

IONIQ

Hybrid · Plug-in Hybrid · Electric

HYUNDAI | NEW THINKING.
NEW POSSIBILITIES.

One dynamic philosophy.

Model shown not to UK specification.

Electric cars should have the dynamic ride and handling characteristics that make driving a pleasure. That's the IONIQ philosophy. You'll soon be able to enjoy this core principle with a choice of three innovative drivetrain options. It's an industry first, and typical of our commitment to sustainable solutions that help you get more out of your driving experience.

First to be launched are the IONIQ Hybrid and the IONIQ Electric. In 2017, the IONIQ Plug-in Hybrid will complete the line-up. Every IONIQ will share the same unique platform and sleek, modern design.

Three electric powertrains.

IONIQ
hybrid

CO₂ from: 79 g/km*

Driving thrill with lower emissions.

The high-efficiency petrol engine and 32 kW electric motor work together to deliver the perfect balance of power and efficiency, with less fuel consumption and lower emissions. The total system output is 141 PS. The electric motor delivers its torque immediately on start-up, and is powered by a compact 1.56 kWh Lithium-Ion Polymer battery that is recharged on the move, especially by the energy stored during braking.

IONIQ
plug-in hybrid

Target CO₂: 32 g/km*

Best of both worlds.

A powerful 8.9 kWh Lithium-Ion Polymer battery feeds the torque-rich 45 kW electric motor, which enables more than 31 miles of zero emission driving, ideal for your daily commute. When working in tandem with the high-efficiency petrol engine it delivers a considerable performance boost with a driving range in line with that of a regular combustion engine car. The battery regenerates energy on the move and can also be recharged via an external power supply.

IONIQ
electric

174 miles zero emissions

No emissions. No compromise.

The 88 kW electric motor's torque-rich performance is powered by the super-efficient 28 kWh Lithium-Ion Polymer battery. It enables a driving range of up to 174 miles on a single charge*. The battery is located low in the chassis, which also lowers the car's centre of gravity — essential for rewarding and responsive driving.

* Please refer to the vehicle data on pages 14 & 15

Model shown not to UK specification.

Simply electrifying.

The frame of the IONIQ reveals its formula for both efficiency and smooth, responsive driving. It starts with a sleek design that's impressively aerodynamic. Add a low centre of gravity, a rigid but lightweight body made of advanced high strength steel and aluminium, and you have a car which delivers excellent performance with agile handling.

Innovative technology: the three drivetrains make use of powerful, yet compact Lithium-Ion Polymer batteries.

The Hybrid and Plug-in Hybrid are powered by a new 1.6 litre GDi petrol engine, coupled with an advanced electric motor that delivers impressive acceleration. They are attached to a specially engineered 6-speed Dual Clutch Transmission (DCT). IONIQ Electric is powered exclusively by electric energy, achieving zero emission driving. That's the IONIQ formula for an unbeatable mix of performance and efficiency.

Maximum efficiency: the dedicated 1.6 GDi petrol engine achieves class-leading 40% thermal efficiency (Hybrid and Plug-in Hybrid).

Instant power: all IONIQ drivetrains feature a dedicated compact electric motor delivering high torque immediately from standstill.

Exhilarating to drive: the 6-speed Dual Clutch Transmission boosts acceleration and provides instant engine feedback for a satisfying driving experience (Hybrid and Plug-in Hybrid).

Streamlined performance.

With a drag coefficient of just 0.24 the IONIQ is one of the most aerodynamic cars on the market. Sleek contours harness airflow to minimise air resistance and emissions. And the perfectly balanced proportions combine with finely tuned detailing to create a stunningly attractive design. Details such as the C-shape LED daytime running lights give an unmistakable presence on the road.

Efficient design: active air flaps in the grille open and close automatically in stages to enhance aerodynamic performance.

Smart details: air intakes feed curtains of air around the front wheels to minimise drag.

Fully charged.

High-tech design and innovation define the clutter-free dashboard. Its dual-mode digital instrument cluster automatically changes appearance and colour when a different drive mode is selected. The navigation system features a high-resolution 8" screen and smart phones connect seamlessly with the Apple CarPlay™ and Android Auto™* enabled entertainment system. With everything at your fingertips, you'll be able to keep track of music, calls and navigation on every drive.**

* Available on Premium and Premium SE models. Apple CarPlay™ is a registered trademark of Apple Inc. Android Auto™ is a registered trademark of Google Inc.

** Only compatible with selected smart phones. Please contact your local dealer for more information.

Driver's 7" instrument cluster in Sport mode shown. Available on Premium and Premium SE models only.

Wireless: convenient induction charge pad ensures your phone will stay charged.**

Intelligent safety.

In addition to the 7-airbag system and the robust body structure, you and your passengers will be protected by a comprehensive line-up of advanced driver assist technologies. Built-in radar, cameras and ultrasonic sensors help keep the IONIQ safely on the right track.

Lane Keeping Assist System (LKAS): warns the driver of unintended departure from the chosen traffic lane and applies corrective steering if necessary.

Autonomous Emergency Braking (AEB): when a potential collision with a vehicle or pedestrian is detected, AEB first gives a visual and an audible warning, then intervenes with partial or complete brake application.

Smart Cruise Control (SCC): maintains a safe distance between you and the preceding vehicle.

Blind Spot Detection (BSD): rear radar sensors detect the proximity of other vehicles when changing lanes or backing out of parking spaces.

Hyundai Finance

Hyundai Finance provides a range of products to make the purchase of your Hyundai even more accessible. To meet your requirements, our plans are simple but offer you the same quality and flexibility as your new Hyundai. Applying for a finance plan through your local Hyundai dealer is easy and they will support you in choosing the right plan for your needs.

As a customer your satisfaction is at the heart of our business, and whilst you are able to manage your account online, we are only a phone call away should you require any help or assistance. We offer two main products to assist your car purchase:

CONDITIONAL SALE

Conditional Sale is a simple and traditional way to finance your car over a fixed period. You decide to fund the entire purchase price or put down a deposit and as your interest rate is fixed you'll pay the same amount each month. After all repayments have been made you'll own the car.

PERSONAL CONTRACT PURCHASE (PCP)

Personal Contract Purchase could make it easier for you to get behind the wheel of your Hyundai, it may also help you to change your car on a more regular basis.

The way it works is simple, you decide what level of deposit to pay. From nil, up to a maximum of 50%. You also decide your repayment period (typically 25, 37 or 49 months) and set your anticipated annual mileage. This will determine your optional final payment.

You will then make fixed monthly repayments based on the outstanding balance and interest, less your optional final payment, and at the end of your monthly repayment period you will have three choices: return, retain or renew.

RETURN: you can hand the car back to us, with nothing further to pay (subject to fair wear and tear, and/or excess mileage charges may apply).

RETAIN: you can pay the optional final payment and the car is yours.

RENEW: you can part exchange the car, using any equity over and above the optional final payment as deposit on your next car (equity is anticipated, but this cannot be guaranteed).

T&Cs apply. Subject to status. Applicants must be 18 or over. Guarantee/Indemnity may be required. Hyundai Finance, RH1 1SR

5 Year Unlimited Mileage Warranty

The passion and belief we have in the quality of our products mean we can offer an aftercare package to match. Visit your local Hyundai Authorised Repairer and we'll attend to you straight away, giving you a fully-inclusive quote for the work you've requested.

Only Hyundai Trained Technicians will carry out this work, and we'll also check for any software updates to keep your car running smoothly. You can also be sure that we'll only use Hyundai Genuine Parts which have been thoroughly tested and approved. On collection, we'll explain your invoice and call you within 3 days of your appointment to check you're completely satisfied.

As the people who know your car best, the quality of our service is second to none.

5 YEAR UNLIMITED MILEAGE WARRANTY

A manufacturer backed, unlimited mileage, 5 Year Warranty* protects your Hyundai against manufacturing defects** and is fully transferable to the next owner.

5 YEAR ROADSIDE ASSISTANCE

24 hour roadside assistance should you ever need it, anywhere in the UK or Channel Islands.

5 YEAR ANNUAL VEHICLE HEALTH CHECKS

A free, expert visual inspection by your Hyundai dealer on key areas of your car, to help sort any problems and ensure trouble-free motoring.

ADDITIONAL AFTERCARE

A 12 year Anti-perforation warranty against perforation of the bodywork, from the inside of the panel outwards.

8 YEAR BATTERY WARRANTY

For peace-of-mind long into the future, you'll also receive an 8 year warranty on the high voltage battery of your IONIQ.

* 5 Year Unlimited Mileage Warranty terms and exclusions apply. Please see www.hyundai.co.uk or ask your local dealer for full terms and exclusions.

** Vehicles used for taxi or private hire are covered by a 5 year, 100,000 mile warranty. Cover excludes fair wear and tear.

Ownership

We're always thinking about how to make owning a Hyundai an enjoyable experience and that's exactly what you get with a Hyundai Fixed Price Service Plan. As a valued customer, we'll take care of all your Hyundai's scheduled servicing for up to 5 years or 50,000 miles.

Being covered by a Hyundai Fixed Price Service Plan means:

- Your Hyundai's servicing is covered in a single payment that can be included in your finance agreement
- You have a choice to cover your servicing for 3 or 5 years*

- Only trained Technicians will expertly assess and service your Hyundai
- Should any parts need replacing during your servicing, your Hyundai will be fitted with Hyundai Genuine Parts

For more information, simply contact your local Hyundai dealer or our Customer Services team, who will be happy to help.

* Price varies according to model, fuel type and mileage. Only available on vehicles registered on or after 1st March 2013. Price includes VAT where applicable. Time and mileage restrictions apply. Excludes seasonal checks. Terms and conditions apply.

MyHyundai

MyHyundai is a complimentary and exclusive owners' club with a variety of unique benefits that'll make your ownership experience even more enjoyable.

As well as amazing offers that range from incredible getaways to indulgent gifts, you'll also be able to set your own alerts and preferences, while storing all your car's details in one, easily-accessible place.

Staying In Touch

We're committed to offering you the very best. That means, as well as delivering impressive cars, we'll also deliver helpful advice and service, every step of the way. Simply contact us on **0800 981 981** or visit our website at www.hyundai.co.uk
