Proton PREVÉ

Prevé. It's a word that means proof. A name that embodies everything PROTON aspires to and, ultimately delivers.

But don't take our word for it. Let the car be the proof of our commitment to be better. Because we know you won't settle for anything less.

Exterior

The Prevé captures the breathtaking image of power and athleticism beautifully. The interplay of curves and muscular edges along its sleek profile conveys movement while its interconnected accents give it a stable, wider feel.

A NEW SIGNATURE LOOK: PROTON WINGS A unified design element that fuses the headlights, the PROTON emblem and air-intake grille with seamless

LED LIGHTSBlending gorgeous style with functionality.

Interior

Be captivated with the Prevé's design sensibilities that extend inwards to reveal an ergonomic layout with spacious cabin comfort, extra rear passenger legroom and vast headroom with a cavernous boot space.

ERGONOMIC DESIGN

The cabin is designed for maximum comfort for the driver and passengers, with wide, ergonomic seats and plenty of rear and front leg room, creating a feeling of lightness and elegance.

BOOT SPACE

508-litre boot space gives plenty of room to store extra large luggage bags, golf bags and oversized suitcases.

ENGINE PUSH-START

The car integrates elegant technological features such as this engine push-start button for your convenience.

AMPLE STORAGE SPACE

Numerous storage areas including centre console box, a large glove compartment and multiple cup holders. Also equipped with a tissue box compartment at each of the 4 doors and complemented by handy hooks for hanging a variety of items.

Performance

The Prevé breaks all barriers among compact sedans by offering category-defining features and performance.

1.6L TURBO ENGINE

The 1.6L Turbo engine with light pressure turbocharger offers the best of both worlds - 138hp of sheer adrenaline rush and 205Nm of torque balanced with an impressive fuel economy.

7-SPEED PROTRONIC TRANSMISSION WITH PADDLE SHIFTERS*

Race car-inspired technology that lets you drive the way you want – with easy comfort or exhilarating control.

CONTINUOUS VARIABLE TRANSMISSION (CVT)

The CVT uses a belt rather than fixed gears to turn engine torque into power, which means better fuel economy, less gear wear and tear, and more eco-friendly emissions.

Convenience

The Prevé is engineered with a number of thoughtful features in order to make your life easier and your drive more pleasurable.

SMART INFO DISPLAY

Displays information and status updates on the car's various functions – such as average fuel consumption, KMs to empty tank, battery health and faulty bulb indicators.

AUTO RAIN SENSOR* Automatically switched on when your windscreen is obscured with water.

TOUCHSCREEN GPS* Directions and routes displayed conveniently.

ELECTRIC WING MIRROR* Adjust angle or fold in automatically.

AUTO LIGHT SENSOR*
Set this to auto and never worry about forgetting to switch on your headlights again.

Safety

Beneath the plush trimmings of the Prevé's frame lies an interconnected web of safety features and technology; such as its **Reinforced Safety Structure** that helps ensure the cabin remains intact during a collision, **Active Headrests** that help prevent neck injuries, and a **Collapsible Steering Wheel** that breaks apart to avoid impacting the driver – all designed to work in harmony to keep you protected and in control as much as possible.

REINFORCED SAFETY STRUCTURE

The RESS achieves better torsional rigidity yet retaining ideal weight, which adds to the Prevé's fuel efficiency. It is designed to comply with global automotive safety standards and offer maximum protection from front, side and rear impacts. Its frame consists of 12 key components forged using the hot press process for high-tensile strength.

When it comes to safety, not all cars are equal.

The Australasian New Car Assessment Program (ANCAP) has rated Preve with 5 star. It's proven! Your safety is our priority.

HIGH PERFORMANCE BRAKING

While the car boasts impressive acceleration, it is equally critical for it to stop quickly. It excels in this respect with its Electronic Brake Distribution and Brake Assist system. The Traction Control ensures better tyre grip on slippery road and maximises vehicle acceleration.

Tuned by PROTON engineers to Lotus specifications, the Prevé's handling boasts unsurpassed control during emergency situations.
