# REDEFINE FUN

Since 1941, Jeep® has always pushed the boundaries in both 4x4 capabilities and making driving fun and the all-new Jeep® Renegade is no different. With its unmistakable styling and road presence the all-new Jeep® Renegade is an SUV which is at home everywhere you go. With its unparalleled performance, cutting edge technology including the 7" TFT driver display instrument cluster (on Limited and Trailhawk versions) and clever storage solutions. It's quite unlike any small SUV you've ever driven. Get ready to redefine fun.

The distinctive styling of the Jeep® brand is carried through in the all new Jeep® Renegade, such as the front and rear tail-lights which continue the tradition that began back in 1941. The Jeep® Renegade also offers two open-air MySky™ roof systems, providing panoramic views for you and your passengers.

The X icon- found in the tail -lights is exclusive to the all-new Jeep® Renegade and is inspired by the design of the vintage gas cans.

# REDISCOVER COMFORT

With worlds to explore and adventures to experience, you want a vehicle that's ready for almost anything. The All-New Jeep, Renegade has everything you need and nothing you don't.

On board comfort and entertainment are assured by the available top-of-the-line 9-speaker 560 watts Beats audio system and a number of technological features including steering wheels with integrated controls, Uconnect 5.0" and 6.5" touchscreen systems. They manage Bluetooth connectivity, DAB digital radio, USB and auxiliary audio jack input. Additionally, Uconnect 6.5" offers a premium navigation system with stunning 3D graphics and sensor-assisted GPS which helps ensure accurate positioning even when travelling in areas where GPS signals can become obstructed.

**The all-new Jeep Renegade also comes with a state-of-the-art class leading 7" (Limited and Trailhawk models) TFT display** providing full-colour vehicle information in a totally customisable and intuitive way. The driver can select from a multitude of information that can be displayed in the center of the instrument cluster including turn-by-turn navigation, speed, real-time fuel economy, safety warnings (including Parallel/Perpendicular Park Assist and Lane Sense Departure Warning-Plus where fitted), audio information and Jeep specific features including Selec-Terrain.

# OPENING EDITION

To mark the arrival of the all-new Renegade, we have the Opening Edition - a unique take on our top of the range Limited model with exclusive special features, available in two colours and three engine options, but only available in very limited numbers.

It is a striking blend of the wild and refined; it's powerful, but contemporary stance and unrivalled attitude, on and off-road, will enthrall you on every journey.

# REINSPIRE YOUR PASSION

Get ready for the first small SUV designed with you in mind.

Best-in-class for off-road capability with unmatched on-road precision, class leading 9-speed automatic transmission and the innovative, **Jeep® Active Drive, Active Drive Low systems** and **Selec-Terrain®**. The all -new Jeep® Renegade is at home everywhere you go.

The range of 8 Powertrain combinations available on the all -new Jeep® Renegade keep the needs for efficiency and performance in mind, making it suitable for all terrains. You can choose amongst the innovative MultiAir Turbo petrol engines, the **powerful 1.6** and **2.0-litre MultiJet II** engines or the efficient E.torQ petrol engine. They bring together ruggedness and efficiency, with an array of transmissions, from manual to the best-in-class 9-speed automatic transmission.

The traction systems are also available in FWD and 4WD, for horsepower ranging from 110 hp to 170 hp, while fuel efficiency is guaranteed by the category-exclusive rear axle disconnect system, which seamlessly switches between two and four wheel drive only when 4X4 traction is needed.

The Jeep® Renegade provides a choice of two innovative 4X4 systems: Jeep® Active Drive (available on Sport, Longitude, or Limited); or Jeep® Active Drive Low (low-range, available on Limited and Trailhawk) both guaranteeing traction in any environment.

The Jeep® Active Drive systems feature the new Selec-Terrain® which allows the driver to choose on and off-road settings for optimum performances on all road conditions. With up to five modes Auto, Snow, Sand, Mud, and exclusively to the Trailhawk version the Rock mode. For even greater off-road capabilities, the Selec-Terrain® includes Hill-descent Control.

For those who demand the most from off-road capabilities Jeep, Renegade Trailhawk delivers best-in-class Trail Rated 4X4 performances. The Jeep, Renegade Trailhawk is awarded The "Trail Rated" badge as a reminder that the vehicle is designed to perform in a variety of challenging off-road conditions, improving performance on five fundamental aspects: traction, ground clearance, maneuverability, articulation, and water fording. This means there is almost no terrain that you won't get to dominate.

The Renegade Trailhawk takes the unique Jeep, design and 4x4 capability to a new level. A Trail Rated exterior appearance with Neutral Gray Satin Gloss exterior accents, skid plates, meaty all-terrain tires, red rear tow hooks, and unique front and rear fascias to deliver best-in-class off-road angles (30 degree approach, 24 degree breakover and 34 degree departures angles). However, it's not just all about the looks. The Trailhawk combines the 9-speed automatic transmission with the 170hp of the 2.0 MultiJet II engine and takes Selec-Terrain to the next level, with Rock mode capability.

# YOUR SAFETY IN MIND

The all-new Jeep, Renegade puts safety and security on top of everything else, resulting in more than 60 available safety and security features, including **Forward Collision Warning-Plus** and **LaneSense Departure Warning-Plus** standard on Limited versions.

Just name a safety feature, active or passive. From automatic headlamps to Blind Spot Monitoring, down to next generation ESC, Hill-descent Control, ParkSense, ParkView rear backup camera and Rain-sensing wipers, and many more solutions: in a Renegade you can find available all the safety solutions featured in top-of-the-list bigger SUVs.

**FORWARD COLLISION WARNING-PLUS WITH CRASH MITIGATION.**

Radar and video sensors detect whether the Renegade is approaching another vehicle or large obstacle in its path too rapidly and will warn and assist the driver in avoiding/mitigating the incident. It uses 3 different steps.

- 1) Predictive Collision Warning. Provides audible and visible alerts as well as 'brake jerk' to warn about approaching an obstacle in your path.
- 2) Advanced Brake Assist: If you are reacting but not breaking fast enough, ABA will increase the braking to avoid / mitigate the accident.
- 3) Collision Mitigation System: If you don't react the system will apply the brake system to avoid/mitigate the collision.

**LANESENSE™ LANE DEPARTURE WARNING-PLUS (LDW).**

The vehicle lane position is monitored by cameras and, should you approach or cross the lane boundaries unintentionally, the system provides a visual warning. Additionally, in case of lane drift, the system proactively leverages the electronic power steering to deliver a torque-input to assist you with a corrective action.

**BLIND SPOT MONITORING AND REAR CROSS-PATH DETECTION.**

These sentry systems constantly monitor the space between you and other drivers. When a side or rear blind spot is encroached, you're notified via illuminated icons on sideview mirrors or an audible chime.

**ELECTRONIC STABILITY CONTROL (ESC).**

Enhances your control and helps maintain directional stability under all conditions. If there is a discernible difference between your input through the steering wheel and the vehicle's path, ESC applies selective braking and accelerator input to guide the vehicle back on to your intended path.

**ELECTRONIC ROLL MITIGATION (ERM).**

As an extension of ESC, ERM employs ESC sensors to anticipate potential risk situations. If things get rough, ERM takes immediate action to help you maintain stability and remain under control.

**PARKSENSE PARALLEL AND PERPENDICULAR PARK ASSIST.**

This active guidance system controls steering automatically using ultrasonic sensors that help you ease into parking spaces.

**TRAILER SWAY CONTROL (TSC).**

Reduces trailer sway and improves handling in adverse towing conditions caused by crosswinds and traffic. The system monitors your vehicle's movement relative to your intended path, then applies alternating brake pressure to slow the vehicle and then increases the pressure on one front wheel in order to counteract the sway induced by the trailer.

**6 STANDARD AIR BAGS.**

Full-length side-curtain airbags, seat-mounted front side thorax airbags and advanced multistage front airbags all work in tandem to help provide complete protection.

**REAR CAMERA WITH DYNAMIC LINES.**

The ParkView back-up camera provides enhanced visibility when reversing, and accurately predicts the car's movement by using Dynamic Lines on screen.

## SPORT

- 3.5" Electronic vehicle information centre (evic)
- 16" Aluminium wheels
- 4 Speaker audio system
- 6 Airbags
- Air conditioning
- All speed traction control
- DAB radio, with USB and AUX
- Ecodrive (drive monitoring system)
- Electric parking brake
- Electric power steering
- Electrically adjustable door mirrors
- Electronic roll mitigation
- Electronic stability control (esc) with hill start assist
- Power windows - driver & passenger express up / do
- Power windows rear
- Remote control central door locking
- Security alarm
- Steering wheel adjustment - tilt/telescopic
- Steering wheel controls
- Stop&start
- Tyre pressure monitoring display
- Trailer sway damping
- Uconnect 5" DAB radio with touchscreen and bluetooth®

## WHEELS
