

The Power to Surprise

The Kia **SORENTO** range

There's more to Kia than you may think...

Established in 1946, Kia is Korea's oldest car maker. Kia Motors Corporation is one of the top 5 automotive groups in the world. In the Interbrand ranking 2013, Kia was ranked 83rd out of the World's top 100 brands. Kia have a network of over 170 dealerships in the UK. In 2013 we reached a significant milestone having sold half a million cars in the UK since we launched in 1991.

With contemporary styling, access to the latest technologies and excellent build quality, Kia cars are turning heads the world over. From the 3 or 5-door Picanto and Rio models to the 7-seat Sorento SUV or the highly practical Carens 7-seat MPV. Kia offers a full line-up of passenger cars including the stunning 3-door pro_ceed coupé and multi award-winning Sportage crossover. There's something special about the Kia range - it's the focus on the detail, the passion and enthusiasm put into every model by our design team headed by Peter Schreyer, who previously designed the original Audi TT.

THE KIA SORENTO

Confidence now comes as standard

The Kia Sorento is covered by our pioneering 7 year vehicle warranty consisting of 3 year/unlimited mileage and 4-7 year/100,000 mile full manufacturer's warranty including a 12 year/unlimited mileage anti-perforation warranty.

Sophistication has a new look

The Kia Sorento is a ground-breaking SUV combining 7-seat space, agility and comfort in one stylish package. There are 5 models in the range comprising the 'KX-1', 'KX-2', 'KX-2 Sat Nav', 'KX-3' and new range-topping 'KX 4'. The Sorento range builds on the heritage of its popular predecessor whilst benefitting from being 10 mm lower in ground clearance which helps the loading of items into the car. The exterior of the Sorento range has been re-designed giving it a sleeker, more elegant profile whilst the body-coloured front and rear bumpers emphasise its striking looks and modern design. The platform of the Sorento range allows the models to boast class-leading efficiency and driving dynamics. Add in engaging SUV performance, low CO₂ emissions from just 155 g/km, superb levels of technology and the Sorento is the perfect companion for all of life's adventures.

TOTAL
4x4
BEST SUV

"The Sorento was already one of the best 4x4s on the market; now it's better than ever, and by a long way. Nothing less than an all-new Range Rover could stop it completing a hat-trick of class wins, and that says a lot about just how good Kia has become at making world-class 4x4s" Alan Kidd, Editor of Total 4x4s magazine.

Ready for any adventure

The Sorento features a maximum towing capacity of 2,500kg (model dependent), beating the majority of its large SUV competitors and makes light work of pulling anything from trailers to caravans, or even a horsebox. The 'KX-2' models upwards feature self-levelling suspension amongst their standard specification. This feature means the vehicle height automatically adjusts depending on how many people or how much luggage has been loaded in order to improve driving stability. This is also used to assist when towing trailers, keeping the vehicle level despite the additional weight of the trailer/caravan.

Thanks to our customers the Kia range now has over **10,000** reviews!

8.9
out of 10

Read 307 Sorento reviews

reevoo

307 customers rated the Sorento 8.9 out of 10. Read more at kia.co.uk/reviews. Scores accurate as of 12.02.14

At Kia we are proud to have teamed up with independent review company Reevo to create a forum where owners can write reviews about their new Kia. More than 10,000 Kia owners have already left a review so log onto www.kia.co.uk/reviews to find out more.

Eye-catching style

Our engineers and technicians have put immense effort into the Sorento to ensure you enjoy it for many years to come. Take a look at the distinctive Kia 'tiger-nose' chrome grille surround (pictured on the left), flanked by stylish LED daytime running lights which significantly improve your visibility to oncoming traffic. Whilst the new range-topping 'KX-4' (pictured above) boasts a striking new silver-painted mesh grille with chrome surround to further enhance the on-road presence. All Sorento models boast stylish alloy wheels creating a sophisticated yet contemporary look across the range.

Inner beauty

Featuring the highest quality materials and ergonomically designed to ensure the ultimate in driver comfort – key ingredients for an exhilarating yet relaxed driving experience. Soft-touch materials are used throughout the cabin to create a contemporary feel. Chrome accents further add to the stylish feel of the cabin and are featured on the instrument dials while the 'KX-2' upwards feature ambient lighting on the front centre console and door trims guiding your way at night. To help keep your new car in pristine condition, aluminium door scuff plates are standard on the 'KX-2' upwards also featuring the benefit of front illumination on the 'KX-3' upwards.

State-of-the art Technology

Wherever you are heading the Sorento will get you there in style. There's a CD player with USB/AUX ports enabling you to play your favourite music from virtually any source with the media access ports, which feature an auxiliary connector (for analogue devices) and a USB port for flash drive. The quality six speaker set-up increases to a 10-speaker system including centre speaker, external amp and sub-woofer on the 'KX-2 Sat Nav' upwards. Audio information is displayed on the high tech 4.3" LCD Colour Touchscreen (on the 'KX-2') and can be conveniently and safely operated via the steering wheel mounted controls. Whilst the 'KX-2 Sat Nav' upwards feature a 7" Touchscreen satellite navigation system with European mapping and traffic messaging channel.

Image shows the reversing camera system
7" Touchscreen ('KX-2 Sat Nav' models upwards)

1. Bluetooth® with voice recognition and music streaming is a sophisticated communication and safety feature. Use it to make telephone calls conveniently with the hands-free voice activated function. You can even play music wirelessly via your mobile phone or Bluetooth® enabled device.

2. Dual automatic air conditioning with ioniser. Both the driver and front passenger can control the automatic air conditioning system to suit their temperature preference. For added passenger comfort, rear air ventilation provides greater air temperature control.

3. 7" Touchscreen satellite navigation system with European Mapping & Traffic Messaging Channel ('KX-2 Sat Nav' upwards). Integrated into the centre fascia the system has full UK postcode recognition and includes other useful features such as a Traffic Management Channel and Points of Interest.

4. Reversing camera system ('KX-2' upwards). As soon as you put your car into reverse gear, the 4.3" LCD colour Touchscreen (on the 'KX-2') or the 7" Touchscreen ('KX-2 Sat Nav' upwards) changes to give you a clear view of what's behind – making parking safer and easier. The display screen features superimposed graphic lines which help to guide you smoothly into a parking space. The reversing camera is also a useful feature when you're hitching up a trailer.

5. Engine start/stop button with smart entry system ('KX-3' upwards). The convenience of this feature makes searching for keys a thing of the past. Simply carry the smart key in your pocket or bag and it will be recognised by the car on your approach. To unlock the door, simply push the button on the door handle – far more convenient when carrying bulky items.

Technology that makes parking easy!

The new Sorento 'KX-4' can even help you park your vehicle easily and conveniently with the Parallel Park Assist System (PPAS). This clever system searches for a parallel parking space via 10 sensors (6 at the front and 4 at the rear) and once found, calculates the optimum route to park the vehicle into the space. The steering wheel is operated automatically, therefore all the driver needs to do is select the appropriate gear displayed on the LCD display and control the accelerator and brake.

Speed and multifunction LCD full colour display ('KX-3' upwards).
The stylish LCD digital colour instrument cluster displays key vehicle information including vehicle speed, engine speed, temperature and fuel level in crystal clear clarity.

Panoramic sunroof ('KX-3' upwards)

Flooding the cabin with light, the panoramic sunroof extends to cover both front and rear passengers but can be screened in both areas via the one-touch electric roll blind which blocks the sun if required. Alternatively, slide the sunroof open (electrically of course) to fill the cabin with fresh air. The front glass panel features an electric tilt-and-slide section incorporating an anti-pinch safety function for added flexibility, ventilation and comfort - all at the touch of a button.

The epitome of comfort

The generously sized front cabin boasts front legroom of 1,048 mm, 985 mm second row legroom and 804 mm of third row legroom. The Sorento's luggage capacity - when all seats are folded - is 1,530 litres, making it one of the most capacious cars in its class. Even with all seven seats occupied, you'll find a host of creative ideas including front and rear door storage and a centre console storage box. The second row seating for example features reclining backrests and a centre armrest making even long journeys more comfortable.

1. Heated front seats ('KX-2' upwards). The Sorento comes with premium features including the luxury of heated front seats designed to provide optimum driver and front passenger comfort even on cold winter days. On the 'KX-3' the outer rear seats are heated too (as pictured).

2. Ventilated and power adjustable front seats ('KX-3' upwards). Air blown through the cushion and the back of the driver and front passenger seats help to keep the occupants cool in warmer weather conditions. The 8-way electrically adjustable driver's seat (as pictured) makes finding the optimum driving position a breeze as the driver can adjust their seating position (via the slide, recline, height or lumbar support functions). The passenger seat has the benefit of a 4-way power adjustable seat which slides and reclines electrically.

3. 8-way power adjustable driver's memory seat ('KX-4'). Building on the high levels of comfort of the 'KX-3', the new 'KX-4' offers a driver's seat memory function. This offers the convenience of enabling the driver to save up to two different seating positions.

4. Heated steering wheel ('KX-3'). For maximum driver comfort in cold weather, the 'KX-3' upwards boasts a heated steering wheel which is operated via a switch over the side of the steering wheel column. To prevent overheating there is an auto-off function after 30 minutes of operation.

5. Rear side window blinds ('KX-4'). Passengers in the rear benefit from side window blinds which protect them from direct sunlight entering the cabin and offers enhanced levels of comfort. This feature also has the additional benefit of offering privacy.

Cream leather upholstery 'KX-3' exterior colour dependent

Uncompromised safety credentials

At the crash test labs of Kia Motors' Namyang Research and Development Centre, we undertake rigorous testing for a wide range of motor accident scenarios. From the early phase of development, we create computer simulations to predict a vehicle's safety and up to 100 crash tests of the actual vehicle are performed prior to launch. Your safety is our top priority. The Sorento range boasts a platform featuring a high-rigidity bodyshell for enhanced crash safety. A host of active safety features include an active bonnet system which helps to reduce pedestrian head injury rates. In the event of a collision, the bonnet rises up to provide a second layer of protection helping to prevent impact with engine parts and reducing risk of injury in the event of an accident.

1. Hill-start Assist Control (HAC). By maintaining brakeforce until you accelerate, HAC prevents the vehicle from rolling backwards when starting on a steep hill.

2. Electronic Stability Control (ESC). ESC applies the correct amount of brake pressure to each individual wheel when the system senses a loss of grip. It also reduces engine power to help you maintain control and bring your car back on course.

Brake Assist System (BAS). This feature detects emergency braking depending on how quickly you step on the brake. It instantly applies full braking force, which helps shorten the overall braking distance.

Emergency Stop Signalling (ESS). This feature causes the brake lights to flash simultaneously followed by the hazard warning lights in the event of the vehicle braking sharply, helping to avoid collisions by warning following traffic.

Six airbags

The Sorento range is fitted with six airbags as standard: twin front, twin side and curtain airbags (with roll-over sensor) which inflate when necessary and have finely tuned sensors providing enhanced protection against chest, pelvic and head injuries in the event of a collision or rollover.

The front seats feature active headrests too, so in the event of an impact, the headrests move forwards and upwards to help prevent whiplash neck and head injuries. All 7 seats are fitted with 3-point seatbelts, whilst ISOFIX child seat top tethers and anchor fixings are fitted as standard in the rear to protect younger passengers.

Super-strong structure

The chassis of the Sorento range features 25% ultra-high-tensile steel plates to enhance the structural strength of the vehicle whilst keeping the overall weight to a minimum. The result is high torsional stiffness, which not only increases front, side and rear impact protection if a collision occurs but also boasts handling, ride quality and overall refinement. In addition, the Sorento range has one of the largest front brake discs in its class – the increased brake disc sizes at the front and rear provide optimal braking performance and reduced braking distances in any road condition.

Exhilarating drive

The Sorento leaves conventional SUVs by the wayside. In everyday, urban driving conditions its impressive ride and handling is smooth, responsive and agile. But take it off the beaten track and you can really experience its Intelligent All-Wheel-Drive (AWD) capabilities and power. Its platform has a positive effect on decreasing fuel consumption and lowering CO₂ emissions. Active ECO Driving mode is available on the automatic transmission models, which helps to achieve up to 9% better fuel economy through a more efficient management of the engine, gearbox and air conditioning.

The suspension structure has been improved – the MacPherson struts and multi-link set up at the rear of the car remain the same but the sub-frames supporting the suspension are new, stronger designs which dampen vibrations. The addition of high performance dampers as a standard feature provides a greatly enhanced ride in terms of comfort and stability.

Driving Dynamics

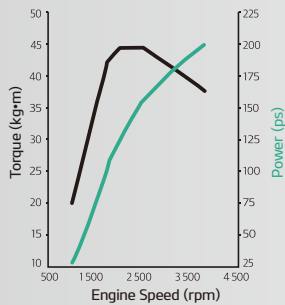

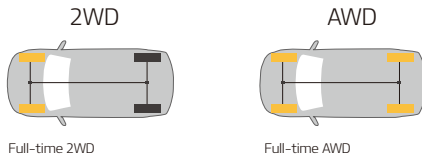

All Sorento models incorporate Intelligent All-Wheel-Drive (AWD) technology. This means in normal driving conditions, the vehicle remains in standard 2WD mode to boost fuel economy but faced with more adverse driving conditions the Intelligent AWD system anticipates the need for greater traction and automatically engages.

The AWD system intervenes seamlessly, transferring power between the front and rear wheels to adapt to challenging driving conditions at high speeds or on difficult surfaces. Whether you're changing lanes on wet motorways or tackling rough winter terrain, the sophisticated AWD system provides the necessary control to help you manoeuvre safely.

Superior power, performance and efficiency

Whether you're touring country roads, heading off-road or cruising city streets, the Sorento's state-of-the-art 2.2 litre diesel, fuel-efficient engine will get you there effortlessly by providing a responsive and smooth driving experience. The 'KX-1' is available as a 6-speed manual model whilst the 'KX-2' and 'KX-2 Sat Nav' are available in a choice of either 6-speed manual or automatic derivatives. The 'KX-3' and new range-topping 'KX-4' models are available as 6-speed automatic derivatives only. All models feature 7-seats, offering the ultimate in flexibility.

155 g/km CO₂ EMISSIONS

The Sorento boasts significant improvements in the efficiency of its 2.2 litre CRDi (diesel) engine via an exhaust gas re-circulation system which delivers class-leading fuel-efficiency and low CO₂ emissions from just 155 g/km (6-speed manual models).

1. 6-speed manual transmission. This manual gearbox provides hands-on control, excellent acceleration and smooth, fuel-efficient gear changes.

2. 6-speed automatic transmission. This automatic transmission provides smooth, seamless gear changes and improved fuel efficiency. Its Sportmatic® design allows you to choose between automatic and clutch-free manual gear change for a sportier driving experience.

7 seats for maximum flexibility

The spacious and flexible interior of the Sorento is a rare blend of functionality, luxury and style made possible by partial or full-row seat folding including 60:40 split-folding second row seats and 50:50 split folding third row seats to provide comfort for all passengers but also the convenience and practicality of transporting bulky items.

Attention to detail

1. 7" touchscreen satellite navigation with European mapping and traffic messaging channel ('KX-2 Sat Nav' upwards):

Integrated into the sat nav screen this has multiple features including full UK postcode recognition, a traffic management channel and detour routes.

2. Electrically folding, adjustable and heated door mirrors with LED indicators:

The electrically folding door mirrors make it easier and safer to get into and out of the car.

3. Luggage area load cover:

With retractable spring-loaded operation, the luggage area load cover is a sensible way to keep your personal belongings under cover. It is a practical way to shield stored items from direct sunlight and deter prying eyes.

4. Parallel Park Assist System (PPAS) - 'KX-4':

This innovative feature uses 10 parking sensors to guide you into a parking space. All the driver needs to do is activate the accelerator and brake - there's even no need to keep your hands on the steering wheel.

5. Kia's innovative Flex Steer System ('KX-3' upwards):

Simply select 'comfort' to make light work of city driving, 'normal' for regular driving or 'sport' mode for even more responsive steering - ideal for motorways or when driving on narrow country lanes.

6. Glovebox with illumination:

The spacious glove compartment can be locked for keeping personal items safe and is illuminated for convenience especially at night.

7. Xenon adaptive front lighting system with automatic levelling ('KX-3' upwards):

Controlled by the steering wheel and vehicle speed, this system actively lights curves in the road to improve vision at night. The system is automatically self-levelling regardless of load and passenger weight distribution.

8. Luxurious heated steering wheel ('KX-3' upwards):

Perfect for cold starts. To prevent overheating there is an auto-off function after 30 minutes of operation.

9. Rear side window blinds ('KX-4'):

Protect rear passengers from direct sunlight entering the cabin. This feature also has the additional benefit of offering privacy.

10. Bluetooth® with voice recognition and music streaming:

Use this sophisticated communication and safety feature to make telephone calls conveniently with the hands-free voice activated function. You can even play music wirelessly via your mobile or Bluetooth® enabled device.

11. Engine Start/Stop Button with Smart Entry System ('KX-3' upwards):

The door mirrors unfold as you approach and the smart key unlocks the door the moment you touch the button on the handle so you never have to worry about searching for keys. The engine roars into life with one touch of the engine start/stop button.

ENVIRONMENTALLY YOURS

Kia Motors takes great pride in rising to meet the expectations and challenges of the 21st century while making tangible contributions to the preservation of the environment and sustainable development of society. Kia Motors has set up an environmental research centre to spearhead the company's drive in the production of less polluting hybrid and fuel-cell vehicles, investing in eco-friendly cars for a greener tomorrow.

Kia Motors Corporation is committed to surpassing customer expectations through continuous automotive innovation. By offering our customers products and services that exceed expectations, we enable them to lead energetic lives. Kia's line-up of dynamically designed, high quality cars and world-class service offerings ensure that our customers are enthusiastic about coming back to Kia - again and again.

The concept of eco-friendly cars is followed through all cycles of a vehicle's life. From design through to recycling, Kia Motors creates innovative products, ensuring state-of-the-art Design for Recycling (DfR) guidelines. Wherever possible, recycled and recyclable materials are used in the production of Kia cars, all major plastic parts being chosen for ease of disassembly and stamped with a composition code.

Even at the end of a vehicle's life, one of Kia Motors' environmental targets is the eco-friendly take-back and treatment of End-of-Life Vehicles. Operating a rigid process, Kia Motors has selected partners across Europe that guarantee environmental protection in the treatment of harmful waste substances. These are then recycled or recovered, ensuring the highest level of environmental protection. Kia Motors (UK) Ltd has appointed autogreen as our partner to manage the take-back, treatment and recycling of End-of-Life Vehicles in accordance with Directive 2000/53/EC. They can provide advice on whether or not your vehicle qualifies for free take-back and the location of your nearest take-back facility.

DYNAMIC EVOLUTION

Driven by innovation: A solar-powered car, a water-fuelled car, a self-navigating "smart" car. No longer are these figments of the imagination but one day could be parked in your garage. Kia researchers are working around the clock to create the ultimate driving solutions with the safest, easy-to-drive and environmentally friendly features.

Kia's Namyang R&D Centre in Korea and our overseas research and design facilities in the USA, Japan and Germany are combining efforts to develop new vehicles that satisfy the diversified needs of each region of the world. By ushering in a new generation of cars that feature high impact-durability frames, on board "datainfotainment" systems and fuel efficient, lightweight and high-powered engines with reduced emissions and noise, Kia will spearhead automobile innovation in the 21st century.

COMPLETE PEACE-OF-MIND

At Kia, our quality promise extends beyond the factory floor. We want to ensure you always get the best service possible. Our pioneering 7 year warranty reflects this commitment. This warranty is also transferable so that if in the future you decide to sell your Kia Sorento, the new owner will benefit from the remainder of the warranty provided the car is regularly maintained in accordance with the servicing schedule*.

7 year vehicle warranty

Every Kia Sorento benefits from our pioneering 7 year/100,000 mile vehicle warranty*.

5 year paint warranty

High quality body paint ensures long-lasting protection and shine for your new Kia Sorento which is covered by our 5 year/100,000 mile paint warranty*.

12 year anti perforation warranty

Your new Kia Sorento comes with superior corrosion protection and a 12 year/unlimited mileage warranty against rust from the inside out**.

Financing

Your local Kia dealer is your partner in establishing a financing plan that's best suited to your needs. Ask for details.

*For full warranty coverage including terms and exclusions please contact your Kia dealer.

**Annual bodywork inspection required for which a charge may apply.

The official fuel consumption figures in mpg (l/100 km) for the Kia Sorento range are between Urban: 31.7 (8.9)-38.2 (7.4), Extra-Urban: 51.4 (5.5)-56.5 (5.0), Combined: 41.5 (6.8)-47.9 (5.9). The official CO₂ emissions for the Kia Sorento range are between 155 - 178 g/km.

The official fuel consumption figures in mpg (l/100 km) for the Kia range of vehicles are between Urban: 29.1 (9.7) - 80.7 (3.5), Extra-Urban: 46.3 (6.1) - 94.2 (3.0) and Combined: 38.2 (7.4) - 88.3 (3.2). The official CO₂ emissions for the Kia range of vehicles are between 189-85g/km.

CO₂ emissions based on data available at time of going to print (February 2014).

Care-3

Great value fixed-price servicing for your Sorento from £349 (including VAT)

For complete peace-of-mind, Kia can offer you a great value fixed-price servicing package for your new Sorento (from Model Year 2013). Your first **three services are available for an all-in price of £349 or for your first five services, the cost is £649 (including VAT)**. Please speak to your Kia dealer for more information. Terms and conditions apply. Log onto www.kia.co.uk/care3 for details. Prices quoted correct at time of print (February 2014).

The Kia warranty covers your Sorento for 7 years.
