## 本田 為未來努力不倦

**HONDA** Striving to preserve the environment

本田自成立以來，一直秉承「帶給人類歡樂」的企業理念，憑夢想的力量，嚴格監控產品質素及加強成本效益，為人類創造優質生活動力。

作為首間以環保為生產考慮的公司，本田由科研、生產以致廢棄等每個階段，均積極削減CO2排放及污染，並致力開發高效率、低油耗、低廢氣的環保引擎。2007年更獲《財富》雜誌選為世界十大綠色企業之首。

未來，本田朝著新世代的綠色駕駛科技進發，重點研發全無污染，且節省資源的“太陽能電池”及“燃料電池”，為的是要與地球、社會及人類一起共同進步，發揮夢想力量，實踐無盡創見。

Ever since the founding of Honda, the corporate mission of “bringing joy to the humankind” has been realized not only because we dare to dream big, but also through our stringent control on quality and cost-effectiveness.

Honda is the first automaker to put environmental protection as its first priority. From manufacturing to disposal, Honda takes every means to reduce pollution and CO2 emission. We are also working on new engine technology delivering high performance, fuel efficiency, and low emission. “Fortune” magazine in 2007 awarded Honda as the leader of the Top 10 Green Giants, companies who have gone beyond what the law requires to operate in an environmentally responsible way.

Going forward, environmentally friendly solar and hydrogen fuel cells will become our focus in the area of R&D. We will continue to dream big and prosper in harmony with nature and the humankind, all for the CREATION OF JOY.

## Less Fuel More Power

Less Fuel • More Power 是本田一直堅持的理念，左右勻稱的天秤代表對兩者同樣重視，缺一不可。它不單標誌著本田對環境的承諾、對產品表現的執著，更是每一輛本田汽車的最佳詮釋，象徵給予本田車主的無比信心。  
 “Less Fuel, More Power” is the ultimate goal of Honda’s engine invention. The balance design symbolizes the equal importance of fuel efficiency and power delivery to us. It reflects Honda’s persistence in high quality products, our commitment to the environment, and also a worry-free guarantee to our customers.
