THE CIVIC 5 DOOR **ADVANCED AND SPORTY**

At Honda, we believe in constantly pushing the boundaries of excellence to achieve ever more powerful, efficient and enjoyable driving machines.

The Civic range is testament to this way of thinking. It has been refined, re-examined and re-styled, with dramatic looks that reflect its powerful performance, advanced technology that keeps you connected to every aspect of your drive, and exceptional levels of finish which surround you in comfort.

As you'd expect, the Civic range also features Honda's most advanced safety features, giving you complete peace of mind.

Model shown is Civic 1.6 i-DTEC Sport in Brilliant Sporty Blue Metallic with 17" sport alloys.
Images are shown for illustration purposes only and show a left hand drive vehicle. In the UK, the Civic will be a right hand drive vehicle.

THE LOOKS TO MATCH
THE PERFORMANCE

Introducing a more aggressively styled Civic to the range. The Civic Sport has been developed by the same team that created the stunning new Type R.

And it shows; dramatic new styling from the grille incorporated into the racy new front, the colour coded rear spoiler and the sporty 17" black alloy wheels add a much more dynamic appearance and, most importantly, raise the hairs on the back of your neck.

Model shown is Civic 1.6 i-DTEC Sport in Brilliant Sporty Blue Metallic with 17" sport alloys.
Images are shown for illustration purposes only and show a left hand drive vehicle. In the UK, the Civic will be a right hand drive vehicle.

SMALL DETAILS **BIG DIFFERENCES**

Every design feature in the Civic, from the bold bright LED driving lights integrated into the sculpted headlights to the wrap-around rear spoiler, is designed to give an unmistakably sporty look.

The powerful engines deliver an effortless drive with more fuel efficiency and less noise.

The result is a car that not only looks great, but is responsive, efficient and intuitive to drive.

Model shown is Civic 1.8 i-VTEC SR in Polished Metal Metallic.
Images are shown for illustration purposes only and show a left hand drive vehicle.
In the UK, the Civic will be a right hand drive vehicle.

STYLE, COMFORT **CONTROL**

Our most important consideration is the driver, which is why the Civic range has been crafted around you. Power, control and comfort surround you and are placed effortlessly at your fingertips.

The dual display dashboard ensures all the essential information on speed, revs and fuel consumption is arranged directly in front of you, making it easy and safe to read. The steering wheel controls and the new audio interface have all been carefully designed to give you total control of the road, the performance and the in-car environment.

Attention to detail is everything, so the Civic has been refined with chrome detailing emphasising its sporty nature and complementing the exterior's contemporary styling.

Model shown is Civic 1.8 i-VTEC SR with automatic transmission, Driver Assistance Safety Pack and Honda CONNECT. For information on which grades these features are available on, please refer to specification pages 39-42. Images are shown for illustration purposes only and show a left hand drive vehicle. In the UK, the Civic will be a right hand drive vehicle.

PERSONALISED HOME SCREEN*

Personalise Honda CONNECT by uploading your favourite photo as wallpaper. The display can be customised and personalised to suit your style.

BLUETOOTH™ HANDS FREE TELEPHONE**

Use the intuitive touchscreen to access all your mobile phone contacts.

GARMIN NAVIGATION†

Garmin PhotoReal™ displays upcoming junctions with photo-realistic images of junctions and exits with arrow lane indication to provide clear guidance. The system also includes predictive routes, real-time traffic avoidance, road speed limit display, 3D buildings, terrain views and more.

KEEPING YOU CONNECTED

We've developed innovative and intelligent technology that enhances every journey.

The Civic incorporates the new Honda CONNECT in-car audio and information system which keeps you in touch with all the things you love in life, like your music and your friends, all within one central touchscreen display which can be controlled with smartphone-like operation.

Honda CONNECT offers excellent connectivity to keep you in touch whilst on the road through Wi-Fi tethering* or Mobile Wi-Fi Router.

The Honda CONNECT 7" touchscreen can be personalised with your favourite photos. It is also easy to select the soundtrack to your journey with Aha™ radio. You can listen to your favourite internet-delivered music services and radio programmes from around the world including news, weather, sports, podcasts and audiobooks.

The Bluetooth™ connectivity allows you to connect your smartphone to the Hands Free Telephone system within the car‡.

Furthermore it is possible to browse the internet** on your touchscreen.

Garmin's award-winning satellite navigation is available as an option in Honda CONNECT and uses a simple icon menu to provide you with real-time traffic information, road speed limit warnings as well as access to 5 year free map updates.

AHA™

The Aha™ app enables you to connect to internet radio, access your Facebook™ and Twitter™ accounts and find nearby restaurants and hotels.

*Data usage and roaming charges may result from using applications on Honda CONNECT.
**Function can only be used when the car is stationary.
†For information on which grades these features are available on, please refer to specification pages 39-42.
‡HFT Compatibility may vary.

FEEL GOOD
INSIDE

The Civic's interior is a great place to be.

Every part of its design has been given care and consideration, from the way the controls look and feel, to the support and comfort of the sculptured seats. After all, we aim to make every journey, however long, a joy.

On the Sport grade, the black roof lining and pillars bring a sporty edge to the interior.

Model shown is Civic 1.6 i-DTEC Sport, manual transmission with fabric interior and Honda CONNECT. For information on which grades these features are available on, please refer to specification pages 39-42. Images are shown for illustration purposes only and show a left hand drive vehicle. In the UK, the Civic will be a right hand drive vehicle.

ADAPTABLE FOR LIFE

We believe a car should adapt to you. The Civic's clever rear 'Magic Seats' fold into a range of configurations, so you can create the perfect space for whatever your journey requires. In one simple motion the seats lift up or fold down, locking easily into place, giving a unique option for carrying whatever you need.

With such flexibility, you can extend the already generous boot space to an impressive 1,378 litres, including 70 litres of under-floor storage space. Every occasion is catered for.

PERFORMANCE

TO BE PROUD OF

We're driving the limits of performance and efficiency. Our i-VTEC petrol engines and i-DTEC diesel engines are designed to deliver outstanding fuel economy, exhilarating performance and cleaner emissions.

The 1.4 i-VTEC pushes small engine performance with 100PS and an impressive fuel economy of 51.4mpg with CO₂ emissions of 131g/km^{*}.

The powerful 1.8 i-VTEC has 142PS but still has the fuel efficiency of a smaller engine.

The new 1.6 i-DTEC delivers 120PS, with excellent fuel economy of 78.5mpg and CO₂ emissions of 94g/km[†].

Now it's even easier to get the most out of our engines too. They all come equipped with a 6-speed manual transmission and a shift indicator that informs you of the best time to change gear, so you can maximise your fuel economy. And for those who prefer an automatic transmission, our 1.8 i-VTEC is available in 5-speed automatic transmission, with fuel economy of 44.8mpg and CO₂ emissions of 148g/km[‡].

^{*}1.4 i-VTEC manual transmission combined 51.4mpg, 131g/km CO₂.

[†]1.6 i-DTEC manual transmission 76.3-78.5mpg, 94-98g/km CO₂.

[‡]1.8 i-VTEC manual or automatic transmission combined 44.1-46.3mpg, 145-150g/km CO₂.

For more information on performance, please refer to specification pages 39-42. Model shown is Civic 1.6 i-DTEC Sport in Brilliant Sporty Blue Metallic with 17" sport alloys. Images are shown for illustration purposes only and show a left hand drive vehicle. In the UK, the Civic will be a right hand drive vehicle.

PERFORMANCE AND EFFICIENCY

Featuring our Earth Dreams Technology engine, the Civic 1.6 i-DTEC is a finely tuned balance of performance and efficiency.

Delivering 120PS, it is unrivalled in its class for torque and power, with fuel efficiency of 78.5mpg and low emissions of 94g/km CO₂*

Available in all grades, this innovatively designed engine has been built with reduced weight and friction, enabling the engine to deliver the economy we all desire without compromising on performance. The result: fast response, a smooth drive and sporty handling too.

*1.6 i-DTEC manual transmission combined 76.3-78.5mpg, 94-98g/km CO₂. For more information on performance, please refer to specification pages 39-42.

Model shown is Civic 1.6 i-VTEC SR in Polished Metal Metallic.

Images are shown for illustration purposes only and show a left hand drive vehicle. In the UK, the Civic will be a right hand drive vehicle.

GREAT POWER GREAT RESPONSIBILITY

Feeling comfortable is more than innovative interior design; it's the feeling of being completely safe too. The Civic backs up all of its power and performance with state-of-the-art safety features.

Honda climate chamber at our Swindon manufacturing facility.

On the outside our Advanced Compatibility Engineering body structure absorbs and deflects impact away from you and your passengers, keeping everyone protected.

Inside, multiple airbags, Anti-lock Braking System, Electronic Brake-force Distribution and Vehicle Stability Assist all come as standard. Other intelligent features such as Brake Assist, which boosts braking power in an emergency, keep you safer than ever on the roads.

On top of all this, the Driver Assistance Safety Pack combines the very latest in recognition technology with intelligent features such as Traffic Sign Recognition, Lane Departure Warning and Blind Spot Indication.

You can feel assured knowing the Civic has a Euro NCAP 5 star rating, which is the maximum available in independent tests.

Limits are set, pushed, broken, and set again. At Honda, we test our engines to extremes, so you can drive with unconditional confidence.

It may seem excessive, but we heat our engines to over 80°C. Then we cool them to -30°C. We run them at high revs for days at a time. We take them apart and rebuild them. We do it over and over again. Why do we do this? We do this to be absolutely sure our engines are reliable on any road, in any conditions.

Honda's research and development facility in Tochigi not only provides a state-of-the-art research centre, it also includes a comprehensive proving ground as well. This allows us to develop vehicles that incorporate the kind of cutting-edge safety, performance and comfort that make them a sheer delight to drive.

Euro NCAP 5 star rating, the maximum available in these independent tests.

EMERGENCY STOP SIGNAL
If an emergency situation forces you to brake heavily, drivers behind you need as much warning as possible. Emergency Stop Signal does just that, automatically flashing the hazard lights in the event of hard braking to reduce the chance of a rear-end collision.

COMING HOME / LEAVING HOME LIGHTS
Your convenience is always a top priority for us at Honda. So when you park your Civic at night, it automatically leaves the headlights on for 15 seconds, illuminating your surroundings. And when you return to unlock the car, it repeats the action, to assist you quickly and safely in the dark.

WHIPLASH LESSENING FRONT HEAD RESTRAINTS
In the event of a collision, these front head restraints and 3-point ELR seat belts help keep passengers safe and secure.

AIRBAGS
The Civic has been fitted with airbags all around, including curtain airbags. The Dual Supplemental Restraint System (SRS) gives complete protection.

VEHICLE STABILITY ASSIST (VSA)
Whilst driving, the VSA sensors monitor grip to calculate the amount of power or braking force needed for maximum control.

DEFLATION WARNING SYSTEM (DWS)
The Deflation Warning System monitors tyre pressure and lets you know if you might have a puncture.

DRIVER ASSISTANCE SAFETY PACK

EXTRA SMART
EXTRA SAFE

Everyone wants to protect their family.

And no-one understands this more than us, which is why we offer Driver Assistance Safety Pack technologies.

The City-Brake Active System, which is standard on all grades, monitors the traffic in front of the car and warns of a forward collision, allowing the driver time to take action.

You can get that extra peace of mind by taking advantage of our most advanced technologies, such as our Lane Departure Warning alarm and the clever Forward Collision Warning, which monitors the area around the car to help you avoid collisions and keeps everyone that bit safer.

Blind Spot Information

Making lane changes and overtaking safer, this innovation warns you when vehicles are detected in your blind spot.

High Beam Support System

The High Beam Support System assesses the driving conditions around you and switches automatically between high and low beam.

Forward Collision Warning

Should the front camera pick up a car in front, the system warns of a front-on collision, allowing you time to take action.

Traffic Sign Recognition System

Traffic Sign Recognition System identifies traffic signs up to 100m away and relays this information to the driver via the i-MID as you pass them. Two signs can be displayed at any one time.

Lane Departure Warning

When road lines are detected and the car deviates from your current lane without indicating, Lane Departure Warning alerts you to the fact with audible and visual warnings.

Cross Traffic Monitor

When reversing, the Cross Traffic Monitor can detect approaching vehicles from either side and warns the driver of imminent danger. The warning appears on the i-MID.

CITY-BRAKE ACTIVE SYSTEM

1 While driving around town between 3-18mph, to give you the best chance of avoiding a collision, this system can monitor the distance between you and the car in front.

2 If you continue getting closer to a detected vehicle, the Civic gives you audible and visual warning via the i-MID display.

3 If you've still not reacted, and a collision is imminent, the City-Brake Active System can automatically apply emergency braking to reduce speed as much as possible. In good driving conditions it can even avoid a collision altogether.

CHOOSE YOUR FAVOURITE OPTION PACKS

As you would expect from Honda, each option has been developed, tested and built for safety, security and durability. Because they were developed at the same time as the car itself, you can be sure that every piece matches the same standards of quality and reliability. And each accessory is made to fit with the lines of the Civic. Bespoke and ready to go. The best of all worlds from Honda.

Image includes 17" Cobalt alloy wheels, available separately.

Image includes 18" Hydrogen alloy wheels, available separately.

PREMIUM PACK

The Premium Pack is a package of accessories stylishly designed to protect your car from scrapes, scratches, mud and sand.

PACK CONTENTS:

- Elegance Floor Carpets
- Doorstep Garnishes
- Front and Rear Mudguards
- Boot Tray

CHROME PACK

Emphasise the elegance of your Civic by adding several chrome accents.

PACK CONTENTS:

- Front Grille Garnish
- Window Decorations
- Side Body Trim Decorations
- Rear Skirt Garnish
- Sports Tank Lid

Image includes 18" Inferno alloy wheels, available separately.

RALLY RED EXTERIOR PACK

Distinguish yourself from the rest by giving your car that extra personal touch. The Red Exterior Pack gives a sporty look to your car using Rally Red accents all around the car.

PACK CONTENTS:

- Front Grille Garnish
- Door Mirror Covers
- Rear Bumper Garnish

RALLY RED INTERIOR PACK

Image includes Gearshift knob and Elegance floor carpets

Maximise the personality inside your car by applying the Red Interior Pack. This pack connects the colour accents of the exterior with the interior, emphasising the natural sportiness of the car.

PACK CONTENTS:

- Air Outlet Decorations
- Centre Console Decoration
- Steering Wheel Garnish

SHINY BLACK INTERIOR PACK

Maximise the personality inside your car by applying the Shiny Black Interior Pack. This pack, connecting the colour accents of the exterior with the interior, emphasises the sportiness of the car.

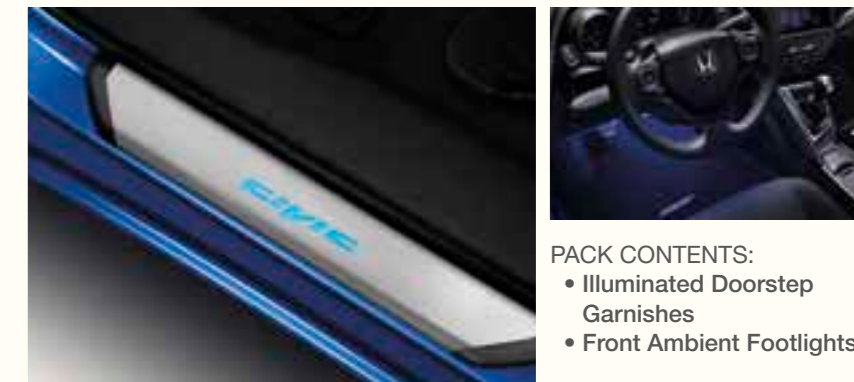

PACK CONTENTS:

- Air Outlet Decorations
- Centre Console Decoration
- Steering Wheel Garnish

ILLUMINATION PACK

Gives an ambient atmosphere to the interior of the car.

PACK CONTENTS:

- Illuminated Doorstep Garnishes
- Front Ambient Footlights

SINGLE OPTIONS

DETACHABLE TOW BAR

Fixed Tow Bar also available.

The Honda Genuine Tow Bar enables you to tow your caravan or trailer with a maximum towing capacity of 1,000kg to 1,400kg depending on your vehicle engine and transmission type. The detachable version has a foldable socket plate so it becomes invisible when not in use. The maximum vertical load is 75kg.

ROOF RACK AND ATTACHMENTS

Expand your car's carrying capacity with a strong, secure roof rack. Including four locks. Maximum load capacity using extra clamps: 70kg, maximum 75kg on roof.

DOG GUARD

The Dog Guard is designed to keep pets and luggage safely in the luggage compartment of your car while driving. It divides the passenger compartment from the luggage compartment.

[†]Fuel consumption CO₂ and weight figures are measured according to EC directive procedures. As a result of driving behaviour, road, traffic and weather conditions, general state and equipment level of the vehicle, real life fuel consumption and CO₂ figures may differ from these official values. In case of weight (defined as mass in running order), it applies to vehicles with standard equipment. Optional equipment may increase this figure and decrease the payload.

*Connectivity for Aha™ app (including internet radio) and for internet browsing is through Wi-Fi tethering or Mobile Wi-Fi Router. Data usage and roaming charges may result in using applications on Honda CONNECT. We recommend you check your mobile phone subscribed package. Internet browsing function can only be used when the car is stationary.

**HFT compatibility may vary.

[‡]Always use the recommended USB flash memory device. Some USB memory devices may not work in this audio unit.

Vehicle versions and equipment levels presented in this catalogue may not be available in all countries. For precise information, please contact your local Honda dealer.

The Civic is covered by several different warranties as follows:

3 year or 100,000km Standard warranty

3 year Paint corrosion warranty

5 year Exhaust corrosion warranty

10 year Chassis corrosion warranty

12 year Structural corrosion warranty

CIVIC DNA

Civic is a story of continued development, of re-evaluating and re-inventing, of trying new ideas and discovering new technologies. Our engineers have a clear vision, they want to build a car that balances impressive performance, a unique design and flexible space, a range that is specifically designed to have a variety of characters, a hatchback and a Tourer, cars that not only look good on the road, but are successful on the race track. In many ways it perfectly reflects our passion for creating cars that people love to own and, of course, love to drive.

Models shown are Civic Type R in Championship White, Civic 1.8i-VTEC SR in Polished Metal Metallic, Civic 1.6i-DTEC Sport in Brilliant Sporty Blue Metallic and Civic Tourer 1.8i-VTEC SR in White Orchid Pearl. Images are shown for illustration purposes only and show a left hand drive vehicle. In the UK, the Civic will be a right hand drive vehicle.

FOLLOW YOUR **DREAMS**

Dreams can be powerful, they push you to achieve more, to explore new ideas, new technologies and uncover new ways of solving problems. They can be the inspiration to design and build a true supercar like the dramatic new NSX, or the desire to create the technologically advanced new CR-V.

Dreaming of a better world for people to enjoy has given life to a humanoid robot called ASIMO, taken flight with HondaJet and created some of the most popular motorbikes on the planet. The knowledge we gain from all the things we do and all the things we learn, goes into everything we make, just like the Civic.
