

NEW THINKING.
NEW POSSIBILITIES.

NEW GENERATION HYUNDAI *i30*

Think you know Hyundai? Think Again.

CREATED TO A HIGHER QUALITY STANDARD.

Introducing the new generation Hyundai i30 Wagon. Designed and built in Europe for elevated quality beyond its class, and a focus on exceeding the demands of the European driver, starting with a highly developed sense of style inside and out. Its powerful flowing lines, striking appearance, and generously appointed interior make one point clear: the new i30 Wagon is anything but mainstream.

REINFORCED BY HYUNDAI STEEL.

Every detail of the i30 Wagon is built to last. That begins with strenuously tested high-tensile steel, forged in our own environmentally-friendly factory to meet our exacting standards. Among the advantages are greater strength for occupant safety, advanced production techniques to minimise weight and maximise fuel efficiency, plus extreme climate testing to ensure lasting protection against rust and wear.

REALISED BY THE POWER OF TEAMWORK.

Creating the i30 Wagon in Europe offered a host of design advantages. By centring the entire development of the i30 Wagon in one region, our design and build teams were able to collaborate more closely at every point in development, from first concept to final assembly and quality control. The result is a European partnership of talent that sets a new benchmark in quality and efficiency.

CONFIDENCE YOU CAN FEEL.

This is where the i30 Wagon driver feels most at home. From the comfortable driving position and generously appointed seats to innovative cockpit aesthetics and advanced technology, every aspect of the interior brings the driver in closer harmony with the i30 Wagon. The result is awe-inspiring. The driver feels at one with the road, more relaxed and focused. So even the longest drive is enjoyed in total comfort.

QUALITY YOU CAN TOUCH.

The i30 Wagon is a car that stimulates all of your senses. Higher quality materials and true attention to detail create a rich feeling of exclusivity throughout the cabin. From the confident weight of the dials to the supple texture of fabrics and covers, every component has been created to heighten appeal and provide a sensory experience unlike any car in its class. For the driver and passengers alike, the i30 Wagon always makes a strong first impression that lasts.

POETRY IN MOTION.

The art of Fluidic Sculpture. The i30 Wagon takes our signature Hyundai design language to a new level of style and grace. Clean, tapered lines circulate around the body to exude a sense of motion even when the i30 Wagon is standing still. Throughout the profile, sculpted forms play with light and shadow to create tension and elevate emotion – all with a more athletic stance that adds to the European handling and comfort.

VIEW SAFETY IN A NEW LIGHT.

The i30 Wagon offers an expanded choice of lighting features. For greater safety, LED daytime running lights are standard. The rear lights automatically flash during hard braking. Plus select from advanced options that include brilliant xenon headlamps with an Adaptive Front Lighting System.

Xenon headlamps.

The optional High Intensity Discharge (HID) headlamps cast a significantly brighter and longer light beam without causing glare that can distract the drivers of oncoming cars. The colour temperature is set to approximate that of daylight, so reds and greens are more visible.

LED daytime running lights.

LED running lights improve road visibility, while adding an elegant style feature to the i30 Wagon. Safety is also enhanced by giving other vehicles an additional light source for reference.

Rear combination lamps.

Designed to wrap around the curved i30 Wagon body, our rear lamps automatically flash when you brake hard, so vehicles behind you get an extra warning.

Rear fog lamps.

Unlike other cars in its class, the i30 Wagon offers rear fog lamps on the left and right side of the vehicle. Under each bulb there is a reflector to make you more visible to drivers approaching from behind.

MAKE EVERY TURN WITH CONFIDENCE.

Introducing the Adaptive Front Lighting System. The i30 Wagon offers an innovative Adaptive Front Lighting System (AFLS) that increases safety on every type of curve and turn. The system actually bends the light as you turn the wheel, improving visibility and driver response time. AFLS is available when choosing xenon headlamps as an option.

As you drive, AFLS provides a longer and brighter field of vision, allowing you to see more of the road ahead. A lamp washer ensures that dirt never reduces light intensity or range.

GREATER FLEXIBILITY INSIDE AND OUT.

Enjoy even more room to breathe. The i30 Wagon offers several options to increase the amount of interior room and the airiness. From an innovative sliding roof to a versatile full-flat cargo floor, customising your i30 Wagon is simple. You also have a choice of optional wheels for added style and road performance.

Optional panoramic roof. The twin-panel roof offers true open-air driving fun. At the touch of a switch, the front panel automatically retracts, and a wind deflector activates for passenger comfort. High-quality construction. The roof panels are made of highly durable materials to ensure a lifetime of worry-free use. A fully retractable shade lets you enjoy natural light when the roof is closed.

17" alloy wheels. Finished in vivid high-quality chrome, our optional 17" wheels add an athletic look to your i30 Wagon. The wheels are matched to 225/45 R 17 tyres for increased grip.

16" alloy wheels. Exclusively designed for the i30 Wagon, our optional 16" wheels provide an elegant touch of style. The twin-spoke wheels are matched to 205/55 R 16 tyres.

COMFORT, QUALITY & SPACE.

The Hyundai i30 Wagon offers 528 litres of cargo room with the rear seats in place. For greater protection as well as convenience, a number of additional options are available, including a luggage net, a cargo screen, an underfloor cargo box and a luggage rail resulting in more functionality and safety.

Rear seats up

60:40 folding

60:40 folding

Full flat luggage compartment

Full-flat floor as standard.
To maximise the amount of available cargo space, the i30 Wagon offers the option of an innovative full-flat cargo floor. When folded down, the 60/40 split rear seats create a completely level floor which increases the total cargo area to a massive 1.642 litres. The flat floor also makes loading and unloading easier.

ENHANCED TECHNOLOGY FOR DRIVERS.

The i30 Wagon is built for the modern world. Slip behind the wheel, and you'll find a host of advanced features for greater comfort and safety. From the TFT LCD supervision cluster to touch screen navigation, the driver has access to a wealth of information on demand, plus extras that include FLEX STEER™, dual-zone air conditioning, iPod/USB connectivity, Button Start with Smart Key and more.

CONFIDENCE YOU CAN FEEL.

This is where the i30 Wagon driver feels most at home. From the comfortable driving position and generously appointed seats to innovative cockpit aesthetics and advanced technology, every aspect of the interior brings the driver in closer harmony with the i30 Wagon. The result is awe-inspiring. The driver feels at one with the road, more relaxed and focused. So even the longest drive is enjoyed in total comfort.

Leather seats. The optional leather seats feature a soft grain for a rich, warm feel. Height adjustment and seat heaters for comfort in cold weather are included. Electric operation and electric lumbar support for the driver are available as options.

Safety power window. Offers convenient one-touch up and down operation, plus an anti-pinch safety feature to prevent accidents or injuries.

WELCOME TO THE LEADING EDGE.

Take i30 Wagon technology even further. The i30 Wagon comes equipped with an array of advanced features that provide greater comfort and ease. Yet it doesn't end there. You also have a number of navigation, on-board entertainment, and custom interior options at your command.

Touch screen navigation. Features a large 7" colour screen and touch control including voice recognition, Bluetooth™ and a rear view camera with 7" display.

Climate control. Enjoy all-season comfort with dual-zone air conditioning, automatic window defogging, and an ioniser that filters dust and pollutants from the incoming air.

Auxiliary ports. Features dual USB/iPod ports, plus an auxiliary port to connect or charge other devices. A 12-volt power outlet is also included.

Electronic parking brake plus an extra storage area for valuables.

Electro chromatic mirror. Optional mirror that auto adjusts to incoming light levels. Also displays the rear view camera image on i30 Wagon models with a camera, but without navigation.

Interior lighting. A multi-point lighting system includes driver and passenger map lights, plus a roof-mounted sunglasses holder.

Button start with Smart Key. Start the engine by pressing a button instead of turning a conventional key. Available only with our Smart Key option.

Smart Key. With the Smart Key in your pocket, the i30 Wagon recognises "its" driver and unlocks the doors automatically. It also activates button start, so you can start the engine without turning a key.

6 SPEED MANUAL AND AUTOMATIC TRANSMISSION.

6-speed manual transmission. Available with all i30 Wagon engines, our 6-speed manual delivers incredibly precise gear changes and a smooth, confident feel. To further improve fuel economy and reduce CO₂ emissions, an indicator on the dashboard signals the ideal moment to shift, while Hill-start Assist Control prevents rollback when starting on an incline. A leather gearshift cover matched to a leather-wrapped steering wheel is available as an option.

6-speed automatic transmission. Each of our 1.6 litre engines can be combined with a smooth 6-speed automatic designed for greater acceleration and fuel economy. The transmission also includes an active eco system for a greater reduction of CO₂ emissions. A chrome surround is standard, with the option of a leather gearshift cover matched to a leather-wrapped steering wheel.

ENJOY EVERY MINUTE BEHIND THE WHEEL.

Take total control of the i30 Wagon cockpit. The i30 Wagon is designed to offer its driver optimal comfort and convenience. All controls are ergonomically placed for easy reach, while the TFT supervision cluster provides essential vehicle information at a glance.

Multifunction steering wheel. Finished in soft, supple leather, our optional multifunction steering wheel adds a sporty touch while placing all controls at your fingertips. For improved response, motor-driven power steering is included, with the option of FLEX STEER™ for driver-controlled road feedback. The wheel can be set to the perfect driving position via manual tilt and telescopic adjustment.

Advancing with a vision. Three diesel and three petrol engines, all state-of-the-art, mean the new i30 heralds a new driving culture in its class, and beyond. All six engines meet minimum emission and low consumption requirements but offer outstanding performance.

The choice is yours: 1.4l 90hp, 1.6l 110hp or 1.6l 128hp diesel and 1.4l 100hp, 1.6l 120hp or 1.6l 135hp petrol models. All engines stand out for their high efficiency, balanced torque curves and sensationally low CO₂ emissions. Manual or automatic six-speed gearbox transmit the engine power efficiently to the drivetrain because they are intricately linked with the dynamic chassis.

5-years unlimited warranty

A 5-years unlimited mileage* warranty is the first component of the 5 YEAR TRIPLE CARE service. It provides a 5-years bumper-to-bumper warranty, including powertrain, as well as a 12-years anti-perforation warranty. It covers 26 European countries (excluding Russia, Croatia and the Ukraine).

5-years roadside assistance

5-years roadside assistance coincides with the 5-years warranty period. It offers Hyundai i30 owners free call centre calls in case of breakdown on the road and towing to the nearest Hyundai dealer, for both domestic use and abroad.

5-years vehicle health check

For 5 years, besides your main annual service maintenance, your Hyundai dealer will perform a vehicle health check on key elements of car care, including engine, transmission, steering, suspension and brake systems.

*Vehicles used for taxi or rental car uses are covered by a 3-years, 100,000 km warranty.

NEW THINKING. NEW POSSIBILITIES.

People's expectation toward individual mobility requires more than just a convenient means of transportation. The old understanding of cars has become outdated. A car represents individuals' lifestyles, and it has become an integral part of their lives. At the same time, the automobile industry has experienced seismic change. Hyundai Motor Company has grown rapidly to become one of the largest automakers, backed by world class production capability and superior quality. We have now reached a point where we need a qualitative approach to bring bigger ideas and relevant solutions to our customers. This is an opportunity to move forward, and we have developed a new brand slogan that encapsulates our willingness to take a big leap. Led by our new slogan and the new thinking underlying it, we will become a company that keeps challenging itself to unlock new possibilities for people and the planet
