

SKYLARK

BUICK 1982

THERE'S little wonder as to why you see so many Skylarks on the road. Since we introduced Buick's X-car, it's quickly become one of the cars North Americans took to heart.

We feel Skylark is one of the handsomer cars on the road today, but those sharp looks reflect a state-of-the-art engineering approach to how a fine car should be built.

With the 1982 Skylark, we've made a good thing even better. One of those good things that so many of you took to was the impressive traction of front-wheel-drive. Couple that with a first-time-offered special high-output 2.8 litre V6 engine and you've got quite a road machine. All Skylarks feature the 2.5 litre 4-cylinder as base engine with a 2.8 litre V6 optional. Overdrive four-speed manual transmission is standard, automatic is available. And, while we're talking transmissions, cruise control is now available for the first time with the standard transmission, and continues to be available with automatic.

The handsome looks of Skylark and Skylark Limited have been changed slightly this year with a new grille, front-end panel and tail lamps. Deluxe wheel covers are standard on Skylark, while eye-catching sport wheel covers dress up the Skylark Sport models.

Inside Skylark, comfort touches previously optional, have been made standard. Power brakes and power

steering. New fabrics and a restyled steering wheel. Colour-coordinated seat and shoulder belts keyed to the interior colour, presenting a unifying overall appearance that's eye-pleasing.

One of the most popular option groups now standard is the lighting package that includes: ashtray, glove box, instrument panel courtesy, engine compartment and trunk lights.

Of course, Buick feels all of these good looks should be retained. To that end, we've provided Skylark with extensive anti-corrosion measures. Two steps are taken to help protect Skylark from our changeable weather. First, we designed-out areas critical to corrosion damage by providing drainage and eliminating pockets that collect moisture and debris. Second, we designed-in structural materials and barriers that are especially impervious to corrosion.

In addition, we used many final finishing procedures like zinc-rich primers and Plastisol lower-body gravel protection to help your Skylark keep its good looks longer. Ask your Buick dealer about the unlimited mileage, Three-year Perforation-from-Corrosion Limited Warranty. And get the details and information about GM's 24-month/24,000 mile Power Protection Plus Limited Warranty on the powertrain.

For added peace-of-mind motoring, be sure to ask about the available GM Continuous Protection Plan option.

Skylark, Skylark Sport, and Skylark Limited are all available in both Coupe and Sedan. We think you'll agree each is a mighty smart way to carry five people.

A word about engines.

These Buicks are equipped with GM-built engines produced by various divisions of General Motors Corporation and GM of Canada.

Order Code	Displacement	Carb. bbl	Cyl.	†V.I.N.	*Source	Transmission
Engines available without Computer Command Control (Opt. NB1)						
LW9	2.5 litre (151 CID)	2	4	5	(1)	4-spd Manual Automatic
LE2	2.8 litre (173 CID)	2	V6	X	(2)	4-spd Manual Automatic
Engines available with Computer Command Control (Opt. NB1)						
LE2	2.8 litre (173 CID)	2	V6	X	(2)	4-spd Manual Automatic
LH7	2.8 litre (173 CID) HO	2	V6	Z	(2)	4-spd Automatic

*Produced by GM. (1) Pontiac Division USA
(2) Chevrolet Division USA

†The V.I.N. (Vehicle Identification Number) Engine Code is the eighth entry (letter or numeral) from the left on the vehicle serial number plate. The vehicle serial number plate is located on the top portion of the driver's side of the instrument panel and can be viewed from the exterior of the car by looking through the windshield.

STANDARD FEATURES ON ALL BUICKS

SAFETY FEATURES

OCCUPANT PROTECTION • Manual lap belts with pushbutton buckles for rear and center front (when applicable) passenger positions • Manual lap/shoulder belts with pushbutton buckles for driver and right front passenger (driver side includes visual and audible warning system) • Energy-absorbing steering column • Passenger-guard door locks • Safety door latches and stamped steel hinges • Folding seat back latches • Energy-absorbing padded instrument panel and front seat back tops • Laminated windshield/tempered side and rear glass • Safety armrests • Identification symbols for controls and displays • Glove box and console door latch impact security • Smooth contoured door and window regulator handles • Automatic locking rear outboard seat belt retractors • Pressure lock radiator cap.

ACCIDENT AVOIDANCE • Side marker lights and reflectors • Parking lamps that illuminate with headlamps • Four-way hazard warning flasher • Backup lights • Lane change feature in direction signal control • Windshield defrosters, washers and dual-speed wipers • Vinyl-edged inside mirror • Outside rear view mirror • Dual master cylinder brake system with warning light • Starter safety switch • Dual action safety hood latches • Low glare finish on instrument panel top, inside windshield moldings, wiper arms and blades, and steering wheel metallic surfaces • Safety wheel rims • Front disc brakes with audible wear indicators • Self-adjusting brakes • Illumination of heater and defroster controls on instrument panel • Pressure relief gas cap.

ANTI-THEFT • Anti-theft ignition key reminder buzzer • Anti-theft steering column lock • Visible vehicle identification number • Anti-theft key system (one key for ignition only, other key for glove compartment, doors, trunk and tailgate).

Skylark Sport—2-door Coupe/4-door Sedan
Skylark Limited—2-door Coupe/4-door Sedan

A word about assembly, components, and optional equipment in these vehicles.

The vehicles described in this brochure are assembled at various Divisions of General Motors Corporation. These vehicles incorporate thousands of different components produced by General Motors of Canada Limited and related companies and their suppliers. From time to time during the manufacturing process, it may be necessary, in order to meet public demand for particular vehicles or equipment, or to meet federally mandated emission and safety requirements or fuel economy guidelines, or for other reasons, to produce vehicles with different components or differently sourced components than initially scheduled. All such components have been approved for use in our products by General Motors of Canada Limited or related companies and will provide the quality performance associated with our name.

Please note that certain optional equipment can be ordered only in conjunction with other optional equipment.

Also, upgrading from specified standard equipment may be necessary when certain optional equipment is ordered. Ask your sales representatives for details.

With respect to extra cost optional equipment, make certain you specify the type of equipment you desire on your vehicle when ordering it from your dealer. Some options may be unavailable when your car is built. Your dealer receives advice regarding current availability of options. You may ask the dealer for this information. GM also requests the dealer to advise you if an option you ordered is unavailable. We suggest you verify that your car includes the optional equipment you ordered or, if there are changes, that they are acceptable to you.

All illustrations and specifications contained in this catalogue are based on the latest product information available at time of publication approval. The right is reserved to make changes at any time, without notice, in prices, colours, materials, equipment, specifications and models, and to discontinue models. Some of the equipment shown or described throughout this catalogue is available at extra cost. Check with your dealer for complete information.

At General Motors,
we're committed to leadership
in fuel efficiency.
