

New Touareg

Das Auto.

New Touareg. New standards.

With a luxuriously redesigned interior and bold exterior enhancements, the New Touareg takes to the road with one goal — to redefine the sports utility vehicle once again. Available in a choice of 3.6 V6 FSI Elegance, 3.0 V6 TDI Luxury, 3.0 V6 TDI Escape or 4.2 V8 TDI Executive, this exhilarating SUV embodies versatility from the get-go. Add to that permanent 4Motion® all-wheel drive technology with superior off-road capabilities, and the New Touareg truly is the ultimate expression of Das Auto.

Feast your eyes.

From its wide, assertive stance to its sleek, tapering lines, the New Touareg comes to life with an iconic redesigned exterior. A perfectly poised four-slat radiator grille unfolds into honed headlamp clusters boasting Bi-Xenon headlights with LED daytime running lights. The reworked front bumper showcases deeper creases and angular lower central and side intakes, while the revised lower bumper concludes with striking fog lights. The rear exhibits sharpened character lines between the tail lights, balanced by a reshaped diffuser and new reflectors.

Luxury. From the inside out.

With an interior that is as exquisite as it is versatile, the New Touareg perfects the fusion of functionality and form. Luxurious touches, including aluminium rotary knobs, chrome accents and leather trim set the scene, while two-zone Climatronic air conditioning, cruise control and a multifunctional leather steering wheel ensure optimal comfort and control. Electric adjustable leather front seats introduce an additional colour – Bonanza Brown – available with Vienna and Nappa leather. Depending on which option you choose, the centre console offers two new buttons for steering wheel heating and windscreen heating, with a 6.5 inch touchscreen display providing effortless access to Park Distance Control (front and rear) and a six-disc CD changer with MP3/MP4 functionality.

Versatility.

As versatile as it is elegant, the New Touareg personifies intelligent design. The ingenious Easy Open boot, standard on the Executive, offers hands-free access to the generous cargo space by automatically detecting a kick motion at the rear. 40/20/40 split rear seats with three-stage reclining positions and a 160mm adjustable range enables maximum flexibility, while a removable load bed offers additional storage variations.

The electric power closing/opening tailgate release is standard on the Executive and can be opened and closed via remote key.

The optional electric release tow bar has a towing capacity of 3.5 tonnes and folds away completely when not in use.

The optional Easy Open Package includes KESSY keyless entry and an electric power closing/opening tailgate with sensor control for tailgate opening.

The Modular Rear-seating Concept features 40/20/40 asymmetrical split backrests that enable the rear seats to be adjusted forwards and backwards to a range of 160mm.

R-Line package.

Inspired by the adventurous spirit within, the R-Line package captures the essence of individuality. 20" Talladega alloy wheels support an aggressive stance, while dramatic lines trace the front and rear bumpers in true "R" style. Extended side sills with the expressive rectangular, twin chrome-plated tailpipes conclude the rear. A multifunctional leather steering wheel with R-Line logo and Tipshift paddles and an aluminium painted centre console articulates the New Touareg's athletic nature, while "Silver Lane" inserts adorn the dash, door panels and centre console.

20" Sterling Silver painted Talladega alloy wheels.

The iconic R-Line badge captures the ultimate expression of style.

Dimensions, capacities and abilities apply to standard vehicles.

*Fuel Consumption and Carbon Dioxide Emission Figures

The figures reflected were obtained in accordance with prescribed uniform measuring standards (SANS 20101: 2006 / ECE R101: 2005 in their currently applicable versions) under laboratory type conditions. The measuring standards are stipulated by law. They do not apply to a specific vehicle and are provided to enable comparison between different vehicle models tested using the same uniform measuring standard. The values are accordingly not necessarily representative of real-life driving conditions. Factors such as driving style, vehicle load, road conditions, tyre size, traffic and ambient conditions may result in different fuel consumption and carbon dioxide emission levels to those achieved under the test parameters referred to above. More details are contained in the owner's manual.

Heated leather-covered multifunctional steering wheel with Tipshift paddles and R-line logo.

'Silver Lane' insert on dash, door panels and centre console.

Go everywhere in the middle of nowhere.

Leave the ordinary behind in the 3.0 V6 TDI Escape with Terrain Tech. Featuring the latest 4XMotion® all-wheel drive technology with centre and rear differential lock as well as a low range gear ratio, the Escape is ready to conquer any obstacle. Steep slopes are no challenge with an impressive hill-climbing ability of up to 45°. In addition, the New Touareg boasts an approach/departure angle of 26°/26° on the standard model, and 33°/33° with air suspension and Terrain Tech, plus an impressive fording depth of 500/580mm across the range.

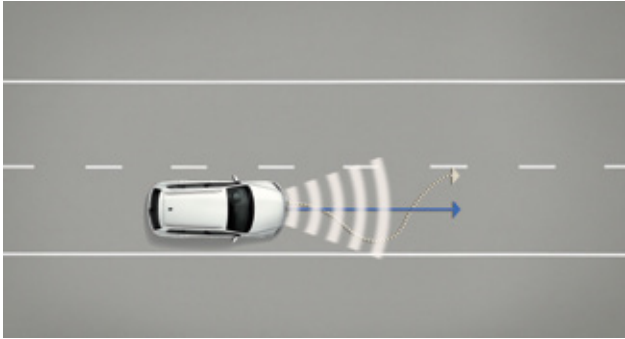

Play it safe.

From numerous active safety features designed to minimise the risk of a collision, to a series of passive safety systems employing the very latest in automotive technology, the New Touareg is designed to keep you and your family safe. ISOFIX child seat anchorage offers peace of mind, while a new roadside assistance call button ensures that help is always just a call away. The Electronic Stability Programme (ESP) offers optimum handling in challenging conditions with the Tyre-Pressure Monitoring System ensuring that your tyres run at peak performance. The Anti-lock Brake System (ABS) reduces braking distances by up to 20 percent on loose surfaces, and in the case of a collision, the Multi-collision Brake System automatically activates to help prevent subsequent crashes by employing the ESP to brake the vehicle and slow it down to a defined minimum speed within the driving dynamic limits. Distinctive LED tail lights have a faster response time, allowing other road users to see the light-emitting diodes quicker, which can help reduce stopping distance.

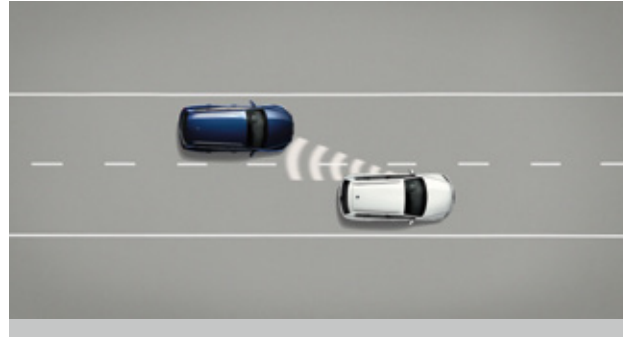

Innovation.

Area View technology uses four cameras to produce a high-quality 360° view around the vehicle, allowing the driver to see areas outside the vehicle that may otherwise be hidden from view. The viewing perspective is selected on the Infotainment system. This optional feature includes Rear Assist.

Lane Assist is a driver assistance system that dynamically detects lane markings and causes the steering wheel to vibrate to warn the driver if the vehicle inadvertently leaves its lane.

Side Assist utilises radar sensors to recognise when another vehicle is in the driver's blind spot or approaching rapidly from the rear. Light displays, integrated into the exterior mirrors, flash to alert the driver. Lane Assist and Side Assist work in harmony and are available as an option across the range.

From as low as 30km/h the optional Adaptive Cruise Control maintains the speed at your selected level and takes into account the speed of the vehicle in front of you, contributing to relaxed and safe driving, particularly on long journeys.

The standard Park Distance Control gives an acoustic and visual warning when the vehicle approaches an obstacle in the front or rear during parking.

The optional Rear Assist provides visual assistance for reverse parking with an ingenious overlay of display lines to indicate the ideal parallel parking angle.

The Fatigue Detection system senses fading concentration levels by intelligently measuring your pedal and steering wheel use, in addition to transverse acceleration. This groundbreaking feature is designed to keep you alert when you've been on the road for a long time.

Colour options.

The illustrations on this page can only be regarded as a general guide as the printing process cannot render the true depth and brilliance of the paint finishes with absolute accuracy. Please note that certain paint and trim combinations may not be available.

Safety and Technology

- Driver and front passenger airbags with passenger airbag deactivation
- Curtain airbag for front and rear occupants
- Front side airbags
- Servotronic® power steering
- Automatic door unlocking
- Warning tone and light when driver seat belt is not fastened
- High-level brake light with emergency braking light activation
- Height-adjustable 3-point inertia reel seat belts (front)
- 3-point inertia reel seat belts (rear)
- Electrically operated child lock for rear doors, operated at driver's seat
- ISOFIX child-seat locating points – outside rear seats
- Front and rear fog lights (front with fixed bending light)
- Door open warning device
- Fatigue detection (Rest Assist)
- Park Distance Control (front and rear)
- Bi-Xenon headlights, cornering lights, LED daytime running lights, dynamic headlight range adjustment, headlamp washer system
- ABS (Anti-locking Brake System)

- EBD (Electronic Brake-force Distribution)
- ESP (Electronic Stability Programme)
- EDL (Electronic Differential Lock) allowing 100% of torque to any one wheel
- HBA (Hydraulic Brake Assist)
- Multi-collision Brake System
- ASR (Anti-Spin Regulation)
- Hill descent control/Hill start assist
- Parking Brake with Auto-hold function
- Disc brakes – front and rear with brake pad wear indicator

Optional

- DynAudio "Confidence" 12-speaker system with Digital Signal Processor and 620 W Amplifier
- Rear-view camera (offers reversing image to help spot obstacles behind car)
- "Lane Assist" and "Side Assist" (Tipshift paddles are deleted when selecting the Lane Assist/Side Assist option due to special steering wheel forced by the system)
- Adaptive Cruise Control
- Climate-controlled seats

- Ambience package (LED reading lights, LED footwell lights, door illumination inside and rear door warning lights)
- Easy Open Package (includes KESSY Keyless entry, power closing/opening tailgate with sensor control for tailgate opening)
- Chrome and Style Design Package (includes chrome trim for upper grille and chrome trim for fins on lower grille, bumper, bumper lower part and sills in body-colour, chrome trim on sills and side windows, rectangular twin chrome-plated tailpipes and boot sill protection in stainless steel)

Escaping civilisation just got more civilised.

Volkswagen Financial Services. Designed for you.

When purchasing and insuring a vehicle it makes sense to enlist the help of a trusted partner. Volkswagen Financial Services' team of dedicated advisers will assist with every aspect of the vehicle purchasing and insuring process, making it as quick and easy as possible. Volkswagensure is a comprehensive range of affordable motor insurance products available to Volkswagen owners. Brought to you by Volkswagen Financial Services, Volkswagensure is underwritten by The Hollard Insurance Company Ltd. All Volkswagen Financial Services products are designed to provide you with a hassle-free motoring experience and are conveniently available from any Volkswagen Dealer in South Africa. With Volkswagen Financial Services, driving home your New Touareg will be easier and faster than you ever imagined.

Das Auto. The Car.

Only when a car defines an era. Only when a car becomes a way of life. Only when a car gives its name to an entire generation. Only when a car possesses both size and stature. Only when a car provides a home for the whole family. Only when a car invites everyone to share its innovations. Only when a car creates technologies that break new ground. Only when a car delivers a miracle of performance. Only when today's car is already anticipating tomorrow. Only then can it be called The Car (Das Auto). The New Touareg is the ultimate expression of Das Auto – redefining the sports utility vehicle and offering customers dynamic power, exquisite design, luxurious comfort and exceptional safety. That's why it's the most technologically innovative Volkswagen ever built. Touareg. Das Auto.
