

NEW THINKING.
NEW POSSIBILITIES.

i20

PERFECTING THE ART OF SMALL

Hyundai's all-new i20 proves that great things come in small packages. The European styling is certainly an eye-catcher but that's just the beginning of the story. Step inside and you'll discover an interior that is far roomier than you would expect of a car in this class. Plus it features a long list of standard appointments that our competitors will envy. And once you take the i20 for a spin, you'll be amazed at the silk-smooth refinement of the new engines. They're not only powerful but fuel efficient as well so that over the long run, you'll save money. And for your peace of mind, it comes with five-star safety rating. But most important of all, the i20 is just so much fun to drive!

INTRODUCING THE NEW i20
WHEN STYLE MEETS PRACTICALITY

DESIGNED AND EQUIPPED TO WOW

At Hyundai, we believe that a small car purchase should never entail compromises. That's why premium car features like Supervision, our razor sharp display technology and leather seating are now available on the i20. Smart key, push button start and remote audio controls add an entirely new dimension of comfort and convenience to your daily drive. Indeed at every turn, the i20 elicits surprise and admiration.

Supervision Cluster

Once exclusively reserved for premium models, the i20's new Supervision display technology is a first in the segment. The benefits are crystal clear: easy-to-read dials with a silver finish and pleasant blue-white back-lighting add a touch of elegance. It comes with warning indicator lights plus a unique digital multi-info display which informs of the trip distance, current audio selection, engine running time, outside temperature, time and date. Auto light control and one-touch triple turn signals are also offered.

6-way Driver Seat

The seat cushion features fore and aft slide controls, plus a height adjuster and a tilt-adjustable back rest. The headrest and elbow rest can also be fine-tuned for the perfect driving position.

Fully Automatic Air Conditioning

The centre console's metallic finish radiates exceptional quality and precision. All switches and control knobs are intelligently laid out for intuitive, easy operation. LEDs in Hyundai's signature blue provide soothing backlighting to all gauges and switchgear. Fully automatic air conditioning with set-and-forget temperature control is available. A six-speaker audio system and AUX/USB/ audio connectors are also available.

295L of Cargo Volume

With its increased rear overhand and high deck with lowered rear suspension arms the i20's trunk capacity has been increased to 295 liters (VDA) matching any competitor in its segment for cargo-hauling capability.

Audio Remote Control Steering Wheel

Audio volume controller and mute switch are mounted on the steering wheel. Such a feature is uncommon in the segment, but once again Hyundai raises the bar for improved safety and convenience.

Push Button Start

No need to fret over misplaced keys: The i20 engine starts with the push of a button. Bundled with the Smart Key option.

Smart Key

Smart key uses a proximity sensor to detect your presence, allowing you to unlock and lock the doors remotely at the press of a button.

Folding Key

Smart Key

Powerful but Economical

The new 1.25L Kappa incorporates Continuously Variable Valve Timing (CVVT) on both the intake and exhaust ports to enhance fuel efficiency and power. With a 87ps rating, it has a maximum torque output of 12.2kg.m. The new 1.4L Gamma puts 100ps and 13.9kg.m of torque at your command and is mated to six-speed manual. For the growing number of diesel lovers, there is the turbocharged intercooled 1.4L U2. Coupled to a six-speed manual transmission, the U2 has a maximum horsepower rating of 90ps and is capable of generating an incredible 22.4kg.m of peak torque.

COMFORTABLE RIDING, EFFICIENCY AND SAFETY NEVER LOOKED BETTER

The i20 was designed to deliver a higher level of fuel efficiency and employs advanced engine technologies to achieve fuel economy leadership. To ensure a stable, safe and comfortable ride, the front wheels feature a MacPherson strut front suspension while the rear is equipped with a torsion beam rear axle. Some of the i20's most impressive features are to be found in the safety department such as the six airbags and the sophisticated electronics behind the Vehicle Stability Management and Motor Driven Power Steering wheel which raise safety to an entirely new level. If you have ever wanted a rear view camera to assist you with safer driving in reverse gear, it's available on the i20. The image is conveniently displayed in the electro-chromic rear-view mirror which incorporates a small liquid crystal display screen. In fact, wherever you look, you will find the i20's occupant protection systems are truly uncompromising. And best of all, all of this advanced technology will not cost you a fortune because it's a Hyundai.

Smooth and Stable Ride

The i20's suspension set-up artfully balances the opposing demands of ride comfort and sporty handling. MacPherson struts provide a tried and true classic solution for the front set-up while the rear axle is a torsion beam-type. The driver gets to enjoy precise, responsive handling while passengers have the pleasure of a smooth, stable ride.

Top Gear

A slick-shifting five-speed manual transmission is standard with the 1.25L Kappa but the Gamma and diesel U2 are fitted with a six-speed manual. A four-speed automatic option is available for the Gamma only.

Six Airbags

Six airbags reveal Hyundai's uncompromising approach to safety engineering. Dual front airbags, front seat side-impact airbags and side curtain airbags work together with the seatbelts and the available pre-tensioning system (front seats only) take small car safety to an unparalleled level. But ultimately, peace of mind is what these six airbags provide. You can drive with absolute confidence knowing that i20 provides maximum protection for you and your passengers.

ESC + VSM / ABS

The Anti-Lock Braking System employs advanced software and control systems to prevent the brakes from locking up and losing directional stability. The Electronic Stability Program and the Vehicle Stability Management System helps you maintain directional control when road surfaces become unexpectedly twisty or slippery. It all happens automatically, without driver intervention.

Rear Parking Assist System + Rear View Camera

For safer parking and backing-up, sensors are mounted in the rear bumper to help detect unseen obstacles. Should you get a little too close, RPAS issues an audible alert to the driver warning of the danger. And for an added touch of safety, a tiny camera transmits a rear-view image to the rear-view mirror. The camera and RPAS are activated when the transmission is shifted into reverse gear.

THE START OF AN EXCITING JOURNEY

You could choose i20 on the strength of its styling alone. On closer inspection, you'll discover there is a lot more to the i20 story than eye-catching European design. There's the fun-to-drive factor and the long list of impressive features: i20 gives big car safety and big car comfort at an attractive small car price. Plus, Hyundai offers you the luxury of choice. The i20 comes in three- and five-door variants and in three trim levels: the surprisingly well-equipped base L, the mid-range GL and the top-of-the-line GLS. Whatever way you look at it, the all-new i20 is in a class of its own.

MORE ALL-NEW i20

Headlamps

New-style 4-bulb type headlamps incorporate multi-focus reflectors for improved visibility.

Fog lamps

New-style front fog lamps are neatly integrated into the bumper and are positioned low to the ground for maximum effectiveness while driving in misty, foggy weather.

Fog lamp blanking cover

The front fog lamp blanking cover adds a stylish note and provides flexibility for an upgrade. It can be easily removed to install fog lamps at a later date.

Radiator grille

The new i20 gets a hexagonal-shaped grille, a signature design feature of Hyundai's i-family of vehicles. It's body coloured and features glossy-black accents.

Auto light control + One-touch turn signal

Auto light control automatically turns headlights on at dusk and off at dusk. Single-touch triple turn signal is now standard on all models.

Rain sensor

On detecting the very first drops of rain, the rain sensor automatically activates windshield wipers and turns them off when the rain stops.

Multi control switch

Adjustment of the side view mirrors and power window switches are accessible from this conveniently located control module.

AUX + USB

Auxiliary audio input jack and USB plug accommodates most types of personal music players.

Electric foldable side mirrors

The side mirrors are not only electrically adjustable, but can also be folded at the touch of a button – just the thing to get you out of a tight spot.

Chrome door handles

Chrome-coated door handles add an upscale look and are bundled with the Smart Key option.

Sun roof

Open up the sun roof and let the sunshine in. It transforms your driving experience. When not needed, a sliding sunshade blocks out unwanted sunrays. Available on all trim levels.

Rear combination lamps

Looking better than ever, the rear combination lamps feature a new, tweaked design to provide optimal visibility and safety in all weather conditions.

Tilt and telescopic steering

Steering column now features a telescopic as well as a tilt adjustment to ensure the perfect driving position.

Height adjustable type seatbelt anchor

To ensure the maximum effectiveness of the seat belt restraint system, the anchor is height adjustable thus ensuring a perfect fit regardless of the driver's height.

Seat height adjuster

Ingeniously designed seat height adjustment mechanism enables you to instantly raise or lower the seat cushion with a simple tug of the lever.

Height adjustable 2nd seat headrest

For an added touch of safety and comfort, the middle seat in the rear row can be ordered with a height adjustable headrest.

Back warning camera + Rear hatch handle

Body-colored rear hatch handle is standard on all models. On GL and GLS, a rear view camera is available. The rear view image is displayed on the electro-chromic rear view mirror.

ECM mirror with rear view camera display

The electro-chromic mirror self-adjusts reflectivity between day and night driving and is available on all trims.

Black high gloss finish

For a luxurious finish, the centre stack features a glossy black paint treatment with a faux carbon grain that imparts a high-tech, high performance feeling.

Full auto air conditioning

GL and GLS trim can be ordered with fully automatic air conditioning which includes a digital readout. Just pre-set the desired temperature and it will be automatically maintained.

14" full size wheel cover

The basic wheelset is a 14-inch steel rim covered with a handsome wheel cover. Tyres are 175/75R 14-inch type formulated with silica for better fuel economy and durability.

15" full size wheel cover

An upgrade to 15-inch steel wheels is available on all trim levels and comes with a sporty multi-spoke wheel cover. Tyres are 185/50R silica type.

15" alloy wheel

New six-spoke style 15-inch alloy wheels save weight, improve handling and project a sporty personality. Mounted with 185/60R silica tyres and available as an option on all trim levels.

16" alloy wheel

The ultimate wheel package is the 16-inch alloy executed in a head-turning 12-spoke design and mounted with 195/50R tyres and a black Hyundai logo wheel cap.

NEW THINKING. NEW POSSIBILITIES.

People's expectation toward individual mobility requires more than just a convenient means of transportation. The old understanding of cars has become outdated. A car represents individuals' lifestyles, and it became an integral part of their lives. At the same time, the automobile industry has experienced seismic change. Hyundai Motor Company has grown rapidly to become one of the largest automakers, backed by world class production capability and superior quality. We have now reached a point where we need a qualitative approach to bring bigger ideas and relevant solutions to our customers.

This is an opportunity to move forward and we have developed a new brand slogan that encapsulates our willingness to take a big leap. Led by our new slogan and the new thinking underlying it, we will become a company that keeps challenging itself to unlock new possibilities for people and the planet.
