TRAINING

SAVANA CARGO VAN IN SUMMIT WHITE With the broadest V-8 engine lineup offered in the segment, Savana is sure to handle whatever job comes its way.

NEED TO ADD MORE BACKGROUND HERE

**REAL LIFE. REAL PROJECTS.** Making a real difference. GMC vehicles aren't made to sit in the showroom. They're designed, engineered and built to get things done, to defy the impossible and to never say the job is over until you've overachieved. This is why GMC has joined with the people and organizations you're about to meet. People who are making a difference in their communities and effecting real change. From helping a community learn the value of locally grown produce or disabled athletes pursue their dreams, GMC is proud to present these stories of what can really happen in life when you never say never.

**GMC. WE ARE PROFESSIONAL GRADE.**

**PART 1**

**GMC COMMUNITY PROJECTS**

**COMMUNITY-SUPPORTED AGRICULTURE, 2**  
**QUAD RUGBY TRAINING, 6**

Learn about the organizations and individuals GMC is partnering with who are committing their innovative spirit and uncompromising attitude to projects that make a long-lasting impact on their communities.

12 - 14

**PART 2**

**FEATURES AND THEIR BENEFITS**

The what, the where and the how of professional-grade engineering. It's everything you need to know, from the most V-8 engine choices in its class to the available GM segment-exclusive all-wheel drive, about the 2012 GMC Savana.

15 - 17

**PART 3**

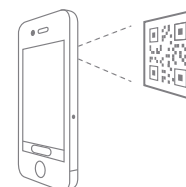

**SPEC YOUR MODEL**

Compare all the options, check out the accessories and customize your own 2012 GMC Savana.

**QR CODES**

**HOW TO SCAN A QR CODE**

Use your smartphone to scan the QR codes shown throughout the catalog. After scanning the code, your smartphone will be directed to a mobile site for more information on each project. If you do not have a QR code reader, simply download a free reader through the app store on your smartphone device.

**HOW TO USE THE URL  
IF YOU DON'T HAVE A SMARTPHONE**

If you don't have a smartphone, you can still experience all the extra content by logging on to the Web and entering the Web address found next to the QR code.

# USING TECHNOLOGY TO PULL A COMMUNITY FORWARD.

In Bradenton, Florida, there's a group of people with a never-say-never attitude and a bold idea for community farming: that the community is just as important as the farming. To them, the job is bigger than just growing food; it's about growing the health of the entire area. Geraldson Community Farm uses the latest sustainable growing methods to produce healthy, safe food for their members and the surrounding area, donating nearly 1000 pounds of excess food to the local food bank last year alone.

With GMC's help, the farm finished installing cisterns for their water retention system and constructing their community barn, both key steps toward accomplishing their goal of a zero carbon footprint. Using the farm as both a working classroom and library, they provide the community with the resources they need to learn about the benefits of locally grown food and the most efficient ways to farm for themselves.

## SO WHAT DOES COMMUNITY-SUPPORTED AGRICULTURE HAVE TO DO WITH GMC ENGINEERING?

It's using technology to work more efficiently, just like GMC Savana. From available dealer-installed WiFi connectivity<sup>1</sup> to your choice of two available wheelbase configurations to the broadest V-8 engine lineup in the segment, Savana has the flexibility and capability to match your aspirations and exceed your ambition. It's what professional-grade engineering is all about: building vehicles that do more than just keep up with today's world. They set the pace for tomorrow. **GMC SAVANA.**

This catalog shows many vehicles that have been altered or upfitted with equipment, bodies or components supplied to General Motors by an independent supplier. GM is not responsible for the safety or quality of design features, materials or workmanship of any alterations by such a supplier. See page 16 for more information about alterations and warranties.

FOR MORE OF THE STORY, SCAN THE QR CODE WITH YOUR  
SMARTPHONE OR VISIT [GMC.COM/SAVANA\\_PRODUCE](http://GMC.COM/SAVANA_PRODUCE)

**SAVANA CARGO VAN IN SUMMIT WHITE**  
Savana's engine lineup offers the widest range of available engine displacements, outputs and fuel choices in its class, from gas to E85 to CNG to biodiesel.

PART 1 : COMMUNITY-SUPPORTED AGRICULTURE - BRADENTON, FL

VEHICLE SHOWN : SAVANA CARGO VAN

FEATURES : SEE PAGE 12 FOR MORE DETAILED INFORMATION ON POWERTRAIN

↓ Up to 313.9 cubic feet of cargo volume<sup>1</sup> gives Savana plenty of room to get the job done.

↑ Available dealer-installed WiFi<sup>2</sup> turns Savana into a fully connected mobile office, making the most of any opportunity that comes your way.

↑ Multi-functional cargo configurations provide plenty of options for equipment storage. Visit [gmchoice.com](http://gmchoice.com) for information about bin packages to customize your Savana Cargo Van.

## THE PEOPLE BEHIND THE GERALDSON COMMUNITY FARM

## GMC SAVANA

Since 2007, the Geraldson Community Farm has operated as a community-supported agriculture program, an innovative way to connect local consumers with local farmers. Paying for seeds, equipment and labor, 180 members have invested financially in the farm. Each week they come to the farm to receive a portion of that week's harvest.

↓ Growing, harvesting and eating locally grown food increases freshness and benefits the environment by reducing pollution caused by transporting the produce over long distances.

↑ Completion of the farm's barn means a permanent space to house materials, learning resources and on-site supervision, and will serve as a community shelter during hurricane season.

↓ Using environmentally friendly building techniques helps use less energy and moves the farm toward its goal of a zero carbon footprint.

↓ The farm's new water retention system has the capacity to collect up to 87,000 gallons of natural rainwater a year, conserving the area's natural resources and moving the farm closer to its goal of a zero carbon footprint.

↓ Washing freshly cut produce is one of the tasks that will benefit from the new water retention system.

↓ Claudie Babineaux, farm apprentice, and with the help of Geraldson's entrepreneur program, a future farmer herself.

PROJECT  
QUAD RUGBY TRAINING – AUSTIN, TX

# LIFE IS ABOUT MORE THAN JUST LIMITATIONS.

Overcoming obstacles. Pursuing your passion. The confidence to take on any challenge. The men and women of Team Force Quad Rugby know what it's like to never say never. Playing a sport that some would say is beyond them, Team Force makes believers out of anyone who watches them. With drive, determination and perseverance, they pursue a goal most fully functioning athletes can't even dream of: representing their country on the stage of international play.

But with logistics and capability an issue, how to make that dream a reality? They relied on the help of GMC, traveling over 700 miles from Austin to Alabama to reach the national tryouts. Proving that big obstacles can always be brought down to size if you have the right attitude. And everyday life should never be defined by your limitations. Because like the engineering behind GMC, the players know if you dream big, you'll find you build your life for better things.

## THAT'S THE SAME ATTITUDE WE BUILD INTO EVERY GMC SAVANA.

Designed to stay one step ahead in a fast-changing world, Savana's innovative engineering breaks barriers and never slows down. Uncompromised strength and uncommon capability are just two of the qualities that set it apart. With an available diesel that's the most powerful in its class and the first full-size van in its class to offer all-wheel drive and StabiliTrak, Savana is used to showing the doubters what can be done when you apply professional-grade engineering. **GMC SAVANA.**

FOR MORE OF THE STORY, SCAN THE QR CODE WITH YOUR  
SMARTPHONE OR VISIT [GMC.COM/SAVANA\\_RUGBY](http://GMC.COM/SAVANA_RUGBY)

NEED TO ADD MORE BACKGROUND HERE

**SAVANA PASSENGER VAN IN PURE SILVER METALLIC**  
Savana comes with the most standard horsepower and torque in its class and is the first full-size van to offer all-wheel drive and StabiliTrak.

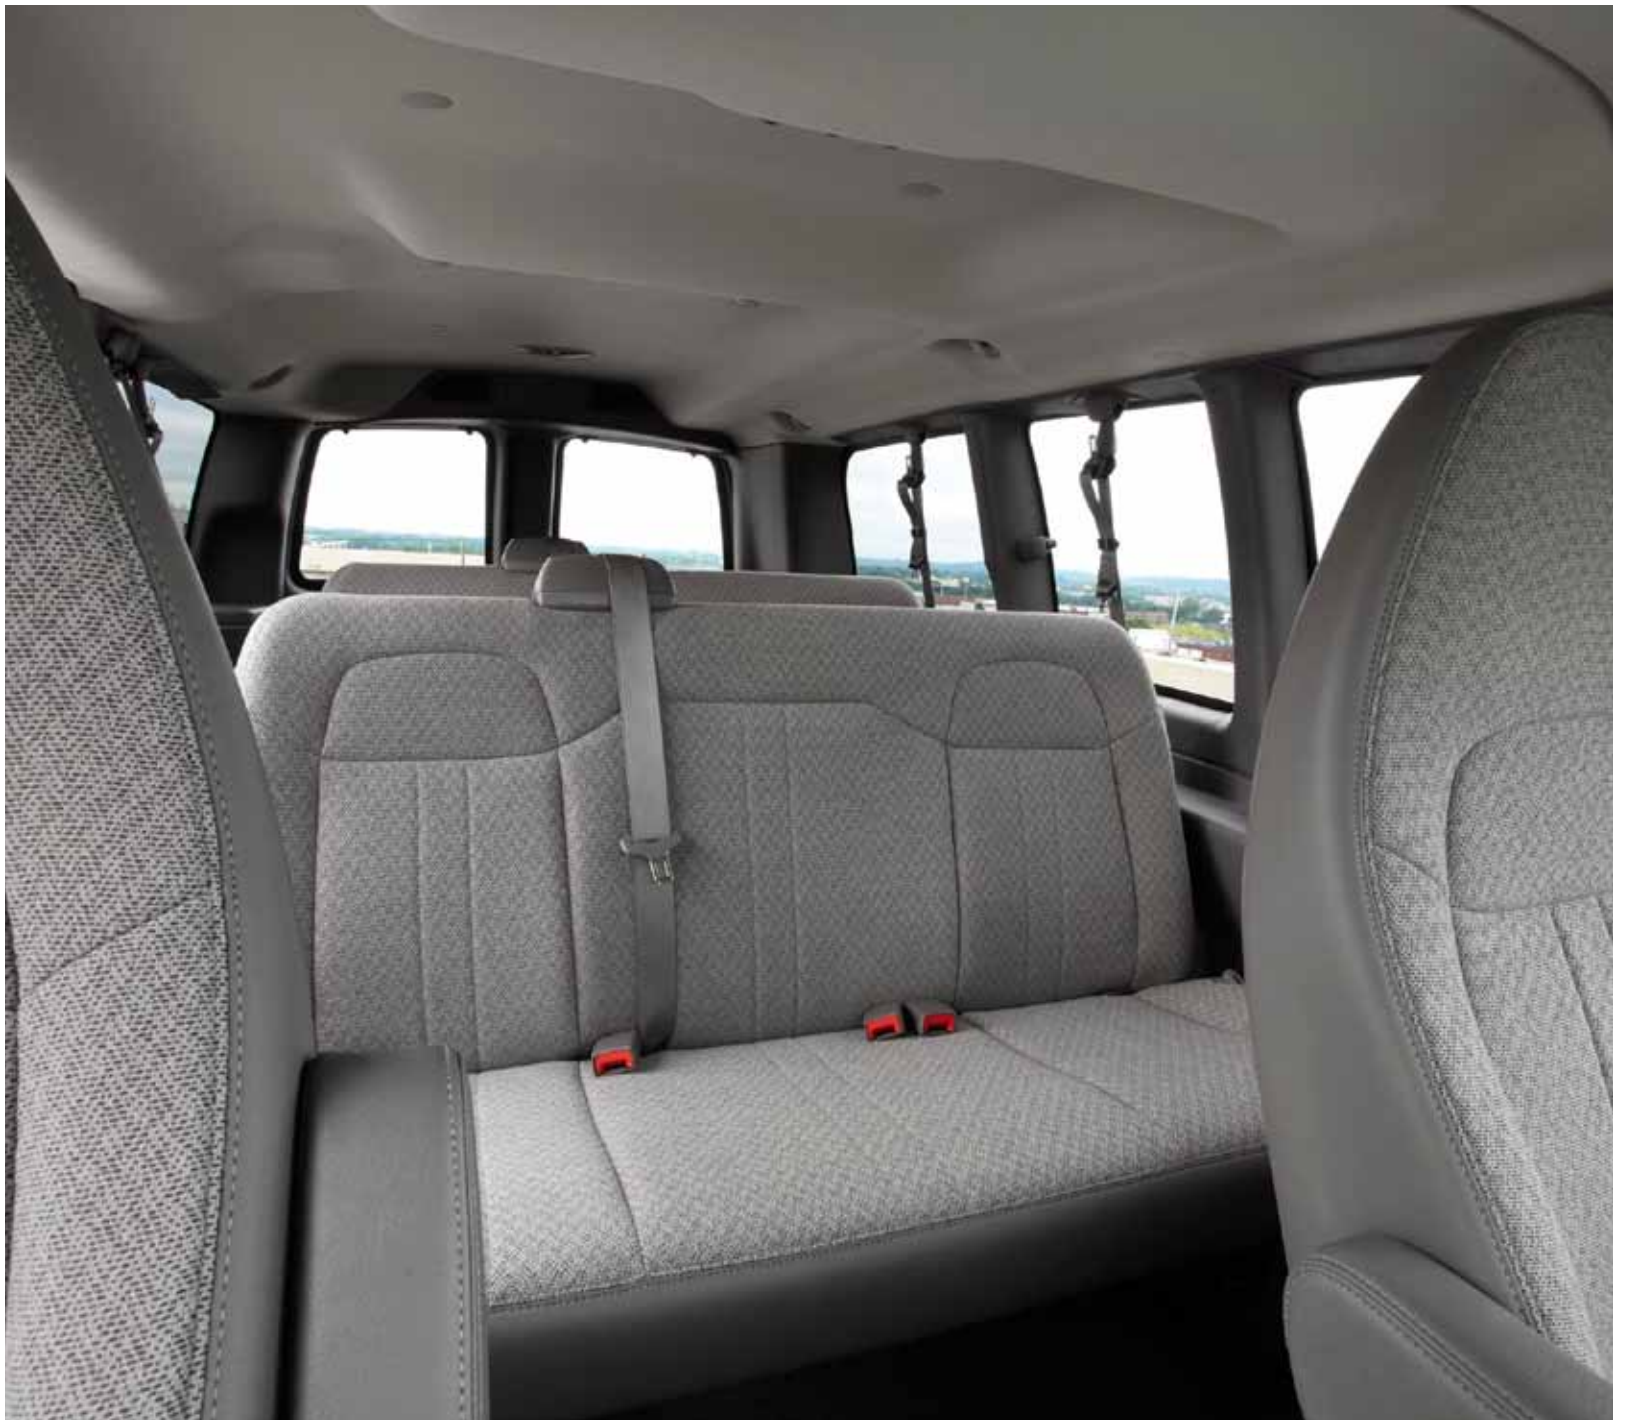

↓ Trip information, oil life and engine hours are easily accessible with the Driver Information Center.

↓ Passenger vans come standard with a 6-month trial subscription to the OnStar Directions & Connections Plan,<sup>1</sup> which provides Turn-by-Turn Navigation, route planning and Advisor assistance with a simple push of a button.

↑ Savana's available premium interior offers convenience and control, with Tilt-Wheel adjustable steering column and supportive, custom cloth front bucket seats.

↓ Easy-to-read gauge clusters keep you on track and up to date on fuel levels and maintenance.

↓ Available leather-wrapped steering wheel, USB port<sup>2</sup> and Bluetooth<sup>3</sup> add comfort and connectivity to Savana's list of attributes.

↑ Savana seats up to 15 passengers, comes with driver and front passenger frontal air bags,<sup>4</sup> head curtain side-impact air bags for the first three rows, and enhanced technology glass for a comfortable and confident ride.

<sup>2</sup>Go to [gm.com/bluetooth](http://gm.com/bluetooth) to find out which Bluetooth phones are compatible with the vehicle. <sup>3</sup>Not compatible with all devices. <sup>4</sup>Always use safety belts and the correct restraint for your child's age and size. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in an appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with a passenger air bag. See the Owner's Manual and child safety seat instructions for more safety information. <sup>5</sup>Visit [onstar.com](http://onstar.com) for coverage map, details and system limitations. Vehicles shown with available equipment.

↑ The first full-size van in its class to offer StabiliTrak, Savana provides the confidence and engineering to help your vehicle respond to steering commands.

↓ Built on a long wheelbase and with passenger comfort as its first priority, Savana Passenger Van is the ideal foundation for mobility conversion.

↑ Savana's frame readily accepts a raised roof, wheelchair lift and entry options and retractable wheelchair securement systems for easy mobility conversion.

Vehicles shown with equipment from independent supplier. See page 16 for information about alterations and warranty.

# THE ATHLETES OF TEAM FORCE QUAD RUGBY

GMC SAVANA

Team Force Quad Rugby pulls the best athletes from wheelchair rugby teams around the country for a chance to test their skills against the highest level of competition. With 13 members and an 8-month season, the team serves as a valuable training ground for the national team, advancing 10 players in their 6 years of existence.

↓ The Quad Rugby Coach, James Gumbert, aka "Coach Gumbie."

↓ Team Force players practice eye-hand coordination by tossing the ball around before scrimmaging.

↑ Player C.J. Brown using his "tire-dragging" technique for training.

↑ A player wraps his hands with tape before practice.

↓ Team Manager Carolyn Boebinger talks with player Jeff Butler before practice.

↓ Player Emily Shyrock powers down the court during practice in Austin, TX.

↓ Quad Rugby is played with a volleyball.

**PASSENGER VAN ENGINES/GASOLINE**

**VORTEC ENGINES** To give you uncompromised power and torque for confident daily driving, passing and trailering, look no further than the Vortec engine family. Each model uses innovative “vortex technology” to swirl and tumble the incoming air and fuel for optimum power and response. For information on standard and available engines by model, see the Spec Your Model section.

**VORTEC 4.8L V-8 VVT (L20)**

FlexFuel Capable  
HORSEPOWER: 280 hp @ 5200 rpm  
TORQUE: 295 lb-ft @ 4600 rpm

**VORTEC 5.3L V-8 VVT (LMF)**

Active Fuel Management/FlexFuel Capable  
HORSEPOWER: 310 hp @ 5200 rpm  
TORQUE: 334 lb-ft @ 4500 rpm

**VORTEC 6.0L V-8 VVT (L96)**

FlexFuel Capable  
HORSEPOWER: 324 hp @ 4800 rpm  
TORQUE: 373 lb-ft @ 4300 rpm

**COMPRESSED NATURAL GAS (CNG) TECHNOLOGY** GMC supports the goal of reducing CO<sub>2</sub> emissions by introducing CNG technology that significantly reduces vehicle emissions. Check the fleet Web site at [gmcfleet.com](http://gmcfleet.com) for availability.

**E85 FLEXFUEL CAPABILITY<sup>1</sup>** To give you more choices at the pump, Savana Vortec V-8 engines are capable of running on E85 ethanol. This advanced biofuel is a mostly renewable fuel that burns cleaner than gasoline and helps to reduce the need for imported oil.

**VARIABLE VALVE TIMING (VVT)** To give you effortless low-end power, this feature monitors and changes valve open and close points. Standard on all Vortec V-8 engines, this technology gives you near-peak levels of torque across the entire range of engine speeds.

**ENGINES/DIESEL**

**DURAMAX POWER** To become the most powerful available diesel in its class, the Duramax Diesel 6.6L V-8 Turbo uses advanced direct-injection technology to run at peak efficiency and to start easily in extremely cold temperatures—as quickly as 3.0 seconds at -40° F. This advanced engine is also B20 biodiesel capable to help manage fuel costs.

**DURAMAX DIESEL 6.6L V-8 TURBO (LGH)**

HORSEPOWER: 260 hp @ 3100 rpm  
TORQUE: 525 lb-ft @ 1600 rpm

**DURAMAX B20 BIODIESEL CAPABILITY** To reduce CO<sub>2</sub> emissions and stretch your fuel budget farther, the Duramax Diesel is engineered to operate on B20 biodiesel, a mixture of 20 percent biodiesel produced from domestic, renewable resources and 80 percent petroleum diesel.

**DURAMAX HIGH-PRESSURE DIRECT INJECTION** For fast starts in cold weather, quieter operation and maximum efficiency, the direct injection system pressurizes fuel up to 29,000 psi. This helps to turn heavy diesel fuel into a fine mist that can be injected precisely to meet engine demand, burning clean and fast with lower emissions and increased power compared to more conventional diesels.

**TRANSMISSION**

**6-SPEED AUTOMATIC OVERDRIVE TRANSMISSION** Engineered for control and confidence in a wide variety of situations, the 6L90 6-speed automatic is an ideal partner for Vortec power. Filled with innovative technology, this available transmission can help you cut steep climbs, long grades and heavy loads down to size.

**AUTOMATIC GRADE BRAKING** Standard on Savana 2500 and 3500 Series models, this feature can be activated in Tow/Haul mode, but disengaged with Driver Shift Control activated. It monitors vehicle speed, acceleration, engine torque and brake pedal usage. Using this data, it detects when your vehicle is on a downhill grade. Then if necessary, the transmission downshifts to help you hold your desired speed.

**TOW/HAUL MODE** This driver-selectable feature of the available 4- and 6-speed automatic transmissions reduces excess shifting when towing or hauling a heavy load. This is complemented by manual range selection that allows you to manually select desired gears to suit variable driving conditions.

**ONSTAR VEHICLE DIAGNOSTICS**

**ONSTAR VEHICLE DIAGNOSTICS<sup>2</sup>** The peace of mind that comes from knowing the condition of your Savana's key systems is as easy as checking your e-mail. With 6 months of standard service, OnStar Vehicle Diagnostics can run hundreds of checks of your Savana's engine, transmission, antilock brakes and more, then organize the information into an easy-to-read monthly report. OnStar can also run a check of your vehicle as you drive just by pressing the blue button and asking the Advisor for an On-Demand Diagnostics check. That's peace of mind when you need it.

**COMPONENTS**

**135" or 155" WHEELBASE OPTIONS** For the greatest flexibility when ordering and maximum capacity in use, Savana is available in two wheelbase configurations that can suit a variety of personal and professional needs.

**ALL-WHEEL DRIVE (AWD)** Available on the 1500 Series, this innovative AWD system was the first of its kind in a factory-built full-size van. It constantly monitors and adjusts torque quickly and seamlessly between the front and rear wheels for optimum balance and control, giving you extra confidence in a variety of driving conditions.

**EATON<sup>®</sup> AUTOMATIC LOCKING REAR DIFFERENTIAL** No other competitor offers an available fully automatic locking rear differential for on-road use. When the Eaton locker senses a difference in wheel speed between the left and right rear wheels of approximately 100 rpm, it locks both to turn in unison for added traction.

**FULLY BOXED HIGH-STRENGTH STEEL FRAME** To create this strong foundation, two C-channel sections are overlapped, essentially welding a frame inside a frame to form a rigid box that resists bending and twisting. This frame helps Savana achieve impressive Gross Vehicle Weight Ratings (GVWR) and Gross Combination Weight Ratings (GCWR) as well as support a conventional trailer rating<sup>3</sup> of up to 10,000 lbs in Cargo Van models, and up to 9900 lbs in Passenger Van models.

**FULLY INDEPENDENT FRONT SUSPENSION** To give you a smooth ride with maximum control, Savana features a fully independent coil-over-shock front suspension in Rear-Wheel Drive (RWD) models. AWD models use the innovative torsion bar front suspension to keep the ride height close to standard RWD models for easier driver and passenger entry and exit.

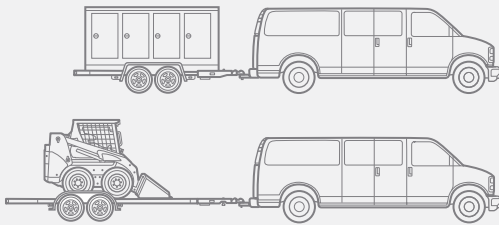

**PARALLEL LEAF SPRING REAR SUSPENSION** For the highest possible load-carrying capacity, all Savana models use parallel leaf springs that increase their capacity progressively to match your payload, preserving a comfortable ride when empty and a strong, stable feel when loaded to the limit.

<sup>1</sup>E85 is a blend of 85 percent ethanol and 15 percent regular gasoline. Visit [gmc.com](http://gmc.com) and search E85 for more information on E85 as an alternative fuel. <sup>2</sup>Capabilities vary by model. Visit [onstar.com](http://onstar.com) for details and system limitations. <sup>3</sup>Maximum trailer weight ratings are calculated assuming a base vehicle, except for any option(s) necessary to achieve the rating, plus driver. The weight of other optional equipment, passengers and cargo will reduce the maximum trailer weight your vehicle can tow. See your GMC dealer for details.

**STABILITRAK STABILITY CONTROL SYSTEM** To help you stay in control when the road is loose, snowy, icy, wet or uneven, StabiliTrak uses a network of vehicle sensors to monitor how your Savana is responding to your steering and braking commands. If the system determines your vehicle is not responding properly, it can pulse the brakes or reduce engine power to help you stay on the path being steered. StabiliTrak is not a substitute for common sense; please drive carefully within the limits of the road conditions and your vehicle's capabilities.

**TRACTION CONTROL SYSTEM** To make the most of available traction on many road surfaces, traction control measures and compares the speed of your wheels. If it senses one or more wheels starting to spin, such as on a slippery surface, the system applies individual brakes and manages engine power to slow the wheel down and maintain traction, so you can move forward with a better sense of control.

**TRAILERING CAPACITY<sup>4</sup>** For work or recreation, Savana gives you the trailering capacity you have come to expect from GMC. The maximum ratings range from 6700 lbs in the 1500 Series Cargo Van and 6200 lbs in the Passenger Van. With the Duramax Diesel or the 6.0L V-8, the capability rises up to 10,000 lbs in the 3500 Series Cargo Van and up to 9900 in the Passenger Van.

**POWER STEERING** Rack-and-pinion type steering is standard on all Savana 1500 models. This provides a positive, on-center feel at highway speeds, as well as extra low-speed assist for maneuvering in tight spaces. Savana 2500 and 3500 Series models use power recirculating ball-type steering. The high-capacity power steering pump and large reservoir help to give a constant level of assist, even when operating at the maximum weight rating.

## BRAKING

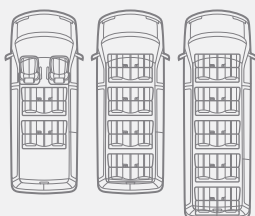

**ANTILOCK BRAKING SYSTEM (ABS)** For confident stops in a variety of conditions, every Savana features four-channel antilock brakes. When the brakes are applied, ABS can detect impending wheel lock-up, and then pulse that wheel's brake to prevent it. The four-channel system can activate any combination of vehicle brakes to maintain control.

**POWER FOUR-WHEEL DISC BRAKES** Every Savana model comes standard with the confidence of power four-wheel disc brakes with ABS. Their large size gives them impressive capacity, which helps the brakes to run cooler and minimize wear.

**CARGO CAPACITY<sup>5</sup>** With its long wheelbase and minimal rear wheel well interference, Savana Cargo Van models can accommodate 4' x 8' sheets flat with both doors closed and have a maximum cargo volume of up to 313.9 cu. ft.

**CLASS-EXCLUSIVE DRIVER-SIDE SWING-OUT DOORS** To save steps and increase your productivity, an extra pair of side doors are available on Savana Cargo Van models. These GM-exclusive swing-out doors let you choose the most convenient access point for fast, easy loading and unloading of tools or cargo.

**MULTIPLE PASSENGER CONFIGURATIONS** With two wheelbase choices, three model series and three basic seating arrangements, Savana passenger vans can accommodate up to eight or 12 passengers in all 135" wheelbase models, or up to 15 passengers in the 155" wheelbase 2500 and 3500 Series models.

## COMFORT AND CONVENIENCE

**CLIMATE CONTROL** You're at your best when you're the most comfortable. All Savana models are equipped with front air conditioning, while rear air conditioning is available on 1500 and 2500 Series models and standard on 3500 Series extended-wheelbase models. A rear auxiliary heater is available with LS trim, included with rear air conditioning and standard on 3500 Series extended-wheelbase models.

**STEERING-WHEEL-MOUNTED RADIO CONTROLS** Control your audio system with your fingertips as you keep your hands on the wheel. These available controls adjust the radio band, channel selection, volume and muting, as well as manage the available Bluetooth<sup>®</sup> function that operates your hands-free phone. When your Savana is equipped with the available USB port,<sup>7</sup> the steering-wheel-mounted controls can also run many of the music search and audio features of compatible MP3 and iPod<sup>®</sup> players.

**TILT-ADJUSTABLE STEERING WHEEL** One touch is all it takes to make yourself comfortable with the available tilt-adjustable steering wheel. Just click the lever and move to the position that suits you best. Choose the available LT model, and your steering wheel is wrapped in leather and fitted with steering-wheel-mounted radio controls.

## ENTERTAINMENT AND CONNECTIVITY

**AVAILABLE DEALER-INSTALLED WI-FI<sup>®</sup>** Connect up to 20 wireless users at one time and stay in touch with your life's vital information with the first wireless router designed just for automotive use. It's called Autonet Wi-Fi and it allows any combination of laptops, phones or other Wi-Fi-enabled devices to connect to the Internet. Ask your dealer for specific plans and prices.

**BLUETOOTH FOR PHONE<sup>®</sup>** To extend your capabilities, Savana is available with Bluetooth. This allows you to wirelessly operate your compatible phone through the controls and features already installed in your Savana, including hands-free operation and dialing.

**SiriusXM SATELLITE RADIO<sup>®</sup>** Enjoy SiriusXM Satellite Radio in your Savana, with a 3-month trial subscription to the XMPremier Package available in LS and LT models. Only SiriusXM brings you more of what you love, all in one place. Get over 130 channels, including commercial-free music, plus the best sports, news, talk, comedy and entertainment. Welcome to the world of SiriusXM.

**USB CONNECTIVITY<sup>7</sup>** Plug into the available USB port and you can control most of your iPod<sup>®</sup> or MP3 music player's functions, including playlists and song selection from your available steering-wheel-mounted radio controls.

## SECURITY

**PASS-KEY III THEFT DETERRENT SYSTEM** Preventing unauthorized starting attempts in your Savana comes down to a tiny chip found in your ignition key. It functions as an electronic "fingerprint" that disables your starting system if it detects a theft attempt is underway.

**POWER DOOR LOCKS WITH LOCKOUT PROTECTION** Avoid the angry feeling of locking your keys in the car with this available system. It will prevent driver door locking if a key is still in the ignition system and the vehicle is in park.

**REMOTE KEYLESS ENTRY** One touch is all it takes for this available system to lock or unlock your doors from up to 195 feet away. Remote Keyless Entry can also flash your lights and sound your horn in a parking lot to help you locate your vehicle.

**REMOTE VEHICLE START** This available feature will start your vehicle from up to 195 feet away and run it for up to 10 minutes to start warming up or cooling down, based on your presets.

<sup>4</sup>Maximum trailer weight ratings are calculated assuming a base vehicle, except for any option(s) necessary to achieve the rating, plus driver. The weight of other optional equipment, passengers and cargo will reduce the maximum trailer weight your vehicle can tow. See your GMC dealer for details. <sup>5</sup>Cargo and load capacity limited by weight and distribution. <sup>6</sup>Go to [gm.com/bluetooth](http://gm.com/bluetooth) to find out which Bluetooth phones are compatible with the vehicle. <sup>7</sup>Not compatible with all devices. <sup>8</sup>Monthly rates apply. Visit [autonetmobile.com](http://autonetmobile.com) for coverage map and details. <sup>9</sup>Requires a subscription, sold separately by SiriusXM after the trial period. SiriusXM Radio service only available in the 48 contiguous United States and the District of Columbia. For more information and to view Customer Agreement, visit [siriusxm.com](http://siriusxm.com).

ONSTAR

## DIRECTIONS & CONNECTIONS

**DIRECTIONS & CONNECTIONS PLAN<sup>1</sup>** Never-ending demands on your time place a premium on the ability to sort and focus the information most important to you. To put this capability at your fingertips, Savana models come standard with a 6-month trial subscription to OnStar Directions & Connections Plan.

**HANDS-FREE CALLING WITH VOICE-ACTIVATED DIALING** Available OnStar Hands-Free Calling is a service built into your Savana. Just push a button, call out the number and you're free to keep your eyes on the road. It's reliable, because it is specially designed for better connectivity and fewer dropped calls in areas with limited cellular reception.

**TURN-BY-TURN NAVIGATION** Drive with more confidence and certainty. OnStar Turn-By-Turn Navigation is built into your Savana. It's simple—all you have to do is push one button and ask the OnStar Advisor to download directions to your Savana. Turn-By-Turn is also smart, because an automated voice calls out every turn, as you need it.

## SECURITY

**REMOTE DOOR UNLOCK** It's happened to everyone. But there is an easy solution. If you get locked out of your Savana, OnStar can help. After verifying your account, an OnStar Advisor can send a remote signal to your Savana that usually unlocks the doors within minutes. Requires power door locks.

**REMOTE HORN AND LIGHTS** Say you're in a large parking area and you just can't remember where you parked. Just call the toll-free number and OnStar can send a remote signal to flash your lights and sound your horn to help you locate your Savana.

**ROADSIDE ASSISTANCE<sup>2</sup>** If the unexpected happens on the road—you're stranded, run out of gas or have a flat tire—one push of the OnStar button can immediately connect you to an Advisor, ready to help any hour of the day or night. OnStar can use GPS technology to pinpoint your location and connect you to a service provider. No guessing about where you are or what to do.

**STOLEN VEHICLE ASSISTANCE** If your Savana is ever stolen, OnStar can help to locate it after verification with law enforcement. OnStar can use built-in GPS technology to help locate it, prevent it from restarting with Remote Ignition Block or, if the vehicle is in use, engage the Stolen Vehicle Slowdown technology to help police recover it quickly and safely.

## DRIVER CONFIDENCE

**AUTOMATIC CRASH RESPONSE** If your Savana is in a crash, built-in sensors can automatically send an alert to OnStar. An OnStar Advisor is immediately connected to your vehicle to help you. Even if you aren't capable of responding, the Advisor can use GPS technology to locate you and request that emergency help is sent right away.

**CRISIS ASSIST** During severe weather or other natural disasters, OnStar can offer assistance and help you navigate your way to safety. Just push the red OnStar emergency button and our specially trained Crisis Assist Team moves quickly to help you. OnStar can pinpoint your location and provide up-to-date information from public safety authorities, request that help be sent to you or even contact family members or loved ones.

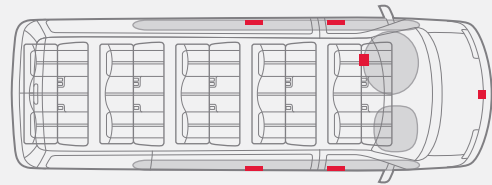

**EMERGENCY SERVICES** If someone in your Savana needs emergency help, the OnStar emergency button gives you a priority connection to a specially trained Advisor at any time, day or night. OnStar uses GPS technology to pinpoint your location and can request police, fire or medical support be sent right away. The Advisor can also stay with you until help arrives.

ONSTAR

**ONSTAR REMOTELINK APP** The OnStar RemoteLink App offers an amazing level of control and connection with your vehicle. After downloading and registering the app, GMC owners with an eligible vehicle can use their iPhone<sup>®</sup> or Android<sup>™</sup>-based mobile devices to control their vehicle from their phone and perform specific commands—like unlocking their doors—remotely. You can lock/unlock your doors from any distance, start your vehicle remotely,<sup>3</sup> flash your lights and sound your horn to help locate your vehicle or contact an OnStar Advisor, Roadside Assistance or your preferred dealer. To learn all about all the great features available, go to onstar.com.

PASSENGER PROTECTION

**FRONTAL AIR BAGS<sup>4</sup>** To help reduce the risk of injury, all Savana models feature driver and front-passenger frontal air bags. Savana 1500 models have the Passenger Sensing System that can deactivate the outboard front-passenger air bag if that occupant is under a certain weight.

**HEAD CURTAIN SIDE-IMPACT AIR BAGS<sup>4</sup>** This system is standard for the first-, second-, and third-row outboard passengers. These air bags unfurl from the roof rail like a protective curtain for outboard passengers and can be activated by either rollover sensors or side-impact sensors. It only takes milliseconds for these air bags to deploy and all the air bags can stay inflated for up to five seconds in the event of a rollover.

**REINFORCED STEEL SAFETY CAGE DESIGN** Savana's high-strength steel frame is tied into the main body structure with reinforced body sills, roof pillars and a reinforced floor. This design creates a safety cage that surrounds passengers and helps to maintain passenger compartment integrity in the event of a collision.

**TIRE PRESSURE MONITORING SYSTEM** Properly inflated tires are important to your comfort, vehicle control and economy. The Tire Pressure Monitoring system uses tiny sensors inside the wheel to "broadcast" tire pressure to your vehicle,<sup>5</sup> which alerts you to their status and inflation level through the Driver Information Center. If you subscribe to OnStar Vehicle Diagnostics, this information is part of their monthly e-mail update, or if you have the RemoteLink App, you can check the status instantly.

## COMMERCIAL / VOCATIONAL

**FLEXIBLE OPTIONS** GM Fleet Operations offers many different upfit options for your Savana. Please see your GMC dealer for details.<sup>6</sup>

MOBILITY

**155" WHEELBASE PASSENGER VAN** This gives you a stable, comfortable platform that is easy to drive and control. Yet, it still leaves plenty of room for the interior upfits you need to accommodate passengers of varying abilities, all with the dignity and comfort they deserve.

**DESIGNED FOR AMERICANS WITH DISABILITIES ACT (ADA) COMPLIANCE** To assist you and your organization with compliance under the ADA, Savana is designed to be fitted with ADA-compliant wheelchair and seating configurations, without compromising interior comfort or convenience. Savana readily accepts conversions for a raised top, raised doors and upper reinforcement safety structure upfits, as well as various wheelchair lift options, retractable wheelchair securement systems, numerous wheelchair seating configurations, running boards and entry systems.

<sup>1</sup>OnStar acts as a link to existing emergency service providers. Services vary with conditions. Visit onstar.com for coverage map, details and system limitations. <sup>2</sup>Roadside service provided by Cross Country. <sup>3</sup>Requires factory-installed remote start. <sup>4</sup>Air bag inflation can cause severe injury or death to anyone too close to the air bag when it deploys. Be sure every occupant is properly restrained. Always use safety belts and the correct restraint for your child's age and size. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with a passenger air bag. See the Owner's Manual and child safety seat instructions for more safety information. <sup>5</sup>Does not monitor spare tire. <sup>6</sup>Mobility upfits contain equipment from independent suppliers. See page 16 for information about alterations and warranties.

<sup>1</sup>Not compatible with all devices. <sup>2</sup>Go to gm.com/bluetooth to find out which Bluetooth phones are compatible with the vehicle. <sup>3</sup>Visit onstar.com for details and system limitations. <sup>4</sup>Requires a subscription, sold separately by SiriusXM after the trial period. SiriusXM Radio service only available in the 48 contiguous United States and the District of Columbia. For more information and to view Customer Agreement, visit siriusxm.com. <sup>5</sup>Always use safety belts and the correct restraint for your child's age and size. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in an appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with a passenger air bag. See the Owner's Manual and child safety seat instructions for more safety information.

## IMPORTANT WORDS

### COMMITMENT PLUS

From the owner orientation—and full tank of gas—you receive when you take possession of your Savana to the **24-Hour Roadside Assistance, Courtesy Transportation and Travel Benefits**, Commitment Plus is a portfolio of owner privileges that lasts throughout your warranty. For expert product information, Roadside Assistance or other services, call 1-800-GMC-8782.

**TRAVEL BENEFITS AND ROADSIDE ASSISTANCE** Available around the clock: trip routing service, a program for reimbursement for trip interruption due to necessary warranty repairs, towing, flat tire change, jump-starts and more for 5 years or 100,000 miles (whichever comes first).

**COURTESY TRANSPORTATION** Available at participating dealers: shuttle service, reimbursement of certain public transportation or fuel expenses for overnight warranty repairs, and courtesy rental for overnight work repairs. See your dealer for details.

**GMC OWNER CENTER** A complimentary, one-stop resource to enhance your GMC ownership experience. It's easy to sign up. Just go to [gm.com/gmownercenter/gmc](http://gm.com/gmownercenter/gmc).

### ONSTAR

OnStar is a core asset of your Savana. Benefiting from more than a decade of innovative development, it is both a highly advanced technology—fully integrated within the vehicle—and a warm human service. Standard on all Savana models are 6 months of the OnStar Directions & Connections Plan, including the convenience of available Hands-Free Calling. It also includes Automatic Crash Response, Stolen Vehicle Assistance, link to Emergency Services, Roadside Assistance, Remote Door Unlock, OnStar Vehicle Diagnostics, Crisis Assist and Remote Horn and Lights. OnStar services require vehicle electrical system (including battery), wireless service and GPS satellite signals to be available and operating for features to function properly. OnStar acts as a link to existing emergency service providers. Visit [onstar.com](http://onstar.com) for coverage maps, details and system limitations. Services vary with conditions.

### HANDS-FREE CALLING

Available OnStar Hands-Free Calling capability is built into your Savana. It's there when your cell phone is unavailable, its battery is low, you can't reach it easily or you left it home or in the office. Your Hands-Free Calling system is the right choice whenever you need an easy way to make and receive calls—at the touch of the phone icon on the rearview mirror or the steering-wheel-mounted controls. Voice-activated dialing is convenient because you don't have to dial when you are at the wheel. And Hands-Free Calling is reliable because it's specially designed for better reception and fewer dropped calls in areas of limited cellular reception.

### ONSTAR TURN-BY-TURN NAVIGATION

Standard on all Savana models are 6 months of the OnStar Directions & Connections Plan that adds innovative, easy-to-use Turn-by-Turn Navigation plus Information and Convenience Services and Driving Directions. With Turn-by-Turn Navigation, you simply tell the OnStar Advisor your intended destination, and directions will automatically be sent to your Savana. If you drive off-course, the system can reroute you to your intended destination. An automated voice then guides you turn-by-turn until you arrive at your destination. Turn-by-Turn Navigation is further enhanced with eNAV, allowing you to send Google™ Maps and MapQuest™ directions directly to your vehicle. No need to print out directions; just call them up with simple voice commands.

### SIRIUSXM SATELLITE RADIO

SiriusXM Satellite Radio<sup>1</sup> is standard on all Savana models with 3 trial months of service to the XMPremier Package. SiriusXM Satellite Radio makes your drive come alive with commercial-free music channels from virtually every genre, artist-dedicated channels, live performances and more. Tune in to live play-by-play from the biggest sports, exclusive entertainment from top personalities, compelling talk, hilarious comedy, world-class news, local traffic and weather and family-friendly programming. Welcome to the world of satellite radio. Visit [siriusxm.com](http://siriusxm.com) for details.

### GMC CERTIFIED SERVICE

**GMC Certified Service** To help your Savana live up to its performance promise, GMC Certified Service—found exclusively at your GMC dealer—is there. With all the engineering excellence in Savana, GM-trained technicians have the expertise to care for all of it.

**A NOTE ON CHILD SAFETY** Always use safety belts and the correct restraint for your child's age and size. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with a passenger air bag. See the Owner's Manual and child safety seat instructions for more safety information.

**TRAILERING AND OFF-ROAD INFORMATION** Please carefully review the Owner's Manual for important safety information about trailering or off-road driving in your vehicle.

**IMPORTANT WORDS ABOUT THIS CATALOG** We have tried to make this catalog comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colors, materials, equipment, specifications, models and availability. Specifications, dimensions, measurements, ratings and other numbers in this catalog and other printed materials provided at the dealership or affixed to vehicles are approximates based upon design and engineering drawings and prototypes and laboratory tests. Your vehicle may differ due to variations in manufacture and equipment. Since some information may have been updated since the time of printing, please check with your GMC dealer for complete details. GMC reserves the right to lengthen or shorten the model year for any product for any reason, or to start and end model years at different times.

**FLEET ORDERS** Some standard content may be deleted with fleet orders. See dealer for details.

**ENGINES** GMC products are equipped with engines produced by GM Powertrain or other suppliers to GM worldwide. The engines in GMC products may also be used in other GM makes and models.

**GMC.COM** See more of Savana on our Web site: [gmc.com/savana](http://gmc.com/savana). More photos and information; hot links to related subjects; convenient dealer locator; pricing guide, spec out your own vehicle. Or call 1-800-GMC-8782.

**AN IMPORTANT NOTE ABOUT ALTERATIONS AND WARRANTIES** Installations or alterations to the original equipment vehicle (or chassis) as distributed by General Motors are not covered by the General Motors New-Vehicle Limited Warranty. The special body company, assembler, equipment installer or upfitter is solely responsible for warranties on the body or equipment and any alterations (or any effect of the alterations) to any of the parts, components, systems or assemblies installed by GM. General Motors is not responsible for the safety or quality of design features, materials or workmanship of any alterations by such suppliers.

**NEW-VEHICLE LIMITED WARRANTY** All GMC light-duty vehicles come with a fully transferable, no-deductible 5-year/100,000-mile (whichever comes first) Powertrain Limited Warranty. GM vehicles registered in the U.S.A. are also covered for 3 years or 36,000 miles (whichever comes first). Coverage includes tires and towing to your nearest GMC dealership. Repairs will be made to correct any vehicle defect and most warranty repairs will be made at no charge. In addition, rust-through corrosion will be covered for 6 years or 100,000 miles (whichever comes first). See dealer for details.

**ASSEMBLY** GMC vehicles and their components are assembled or produced by different operating units of General Motors, its subsidiaries or suppliers to GM worldwide. We sometimes find it necessary to produce GMC vehicles with different or differently sourced components than originally scheduled. Since some options may be unavailable when your vehicle is assembled, we suggest that you verify that your vehicle includes the equipment you ordered or, if there are changes, that they are acceptable to you.

**GMMOBILITY.COM** (1-800-323-9935) GM Mobility offers financial assistance for eligible adaptive equipment to make automotive travel easier for persons with disabilities or special transportation needs. To learn more about special GM Mobility offers, visit [gmmobility.com](http://gmmobility.com).

**GMCARDMEMBERSERVICES.COM** Did you know about the family of reward credit cards that can help you get a great deal on a new GM car, light-duty truck, SUV or crossover? With a GM reward card, you accrue earnings on every credit card purchase to use toward the purchase or lease of an eligible new GM vehicle. With three cards to choose from, you're sure to find one that suits you.

<sup>1</sup>Requires a subscription, sold separately by SiriusXM after the trial period. SiriusXM Radio service only available in the 48 contiguous United States and the District of Columbia. For more information and to view Customer Agreement, visit [siriusxm.com](http://siriusxm.com).
