

THE  
NEW  
ix35

 NEW THINKING.  
**HYUNDAI** | NEW POSSIBILITIES.

# AN ENERGISED SPIRIT

How would you like to brighten up your day with a bold, distinctive design, bursting with a new sense of adventure? From the characteristic hexagonal grille, a new head light design with optional Bi-Xenon technology and new LED daytime running lights to the muscular rear featuring LED combination lights\*, the new Hyundai ix35 is designed for a spectacular driving experience. Add sparkling alloy wheels and this pedigree SUV is ready to show you what it's made of.

A 16" alloy wheel with metal grey finish

B 17" alloy wheel with metal grey finish

C 18" alloy wheel with metal grey finish

Car shown not to UK specification.

\* Not available on S models.

# A CLEARER MIND SET

If the exterior marks the start of a thrilling design story, the interior keeps up the suspense with beautiful lines and quality materials. In fact there are bright ideas wherever you look: The optional supervision cluster provides you with handy trip

information lit up in a stylish blue light hue. The front cup holders light up in the same characteristic Hyundai colour when you drive in the dark. It just goes to show how much attention to detail we put into the ix35.

# LIFE WITH MORE STYLE

The bright interior makes your journey both an exhilarating and comfortable experience. While the high seating position creates that King of the Road feeling with great all-round vision, the panorama sunroof,

standard on Premium Panorama models, brightens up the welcoming cabin even further. The ix35 is available with either cloth, elegant leather and cloth or luxurious leather upholstery.

As the driver, you'll have a whole range of sophisticated technology for your comfort and entertainment at your fingertips. The optional 7" TFT touch-screen navigation system has intuitive menus, and when in reverse, it also displays images of the rear view camera (not available on S and SE models).

The standard radio/CD player is MP3 compatible and iPod/USB/AUX connections provide easy access to external music devices. Its many audio features can be managed via the handy steering wheel controls\*. Or choose the optional audio system with a 4.3" LCD screen, which can also display rear view camera images. Bluetooth\* for hands-free calls using voice recognition can be activated on the steering wheel as well.

# STOP AND LOOK AROUND

The new ix35 keeps the surprises coming. It's jam-packed with advanced technology and luxurious features. Take the heated seats available for both front and rear passengers\*\*, or the air conditioning. Even the steering wheel can be heated on cold winter days\*. Our SUV also does a lot of work for you: it

automatically switches on the wipers\*\* or the lights\*\* when necessary, and helps you keep to a set speed with cruise control\*\*. Parking is equally effortless thanks to clever technology like the rear view camera, optional front and rear sensors and Smart Parking Assist System.

With air conditioning, luxury comes as standard.

For a comfortable start on cold winter mornings: the steering wheel can be heated at the touch of a button\*.

To assist you in parking your new ix35, optional front and rear parking sensors show you how much room is left with acoustic alarm signals and a display in the optional supervision cluster. You can judge the distance even better with the rearview camera image that is displayed in the 4.3" screen of the radio (depending on the version) or in the optional navigation system screen. A great feature to help you park your ix35 scratch-free even in tight spaces.

The optional Smart Parking Assist System takes effortless parking one step further. It finds a suitable parallel parking space, judges the distance to the car in front and at the rear and steers the car into the slot for you. All you need to do is adjust the speed and change gears accordingly.

\* Optional. Not available on S models or models with both 4WD and Smart Parking Assist. \*\* Not available on S models.

# DRIVE TO YOUR BEAT

If the ix35 design stands for enticement, the drive offers a fantastic reward. All our engineering expertise has gone into this powerful SUV to ensure you enjoy every minute of its poise and excellent handling. On top of that, our latest Blue Drive technology (available as an option on the 1.6 GDi and 1.7 CRDi models) keeps fuel consumption and CO<sub>2</sub> emissions to a minimum - but not at

the expense of performance. There is a choice of two diesel engines; the 1.7 CRDi and the 2.0 CRDi. The 2.0 is available as a 4WD option, for extra prowess should you veer towards more challenging terrain. A 1.6 GDi petrol engine is also available.

For greater stability on tricky surfaces, the 4WD system takes into account road condition, wheel speed and acceleration and distributes the torque between front and rear wheels.

Whether you're tackling tough terrain or a steep city hill, Hill Start Assist Control prevents the SUV from rolling backwards when you pull away. Downhill Brake Control helps you going down a steep incline; instead of holding the brake, the ix35 will descend at a gentle, controlled pace.

# MORE INVIGORATING CHOICES

Tailor the ix35 to your fashion sense. A wide range of high-quality fabrics and colours are available to truly make the ix35 interior your own.

CO <sub>2</sub> emission, combined (g/km)	158	149	139 (147)	135 (143)	145 (149)

The CRDi engine exudes pure refinement with a perfect mix of power and efficiency.

A choice of six-gear manual or six-gear automatic transmissions with sequential gear shift translates the ix35's power to the road.

With optional Flex Steer you can adjust the steering performance to your personal driving style: it includes Comfort mode for easy parking and urban driving, Normal mode, and Sports mode for motorway driving.

# NEW THINKING NEW POSSIBILITIES

People's expectation toward individual mobility requires more than just a convenient means of transportation. The old understanding of cars has become outdated. A car represents individuals' lifestyles, and it has become an integral part of their lives. At the same time, the automobile industry has experienced seismic change.

Hyundai Motor Company has grown rapidly to become one of the largest automakers, backed by world class production capability and superior quality. We have now reached a point where we need a qualitative approach to bring bigger ideas and relevant solutions to our customers.

This is an opportunity to move forward, and we have developed a new brand slogan that encapsulates our willingness to take a big leap. Led by our new slogan and the new thinking underlying it, we will become a company that keeps challenging itself to unlock new possibilities for people and the planet.
