More space. More versatility
More Civic

The Civic name has always stood for innovation, for learning from the past and continuing to move forward. Which is why we've refined the Civic Tourer even more, with a new sporty front bumper and light cluster to further enhance the stylish design.

The Civic Tourer is a car packed with innovative technology, advanced safety features, dynamic driving characteristics, an unbelievably flexible interior and the largest boot space in its class. Another Civic that fits your lifestyle.

Style redefined
Advanced and
sporty

As with every Civic, we wanted the Tourer to stand out from the crowd, and that's just what we've achieved. We've created an aerodynamic family car with a completely unique profile and sporty features, so you don't have to compromise style for space.

Model shown is Civic Tourer 1.6 i-DTEC SR in Twilight Blue Metallic.
Images are shown for illustration purposes only and show a left hand drive vehicle.
In the UK, the Civic Tourer will be a right hand drive vehicle.

Working in harmony *Function and design*

At Honda, there's a reason for everything we do. So when it came to styling the Civic Tourer, we looked at it from every angle.

The beautiful sleek floating lines of the roof complement the car's stylish design but also aid the aerodynamics. And redesigning the Civic Tourer with an additional three quarter window not only enhances its profile, but also maximises rear visibility.

The dynamic, sculpted headlights, hidden door handles and shark-fin antenna were all designed to add style while reducing drag, lowering emissions, and providing a smoother, quieter ride, as with the whole Civic range.

We've lowered the rear sill and ensured that the tailgate opens high, to take the strain out of loading the boot.

From lowering the frame to ensure easy loading, to adding convenient extras like the adjustable cargo net and a one-touch tonneau cover, we've made the interior as flexible and practical as life demands.

What you get is a class leading 624 litres of boot space*, 117 litres of under-floor storage, and a maximum load area (with the seats down) of 1,668 litres up to the roof – enough for every journey.

ROOF RAILS

The roof rails add to the Civic's sleek lines and provide the opportunity to easily add a roof rack for carrying bigger loads.

CARGO NET

Two position cargo net to keep your load secure. Can be set up behind rear seats as shown above or behind front seats when rear seats are folded down.

FLEXIBLE SPACE

Fold the clever Magic Seats flat to the floor to make space for just about anything, the options are endless.

The boot houses a 12V accessory socket, providing power perfect for picnics and other outdoor activities.

Even small details like the carpet have been considered. Especially designed to repel dirt, it's now much easier to clean muddy paw prints and muddier boot prints.

UNDER FLOOR STORAGE

Keep your valuables safe with 117L of under-floor storage that's hidden from view.

TONNEAU COVER

The tonneau cover automatically slides back with one touch and can be stowed away in the under-floor storage when not in use.

Enjoy the space
It's full of clever ideas

*624L of boot space with rear seats up, under tonneau cover.

Model shown is Civic Tourer 1.6 i-DTEC SR in Twilight Blue Metallic with black leather interior. For more information on what grades these features are available on, please refer to specification pages 41-44.

Flexible, adaptable Magic Seats

Whether it's people, pushbikes or puppies, every car needs space. Which is why we squeezed every inch we could out of the Civic Tourer, to give you class-leading space to suit all your needs.

The Civic's innovative Magic Seats fold into a wide range of configurations, so you can create a useful space for any load, be it long, tall or a mixture of both. The seats split 60:40 and fold up or down, creating more space than you might expect. In one easy motion, locking easily into place, you have the ultimate flexible space.

*Sit back and
Enjoy the ride*

Life's not always a short trip from A to B. Sometimes you have to go all the way to Z. And with the Civic Tourer you'll get there in comfort as well as style.

We've furnished the roomy interior with high-quality materials and a sporty feel throughout, making it really feel like home. It's been built around you to enhance your driving experience, with features like the driver's seat lumbar adjustment*.

As you can see, we have your comfort in mind.

Intuitive design

Inspired thinking

With the Civic Tourer, we put you at the heart of everything.

In designing the cockpit, we have centred the Civic Tourer's multi-functional dashboard around the driver, meaning everything is literally at your fingertips. And by grouping entertainment and driving controls separately around the steering wheel, you get a balanced, easy-to-navigate environment that lets you stay focused on the road ahead.

Keeping you Connected

We've developed innovative and intelligent technology that enhances every journey.

The Civic Tourer incorporates the Honda CONNECT in-car audio and information system which keeps you in touch with all the things you love in life, like your music and your friends, all within one central touchscreen display which can be controlled with smartphone-like operation.

Honda CONNECT offers excellent connectivity to keep you in touch whilst on the road through Wifi tethering* or Mobile Wifi Router.

The Honda CONNECT 7" touchscreen can be personalised with your favourite photos. It is also easy to select the soundtrack to your journey with Aha™ radio. You can listen to your favourite internet-delivered music services and radio programmes from around the world including news, weather, sports, podcasts and audiobooks.

The Bluetooth™ connectivity allows you to connect your smartphone to the Hands Free Telephone system within the car[†].

Furthermore it is possible to browse the internet** on your touchscreen.

Garmin's award-winning satellite navigation is available as an option in Honda CONNECT and uses a simple icon menu to provide you with real-time traffic information, road speed limit warnings as well as access to 5 year free map updates.

PERSONALISED HOME SCREEN†

Personalise Honda CONNECT by uploading your favourite photo as wallpaper. The display can be customised and personalised to suit your style.

BLUETOOTH™ HANDS FREE TELEPHONE†

Use the intuitive touchscreen to access all your mobile phone contacts.

GARMIN NAVIGATION†

Garmin PhotoReal™ displays upcoming junctions with photo-realistic images of junctions and exits with arrow lane indication to provide clear guidance. The system also includes predictive routes, real-time traffic avoidance, road speed limit display, 3D buildings, terrain views and more.

AHA™**

The Aha™ app enables you to connect to internet radio, access your Facebook™ and Twitter™ accounts and find nearby restaurants and hotels.

†Data usage and roaming charges may result from using applications on Honda CONNECT.
*Function can only be used when the car is stationary.
**For information on which grades these features are available on, please refer to specification pages 41-44.
††FT Compatibility may vary.

Feel the ride Not the road

The Civic's suspension system creates the perfect balance between a comfortable ride and agile handling. The Adaptive Damper System* allows further customisation wherever the road takes you.

Whether you're going on a long country drive, or taking a shortcut down a cobbled street, the Adaptive Damper System means you simply select the mode that best suits your driving style, speed, load and road surface.

We tested it in some of Europe's harshest and most diverse driving conditions, fine-tuning the system until we were sure you'd be ready for anything.

NORMAL

Providing a smooth ride and good control, the best setting for most driving conditions.

COMFORT

With low damping force, this mode provides greater comfort in bumpier road conditions.

DYNAMIC

Made for those who love a more dynamic driving experience, this setting improves agility to make cornering more controlled.

The settings are displayed on the i-MiD*, while your latest mode is saved so you won't have to reselect when you restart your journey.

The Adaptive Damper System switch is conveniently located in front of the gear stick.

Model shown is Civic Tourer 1.6 i-DTEC SR in Twilight Blue Metallic. ADS is available on specific grades. *For more information on which grades ADS and other features are available on, please refer to specification pages 41-44. Images are shown for illustration purposes only and show a left hand drive vehicle. In the UK, the Civic Tourer will be a right hand drive vehicle.

Performance

You can rely on

In order to ensure the Civic's engine could stand up to your busy lifestyle, we ran the 1.8 i-VTEC petrol and 1.6 i-DTEC diesel engines on full power, not for a few hours, but for a few days. That's a lot of miles.

Of course, reliability is just one factor. That's why our 1.8 i-VTEC petrol engine was developed to give you performance and power in equal measure. Producing 142PS, and a top speed of 130mph it gives you more than enough drive to enjoy the ride.

Available in 6-speed manual and 5-speed automatic transmission, our intelligent variable valve system (that's the 'i' in i-VTEC) delivers an advanced driving experience with effortless power and fuel economy, so you can just sit back and enjoy the drive.

Innovation, power *And efficiency*

Developed using our Earth Dreams Technology, the Civic's i-DTEC engine is specially tuned to ensure the perfect balance of efficiency and performance delivering 120PS with fuel efficiency of 74.3mpg*.

By reducing weight and friction, the engine gives a smooth ride with fast response times, but emissions of just 99g/km CO₂*.

Both the 1.6 i-DTEC and 1.8 i-VTEC also come with ECO Assist to maximise fuel efficiency, and Idle Stop (manual transmission only) to automatically shut down and restart the engine while in traffic. The ambient meter around the speedometer glows green to reflect smooth, economic driving, and with the manual transmission there is a shift indicator light, so you can easily see the best time to change gears and save fuel.

So no matter which engine you choose, the Civic Tourer is built with a better future in mind.

ECO BUTTON

SHIFT INDICATOR LIGHT

*1.6 i-DTEC fuel consumption figures combined 72.4-74.3mpg, 99-103g/km CO₂.
For more information on performance please refer to specification pages 41-44.

Airbags

We've installed airbags all round the Civic Tourer, from driver and passenger front airbags to curtain airbags at the sides, to increase the protection from a collision from any angle.

Whiplash Lessening Front Headrests

In the event of a rear collision, the headrests move forward with the seats to cushion the impact and help prevent whiplash.

ISOFix Points

Located in the rear of the car ensuring your child's safety seats are entirely secure.

Headlight Key Off Timer

To help you get to and from the car, the headlights automatically switch on when you unlock the doors, and off 15 seconds after you've locked them.

Vehicle Stability Assist

Vehicle Stability Assist constantly monitors the car's grip, regulating power and braking force to give you maximum control.

Deflation Warning System

A puncture can happen at any time, so the Deflation Warning System warns you of potential pressure loss in your tyres.

Electronic Brake Force Distribution

The Electronic Brake Force Distribution system adds control logic to the existing anti-lock braking system, electronically controlling front/rear brake pressure distribution according to front/rear weight distribution. This system delivers braking stability and performance, particularly under heavy load.

Emergency Stop Signal

If you have to brake heavily in an emergency, the hazard lights automatically flash to warn other drivers, letting you concentrate on what's ahead.

Hill Start Assist

This system holds the brakes for you during a hill start, helping prevent roll back and making sure you get away without any problems.

Euro NCAP 5 star rating, the maximum available in these independent tests.

Putting your Safety first

Honda's advanced technology has come together to create a Civic that feels safer than ever, as confirmed by our 5 star Euro NCAP rating.

First, we adapted the Civic's Advanced Compatibility Engineering body structure. Built from steel, the Advanced Compatibility Engineering body structure of the frame works by evenly absorbing collision energy before deflecting it away from passengers, whilst simultaneously minimising damage to the other vehicle.

Once we had the body structure in place, we surrounded it with our most advanced safety features to keep your family protected from every angle.

Inside, multiple airbags, Anti-lock Braking System, Electronic Brake-force Distribution and Vehicle Stability Assist all come as standard. Other intelligent features such as Brake Assist, which boosts braking power in an emergency, keep you safer than ever on the roads.

On top of all this, the Driver Assistance Safety Pack combines the very latest in recognition technology with intelligent features such as Traffic Sign Recognition, Lane Departure Warning and Blind Spot Indication.

Extra smart Extra safe

Everyone wants to protect their family. And no-one understands this more than us, which is why we offer Driver Assistance Safety Pack technologies.

The City-Brake Active System, which is standard on all grades, monitors the traffic in front of the car and warns of a forward collision, allowing the driver time to take action.

You can get that extra peace of mind by taking advantage of our most advanced technologies, such as our Lane Departure Warning alarm and the clever Forward Collision Warning, which monitors the area around the car to help you avoid collisions and keeps everyone that bit safer.

Driver Assistance Safety Pack

BLIND SPOT INFORMATION

Making lane changes and overtaking safer, this Honda-first innovation warns you when vehicles are detected in your blind spot.

HIGH BEAM SUPPORT SYSTEM

The High Beam Support System assesses the driving conditions around you and switches automatically between high and low beam.

FORWARD COLLISION WARNING

Should the front camera pick up a car in front, the system warns of a front on collision, allowing you time to take action.

TRAFFIC SIGN RECOGNITION SYSTEM

Traffic Sign Recognition System identifies traffic signs up to 100m away, and relays this information to the driver via the i-MID as you pass them. Two signs can be displayed at any one time.

LANE DEPARTURE WARNING

When road lines are detected and the car deviates from your current lane without indicating, Lane Departure Warning alerts you to the fact with audible and visual warnings.

CROSS TRAFFIC MONITOR

When reversing, the Cross Traffic Monitor can detect approaching vehicles from either side and warns the driver of imminent danger. The warning appears on the i-MID.

City-Brake Active System

1 While driving around town between 3-18 mph, to give you the best chance of avoiding a collision, this system can monitor the distance between you and the car in front.

2 If you continue getting closer to a detected vehicle, the Civic gives you audible and visual warnings via the i-MID display.

3 If you've still not reacted, and a collision is imminent, the City-Brake Active System can automatically apply emergency braking to reduce speed as much as possible. In good driving conditions it can even avoid a collision altogether.

Choose your Favourite options

Every model has the personality you'd expect from a Civic Tourer. Now add your own. From complete accessory packs to alloy wheels, we give you all the options you need.

Rally Red Pack (EXTERIOR)

Distinguish yourself from the rest by giving your car that extra personal touch. The Rally Red Exterior Pack gives a sporty look to your car using Rally Red accents all around the car.

Pack contents:

- Front Grille Garnish
- Door Mirror Covers
- Roof Spoiler Garnish

Image includes 18" Inferno alloy wheels, available separately

Sport Pack

The Sport pack offers all the accessories you need to give your car a more focused, road-holding look. Includes Shiny Black Front, Rear and Side Skirts.

Pack contents:

- Front & Side Skirts
- Door Mirror Covers
- Rear Skirt

Image includes 18" Nitrogen alloy wheels, available separately

Premium Pack

The Premium pack is a package of accessories stylishly designed to protect your car from scrapes, scratches, mud and sand.

Pack contents:

- Side Body Trims
- Doorstep Garnishes
- Front and Rear Mud Guards
- Elegance Floor Carpets

Image includes 17" Cobalt alloy wheels, available separately

Cargo & Cargo+ Packs

Organise your boot with these practical accessories, offering a unique combination of storage solutions.

Cargo Pack contents:

- Boot Tray with Dividers
- Boot Side Net

Cargo+ Pack contents:

- Separation Net
- Boot Tray with Dividers
- Boot Side Net
- Cargo Garnish

Illumination Pack

Gives an ambient atmosphere in the interior of the car.

Pack contents:

- Illuminated Doorstep Garnishes
- Front Ambient Footlights

Chrome Pack

Emphasise the elegance of your Civic by adding several chrome accents to your car.

Pack contents:

- Front Grille Garnish
- Window Decorations
- Side Body Trims
- Side Body Trims Decorations
- Lower Tailgate Garnish
- Sports Tank Lid

Image includes 18" Hydrogen alloy wheels, available separately

- Centre Console Decoration
- Steering Wheel Garnish

Image includes gearshift knob, elegance floor carpets

To view all available accessories, download the Civic Tourer accessory app on iTunes™ and Google Play™ →

Images are shown for illustration purposes only and show a left hand drive vehicle. In the UK, the Civic will be a right hand drive vehicle.

Towing Packs

Honda Genuine Tow Bars enable you to tow your caravan or trailer with a max towing capacity of 1200 to 1400 kg*.

*Depending on your vehicle engine and transmission type

Towing Pack contents:

- Detachable Tow Bar
- 13 Pin Harness

Towing+ Pack contents:

- Detachable Tow Bar
- 13 Pin Harness
- 12v Battery Line

Parking Sensors:

Make parking safe and effortless by adding front and rear parking sensors, producing an audible signal when you are nearing an object. You can see the sensor detection on the car's intelligent-Multi Information Display (i-MID).

Dog Guard:

The Dog Guard is designed to keep pets and luggage safely in the luggage compartment of your car while driving.

Cross Bars and Roof Carriers:

Expand your car's carrying capacity with strong, secure roof bars. Including 4 locks. Maximum load capacity 70 kg (max. 75 kg on roof rail) or maximum 2 bicycles.

Available attachments: ski box, roof box, ski and snowboard attachment, bicycle roof attachment

Boot Tray:

Perfectly formed to your car's boot shape, the waterproof Boot Tray with raised edges will protect the car's finish from dirt and scratches. Anti-slip. Features the Civic logo.

Honda 3D Sound: Music never sounded so real

We all want our car sound systems to reproduce faithfully the music of our chosen artists. The addition of a compact DSP (Digital Signal Processing) unit to the existing sound system in your Honda will enhance your listening experience to a concert hall feeling.

Baby-Safe Plus:

The high side wings and deep shell provide extra protection for your baby, from birth to 15 months. A complete range of Honda Genuine Child seats for ages 0-12 years is available from your local Honda dealer.

*Connectivity for Aha™ app (including internet radio) and for internet browsing is through Wifi tethering or Mobile Wifi Router. Data usage and roaming charges may result from using applications on Honda CONNECT. We recommend you check your mobile phone subscribed package.

† Internet browsing function can only be used when the car is stationary.

**HFT compatibility may vary.

Δ Always use the recommended USB flash memory device. Some USB memory devices may not work in this audio unit.

† Fuel consumption CO₂ and weight figures are measured according to EC directive procedures. As a result of driving behaviour, road, traffic and weather conditions, general state and equipment level of the vehicle, real life fuel consumption and CO₂ figures may differ from these official values. In case of weight (defined as mass in running order), it applies to vehicles with standard equipment. Optional equipment may increase this figure and decrease the payload.

The Civic is covered by several different warranties as follows;

3 year or 100,000 km Standard warranty

3 year Paint corrosion warranty

5 year Exhaust corrosion warranty

10 year Chassis corrosion warranty

12 year Structural corrosion warranty

CIVIC DNA

Civic is a story of continued development, of re-evaluating and re-inventing, of trying new ideas and discovering new technologies. Our engineers have a clear vision, they want to build a car that balances impressive performance, a unique design and flexible space, a range that is specifically designed to have a variety of characters, a hatchback and a Tourer, cars that not only look good on the road, but are successful on the race track. In many ways it perfectly reflects our passion for creating cars that people love to own and, of course, love to drive.
