i10

DYNAMITE COMES IN SMALL PACKAGES

Stylish, clever and superbly economical. The i10 is a breakthrough in compact hatchback design. Beneath its stylish looks lies clever technology that will not compromise on quality, performance, safety or eco-friendliness.

DRIVER AIRBAG

Feel safe at the wheel of your i10 with the depowered driver airbag. With significant reduced force during deployment, the airbag technology is designed to prevent possible injury whilst still keeping you safe.

BUILT-IN BLUETOOTH

Making calls is safe and easy. With built-in Bluetooth, you can stream music wirelessly or make and receive phone calls through the stereo system of the dynamic i10.

60/40 REAR SEATING SPLIT

Whether you are out shopping or going on a road trip, there is more than enough space to load everything you need. The 60/40 split rear seatback ensures that you can pack in those larger items with ease.

SIDE MIRROR INDICATORS

Extra style with extra safety. The side mirror indicators make your intention to turn clear, even if other road users can't see your front or rear lights.

FRONT & REAR ELECTRIC WINDOWS

The electric window controls are located close to the driver, providing them with absolute convenience and access. With this easy-to-use system, rolling down the windows is effortless.

MULTI-FUNCTION STEERING WHEEL

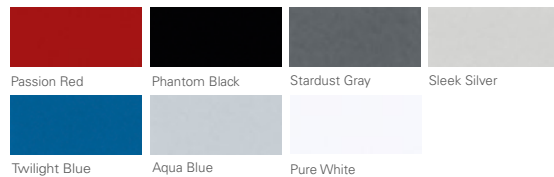

The audio volume controller and mute switch are conveniently mounted on the steering wheel. This makes using the radio whilst driving easier and safer than ever before.
