

NEW THINKING.
NEW POSSIBILITIES.

i30

QUITE SIMPLY, UNIQUE

When things become more and more alike, individuality becomes more and more important. To stand out, you need to take a different standpoint, go against convention, and be prepared to surprise. Only by doing so, can you create something unique. Welcome to the Hyundai i30. A car that goes in a different direction.

UNCONVENTIONAL LOOK

Style means nonconformity, style gets you noticed.
It's a matter of confidence and simply knowing
what looks right.

DYNAMIC DESIGN THROUGH FLOWING LINES

Fluidic sculpture is the design philosophy that underpins every Hyundai. The i30 is another step forward for this progressive concept, as just one glance at the sporty, dynamic exterior bears out. Energetic belt line moldings emphasize the natural flow from front to back, with the car conveying an impression of movement even while

projecting a voluminous stance. Its aerodynamics are second to none, with the low overall height not only contributing to the style, but also to some of the best fuel economy on the market.

MOVING AWAY FROM THE ACCEPTED

Although the body shape departs from the traditional hatchback design, the i30's striking hexagonal grille tells you straight away that this is a Hyundai. The stylishly curving tailgate lifts to reveal a roomy, versatile trunk, which more than takes care of your luggage needs.

STYLE SHIFTS UP A GEAR

Because style is all about turning heads, this is a car with eye-catching features throughout. Up front, lights provide a touch of class while enhancing your visibility. At the rear, a rakishly designed spoiler, incorporating integral rear combination lamps, adds to the refinement.

The rear combination lamps and bumpers blend seamlessly into the bodywork to form an organic whole. Even details such as tire clearance have been considered. The gap between the rubber and wheel arch has been reduced to a minimum, adding to the poise and sporty appearance while enhancing the aerodynamics and lessening wind noise.

INGENIOUS DESIGN, INSIDE AND OUT

With the largest boot space in its class, the i30 is as practical as it is aesthetically beautiful.

UNPRECEDENTED COMFORT

Pleasing to the eye, pleasing to the touch.
Qualities that make the interior of
the i30 truly special.

A SPECIAL FEELING AWAITS

Take a seat in the i30 and the comfort and space are such that you forget that this is a compact car. It has more cabin room than you'll find in competitor's cars and a comfortable, fully adjustable, well-upholstered driver's seat. There is also a range of stylish color and seat options from which to choose.

The interior is guaranteed to remain cool and fresh whatever the outside temperature, thanks to a fully automatic air conditioning system, rear air ventilation system, and a cluster ionizer system.

WHERE CONTRAST MAKES FOR HARMONY

The interior of the i30 is where the sculptural qualities of the car really come into play. A variety of textural surfaces contrast with one another, with controls and technological features playing off against the dashboard trim in a highly effective way.

Panorama sunroof

A panorama sunroof opens up to let in the sunshine and fresh air. Perfect for summer days.

Supervision cluster with 4.3" color TFT LCD

With white and blue illuminated graphics, the sporty supervision cluster displays all the attributes of modern, functional design.

Cluster ionizer system

A cluster ionizer purifies the air coming through the air conditioner and heater, keeping the atmosphere clean.

Floor console

An armrest between the front seats provides extra comfort and slides back to reveal extra storage space.

Front seat ventilation system

Optional fans in the cushions and at the back of the front seats absorb and ventilate the air to provide a pleasant ride.

Seat-folding system (6:4 type)

The rear seat-folding system provides plenty of versatility for carrying your gear, while still leaving room for rear seat passengers.

Luggage tray

A luggage tray is located underneath the floor, so as not to interfere with the neatness and utility of the luggage area.

Luggage net and hook

A handy luggage net and hook stretches over your luggage to keep it in place.

Luggage power outlet

A 12-volt power outlet in the luggage area lets you charge your mobile phone and similar devices.

Seat-folding system (Flat type)

The rear seats fold down completely to leave a completely flat surface. Perfect for everything from trips to the shops to weekend getaways.

FOR INDIVIDUALS, A SUPREMELY INDIVIDUAL CAR

Active lifestyles demand an active car, and so the i30 has all the space and practicality you could want. Not only does it have ample room in the boot, but you can fold the seats down in a moment and in a variety of configurations.

A CAR ON YOUR WAVELENGTH

Today, we're more connected than ever. No surprise then that the i30's audio technology offers full external device compatibility, so that you're just a simple plug-in away from your favorite sounds. It's just one way in which the intuitive and responsive driver space is tuned to your enjoyment.

Manual tilt & telescopic power steering wheel

A tilt and shift steering wheel lets you raise and lower the steering wheel so that you can find the most comfortable position.

Audio system

The in-dash audio system offers radio and CD, in conjunction with a speaker system, for high-quality sound.

Auto cruise control

A switch on the steering wheel lets you engage auto cruise control, for steady, economical freeway driving.

Connectivity (AUX/USB)

MP3 and other mobile storage devices and portable music players connect via ports on the center console.

Smart key

All that's needed to lock and unlock the i30 is a quick press of the button on the stylishly shaped smart key.

UNEXPECTED DRIVING

Driving made easy, driving made fun.
A dynamic ride and exceptional handling
bring a new dimension to your journeys.

SMOOTH, COMFORTABLE AND PRECISE

Out on the road, the i30 is one of a kind. With control, responsiveness, and agility all given top priority, you'll find yourself enjoying the pure sensation of driving all over again. The car delivers a smooth,

sturdy ride, with exceptional shock absorption and high-speed stability. The Flex Steer™ system offers three different levels of steering effort: normal, sport, and comfort.

Flex Steer™ system

Flex Steer™ system lets you choose from three different levels of steering assistance: comfort, normal, and sport. This allows you to tune the handling of the i30 to the feedback from the road and the driving conditions. As a result, each and every journey becomes a pleasure.

6-speed automatic transmission

The 6-speed automatic transmission, featuring a new shift pattern with sports mode, blends dynamic performance with outstanding fuel economy.

6-speed manual transmission

The 6-speed manual transmission, as well as being durable and offering improved fuel economy, features a redesigned reverse gear release button for easy operation.

7-speed double clutch transmission (DCT)*

The 7-speed double clutch transmission (DCT) features a new shift pattern with sports mode, blending dynamic performance with outstanding fuel economy.

* The double clutch transmission (DCT) is only available with certain engine types.

DISCOVER IT FOR YOURSELF

Nothing beats the open road.

Travel it with the i30, and your journey comes alive. Effortless gear changes, intuitive control, a driving experience in a class of its own.

POWER AND PERFORMANCE NOT THE ONLY THINGS SETTING US APART

For Hyundai, it's not enough that our engines deliver power, torque, and response. We are constantly searching for the extras that provide unsurpassed performance. With the i30, that means a range of innovative Blue Drive technologies to improve fuel consumption and increase efficiency.

1.6 MPI gasoline engine

Lightweight for greater fuel economy, this engine delivers a maximum of 130 ps at 6,300 rpm, while its rigidity means reduced noise and vibration.

1.6 CRDi diesel engine

This impressive diesel engine delivers a maximum of 136 ps at 4,000 rpm, with optimum fuel efficiency, minimum noise, and low emissions.

MAX. POWER

150^{ps}

MAX. TORQUE

18.2^{kg·m}

1.8 MPI gasoline engine

Delivering a maximum of 150 ps at 6,500 rpm, this powerful engine's performance is maximized through dual continuous variable valve timing.

Rear parking assist system (RPAS)

The rear parking assist system (RPAS) sounds a warning if you get too close to other vehicles and obstacles when reversing into a space.

Sliding-type back warning camera

A camera at the rear relays images to a screen on the rear-view mirror, helping you when parking and eliminating blind spots.

Knee airbag in the driver's seat

The i30 features a knee airbag in the driver's seat, protecting this vital area in the event of an impact.

Electric parking brake (EPB)

An electric parking brake (EPB) that is safe and easy to use replaces the conventional handbrake.

7-airbags system

7-airbags provide protection against collision injuries.

Vehicle stability management (VSM)

Vehicle stability management (VSM) ensures that all four wheels keep the maximum grip no matter where there are on.

SAFETY FIRST AND LAST

Peace of mind is central to a modern car. In recognition of this fact, our designers have built a comprehensive range of passive and active safety features into the i30, a fact acknowledged by Euro NCAP when they awarded the i30 the maximum 5 stars: the best safety performance in its class.

Electronic stability control (ESC)

If you have to brake or swerve suddenly, you risk losing control. The electronic stability control (ESC) system prevents this by applying brake pressure independently to each wheel, preventing you from sliding.

UNCOVER THE POSSIBILITIES

Just when you thought there was nothing new to discover in motoring, along comes the i30. Taking the best in style, performance, and function and turning it into something truly distinctive, it's everything a car should be, unbound.

THE SPECIFICATION UP CLOSE

From the car's high-density discharge (HID) headlamps to its fog lamps and panorama sunroof and high-mounted stop-lamp, the i30 has your convenience and driving pleasure dialled in. At the same time, a range of stylish options lets you equip the car the way you want it, adding to the sense of individualism.

HID headlamps

Optional high-intensity discharge (HID) headlamps produce more luminosity than conventional halogen lamps, and they deliver more light intensity for the same amount of energy used. Therefore, the lights are smaller and more compact than traditional lamps. These HID headlamps look more dynamic as part of a front light assembly. They also cast a longer beam, allowing you to pick out obstacles in the road sooner.

Fog lamps with LED daytime running lights (DRL)

Mounted low on the body to easily penetrate fog, optional fog lamps form an uninterrupted part of the lower bumper.

Outside mirror repeaters & puddle lamps

While outside mirror repeaters are sleek, elegant and give you more visibility, puddle lamps light up when you approach the car, for a classy touch.

LED rear combination lamps

As well as forming an integral part of the flowing bodywork, the rear lamps produce bright, consistent light for optimum safety.

Welcome light door handles

Lights built into the door handles are the i30's way of welcoming you to the car.

Electric folding outside mirrors

Our auto folding mirrors automatically fold away when the i30 is locked by its smart key. A puddle lamp that illuminates the door areas for safer entry and exit is also available.

Panorama sunroof

A twin-panel panorama sunroof that lets light flood into the interior is ideal for warm, sunny days. The retractable panorama roof slides across easily, and a wind deflector stops you getting blown around.

LED high-mounted stop lamp

A high-mounted stop lamp integrated into the tailgate, with bright red LEDs, increases your visibility to traffic behind when you apply the brakes.

Rear wiper

The rear screen wiper clears a larger area, and it is automatically activated by selecting reverse gear if a rain sensor is fitted.

17" alloy wheels

17" alloy wheels offer the ultimate in performance, sporting prowess, and prestige. They come fitted with low-profile 225/45R17 radial tires.

16" alloy wheels

16" alloy wheels add to the sporty exterior, and their light weight adds to the fuel economy of this already fuel-efficient car.

15" alloy wheels

Lightweight 15" alloy wheels feature an attractive five split-spoke design.

15" steel wheels

Strongly built and strong on style, the 15" steel wheels come as standard.

MAKING DRIVING COMPLETE

Why take your hands from the wheel when you want to adjust the stereo?
Why not have two different levels of air conditioning instead of just one?
These are the sort of questions our designers and engineers have addressed with the i30. Now, it's time for you to enjoy the results.

Conventional cluster

The 2-circle type cluster further improves the luxurious appearance with white and blue light and offers drivers a range of information through a high-tech LCD.

Chrome-coated inside handles

The inside door handles are finished in chrome, making them easy on the eye and cool to the touch.

Engine start/stop button

The engine start/stop button requires just a simple push to fire up the engine as long as the smart key is around you.

Steering wheel remote control system

Use your left hand to control the audio system from the steering wheel.

Rain sensor

A sensor on the windscreen detects raindrops and automatically activates the wipers, varying their speed depending on the quantity of rainfall.

Bluetooth hands-free

Bluetooth functionality lets users make hands-free phone calls and stream music wirelessly to listen to it over the car's stereo speakers.

Full auto air conditioning system (Dual zone)

This allows the driver and front seat passenger to select separate air conditioning levels.

Overhead console

A console positioned just above head height is the ideal place to keep your sunglasses.

Manual air conditioning system

Manual air conditioning lets you set your preferred climate setting by hand.

Floor console & rear seat cup holders

Refreshments on the move are important, so the i30 features cup holders at the front and back.

Rear air ventilation system

This allows back seat passengers to easily control the amount of air flow.

Glove box (Cooling)

A cooling glove box keeps your drinks and snacks fresh.

Metal pedals

Metal pedals, a real motorsport feature, are available for both manual and automatic transmissions.

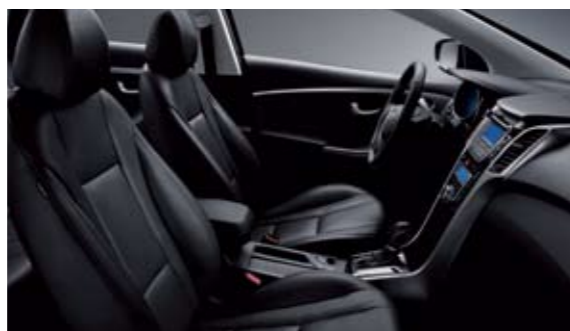

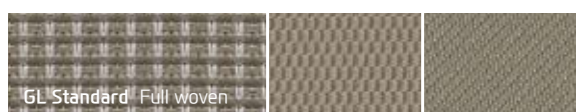

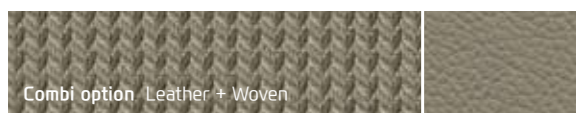

Rear camera display (RCD) system

An electro-chromic room mirror automatically dims the glare of headlights behind you, while its integrated screen displays images from the back warning camera.

NEW THINKING. NEW POSSIBILITIES.

People's expectation toward individual mobility requires more than just a convenient means of transportation. The old understanding of cars has become outdated. A car represents individuals' lifestyles, and it became an integral part of their lives. At the same time, the automobile industry has experienced seismic change. Hyundai Motor Company has grown rapidly to become one of the largest automakers, backed by world class production capability and superior quality. We have now reached a point where we need a qualitative approach to bring bigger ideas and relevant solutions to our customers.

This is an opportunity to move forward and we have developed a new brand slogan that encapsulates our willingness to take a big leap. Led by our new slogan and the new thinking underlying it, we will become a company that keeps challenging itself to unlock new possibilities for people and the planet.
