

2011 **Ridgeline**

Less paper today means more blue skies tomorrow.

At Honda, we have always considered it our responsibility to do our part to help preserve the global environment, for today and for generations to come. This is an environmental vision we call *Blue Skies for our Children*, and with this vision in mind, we felt it was time to make a change for the greater good of the planet.

That's why Honda Automotive has decided to print fewer paper brochures and start encouraging people to visit honda.ca to experience an interactive approach to our cars and company. Yes, it will take some time getting used to, but we think the end result will be worth it for everyone and for the future we all share.

The 2011 Ridgeline is built solid to take punishment.

The 5000-lb. towing capacity and 1521-lb. total payload capacity make small work of big jobs. Its strength comes from an integrated closed-box frame with unit-body construction and powerful 250-hp V-6 engine. It's no wonder the Ridgeline has won countless awards, including a 5-star frontal and a 5-star side-impact crash-test rating from the National Highway Traffic Safety Administration (NHTSA) for the 2010 Ridgeline.

Advanced Honda engineering is also behind the 3.5-litre V-6 engine's blend of surprising fuel efficiency, low emissions and abundant power – all on regular unleaded gas. It begins with a high 10:1 compression ratio. Then add Honda's patented Variable Valve Timing and Lift Electronic Control (VTEC®) as well as a dual-stage intake manifold. These systems work together to maximize torque at low-engine speeds and boost horsepower as engine speeds increase. A unique fresh-air intake helps keep output strong even in high-temperature, heavy-duty driving and towing conditions.

MORE THAN TOUGH.

Ridgeline

High road. Low road. No road.

It won't matter if your adventures take you on-road or off-road. Honda's sophisticated Variable Torque Management™ 4-wheel drive system (VTM-4®) can handle just about anything, from a slick, steep boat ramp to a rough-and-tumble back road – instantly directing power to the wheels with the best traction. And with a refined, fully independent suspension, that go-anywhere attitude comes in a curve-hugging, fun-to-drive package. Inside, you get comfort as well as utility. Wide, supportive seats. Powerful audio system. Available leather trim and heated seats. And one tool you may not be able to do without: the available Honda Satellite-Linked Navigation System™

with bilingual Voice Recognition with steering wheel-mounted controls. Outside, the Ridgeline boasts some serious utility, like the super-durable Steel-Reinforced Composite (SRC) cargo bed with lockable In-Bed Trunk™. It has 241 litres of secure storage space that you won't find on any other pickup. For quick access, you can even swing the dual-action tailgate to the side.

All this may be a bit more than you'd expect from a pickup truck. But it's exactly what you'd expect from a Honda.

MORE THAN TOUGH.
