

QX30

 INFINITI

CROSSOVER TO ADVENTURE

Feel the passion in the all-new Infiniti QX30 come alive when you cross the line. This is the car that you'll want to drive in the city, in the country – and everywhere in between. Let the Infiniti QX30 give you the freedom to achieve the life that only you can define.

HEIGHTEN YOUR STYLE

Discovering new horizons requires a vehicle that breaks new ground. One look tells you that the Infiniti QX30 was designed to fulfil that goal. Sporting bold, daring lines and an adventure-seeking stance, this is a car that can't wait to swap its reserved parking space for an open road adventure.

UNDENIABLY INFINITI Feel our DNA in every curve of the all-new Infiniti. From the front, the top arc of the grille mirrors the arc of the bottom to form Infiniti's signature double-arch grille. The trade-marked eye-inspired LED headlight design can be seen from both the front and the side. It is echoed in the tail lamps for a definitive character from every angle. The side view is accentuated by the Infiniti crescent-shaped C-pillar, while a dramatic rising and dipping shoulder line runs the entire length of the car – so deep and sharp that engineers had to develop a new type of 3D manufacturing process to get it just right.

EXPRESSIVE STYLING Dramatically shaped front and rear bumpers combined with Infiniti QX30 wider wheel arches and side sills, amplify its commanding, rugged presence.

ENHANCED VIEWPOINT The Infiniti QX30's elevated ground clearance combines a "see-all" ability with its "go-anywhere" attitude.

ATHLETIC STANCE Sculpted 18-inch alloy wheels reinforce the bold design of Infiniti QX30, while meeting all driving requirements with responsiveness and absolute certainty.

HEIGHTEN YOUR SENSES

Inside Infiniti QX30, shapes flow naturally in beautiful asymmetry, creating an inviting interior which is fresh and unique. This is design with a new view.

FIRST IMPRESSIONS Looking from the driver's seat, the interior's intersecting arcs are refreshingly dynamic, but your first impression happens before you ever sit down. Infiniti QX30 has been designed to be breathtaking from the moment you see it – whether from the front or in striking profile.

DESIGNED IN MOTION The interior of the QX30 takes your movement in the real world into consideration. The way light reflects and moves across every surface was designed to evoke an emotion to enhance the driving experience.

CARRY WITH EASE Pop open the rear liftgate and reveal a wide opening that makes loading and unloading easier. Clear from any obstruction, you'll have direct access to the cargo area. What's more, the 60/40 folding rear seats open up more space to carry more of your things.

THE NEW FEEL OF INDIVIDUALITY

On every surface of the interior, you'll find high-quality softness from the same premium materials found on your favourite luxury goods.

SUEDE-LIKE SOFT Developed in Italy by the high-fashion industry for use on surfaces you touch often, Dinamica® imparts a suede-like feel to the front pillars and headliner.

NAPPA LEATHER This exceptionally supple leather, selected for its softness and durability, adds unrivalled comfort to seating, as well as enhancing other surfaces throughout the cabin.

Overseas model shown

IT'S YOUR STATEMENT. BE BOLD

Inside Infiniti QX30, shapes flow naturally in beautiful asymmetry, creating an inviting interior which is fresh and unique. This is design with a new view.

BLACK LEATHER The clean look of black leather keeps the interior of your vehicle looking sharp. Along with stitching that complements the curves inside, the premium look matches its premium feel!

CAFÉ TEAK Traditional, but nothing less than refined. Classic material meets modern reinvention with black stitching on chocolate Nappa leather upholstery and stainless steel kick plates!

BEIGE LEATHER The natural look of beige leather is highlighted with matching beige Dinamica® headliner and front pillars. Both work together to give the interior an open atmosphere!

IN TOUCH WITH YOUR CONNECTED WORLD

Your life is always moving, and Infiniti InTouch™² seamlessly brings your world into your car. Stay ahead and in contact with your voice, text, email, calendar, and music. Infiniti InTouch™ makes your world flow.

A PREMIUM CONNECTION Every time you get into your vehicle, connect with technology that responds like the technology you hold in your hand. After you connect your smartphone, Infiniti InTouch™ brings your world into your car, allowing you to read email or text, listen to your playlist, navigate unfamiliar streets, or call your friends.

MORE OF YOUR WORLD Personalise your vehicle to keep you moving ahead instead of catching up. Sync to a selection of apps from your smartphone to your car, and you can access your email and calendar. Even search for a destination without knowing the specific name or category, and then save it to start your journey.

ADJUSTS TO YOU Infiniti InTouch™ delivers an intuitive experience right from your driver's seat in the manner that best suits you. Once your smartphone is connected, you can interact with the state-of-the-art system however you find easiest—through the 7-inch color touch-screen, Infiniti Controller or voice command.

PLUG-IN CONVENIENCE Two USB ports give you twice the opportunities. Get instant access to your music library. Charge your smartphone. Listen to tunes on a USB stick or drive.³ The 10-speaker Bose® Premium audio system will transform your vehicle into a mobile sound studio.

BLUETOOTH® STREAMING AUDIO Turn your synced Bluetooth®-enabled smartphone into a source of music, and listen to your top playlists over the vehicle's audio system.⁴

HANDS-FREE VERSATILITY With the Infiniti Bluetooth® Hands-free Phone System,⁴ you can make and receive wireless calls using voice recognition. No fumbling. No need for a headset. Just press a button on the steering wheel.

RESPOND TO THE CITY OR ESCAPE FROM IT

With Infiniti QX30, connecting isn't only about what's on-line. It's also about what's down the road. Intelligent All-Wheel Drive (AWD) and Dual-Clutch Transmission (DCT) keep your car in perfect contact with the road. Meanwhile, its InTouch smartphone access connects you to your world.

STABLE CORNERING

SHARPNESS WITH SMOOTHNESS Sporty yet forgiving, you can feel the attention paid to tuning the shocks. They hold the vehicle tighter as you take turns while softening rough pavement and cobblestone, for a rare balance of responsive handling with a smooth ride. Engineers even reduced suspension noise so it sounds smooth.

FINE-TUNED STEERING The QX30 was made to thrive in the fast-paced thrust and parry of urban driving. Contributing to an overall sporty feel, the speed-sensitive system requires less effort in low-speed situations yet is more firm at higher speeds.

DUAL-CLUTCH TRANSMISSION Shift delays are history. The transmission uses one clutch for even gears and another for the odd gears. The next gear is already pre-selected and the result is a smooth, quick change you'll almost never notice.

SEAT DESIGN You connect to your car through the steering wheel and your seat. The driver seat's design is based on zero-gravity research to provide maximum spinal support and reduce the pressure on muscles, so you feel what you want from the car while also helping minimise fatigue on long drives.

INTELLIGENT ALL-WHEEL DRIVE The intelligent All-Wheel Drive (AWD) works in sync with the Vehicle Dynamic Control³ system to adjust for better traction. Under normal road conditions, the system operates its front-wheel drive for improved fuel efficiency. Should conditions become compromised, it will send additional power to the rear wheels to enhance traction control. You can count on the Infiniti QX30 to deliver all the power you want, while intelligently using only the power you need.

EASY TO PARK FROM ANY ANGLE

Discover an inherent ease within its combination of awareness innovations and parking assistance technologies. It's engineering that intuitively extends your ability to manoeuvre in and around tight spaces.

SEE EVERY SIDE Gain a new perspective on what's around you. With the Around View® Monitor with Moving Object Detection and Front and Rear Sonar System,^{1,5,6} it's easy to see and manoeuvre in even the tightest spaces. Four cameras and one virtual 360° view from above elevate your parking expertise, alerting you when a moving object is detected close by.

MOVING OBJECT DETECTION^{1,7} The four cameras not only give you an unprecedented view, they keep watch as well. A chime alerts you when a moving object is detected around your vehicle, and the appropriate camera is highlighted to show you which side.

INTELLIGENT PARK ASSIST^{1,8} Using a combination of 12 sensors, this system will determine if the parking area is large enough. Simply press a button to confirm, and operate the accelerator and brake pedals. Your vehicle will park itself smoothly—in parallel or reversing-in parking spots 45° or 90°.

MASTER THE WAY YOU MOVE THROUGH TRAFFIC

Whether the roads are clear, chaotic or constantly changing, intelligent technologies help guide you through the action.

KNOW YOUR WAY Find your way through busy streets and unfamiliar territory. The Infiniti InTouch™ Navigation System⁹ lets you choose a view that's most intuitive to you—a 2D overhead view or a 3D Birdview perspective. Lane Guidance will also help escort you exactly where you need to be for exits and interchanges.

MAINTAIN YOUR LANE The Lane Departure Warning¹⁰ monitors lane markings and will warn you visually, audibly and physically—as a vibration through the steering wheel—so you can correct your line before you leave your lane.

MANAGE YOUR PACE Set your desired speed and distance, and Intelligent Cruise Control (Full-Speed Range) will automatically adjust your speed in slowing traffic, all the way to a complete stop. Once the way clears, Intelligent Cruise Control will bring you back up to your preset speed.¹¹

SEE THE SIGNS The Traffic Sign Recognition uses a camera to watch for posted speed limits. Then a reminder will be displayed in the instrument panel. When you're aware, you're in command!

PREPARED FOR

RECOGNISING DANGER Forward Collision Warning¹² looks ahead, and if the closing distance between you and the vehicle in front rapidly decreases, it will warn you visually and audibly.

ADVANCED WARNING Forward Emergency Braking¹³ adds another dimension of security. It detects vehicles in the lane ahead of you, and if deceleration is required, the accelerator pedal is pushed up and the brakes are applied to help minimise a collision—or even help prevent one.

HELPING YOU STAY IN CONTROL Comparing actual vehicle cornering performance to the driver's input, Vehicle Dynamic Control¹⁴ adjusts power levels and applies appropriate brake pressure to individual wheels to help correct oversteer or understeer, helping keep the vehicle on the steered path. Working in tandem, the Traction Control System senses wheelspin and automatically helps give you a surer foothold.

BETTER DIRECTIONAL STABILITY WHILE STOPPING Electronic Brake force Distribution adjusts the amount of pressure applied to the front and rear wheels to help improve braking performance and reduce front-end dive.

SENSES WHERE YOU CAN'T SEE The Blind Spot Warning System¹⁵ uses sensors to help alert you to a vehicle detected entering the blind spot area in an adjacent lane. First, the warning light illuminates. Then, if you begin moving toward the occupied lane, a warning sounds.

ENHANCED PROTECTION The QX30 includes front supplemental air bags, front seat-mounted side-impact supplemental air bags, front knee air bags and roof-mounted curtain side-impact supplemental air bags with rollover sensor.¹⁶

REDUCING FORCE In the event of a collision, advanced front and rear crumple zones deform gradually to help absorb the energy of the impact, while the rear-end structure provides exceptional strength for its relatively short length.

1 Available on select models. **2** Driving is serious business. Only use Infiniti InTouch Apps™ when safe to do so. Subscription Agreement required. Compatible smartphone required. May require retailer service visit or software upgrade to activate. Not all app features are available for all models. Like any computer, processing speed may vary and system response delay or system reset may occur intermittently. Never program while driving. GPS mapping may not be detailed in all areas or reflect current road status. Cellular network not available in all areas. Cellular network, apps, and services, including Google® services, are provided by independent companies not within Infiniti's control and may require subscription and owner consent to activate. Should provider terminate/restrict service, service may be terminated without notice or liability to Infiniti and/or its agents. Infiniti not responsible for any equipment or app replacement/upgrades, or associated costs, that may be required for continued operation. Terms and conditions of Subscription Agreement apply. 48 mo. trial period starts on vehicle sale date; subsequently a paid subscription is required at the then current rate. Text rates and/or data usage may apply. See retailer and www.infinitiusa.com/intouch/support for details. **3** Driving is serious business and requires your full attention. If you have to use the connected device while driving, exercise extreme caution at all times so full attention may be given to vehicle operation. iPod is a registered trademark of Apple Inc. All rights reserved. iPod not included. **4** Availability of specific features is dependent upon the phone's Bluetooth® support. Please refer to your phone Owner's Manual for details. Bluetooth word mark and logos are owned by Bluetooth SIG, Inc., and any use of such marks by Infiniti is under license. See <http://www.infinitiusa.com/bluetooth> for details. **5** AVM with MOD cannot completely eliminate blind spots and may not detect every object. MOD operates at vehicle speeds below 5 mph. Always check surroundings and turn to look behind you before moving vehicle. **6** The Sonar System is a convenience, not a substitute for proper parking and/or backing procedures. Always check that it is safe to do so before moving vehicle. May not detect every object. **7** MOD cannot completely eliminate blind spots and may not detect every object. MOD operates at vehicle speeds below 5 mph. Always check surroundings and turn to look behind you before moving vehicle. **8** Parking aid/convenience feature. Cannot completely eliminate blind spots. May not detect every object and does not warn of moving objects. Always check surroundings and turn to look behind you before moving vehicle. **9** Never program while driving. GPS mapping may not be detailed in all areas or reflect current road status. **10** The Lane Departure Warning/Lane Departure Prevention Systems operate only when the lane markings are clearly visible on the road. Speed limitations apply. See your Owner's Manual for more details. **11** Intelligent Cruise Control is not a collision avoidance or warning device. Designed to use limited braking. Failure to apply the brakes could result in an accident. **12** FCW is intended to warn you before a collision occurs; it cannot prevent a collision. Speed and other limitations apply. See Owner's Manual for details. **13** FEB cannot prevent accidents due to carelessness or dangerous driving techniques. It may not provide warning or braking in certain conditions. Speed limitations apply. **14** VDC, which should remain on when driving except when freeing the vehicle from mud or snow, cannot prevent accidents due to abrupt steering, carelessness, or dangerous driving techniques. **15** Blind Spot Warning is not a substitute for proper lane change procedures. The system will not prevent contact with other vehicles or accidents. It may not detect every vehicle or object around you. **16** Air bags are only a supplemental restraint system; always wear your seat belt. Even with the occupant-classification sensor, rear-facing child restraints should not be placed in the front-passenger's seat. All children 12 and under should ride in the rear seat properly secured in child restraints, booster seats, or seat belts according to their size. Air bags will only inflate in certain accidents; see your Owner's Manual for more details.

THE FORMULA FOR PARTNERSHIP

The excitement builds. The pressure mounts. Emotions surge. This is how partnership feels when technology, ingenuity and passion fulfil their promise. This is Infiniti's Formula One know-how.

We may be the ones racing, but you are the winner. Infiniti provides engineering resources and knowledge to the Renault Energy F1 power unit's Energy Recovery System. By combining our expertise in performance hybrid technologies with the knowledge and skills of the Renault Sport Formula One racing team, we can translate racing technology and driver exhilaration from the track to the road, delivering you emotionally charged vehicles with forward thinking.
