criteria.
The individual unladen weight depends on the specification of the vehicle, this then reduces the possible payload accordingly. The unladen weight and payload both include the fuel tank 90% full, driver (68 kg) and luggage (7 kg) in line with EU directive 95/48.
- 03) With increasing altitude the engine performance diminishes. From 1,000 m above sea level and for every 1,000 m thereafter 10% of the vehicle/trailer weight (trailer weight + gross vehicle weight) must be deducted.
- 04) Fully compatible with 5% bio diesel in accordance with EN590 Standard.
- 05) Thanks to the knock control, unleaded four star (at least 95 RON) can be used instead of unleaded Super plus. In order to achieve maximum fuel consumption benefits on the TSI engine, Ultra Low Sulphur Petrol (ULSP) must be used.
- 06) Official fuel consumption according to EU Directive 99/94. The consumption calculation according to 1999/100/EC is based on the actual unladen weight of the vehicle. Additional specifications can lead to a higher weight class and hence to consumption figures of this higher weight class. The driving style, road and traffic conditions, environmental influences and vehicle condition can in practice lead to consumption figures, which may differ from those calculated with this standard.
- 07) The weight of a vehicle will influence the level of CO₂ emission it produces; as a result, vehicles with higher levels of specification and factory-fitted options may emit higher levels of CO₂.

TECHNOLOGY.

ENGINES

3.0 litre V6 TDI 240 PS ⁽⁰¹⁾ (176 kW) diesel engine:
Six cylinder 'V' engine, four valves per cylinder, two overhead camshafts per cylinder bank, turbocharger with variable turbine geometry, valve drive via roller valve levers, injection system of the third generation with Piezo inline injectors and 1,600 bar injection pressure

4.2 litre V8 TDI 340 PS ⁽⁰¹⁾ (250 kW) diesel engine:
Eight cylinder 'V' engine, four valves per cylinder, grey cast iron cylinder crankcase, cylinder spacing V90°, bore 83 mm, stroke 95.5 mm, compression ratio 16.4 : 1, ignition pressure 180 bar, two stage volumetric-flow-regulated oil pump, innovative thermal management, exhaust gas turbocharger with engine speed sensors, common rail injection system with up to 2,000 bar injection pressure, Bosch Gen 3, high pressure pump Bosch CP 4.2, flow regulated in tank fuel pump, low temperature exhaust gas recirculation (EGR). Maximum torque 800 Nm delivered between 1,750-2,750 rpm.

3.0 litre TSI 333 PS ⁽⁰¹⁾ (245 kW) Hybrid petrol engine: TBA

RUNNING GEAR

- Front and rear independent suspension on double wishbones with acoustically insulated subframes
- Front and rear anti-roll bar

TRANSMISSION

- Eight speed automatic tiptronic gearbox
- 4MOTION permanent four wheel drive with Torsen gearbox as standard; self locking central differential with asymmetrical-dynamic drive distribution; off-road driving programme activated by rotary switch and manual ASR deactivationL
- Escape:
4XMOTION permanent four wheel drive including interaxle differential with electronically-controlled disc lock and low-range box with differential lock, operation by five selector off-road rotary switch and manual ASR deactivation

THE OWNERSHIP EXPERIENCE.

Owning and driving a Touareg is an extremely rewarding experience. It's not just the performance, build quality, comfort and practicality that satisfies, the level of after-sales support is exemplary. To deliver such high levels of service, we've introduced a network of specialist service outlets, all having the necessary specialist equipment and high levels of skills required to look after your car.

Within each specialist service outlet we have introduced a new team member. Licensed Technicians meet the highest standards within their field for professionalism, skill and knowledge. Our aim is to make buying and looking after your car more enjoyable.

When it comes to servicing, we appreciate that it may be more convenient for us to visit you. So, whether you're at home or the office, one quick and easy phone call is all it takes to arrange for a convenient collection and delivery.

Naturally, we'll provide you with a replacement Volkswagen and we have also set up a dedicated telephone line for Touareg owners. Our Luxury Car Support Centre is open six days a week, and is a single point of contact for Touareg owners.

COMPREHENSIVE COVER FROM VOLKSWAGEN ROADSIDE ASSISTANCE.

Your Touareg is covered by the excellent support service of Volkswagen Roadside Assistance for the first three years after registration. This is a 24 hour, 365 days a year pan-European emergency home and roadside recovery service manned by professional multilingual staff. It's not just there for the unlikely event of a breakdown, Volkswagen Roadside Assistance can ease the uncertainty following an accident or the inconvenience should you run out of fuel or lose your keys. You will benefit from a priority response following your call to our dedicated team of support staff.

Volkswagen Roadside Assistance provides many benefits and complete peace of mind. For example, should you be in the unfortunate situation of a breakdown, we'll arrange overnight accommodation or onward travel for you and your passengers. In addition, there's an Accident and Legal Helpline.

Terms and conditions apply. Please see your authorised Volkswagen Luxury car specialist retailer for details and brochure.

Model shown is Escape with optional 20" 'Metropolitan' alloy wheels, Bi-Xenon headlights and metallic paint.

VOLKSWAGEN SERVICE. FOR YOUR PEACE OF MIND.

The Volkswagen Warranty. Three-year Warranty.

All Volkswagen new Touaregs come with a three-year/60,000 miles warranty, which protects your car against the failure of most mechanical and electrical components due to manufacturing defects. This comprises a two-year manufacturer's warranty with unlimited mileage plus a further one-year/60,000 miles (whichever is soonest) Retailer Warranty. Should the mileage exceed 60,000 miles within the first two years, the manufacturer's two-year warranty will still be valid. If an additional warranty for subsequent years or higher mileage is desired, it may be purchased from any authorised Volkswagen luxury car specialist retailer; however, this additional warranty must be purchased before the mileage reaches 60,000*. Full details of the three-year warranty are available from your authorised Volkswagen luxury car specialist retailer. This three-year warranty is only available on vehicles purchased in the UK through an authorised Volkswagen luxury car specialist retailer.

* All warranty work must be completed by an authorised Volkswagen luxury car specialist retailer or repairer.

Three-year Paint Warranty. The paintwork of the new Touareg is covered against manufacturing defects for a period of three years. Naturally, the new Touareg must be cared for in compliance with the operating instructions which will be found in your vehicle handbook. Please consult your authorised Volkswagen luxury car specialist retailer or repairer for full warranty details.

12-year Body Protection Warranty. The internal body sections and panels of the new Touareg are covered against rusting through from the inside for a period of 12 years. Naturally, the new Touareg must be cared for in compliance with the operating instructions. Please consult your authorised Volkswagen luxury car specialist retailer or repairer for full warranty details.

Service Intervals. Volkswagen are pleased to offer you a choice on how your new Touareg is serviced. The appropriate selection is entirely dependent on how the car is likely to be driven and its general use. To help you identify which type of service would be most suitable, please refer to the following guide.

The Time and Distance Service is recommended for vehicles that will cover less than 10,000 miles in 12 months and if the vehicle is likely to be used in the following way:

- Predominantly urban driving, short journeys with frequent cold starts.
- Activities regularly producing high engine loading, e.g. frequent hill climbs, driving with vehicle fully loaded and towing.
- Uneconomical driving style using high rpms with heavy acceleration and heavy braking.

The service intervals for the Time and Distance Service are as follows:

- Oil change service – Every 10,000 miles/1 year (whichever is soonest).
- Interval service – Every 20,000 miles/2 years (whichever is soonest).
- Inspection service – Every 40,000 miles/3 years (whichever is soonest).

The LongLife Service is recommended for vehicles with a daily mileage of more than 25 miles where the vehicle is driven regularly mainly on longer distance journeys. The vehicle is driven mainly at a constant speed with minimum vehicle and engine loading, minimal towing and driven in an economical manner. With the LongLife Service the vehicle can cover anywhere between 10,000[†] and a maximum of 18,000[†] miles or 24 months (whichever is soonest) between oil changes. Inspection service is typically in the third year of ownership and thereafter every second year, for vehicles with an approximate annual mileage of 10,000 miles.

[†] Please note that mileages are approximate as the service indicator system uses kilometres as the distance measurement. Please consult your authorised Volkswagen luxury car specialist retailer or repairer for full details.

Approved Accessories. A comprehensive range of accessories from alloy wheels to carpet mats is available to complement the factory-fitted option list. Volkswagen Approved accessories purchased from and fitted by your authorised Volkswagen luxury car specialist retailer at the point of vehicle sale will also benefit from the three-year vehicle warranty.

Maximum Peace Of Mind. To ensure you are effectively insured, Volkswagen Insurance (the trading name of Volkswagen Insurance Services Limited) offers policies developed specifically for Volkswagen drivers. The main benefit of being covered by one of the UK's largest manufacturer-approved insurance schemes is the complete peace of mind it provides. For example, should your new Touareg require repair, we guarantee it will only be completed by an authorised specialist Volkswagen retailer or repairer. Approved Used Cars. Confidence, peace of mind, reassurance. These are the virtues of buying an Approved Used car because every car has, or is supported by:

- Multipoint inspection
- Comprehensive reconditioning and valeting
- Mileage verification
- Vehicle validation check
- Volkswagen Approved Warranty
- Volkswagen Roadside Assistance[‡]
- 30-day/1,000 miles exchange policy[‡]

[‡] Cars up to three years old are covered by Volkswagen Roadside Assistance.

This can be purchased separately for cars over three years old.

[±] Terms and conditions apply, please ask for full details.

And for Approved Used Volkswagens, a service history check and certificate are also provided. When it comes to buying a used car, it's important that you can be confident in its mechanical condition, mileage and history. The Volkswagen Approved Used scheme should help put your mind at ease. Every Approved Used car for sale will have passed a rigorous inspection, and any problems found will have been rectified before the car is made ready for sale. For your extra peace of mind, it will be covered by a 12-month warranty and a 30-day/1,000 miles exchange policy.

Personal Finance Solutions. We appreciate that financial needs differ, so you'll find a team of professional advisors on hand at our specialist retailers. They will be able to offer you cost-effective, tried and trusted financial products including a range of products for both private and business consumers alike, from Volkswagen Finance*.

* Volkswagen Finance is a trading name of Volkswagen Financial Services (UK) Limited.

CO₂ Emissions. The weight of a vehicle will influence the level of CO₂ emission it produces; as a result, vehicles with higher levels of specification and factory-fitted options may emit higher levels of CO₂.

The CO₂ figure quoted for each vehicle is the maximum possible. The unladen weight of the vehicle is calculated by range at the time of manufacture and the maximum possible CO₂ emission for that weight range is applied according to the Council Directive 80/1268EEC as amended by Commission Directive 1999/100/EC on the approximation of the laws of the member states relating to the carbon dioxide emissions and the fuel consumption of motor vehicles.

Please Note: Some illustrations in this brochure do not necessarily reflect UK specifications and may not be available. In particular, controls and some items of equipment are positioned differently for the UK.

The specifications contained in this brochure are for information purposes only and are subject to change. If you require any specific feature, you must consult your authorised Volkswagen luxury car specialist retailer who is regularly updated with any change in specification. Please check model availability and full specification details with your authorised Volkswagen luxury car specialist retailer prior to ordering.

Note: We would like to advise you that telephone calls to the Luxury car support centre may be monitored and recorded as part of our training and quality assurance processes. All our monitoring and recording processes meet Ofcom regulations.
