

Hyundai i20

New Thinking. New Possibilities.

We, at Hyundai, are inspired by the passion to create cars that exceed your expectations. Dedicated to the way things should be, not the way they are. Looking for answers before the questions have been asked. We never stop searching for better solutions that help you get more out of life. It's just the way we are.

What does this mean for you? It means that the Hyundai you drive has been engineered to surprise you with its built-in quality. To compliment you with its crisply fluid design. To care for you, your family and passengers with its embracing strength, and to minimize its impact on the environment. All of this being the product of new thinking that opens up a world of new possibilities.

Stylish outside. Roomy inside.
Refined in every detail.

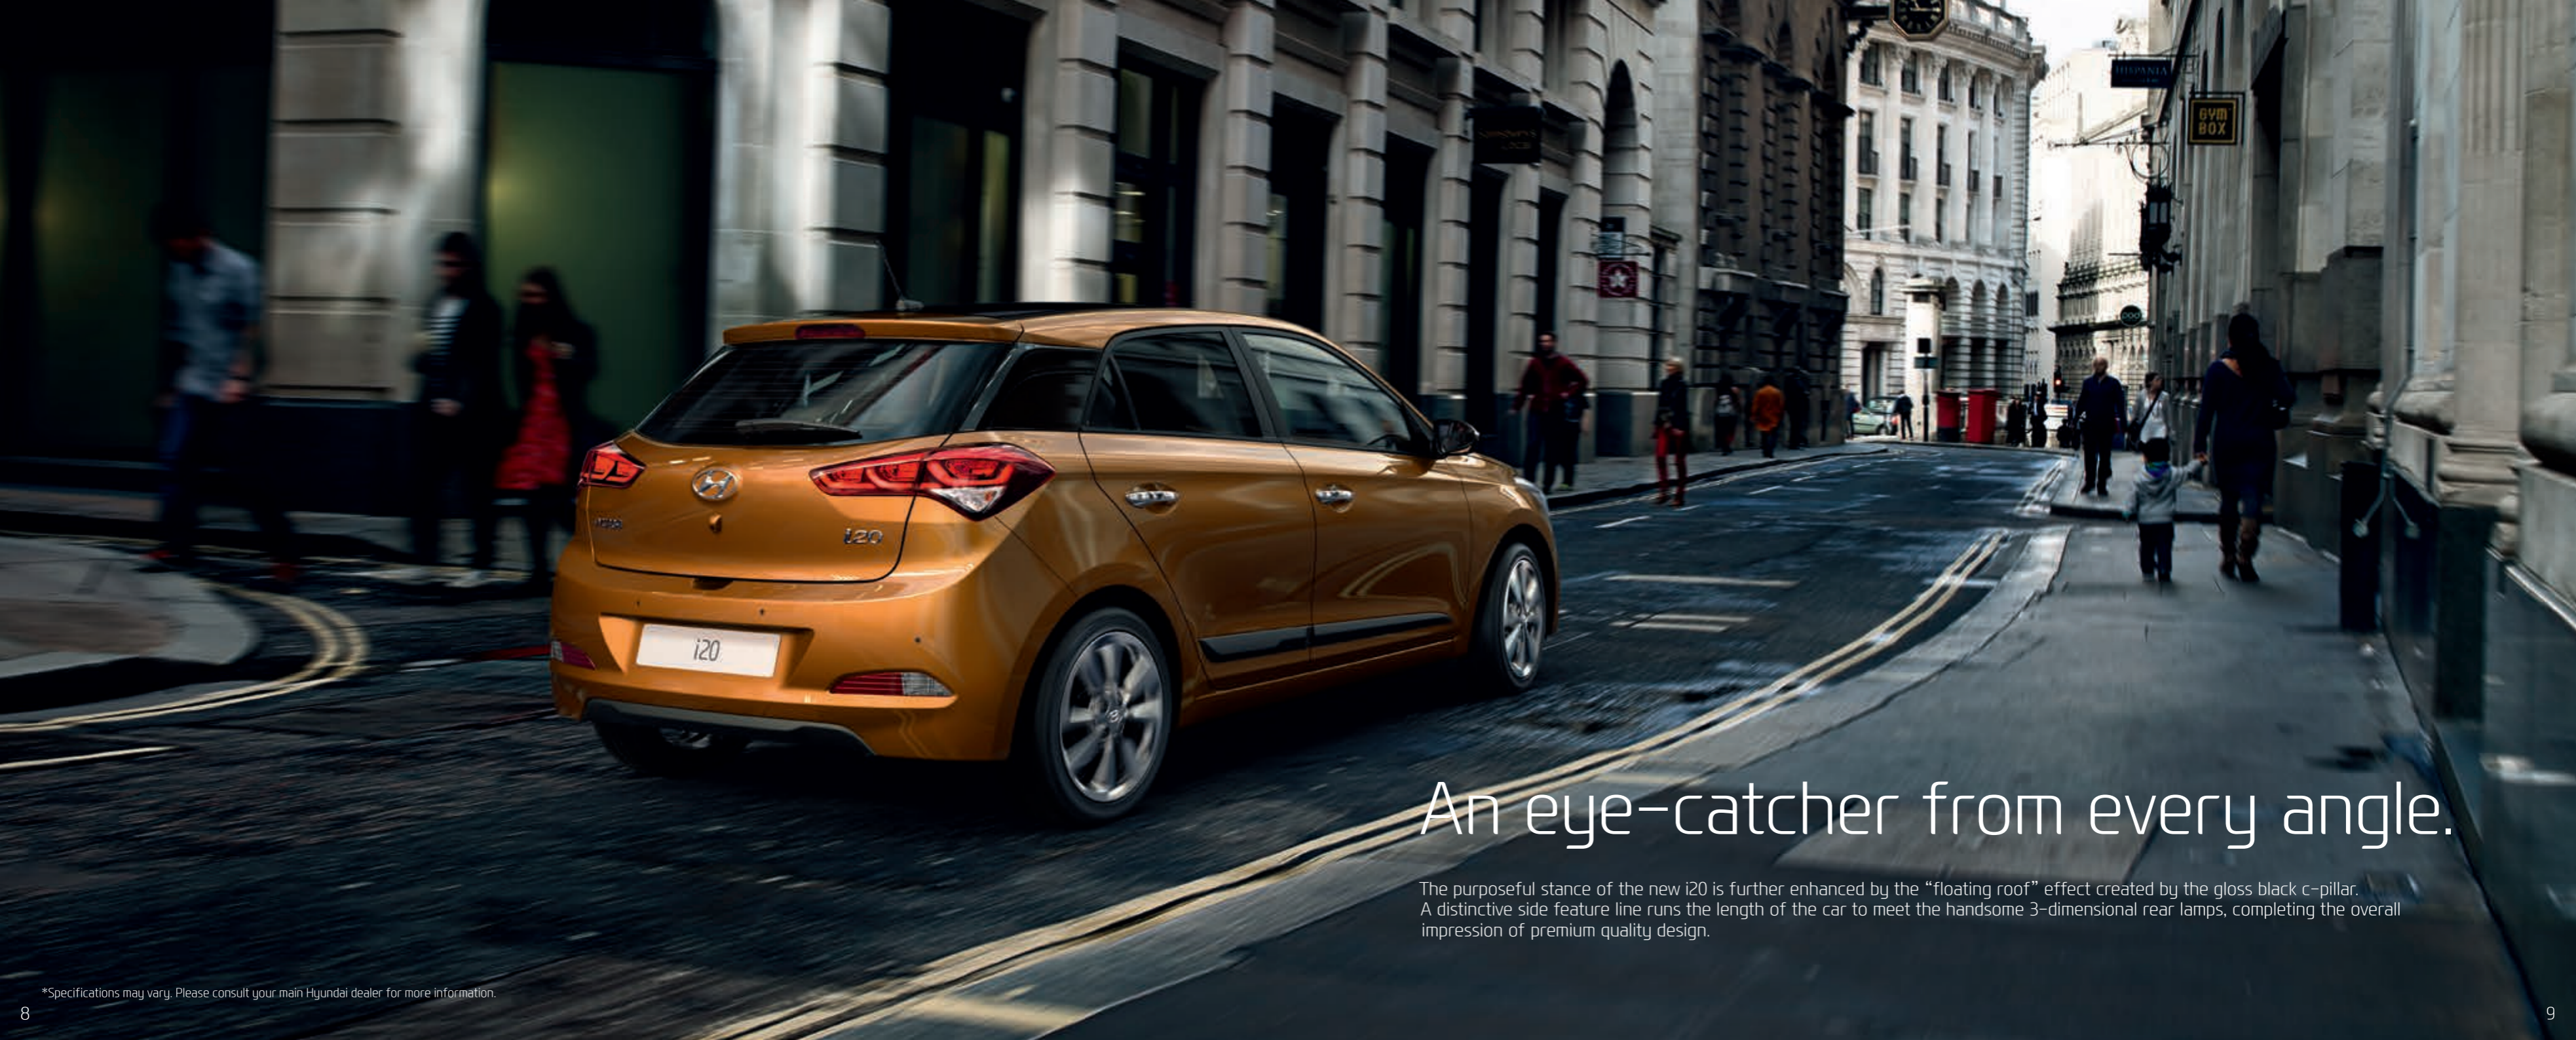

Within the carefully sculpted exterior you'll find a surprisingly roomy passenger cabin of class-leading proportions and levels of refinement that make the new i20 a true step change for cars in this class.

Make a big impression.

Designed and developed in Europe, the new generation i20 is quite an eye-catcher. This latest interpretation of Hyundai's "Fluidic Sculpture 2.0" design philosophy is strengthened by dynamically stretched headlamps and the precise surface contouring. Unique in this class is the availability of the extremely wide opening panoramic sunroof (pictured) that floods the interior with light.

*Specifications may vary. Please consult your main Hyundai dealer for more information.

An eye-catcher from every angle.

The purposeful stance of the new i20 is further enhanced by the “floating roof” effect created by the gloss black c-pillar. A distinctive side feature line runs the length of the car to meet the handsome 3-dimensional rear lamps, completing the overall impression of premium quality design.

*Specifications may vary. Please consult your main Hyundai dealer for more information.

Think big, and relax!

Space isn't a luxury, it's a must. Five adults can be comfortably accommodated within the roomy cabin, thanks to the class-leading combined legroom. The feeling of space is emphasised by a wide, coloured dashboard insert that complements door panels and seating fabrics. Four interior colour packages are available, here we show "Cappuccino". So sit back, relax, and enjoy the ride.

The image shows the front interior of a Hyundai i20. The dashboard is a light brown color with a central infotainment screen displaying '10:20 Thursday 02.10.2014'. Below the screen are climate controls with a digital display showing '22.0C'. The steering wheel is black with the Hyundai logo and 'AIRBAG' text. The instrument cluster behind the steering wheel shows a tachometer on the left, a speedometer on the right, and a central digital display showing '152 km' and 'Press clutch pedal to start engine'. The center console has a gear shift lever and handbrake. The overall design is modern and functional.

Premium style, redefined.

The interior design of our new i20 dashboard is so much more than elegant and “grown-up” - it’s also extremely efficient and user-friendly. Our ergonomics experts have advanced the functional clustering of instruments and controls so that all are perfectly positioned for easy, intuitive use. “White on blue” instrument graphics are optimally balanced for day or night driving. The slim A-pillars in high strength steel extend the feeling of space and enhance the driver’s field of vision.

*Specifications may vary. Please consult your main Hyundai dealer for more information.

Quality you can see and feel.

The complete interior is finished in carefully selected fabrics and materials that will impress you with their perfect fit and high quality. The resulting ambience combines with equipment levels to make the i20 unique in this class. Highlights include dash-top docking station for smartphones. Features may be standard or optional, depending on model.

Audio system. RDS radio with CD/MP3 player and Bluetooth connectivity and 1GB storage. The system can also be operated by controls on the steering wheel (deluxe model upwards). The Bluetooth brand is the property of Bluetooth SIG Inc

Dash-top docking system. Perfectly positioned for you to use your smartphone for navigation, selecting radio stations and playing your favourite playlists via the audio system. It keeps the smartphone fully charged (deluxe model upwards).

Lane departure warning system. Instant visual and audible warning of unintentional departure from the lane you're driving in (deluxe model upwards).

Automatic air-conditioning. Select your preferred temperature and the system does the rest. There's even an auto-defog function to keep windows clear.

Aux and USB ports. Easy connectivity for your smartphone or MP3 device. Just plug-in and play.

New levels of refinement:
the wide-opening glass panoramic sunroof
(option only available on premium model).

*Leather interior for illustrative purposes only
*Specifications may vary. Please consult your main Hyundai dealer for more information.

Every day is different. Your i20 is ready!

Whatever your day has in store, your new i20 has the versatility to help you on your way. The class-leading 326-litre trunk volume can be increased to 1042 litres by folding the rear seats flat. The luggage floorboard can be moved up or down as required, and there are numerous stowage possibilities located conveniently throughout the cabin.

Split-fold rear seat. The rear seats can be folded flat in the ratio 60:40 to create a conveniently versatile load space.

Adjustable load space floor. The luggage floor can be located at 2 different heights to create either a flat load floor when seats are folded flat, or a deeper load space if preferred.

Cup-holders. Conveniently positioned between the front seats.

Bottle stowage in doors. 1.5 litre bottles can be securely stowed in the front door pockets, while the rear doors can accommodate 1 litre bottles.

There's a conveniently flat load space floor when the rear seats are folded down and the luggage floorboard is in the high position.

*Specifications may vary. Please consult your main Hyundai dealer for more information.

Built-in safety. It's the key to driving pleasure.

Peace of mind makes every drive a safer experience. The new i20 goes even further to keep you out of trouble.

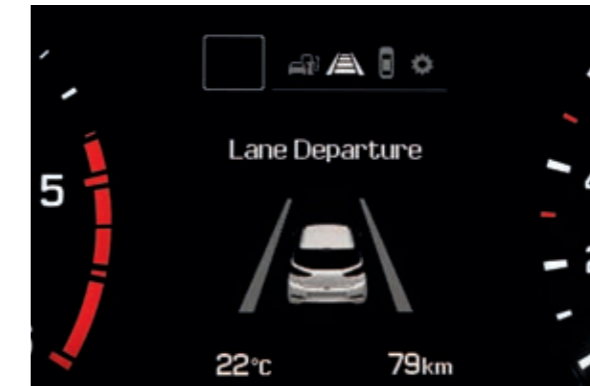

Safety is not an option. It's our passion.

And we're passionate about introducing more safety to this market segment, so the chassis and body structure make extensive use of ultra-high-strength steel. Besides rain sensors and automatic lights, the new i20 also offers the sophistication of cornering lights, Lane Departure Warning System and Tyre Pressure Monitoring System. Features may be standard or optional, depending on model.

Electronic Stability Control. Works unobtrusively with Vehicle Stability Management to maintain grip and control especially on low-friction surfaces.

Lane Departure Warning System. First visual, then audible warning when leaving a traffic lane without signalling.

Tyre Pressure Monitoring System. Senses and indicates the loss of pressure in individual tyres.

Hill Start Assist Control. Prevents unintentional rollback when starting on hills.

Height-adjustable seat belts. The upper front seatbelt mounts are height-adjustable for improved safety and comfort.

6 airbags. All-round protection with 2 front, 2 side and 2 curtain airbags.

Cornering lights throw a bright beam of light in the direction that the car is turning.

*Specifications may vary. Please consult your main Hyundai dealer for more information.

Taking power to the streets.

We've paid special attention to the performance and economy of the engines available in our new i20. They all meet Euro 6 standards, and have been calibrated to meet the demands of European drivers. There are three four-cylinder petrol units: a 75 PS (55 kW) 1.25-litre, an 84 PS (62 kW) 1.25-litre, and a 100 PS (74 kW) 1.4-litre Diesel. They are modern, all-aluminium engines with dual overhead camshafts and continuously variable valve timing.

A 75 PS (55 kW) 1.1-litre is the diesel engine available. This high-economy, high torque unit is mated to six-speed manual transmissions.

Transmissions. The 6-speed manual transmission is standard with all engines except the 1.25-litre engines that are equipped with a 5-speed manual. A 4-speed automatic transmission is available for the 1.4-litre diesel engine.

There's an i20 just waiting for you.

There's more than just one new i20. Choose from a variety of colours, trims and specifications to create your perfect car.

Raising the standard. i20 Classic.

Standard equipment includes the everyday convenience of front electric windows, powered and heated door mirrors, height-adjustable driver's seat and a steering wheel that's adjustable for height and reach. Further comforts, such as radio with USB and Aux ports, keyless entry and tinted windows are also standard, and there's also the option of manual air conditioning and front fog lamps.

See page 33 for a comprehensive overview of available exterior and interior colour combinations.

Adjustable steering wheel. The steering wheel is adjustable for both reach and rake.

Remote locking & unlocking. Doors and tailgate can be locked or unlocked via the buttons on the key.

Powered and heated door mirrors. The door mirrors can be remotely adjusted and heated from the door console.

Height-adjustable driver's seat. Optimize your driving position with the height adjustable driver's seat.

The next level. i20 Deluxe.

A step up from the Classic model is the i20 Deluxe. With a list of standard features that includes steering wheel audio controls, CD player with Bluetooth and 1GB storage, leather steering wheel and gear shifter, the Deluxe model really lives up to its name. But the list does not end here. The Lane Departure Warning System, parking sensors, front fog lights and cruise control with speed limiter all contribute to a driving experience that is both safe, stress-free and more than comfortable.

Electric windows, front & rear. All side windows can be raised and lowered remotely. Front windows have a one-touch Auto up/down function.

Front fog lights. Additional front lighting helps illuminate the way through fog and heavy rain.

Lane Departure Warning System. First visual, then audible warning when leaving a traffic lane without signalling.

Parking sensors. Rear parking sensors make it easier to park in confined spaces.

Additional ways to indulge yourself. i20 Premium.

These two “top of the line” models make the i20 even more tempting. Besides all the equipment of the Delux model, we’ve added electro-chromatic mirror (ECM) and power folding door mirrors. True highlights are the projector headlamp units with integrated LED daytime running lights. Inside, you benefit from a convenient centre console with armrest, automatic climate control and our Auto Defog system.

The “Premium” model is distinguished by the large opening glazed sunroof with LED daytime running lights.

Automatic climate control. Select your preferred temperature and the system does the rest. Its auto-defog function keeps the windscreen clear.

Centre console and armrest. Extra stowage in the centre console with a lid that forms a comfortable padded armrest.

Panoramic roof. The wide opening glass panoramic sunroof.

Electro-chromatic mirror (ECM). The interior mirror automatically darkens when its sensor detects glare from the headlights of following vehicles.

Power folding door mirrors. The door mirrors can be electrically folded against the body. Useful when parked in tight spaces.

High performance projector headlamps. Combined with LED daytime running lights.

*Specifications may vary. Please consult your main Hyundai dealer for more information.

So much choice. You decide

We're all different, and we all have our own preferences and priorities. So your i20 is available in a wide range of exterior colours, complemented by 4 interior colour packages. You can then add a personal accent with your choice of optional equipment and accessories. Your local Hyundai dealer will help and advise you with your selection.

Dimensions

And there's more!

Hyundai Genuine Accessories have been created to help you enjoy even more fun and versatility with your new i20. All are precision-made using high quality materials, so that they will fit your car perfectly. And they meet the rigorous manufacturing standards demanded of all products carrying the Hyundai name.

Business suit hanger. Keeps clothes tidy and crease-free during journeys. It attaches easily and securely to the front seat and can be quickly detached for use elsewhere. Meets current occupant safety requirements.

Entry guards. Creating a premium impression every time the door is opened, these high-quality aluminium entry guards with i20 logo fit perfectly to the doorills.

Blue LED lighting foot area. Welcoming concealed floor illumination that automatically switches on and off with the opening and closing of the front doors.

Tow bar, vertical detachable. In high-quality steel with a 3-ball locking system for easy and secure mounting. Out of sight when not in use. Maximum gross payload for bike carrier usage is 75 kg.

Textile floor mats, velour with brown accent. Luxurious velour mats with brown stitching and i20 logo. Secured by the standard fixing point and anti-slip backing. Available also in grey, blue grey and beige.

Trunk liner. A light, waterproof and durable trunk liner with raised edges protects the trunk floor from dirt, spills and grime. A perfect fit, and branded with the i20 logo.

With you all the way.

Driving your new i20 away from the showroom is just the start of a long and happy relationship. We've prepared a number of programmes to make sure that it stays that way.

5 Year Unlimited Mileage Warranty

Living proof of our faith and trust in our products is our 5-year new vehicle warranty. You enjoy 5 years carefree driving, 5 years roadside assistance and 5 years annual vehicle health checks to keep your driving trouble-free. All without any mileage restrictions.

Finance

The Hyundai intelligent choice programme (Our PCP Plan) allows you to minimise your monthly payments and purchase a new i20 with a much smaller deposit. We can also offer you standard finance over periods up to 5 years at very competitive finance rates. Just ask your dealer for detailed information and choose the plan that suits you best.

12-year Anti-perforation Warranty

In addition to our 5-year new vehicle warranty, we also provide a 12-year warranty against perforation of the bodywork from the inside.

Hyundai Genuine Accessories

Nothing fits better than a Hyundai Genuine Accessory. They are designed and engineered to enhance the looks and capabilities of your i20, and meet the rigorous manufacturing standards demanded of all Hyundai products.

Hyundai Genuine Parts

Produced to the same exacting standards as original equipment, our genuine replacement parts are covered by comprehensive warranties.

My Hyundai

As an owner of a Hyundai, you will receive immediate membership to the My Hyundai Loyalty Club. My Hyundai Loyalty Club will offer an array of consumer offers, exclusively available to you as a Hyundai driver.

What's behind the badge?

The philosophy behind the way we design and engineer our cars is explained at the beginning of this brochure. But we'd also like to tell you something about who we are, how committed we are to Europe, and give you some insight into the future.

Healthy growth.

With already over 3 million Hyundai cars on the roads of Europe we continue to enjoy a consistent history of steady growth. This has resulted in an ever-expanding community of satisfied Hyundai owners across the continent. Seen from a global perspective, Hyundai Motor is now the fifth largest automaker, and that means that a vast array of resources can be concentrated on the development of cars that you will want to drive. That's our commitment to you.

Committed to Europe.

One look at our range of cars immediately confirms that we build cars that you will feel at home in. Actually, that should not be surprising: 95% of all new Hyundai cars on European roads have been designed and engineered at the Hyundai Motor Technical Centre in Rüsselsheim, Germany. Many of them have been built at one of our European production facilities. In fact over a quarter of a million people in Europe are proud to be employed by Hyundai. Annually we pay € 1.7 billion in taxes in Europe, we source 72% of our supplies in Europe, to a value of € 3.4 billion, and our sales and distribution network contributes € 2 billion to the European Gross Domestic Product. We're here to stay.

Building on success.

Standing still has never been part of our DNA. We know that to succeed you must create, innovate and constantly raise standards of quality. Evidence of our investment in Europe is the Hyundai Test Centre located at the renowned Nürburgring. This provides us with a state-of-the-art facility where our "Accelerated Durability" test procedures - simulating 180,000 km severe driving in just a few weeks - can be put into practice.

Competitive spirit.

Success is even more fun when it involves motorsport. Built in our purpose-designed Alzenau motorsport facility, our i20 WRC cars have already won many WRC rally stages in their first year. But the 2014 season highlight has to be the impressive One-Two victory on our "home" territory, Germany. Proof that, as in everything else we do, we're determined to succeed.

Number one.

Not the biggest, but the best! In what is probably Europe's most demanding car market, Germany's authoritative Auto Bild Qualitätsreport ranked Hyundai number one for owner satisfaction in 2010 and 2011. Because we put you first, you put us first. Thank you.

**NEW THINKING.
NEW POSSIBILITIES.**
