Sleek lines and fluidic styling THE ix35 IS DESIGNED TO IMPRESS

First impressions count for a lot. But set eyes on the ix35 and we think you'll find your second and third glances are equally rewarding. You'll also appreciate some of the finer details, such as the beautifully-designed new

alloy wheels, elegant sculpted shoulder line curves and side mouldings which enhance the sleek side profile of the car, giving it a sporty, athletic feel. It all means that the ix35 is the perfect example of fluidic design. But beauty is in the eye of the beholder. So take a moment, or even several, to make up your own mind. Lots of room in the back KEEPS THE ix35 OUT IN FRONT

Whether it's friends or family you're carrying, the ix35 is generously equipped to keep you and your passengers comfortable. You'll find plenty of space and legroom to stretch out in and air conditioning will keep everyone nice and cool.

Beyond the standard model, you'll get even more control of your environment thanks to heated front and rear seats and climate control. On the Premium Panorama model, the panorama sunroof will let plenty of light into the cabin, creating an

even more spacious atmosphere. Whatever you need to carry, the ix35 can handle it. Muddy mountain bikes? No problem. School run? Check. There's plenty of room in the boot to stow your gear in the back, and a number of clever storage

areas to carry any extra items. The ix35 is designed to meet your active lifestyle. With space, comfort and versatility, you'll soon wonder how you ever managed without it.

Urban streets or country lanes EVERY DRIVE IS A NEW ADVENTURE

We've put a lot of smart thinking into the ix35 to deliver an outstanding mix of power and agility. Precise steering, combined with the latest multi-link rear suspension, ensures great handling and a comfortable ride so you can follow your sense of adventure. It also comes with a variety of powerful, agile engines. The potent yet efficient 1.6 litre GDi petrol manual 2WD delivers a power output of 133 bhp. A 1.7 litre CRDi diesel manual 2WD is also available, while the more adventurous could opt for a 134 bhp 2.0 litre CRDi diesel engine, available with either a manual or

automatic transmission and an advanced torque on demand 4WD system. It works by automatically providing power to all wheels, only when driving conditions require it to, resulting in greater efficiency when compared to permanent 4WD systems. The chassis and suspension delivers a first class ride, and optional Flex Steer* helps you tailor your driving experience even further. With its ideal mix of power and efficiency, the ix35 ticks all the boxes. Take it along sweeping country roads or busy urban streets and enjoy an exhilarating drive in every situation.

Efficient technologies WE'VE SPENT OUR ENERGY HELPING YOU SAVE YOURS

The ix35's efficient yet responsive engines help keep running costs down to a minimum, but there are even more clever innovations to help save fuel and reduce emissions. Blue Drive technologies will keep CO₂ emissions and fuel consumption low – but not at the expense of your enjoyment. All manual transmission models are fitted with an eco drive indicator, which shows you the best time to change gear. Intelligent Stop and Go (ISG), which features on the Blue Drive

model, is perfect for urban driving. It'll switch off the engine when you put your car in neutral and lift off the clutch, restarting it instantly when you de-press the clutch, ready to move off. There's also a Tyre Pressure Monitoring System (TPMS) to warn you when your tyres are not at the optimum pressure for efficient driving. Thanks to clever technologies and advanced engines, you can now enjoy driving the ix35 even further between refills.

We've thought about safety YOUR THOUGHTS CAN TURN TO THE ROAD INSTEAD

A little confidence goes a long way. Especially when it comes to the safety of your family and friends. So it's good to know the ix35 is well equipped to take care of you all. There's Downhill Brake Control (DBC) to keep your car in check on low speed steep descents, as well as Hill-start Assist Control (HAC), which will help you out when you're setting off. Once you're driving, you'll be able to take advantage of a range of active safety features. These include the

Electronic Stability Programme (ESP), which constantly monitors the car's behaviour and helps make sure it stays under your control, as well as Trailer Stability Assist (TSA) for even more security when towing. Anti-lock brakes give you more precision when you need it most, and of course, you can count on the highest levels of protection from the high tensile steel body shell, rear ISOfix child seat anchorage points, active front head restraints and six airbags. On Premium

and Premium Panorama models you'll also enjoy even better visibility on the open road, thanks to bi-xenon headlights. It all adds to the sense of reassurance you'll feel in an ix35, which is enhanced even further by the impressive five star EURO NCAP rating on every model. It means you can rest assured that you and your passengers are travelling with the ultimate protection. When it comes to safety and security, the ix35 gives you all the confidence you need.
