The Power of Dreams

ODYSSEY

BLUE SKIES FOR
OUR CHILDREN

INTRODUCING THE MOST LUXURIOUS ODYSSEY YET

With every generation, the Honda Odyssey takes class to new heights. Now, the lineage of the Odyssey continues with a new model that lets drivers, families and companies experience the luxury of first-class travel like never before. From the smooth, sleek exterior to the groundbreaking Earth Dreams™ 2.4-litre DOHC i-VTEC® technology, the distinctly new Honda Odyssey is designed to bring you to a higher class of travel.

IMPRESSIVELY STYLISH

Streamlined profile, smooth curves and a premium finish. The distinctly new Honda Odyssey arrives in style with its sleek, modern build. From the dramatic front grille to the bold rear aero bumpers, the Odyssey makes a truly lasting impression with its modern, aerodynamic look.

LED headlights and daytime running lights add an elite touch of elegance while enhancing safety and illumination; the LED headlights come with Active Cornering Lights.

LED brake lights heighten brightness and improve visibility.

Enjoy the added convenience of one-touch dual power sliding doors.

The stylish grille and other accents give the Odyssey a bolder feel.

Let in some pure sunshine and feel the rush of the wind by opening the sunroof.

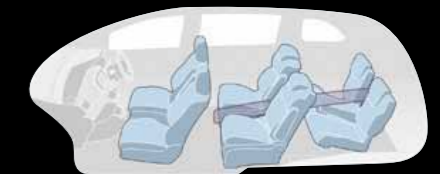

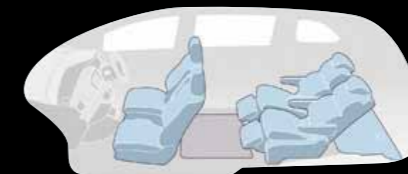

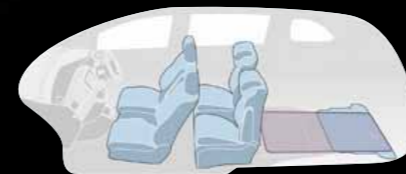

The new ultra-low floor platform and rear door steps offer innovative convenience, making it a breeze to enter and exit, and even letting you upload large luggage with ease.

Specifications may vary from model shown.

MAKING ROOM FOR COMFORT

Enter a spacious cabin with extra headroom and legroom, and relax in the cradle ottoman seats. Whether you choose the classy stitched black leather finish or chic ivory interior with fabric, the quiet and refined environment of the Honda Odyssey will surround you in luxurious comfort.

All seats are luxuriously crafted to let passengers enjoy the spacious and refined interior in total comfort.

Retractable sunshades help reduce the amount of sunlight into the interior, so you can enjoy a cooler, cosier ride.

The leather-trimmed steering wheel offers more comfortable handling, while steering wheel-mounted controls let you activate cruise control without taking your hands off the wheel.

The attention to detail in the Honda Odyssey is meticulous, with refined stitching in various areas.

Aircon outlets in the second and third row of seats ensure that all passengers enjoy the ride in cool comfort.

Enjoy greater utility space fit for the storage needs of families and even companies.

Specifications may vary from model shown.

NO COMPROMISE

Safety is everything when it comes to driving with the whole family on board. All the driving support functions of the all-new Odyssey have evolved to enhance your peace of mind. Advanced features include the ability to detect various hazards, while the Cross Traffic Monitor further enhances safety.

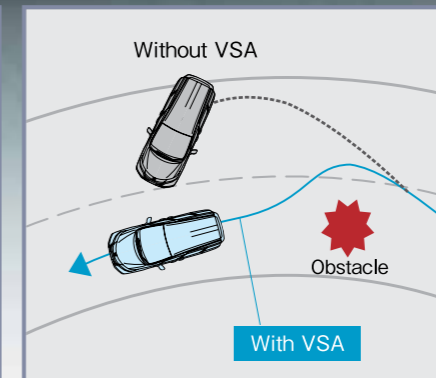

The multi-view camera system offers a composite view of the car's surroundings through multiple wide-angle views on the vehicle's navigation screen.

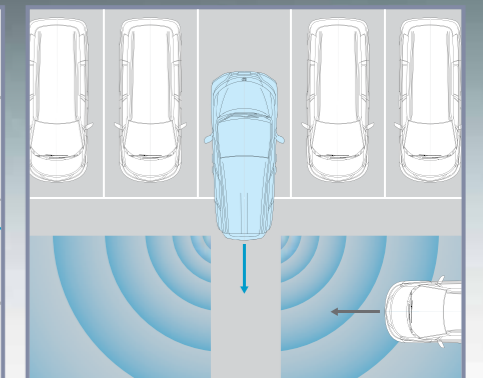

The Blind Spot Information beeps if there's an approaching vehicle, and an indicator light will appear on the side view mirror.

A total of 6 SRS Airbags – Dual Front i-SRS Airbags and i-SRS Side Airbags in the first row, and Side Curtain Airbags all the way to the third row – give the driver and all passengers optimal protection.

The Vehicle Stability Assist™ (VSA™) system regulates the engine's output and selectively applies the brakes, helping you maintain traction on slippery roads. During cornering, VSA™ helps bring the car back on track when it deviates from its correct path.

While reversing, the Cross Traffic Monitor detects and warns drivers of approaching vehicles with a danger signal sound.

BUILT TO BE A BENCHMARK

The Honda Odyssey comes with groundbreaking technology to keep you connected, and innovative conveniences to keep you comfortable. Featuring the new Earth Dreams™ 2.4-litre DOHC i-VTEC® engine for exhilarating performance, high fuel efficiency and a quieter drive wherever you go.

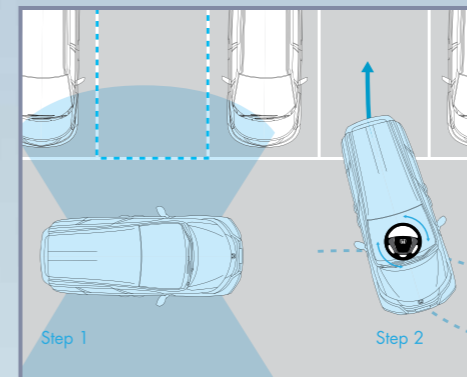

Honda's new Earth Dreams™ 2.4-litre DOHC i-VTEC® system is a breakthrough technology that works by improving thermal efficiency and minimising friction. With direct fuel injection to maximise acceleration, the powerplant offers even better output, torque, and fuel economy than ever.

The intuitive touchscreen control panel gives you convenient access to the premium audio system and many other features.

The new Electrostatic Touch Climate Control Panel keeps the cabin temperature perfect in all weather conditions, every time.

The Honda Smart Parking Assist System automatically analyses camera images, calculates the parking space boundary and provides steering inputs to support the driver in parking the vehicle.

With the Odyssey's dual USB inputs, you can stream music from your iPod via USB or Bluetooth®, while charging your mobile device on the go.

- Whenever you feel like going for a ride, simply utilise the Smart Entry & Push Button Start system for keyless access.
- Drive more efficiently with Eco Assist™, a feedback system that guides you to use less fuel. For extra help to drive green, simply engage ECON mode.

Specifications may vary from model shown.
