

2017 HYUNDAI

ELANTRA

¹ Smart Cruise Control (SCC) is not a collision avoidance or warning device. SCC is for highway use only and should not be used in poor weather, heavy or varying traffic, or on winding or slippery roads. Driver remains responsible to slow or stop the vehicle to avoid a collision. ² Automatic Emergency Braking (AEB) is designed to assist drivers to avoid, or reduce the severity of, collisions with cars that have slowed or stopped in front of them. It is a supplemental assist, and does not replace the need for extreme care and attention by the driver. AEB may not stop the vehicle completely and will not avoid all collisions. See Owner's Manual for details and limitations. ³ Apple CarPlay and Android Auto are standard on Elantra Limited and available on Elantra SE. Android Auto works with smartphones enabled to run on Google's Android 5.0 OS and above. Google, Android and Android Auto are registered trademarks of Google Inc. Apple CarPlay works with iPhone 5s, iPhone 5c, iPhone 5 and later models running the latest version of iOS 7 and above. Apple is a registered trademark of Apple Inc. ⁴ All SiriusXM services require a subscription, sold separately by SiriusXM after a three-month trial subscription. Fees and taxes apply. All fees and programming are subject to change. To cancel, please call 1-866-635-2349. See our Customer Agreement for complete terms at siriusxm.com. Sirius, XM and all related marks and logos are trademarks of Sirius XM Radio Inc. ⁵ Only use Blue Link and corresponding devices when it is safe to do so. Blue Link is available on most new Hyundai vehicles. Blue Link subscription service agreement required. Features vary by subscription plan. Blue Link service works using CDMA-based cellular networks in the 50 United States. Blue Link service is not available where there is no cellular coverage, particularly in enclosed or remote areas. Service availability may be affected by signal strength, foliage, weather, topographical conditions (mountains) and nearby structures (tall buildings, tunnels) and other factors. For additional details and system limitations visit HyundaiBlueLink.com. ⁶ Remote Vehicle Start is only available for push-button start equipped vehicles with an automatic transmission or a Dual Clutch Transmission. Not available on all models. ⁷ The Blind Spot Detection assists the driver by warning of other cars in the blind spot region. It senses the rear side territory of the vehicle when it is traveling over 20 mph. Lane Change Assist provides an audible and visual alert if the turn signal is activated and another vehicle in the blind spot is sensed. There are limitations to the function, range, detection and clarity of the system. It will not detect all vehicles or objects in the blind spot. Blind Spot Detection and Lane Change Assist may not operate if sensors are obscured in any way. Do not rely exclusively on Blind Spot Detection. Blind Spot Detection is a supplemental system, and the driver must still be attentive and exercise caution when driving with it. It is important to always signal, look over your shoulder and through your mirrors before changing lanes. ⁸ Elantra SE with automatic transmission and 15" wheels. EPA estimates for comparison only. Mileage may vary. Your actual mileage will vary with options, driving conditions, driving habits and vehicle's condition.

BE THE CENTER OF ATTENTION

Elantra surrounds you with an 8-speaker Infinity® premium audio system that uses segment-first Clari-Fi™ Music Restoration Technology to make it seem as if you're front and center at your favorite concert venue. And Elantra is an ideal tour guide – its multimedia navigation uses a split-screen display, so you can check the map without losing track of your HD Radio™ or SiriusXM® Satellite Radio.⁴

EXIT THE ENTRY LEVEL

There's nothing 'entry level' about Elantra. Not with a segment-first hands-free smart trunk release, dual automatic temperature control, dual USB ports, available heated front and rear seats, and a segment-first available Integrated Memory System for the driver seat and outside mirrors. Sound luxurious? It is.

SMART PHONE, SMARTER CAR

Your smartphone and your Elantra are now on speaking terms. Our 2017 models seamlessly link your smartphone's content and apps like Pandora® to Elantra's LCD screen. Hyundai's award-winning Blue Link® service is also onboard, allowing you to manage dozens of connected car features using voice commands.⁵ And with Blue Link's mobile app, you can remotely start, stop, lock and unlock your Elantra.⁶

CLASS-LEADING ADVANCED SAFETY
