

NEW THINKING.  
NEW POSSIBILITIES.

# GENESIS *Coupe*

# BEAUTY + BEAST = GENESIS COUPE

The marriage of elegance and powerful performance is a classical tale that commands attention. With Genesis Coupe, Hyundai has created a modern classic that is destined to send hearts racing and people talking.

## MIND-BENDING PERFORMANCE THAT'S UP TO ALL CHALLENGES

The 2.0 TCI gasoline engine with twin-scroll turbocharging unleashes maximum output of 260 ps at 6,000 rpm, while for an even bigger rush of adrenaline, there's the 3.8 V6 MPI gasoline engine with 303 ps at 6,300 rpm. Both engines are mated with a 6-speed manual transmission, or an optional 8-speed automatic transmission with paddle shifters.

CAUTION:  
THIS CAR CONTAINS 100% PURE DRIVING FUN

# SPORTS + LUXURY = COUPE DNA

Among the many pleasant surprises which await your discovery is the dual nature of Genesis Coupe. On one hand, there are its sports car credentials, firmly established by its high performance engine and chassis. But on the other hand, it's a highly civilized luxury touring machine with many comforts and conveniences.

There's no denying Genesis Coupe's sports car DNA. Genesis Coupe's powertrain and sports-tuned suspension have been engineered to be pushed to the very limit. And all systems respond with easy and eager enthusiasm to deliver pure driving pleasure and maximum driver involvement. But there's a tamer, more civilized side to the Genesis Coupe experience. And it's reflected in the premium grade materials that have been applied throughout the cabin.

DRIVING IN THE ZONE,  
AT ONE WITH THE ROAD

## IN A CABIN OF COMFORT, A WORLD OF CHOICE

In true Hyundai tradition, Genesis Coupe offers a lot in the base level. But because personal needs and preferences vary, Hyundai offers a long list of optional equipment starting with 3 different types of seat upholstery. Give it your own individual touch with options such as all-black leather seats, or brown leather seats, or even red leather seat bolsters with red cloth inserts.

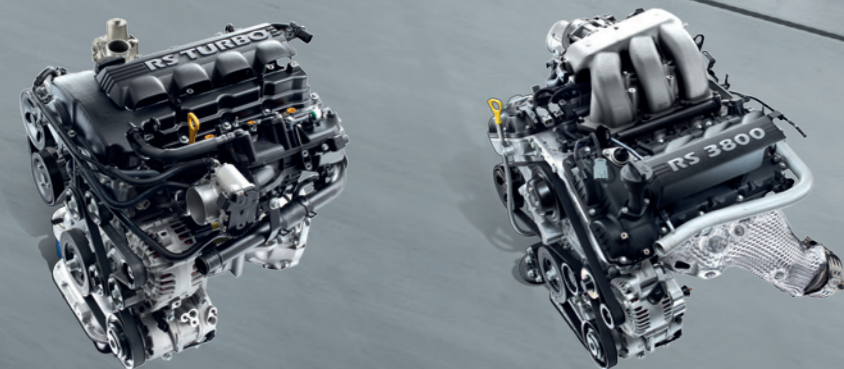

PASSION + DISCIPLINE  
= **COUPE** PERFORMANCE

At Hyundai, everyone shares a passion for excellence. And nowhere is this passion more evident than in Hyundai's engineering division. It's strictly disciplined to meet targets without compromising quality and performance. For that very reason, Hyundai is able to offer spectacular performance and luxury.

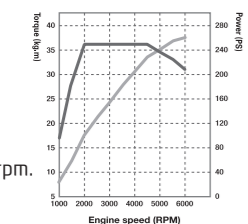

## GOOD, BETTER AND BEST

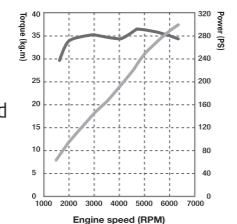

For some, good is good enough. Others are content to settle for something a little better. But at Hyundai, we're driven by an unrelenting desire to produce the best. 2.0 Tci gasoline engine is a prime example. By applying a twin-scroll turbocharger which recovers even more energy from the exhaust than a single-scroll design, we increased power to 260ps at 6,000rpm. At the same time, the excellent fuel economy advantages of a 2.0l have been retained. Equally impressive power gains were scored with the redesigned 3.8 V6 MPi gasoline engine which now delivers a blistering 303ps at 6,300rpm.

**2.0 Tci gasoline engine**  
Maximum output of 260ps/6,000rpm and maximum torque of 36.0kg.m/2,000~4,500rpm.

**3.8 V6 MPi gasoline engine**  
Maximum output of 303ps/6,300rpm and maximum torque of 36.8kg.m/4,700rpm.

# PASSION + DISCIPLINE = COUPE PERFORMANCE

At Hyundai, everyone shares a passion for excellence. And nowhere is this passion more evident than in Hyundai's engineering division. It's strictly disciplined to meet targets without compromising quality and performance. For that very reason, Hyundai is able to offer spectacular performance and luxury.

## THE MAGIC POWER OF EIGHT

Only a handful of automotive manufacturers in the world are capable of designing and manufacturing their own automatic transmissions. Even fewer have succeeded in the development of their own 8-speed automatic transmission. Hyundai is one of the very few. Designed by Hyundai and manufactured in-house, Genesis Coupe's 8-speed automatic transmission is an impressive feat of engineering.

Genesis Coupe's rear wheel drive layout provides the ideal front-to-rear weight distribution for optimal balance and handling. The 8-speed automatic transmission is a big part of the high performance story. Compact and lightweight, its 8-speed automatic transmission achieve greater efficiency in the transfer of power to the wheels.

### 6-speed manual transmission

For sports car purists who demand maximum driver involvement, Genesis Coupe is equipped with a 6-speed manual transmission. Clutch engagement has a smooth, progressive and predictable feel while the gear lever glides through the shift gates with buttery smoothness.

And to ensure every foot pound of torque is delivered to the pavement and power losses are minimized, available Limited slip differential (LSD) employs torque sensing technology to deliver power to the wheel with better traction.

### 8-speed automatic transmission

The optional 8-speed automatic transmission comes with steering column-mounted paddle shifters for rapid-fire gear shifting.

## WE DO ALL THE WORRYING SO YOU CAN DRIVE WITH CONFIDENCE

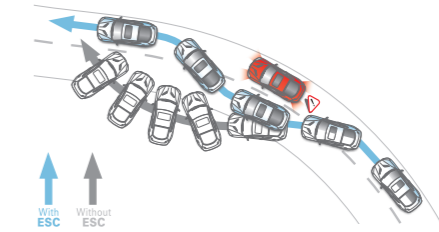

The safety and peace-of-mind that come with every Hyundai car is a special point of pride for Hyundai engineers. Hyundai has accumulated a substantial database on vehicle safety and crash testings by both computer and real world simulations. So we're confident Genesis Coupe meets all leading crash safety standards for full frontal, side and offset collisions. What makes the difference is the extensive use of ultra-high tensile strength steels in critical areas of the body structure.

Passive safety is further enhanced by front airbags which comes standard equipped. Side and curtain airbags are available. Optional Active headrests protect against the risk of serious injury in the event of a rear-end collision. For improved visibility, HID headlamps, LED daytime running lights (DRL) and outside mirror repeaters are available. For added traction, a Limited slip differential (LSD) is available as an option.

### Disc Brakes

For confident braking, front and rear disc are ventilated discs and come with Anti-lock brake system (ABS) and Electronic stability control (ESC). (Brembo brake system is option)

### Electronic stability control (ESC)

Thanks to Electronic stability control (ESC) and Anti-lock brake system (ABS), you will no longer lose directional stability due to icy road conditions or asymmetrical traction where traction is unevenly distributed among the wheels. Electronic stability control (ESC) and Anti-lock brake system (ABS) maintain your intended driving path by simultaneously applying the brakes and momentarily reducing power delivery to individual wheels if necessary.

### Front & rear parking assist system (PAS)

Proximity sensors are built into the front and rear bumpers. They generate a gentle audible warning if the car gets too close to an obstacle.

LOOKING YOUR BEST,  
BOTH COMING AND GOING

## LITTLE THINGS THAT MATTER

It's said that beauty is in the details and this could not be truer with Genesis Coupe. A rich array of standard and optional features add comfort and pleasure to driving.

### A. HID headlamps

HID headlamps (Xenon type) provide unparalleled lighting precision and power for optimal nighttime visibility and safety. HID headlamps includes an auto leveling device. (Optional)

### B. LED rear combination lamps

Brighter and more durable than conventional bulbs, LEDs deliver an eye-pleasing jewel look. (Standard)

### C. Hood accents

Twin hood accents give the Coupe a sportier, more aggressive character.

### D. Chrome-coated outside handles

Optional chrome-coated outside handles add an upscale look. Body-colored outside handles comes equipped standard.

### E. 19" alloy wheels

Sporting an attractive Hyper-silver overcoat, these attractive alloy wheels add an exclusive note to your Genesis Coupe. (Optional)

### F. 18" alloy wheels

Standard 18" alloy wheels are handsomely styled to draw immediate attention.

### A. Multi-function display

Genesis Coupe comes with a race track-inspired triple gauge cluster indicating throttle position, turbo boost and oil temperature. The turbo boost is dropped as an option in favor of a torque meter.

### B. Supervision cluster

The supervision cluster adds a magical high-tech dimension to the display of vital vehicle information. (Optional)

### C. Cluster

The cluster is true to the sports car roots of Genesis Coupe: simple and functional but with a high-tech look and feel.

### D. Premium audio system

Premium audio system comes with multi-disc CD changer and 8 speakers in 8 locations for the ultimate in sound quality.

### E. Audio system (MP3/CD)

Audio system included 6 speakers to deliver rich, accurate sound reproduction.

### F. Full auto air conditioning system

System design facilitates convenient control of in-car temperature thanks to quick and easy to use dials and buttons.

## TAKE IT TO THE NEXT LEVEL

Hyundai offers a range of options to make your Genesis Coupe uniquely yours. Technological advances that enhance performance, draw attention and promote pride of ownership.

### A. One-touch signal system

To promote safer lane changes at highway speeds, a gentle tap of the control stalk triggers 3 turn signal flashes. With the option of changing to 5 / 7 flashes for optimum safety, available with supervision cluster.

### B. Auto defogging system

Automatically keeps the windscreen clear and free of fog. Part of the option package which includes the full auto air conditioning system, cluster ionizer system and UV cut windshield.

### C. Front seat warmer

With front seat warmer, you'll embrace the winter and you'll never fear early morning starts again.

### D. Rear camera display (RCD) system

When Genesis Coupe is backing up, the rear-view display system sends an image to the miniature video screen built into the Electric chromic mirror (ECM).

### E. Door courtesy lamps

This optional feature enhances safety when entering or exiting the vehicle.

### F. Stitched crash pad

Edges are finished in a decorative topstitch for a hand-finished look more commonly found on luxury automobiles.

### G. Parking brake system

The optional leather-wrap package not only includes the steering wheel and knob but also the parking brake system.

### H. Pedals

For a touch of high performance, the pedals and footrest are available in an attractive stainless steel metal.

### A. Manual tilt & telescopic steering wheel

To ensure a perfect driving position, the tilt angle and length of reach of the steering column can be easily adjusted.

### B. Door scuffs

A grand entrance is ensured every time with the illuminated door scuffs. (Optional)

### C. Paddle shifters

The 8-speed automatic transmission comes steering column-mounted paddle shifters for rapid-fire gear shifting.

### D. Seat belts extension guide

Seat belts extension guide positions are adjustable for easier access to the seat belt.

### E. Front seat adjustment

A manual seat adjustment is standard for both front seats.

### F. Electric lumbar support

The available electric-operated driver's seat may be ordered with one extra option, a electric lumbar support.

## INTERIOR TRIMS

Brown leather

Red semi leather & Red cloth

Gray semi leather & Gray cloth

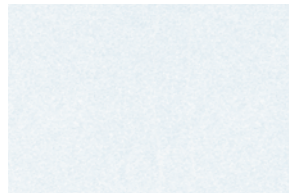

Black leather

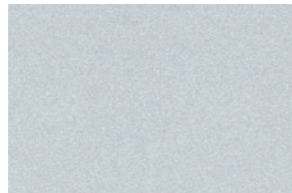

Black cloth

## EXTERIOR COLORS

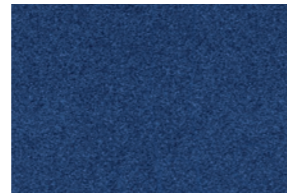

Marble white YW6

Platinum silver Y6S

Urban gray U6G

Coast blue WU6

Super red NGA

Onyx black YB6

## SPECIFICATIONS

Type	3.8 V6 MPi gasoline engine	2.0 TCI gasoline engine
Engine	Displacement (cc)	3,778
	Bore x Stroke (mm)	96.0 x 87.0
	Compression ratio	10.4
Max. power (ps/rpm)	303 / 6,300	260 / 6,000
Max. torque (kg.m/rpm)	36.8 / 4,700	36.0 / 2,000~4,500
Fuel tank capacity (liter)	65	

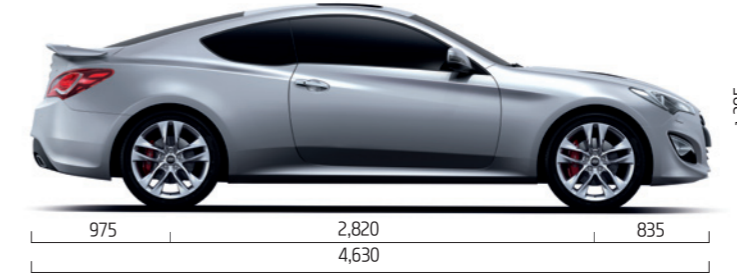

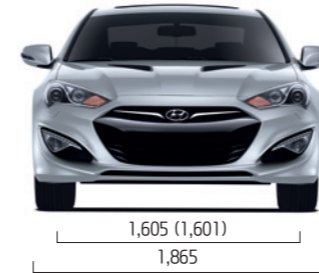

- On leaded fuel engines, power & torque figures vary in accordance with local fuel and climate characteristics.
- Please ask your dealer for available engines.

Suspension	Front	McPherson strut type
	Rear	Multi-link
	Shock absorber (Front / Rear)	Gas
Steering wheel	Type	Power steering wheel
	Power assisted	By Hydraulic
	Overall steering gear ratio	13.8
	Steering wheel turn (Lock to lock)	2.67
Brakes	General	Dual-diagonal, split-circuit, Brake force assist system (BAS) with Electronic brake force distribution (EBD)
	Front	Ø320mm disc, 1 pot-caliper brake
	Rear	Ø314mm disc, 1 pot-caliper brake

- Some of the equipment illustrated or described in this catalogue may not be supplied as standard equipment and may be available at extra cost.
- Hyundai Motor Company reserves the right to change specifications and equipment without prior notice.
- The color plates shown may vary slightly from the actual colors due to the limitations of the printing process.
- Please consult your dealer for full information and availability on colors and trims.

## DIMENSIONS

unit : mm

\*Wheel tread : 18" (front and rear) - 1.605/1.625 \_ 19" (front and rear) - 1.601/1.621

## NEW THINKING. NEW POSSIBILITIES.

People's expectation toward individual mobility requires more than just a convenient means of transportation. The old understanding of cars has become outdated. A car represents individuals' lifestyles, and it became an integral part of their lives. At the same time, the automobile industry has experienced seismic change. Hyundai Motor Company has grown rapidly to become one of the largest automakers, backed by world class production capability and superior quality. We have now reached a point where we need a qualitative approach to bring bigger ideas and relevant solutions to our customers. This is an opportunity to move forward and we have developed a new brand slogan that encapsulates our willingness to take a big leap. Led by our new slogan and the new thinking underlying it, we will become a company that keeps challenging itself to unlock new possibilities for people and the planet.
