

HYUNDAI | NEW THINKING.
NEW POSSIBILITIES.

SANTAFÉ

HYUNDAI

NEW THINKING. NEW POSSIBILITIES.

Since we first started in 1967, there have been four decades of incredible progress. During this period we've established a close relationship with our customers. It's enabled us to develop cutting-edge technology in all the right areas, while staying true to our Korean origins. At the heart of our brand is the ability to think differently and always question convention. It's this relentless commitment to innovation that's seen us arrive at where we are today. We currently sell technologically-advanced, high-quality vehicles to people in more than 190 countries, and employ over 75,000 staff. That's why we're the world's fastest growing car manufacturer.

THE HYUNDAI SANTA FE

Confident, imposing and extremely well-appointed. The New Generation Santa Fe delivers an adventurous driving experience. First class comfort is combined with a powerful engine and cutting-edge technologies to ensure it excels on every surface. Take the exciting route home and enjoy premium luxury all the way.

Car shown Santa Fe Premium in Titanium Silver metallic paint

The New Generation Santa Fe sits proudly at the top of our range. The challenge we set our designers was to create an elegant exterior that hints at the capabilities within. We've achieved this by enhancing its fluidic surfaces with exquisite detailing - something we refer to as Storm Edge design. For instance, the imposing front end is built around a striking hexagonal grille, complemented by sleek

compact headlights and LED daytime running lights. The sophisticated rear end also features distinctive twin tailpipes. Our trademark fluidic sculpture design sees rhythmic lines running from front to back, accentuating its dynamic profile. You'll look at the New Generation Santa Fe on your driveway and enjoy a sense of achievement. It's the car you demand and the car you deserve.

Storm edge design THE HEIGHT OF SOPHISTICATION

Car shown Santa Fe Premium SE in Sleek Silver metallic paint

Carefully selected textures THERE'S NO DETAIL TOO SMALL

Special attention has gone into every interior detail, right down to the textures we've carefully chosen for you. Intricate stitching gives the seats a personal feel, and each surface carries the hallmark of quality and care. This becomes obvious whether you're touching the stylish leather steering wheel or glancing over the chrome effect interior door handles. The front seats are heated as standard to guarantee comfort during the winter months, while sophisticated leather seats come on the Premium and Premium

SE models. You can find your perfect driving position using the electric driver's seat lumbar support and height and reach adjustable steering column. Air conditioning or climate control will help you maintain the optimum temperature. Plus, as you'd expect from a car in this class, everything feels beautifully organised. A supervision cluster with LCD display on Premium SE models gives you all the information you need. We've taken it upon ourselves to really spoil you - it's executive luxury all the way.

Car shown Santa Fe Premium SE with black leather seat trim

Forward thinking technology THAT CAN BACK ITSELF UP

The New Generation Santa Fe introduces advanced technologies at every stage of your journey. Effortlessly enter your car using keyless entry* so you don't have to search for your keys. Switch on the engine using the convenient engine start/stop* button. Activate cruise control for a more relaxing drive, and utilise the clever steering wheel audio controls to select tracks on your MP3 player. Plus, Bluetooth® connectivity with voice recognition lets you stay in touch with family, friends and colleagues while you're on the road. Touchscreen satellite navigation with full postcode recognition on Premium and Premium SE will guide you to your destination with the minimum of fuss and the Traffic Messaging Channel will keep

you away from congestion, so you're always one step ahead. When you come to a stop, you'll find it easy to park thanks to intelligent features such as rear parking sensors as standard. If you select the Premium model you'll also get a parking camera and parking guidance system, and on Premium SE you'll get smart parking assist. Simply press a button and your car will recognise a large enough space. Then, when you select reverse, you'll only need to control the accelerator and brake. Your car will use advanced parking sensors to judge the parallel park by itself - letting you know exactly when to move forward and backwards. The smart innovations in the New Generation Santa Fe really do make life easier.

* Premium SE models

Car shown Santa Fe Premium SE 7 Seat in Sleek Silver metallic paint with black leather seat trim

We've filled it with features WITHOUT TAKING AWAY ANY SPACE

The New Generation Santa Fe really excels when it comes to luxurious comfort. That's largely because of its intelligent and highly flexible design. There's an abundance of head, leg and shoulder room for every passenger. And when it comes to the seating arrangements there is no strict

setup. Instead, it's down to you to make all the adjustments you'd like - you can even configure the seats to achieve a significant 1,680 litres of space on 5 seat models and 1,615 litres of space on the 7 seat option. More versatility is provided by the 40:20:40 split rear seats. Plus, on the 7 seat

model, there are clever sliding and reclining 2nd row seats, while the 3rd row seats fold flat into the boot floor. A luggage net and hooks help you keep everything secure - ideal when you're packing for a family holiday. On the 7 seat Premium and Premium SE models you'll also benefit from rear

air conditioning, while a panoramic sunroof on the Premium SE will flood the cabin with light. The interior is beautifully finished with sophisticated touches. But you'll make it even more personal when you create your own comfortable layout. Style it to suit your lifestyle.

Great in all conditions SO YOU'LL ALWAYS ENJOY THE BRITISH WEATHER

The New Generation Santa Fe is available with 2 Wheel Drive (2WD) or Torque on Demand 4 Wheel Drive (4WD). Torque on Demand works by directing power to all four wheels only when adverse road conditions require it, which is especially useful during the winter months where the roads may be icy or snowy. It means you'll benefit from more grip when you need it - and better economy when you don't. Then, when the going gets really tough, you'll take advantage of technologies such as the 4WD lock mode which provides better traction. We've also fitted Hill-start Assist which engages on inclines greater than 4.5 degrees to stop you rolling backwards. And we've provided

assistance on steep descents too. That's thanks to Downhill Brake Control as standard, which means you don't have to hold the brake as the system controls the descent at a safe, gentle pace. No matter what the terrain, you'll also benefit from Flex Steer, which has three modes: comfort, normal and sport. It allows you to adjust the steering settings so they suit the type of environment you're in. Choose Torque on Demand 4WD for extra reassurance, or select the 2WD model to maintain that SUV style, all while optimising fuel economy and reducing CO₂ emissions. Whether it's rugged surfaces or tricky weather conditions, you'll enjoy a responsive driving experience in any situation.

Car shown Santa Fe Premium in Titanium Silver metallic paint

Powerful, efficient, refined FOR THE ULTIMATE RELAXING DRIVE

The New Generation Santa Fe is both powerful and efficient. It comes with 6-speed manual or 6-speed automatic transmission to give you total flexibility on the open road. We've been extremely dedicated when it comes to refinement, right down to incorporating sound-insulating film into the windscreen. Coupled with thicker front door glass, it means that wind and road noise has been significantly reduced. And it produces plenty of power thanks to its 2.2 CRDi 197PS engine which delivers 422Nm torque, resulting in a maximum braked towing weight of 2,500 kg on manual models. What's more, we've refused to

compromise efficiency at all. That's due to clever engineering like the Torque on Demand 4WD system. This ensures that, unlike some 4WD systems, it only applies the drive to all four wheels when needed, helping it deliver 46.3 MPG with CO₂ emissions starting at 159g/km. The 2WD model is even more economical since we've designed it with optimum efficiency in mind - up to 47.9 MPG with emissions of 155g/km. In short, the Santa Fe is no ordinary SUV. Travel further between fuel stops enjoying total sophistication all the way. The perfect combination of performance and efficiency.

Car shown Santa Fe Premium SE in Sleek Silver metallic paint

1 Anti-lock Brakes (ABS) with Electronic Brake force Distribution (EBD) and Electronic Stability Programme (ESP)
2 Active Bonnet System

3 7 Airbags – Front, Front Side, Curtain and Driver's Knee
4 ISOfix child seat anchorage (outer 2nd row seats)
5 Emergency Stop Signal (ESS)

We've refined our safety features THE LAST ONE WE ADDED WAS REASSURANCE

A variety of active and passive safety features make the New Generation Santa Fe one of the safest cars on the road. Passive safety features, such as front, front side, curtain and driver's knee airbags give you maximum protection. You'll also benefit from ISOfix child seat anchorage points to strap your kids in safe and sound, as well as an Emergency Stop Signal which will flash your brake lights in an emergency braking situation, warning other cars to slow down behind you. Active safety features include the Electronic Stability Programme (ESP), which reduces the risk of over steer

and under steer, as well as the Braking Assist System (BAS) which increases the braking pressure in an emergency. When towing, Trailer Stability Assist instantly detects trailer instability and reduces engine torque - automatically initiating the braking of individual wheels to bring everything back under control. It also comes with Vehicle Stability Management (VSM) which helps maintain directional stability when suddenly braking or accelerating on varying road surfaces where traction among the tyres can become uneven. It delivers steering assistance automatically, so you can

feel secure no matter what road conditions you encounter. And it's not just you and your passengers we're looking after, it's pedestrians too. That's why we've developed our Active Bonnet System which uses fibre optics to initially detect a collision. Once detected, the active bonnet is raised by 60 mm in less than 0.2 of a second, cushioning the initial impact. With such a wide range of active and passive safety features, you'll be able to completely relax in the New Generation Santa Fe. It's built for luxury and adventure, but safety is always our main priority.

SANTA FE DIMENSIONS

MOTABILITY

The Motability plan will enable some of you to purchase a Hyundai at a preferential rate. If you receive the Higher Rate Mobility Component of the Disability Living Allowance, you're entitled to access this excellent scheme. In recognition of your requirements, many Hyundai models can be ordered on the 3 year Contract Hire Scheme. You'll benefit from advantageous features like power steering, height-adjustable driver's seat and automatic gearbox, which all come as standard. Most of our Dealers are Motability Accredited, so just contact them and they'll be happy to help. If you'd like to read about the scheme in more depth, simply visit www.motability.co.uk

HYUNDAI CAPITAL UK LTD

To help you drive your ideal Hyundai we've put together some comprehensive Hyundai Capital UK Ltd* products. The way they work is simple. There are a range of products available and we can offer finance between 1 and 5 years. To find out more just contact your local dealer, they'll have all the details you need. You may be able to reduce your set monthly payments by deferring part of the cost to the end of your agreement with us. It's one way you can take advantage of our finance plans.

Hyundai Capital UK Ltd is a division of Santander Consumer Finance, the leading Consumer Finance House in Europe. We provide finance for your Hyundai through your Hyundai dealer alongside a range of Santander insurance products. * Finance subject to status. Terms and conditions apply. Applicants must be 18 or over. Guarantees/Indemnities may be required. Santander Consumer UK plc trading as Hyundai Capital UK Ltd. Registered office: 3 Princess Way, Redhill, Surrey, RH1 1SR Registered in England number 2248870.

ASSET PROTECTION

We want you to be able to relax in your Hyundai. It's why we've created Return to Invoice GAP Insurance, which covers you in unexpected circumstances. Currently, if your vehicle is written off in an accident, fire or theft, your insurance may only pay the market value for it, not what you actually paid - so you'd have to cover the shortfall. Return to Invoice GAP Insurance could cover the difference between your motor insurance settlement and the amount you originally paid for the vehicle, or the amount outstanding on finance - whichever is greater. Return to Invoice GAP Insurance will complement your own vehicle insurance and provide the financial support you need to get back on the road in a vehicle with the same value as your original choice.

PEACE OF MIND

It was difficult deciding how much 5 years peace of mind is worth. So difficult, in fact, that we decided not to charge anything - but to give it to you as standard. The Five Year Triple Care package* gives you miles and miles of stress-free driving. It's the latest in a long list of standard features on the New Generation Santa Fe, and one we hope you'll enjoy just as much as the others. Read more about it in the following sections.

5 YEAR TRIPLE CARE

Five Year Unlimited Mileage Warranty

It's exactly as the title suggests: A Five Year, manufacturer-backed Unlimited Mileage Warranty,** so you can drive with complete peace of mind at all times.

Five Year Roadside Assistance

You'll benefit from free, 24-hour roadside assistance anywhere in the UK or Channel Islands.

Five Years of Vehicle Health Checks

Your Hyundai dealer will carry out an annual vehicle health check on key areas of your Santa Fe.

ADDITIONAL HYUNDAI AFTERCARE

A 10 year Anti-perforation warranty against perforation of the bodywork, from the inside of the panel outwards.

* 5 Year Triple Care terms and exclusions apply. Please see www.hyundai.co.uk or ask your local Dealer.
** Vehicles used for taxi or private hire uses are covered by a five year, 100,000 mile warranty.

MYHYUNDAI

If you purchase a new Hyundai you'll receive access to **MyHyundai** - our exclusive online customer loyalty programme, offering you a variety of special offers and benefits.

YOUR HYUNDAI JOURNEY STARTS HERE

We're committed to offering you the very best. That means, as well as delivering impressive cars, we'll also deliver helpful advice and service, every step of the way. Simply contact us on **0800 981 981** or visit our website at **www.hyundai.co.uk**
