

New Generation  
**Hyundai i20**

# Style. Space. Refinement

The distinctive styling of our new generation i20 creates a thoroughly “grown up” impression. Inside that carefully sculpted exterior is a surprisingly roomy passenger cabin of class-leading proportions, together with levels of refinement and equipment that are normally found only in larger cars.

## Make a big impression.

Designed and developed in Europe, the new generation i20 is quite an eye-catcher. This latest interpretation of Hyundai's "Fluidic Sculpture 2.0" design philosophy is enhanced by dynamically stretched headlamps and the gloss black c-pillar treatment. The optional panoramic sunroof (pictured) is unique in this class.

# Think big!

Space isn't a luxury, it's a must. Five adults can be comfortably accommodated within the roomy cabin, thanks to the class-leading combined legroom. There's also a capacious 326 litre trunk to swallow your luggage. Four interior colour packages are available, here we show "Cappuccino". So sit back, relax, and enjoy the ride.

# Enjoy quality in every detail.

The cabin is finished in carefully chosen materials creating a high-quality ambience that is unique in this class. And the available equipment includes features and functions that exceed expectations in this segment. One highlight is the dash-top smartphone docking station. Perfectly positioned for satellite navigation, playing radio or your favourite playlists via the audio system. It also keeps the smartphone charged.

**Engine start/stop button.** Keyless starting when the smart key is on board in your pocket or bag.

**Heated steering wheel.** A boon when starting your drive on a cold winter morning.

**Audio system.** RDS radio with CD/MP3 player and Bluetooth connectivity. The system can also be operated by controls on the steering wheel.

**Dash-top docking station.** Keeps your smartphone safe, secure and fully charged. iPhone is a trademark of Apple Inc. / Google Maps is a trademark of Google Inc.

**Lane departure warning system.** Instant visual and audible warning of unintentional departure from the lane you're driving in.

**Automatic air-conditioning.** Just select your preferred temperature and the system does the rest. There's even an auto-defog function to keep windows clear.

**Aux and USB ports.** Easy connectivity for your smartphone or MP3 device. Just plug-in and play.

# Create your own new i20

We're all different, and we all have our own preferences and priorities. So your i20 is available in a wide range of exterior colours, complemented by 4 interior colour packages. You can then add a personal accent with your choice of optional equipment and accessories. Your local Hyundai dealer will help and advise you with your selection.

The **Cappuccino** interior colour package is shown on pages 6 & 7. Also available are:

**Grey Blue** Interior colour package

**Elegant Beige** Interior colour package

**Comfort Grey** Interior colour package
