FAMILY MATTERS.

MINI has been motoring its own way since 1959. With transversely mounted engines, a wheels-pushed-out design, and a charm like no other, MINI initially endeared itself to not only the working class, but also rock stars, royalty, and rally racers.

Today, the expanded MINI lineup maintains the principles of its predecessors. Each vehicle packs a bigger than expected punch, thanks to world-class engine technology leveraged from the BMW Group. And with added practicality and clever functionality, this MINI lineup is the most exciting and most refined ever produced. Discover what makes MINI unlike anything else on the road at mini.ca/whymini.

GET THE MOST OUT OF THE ROAD.

NO-CHARGE SCHEDULED MAINTENANCE

You may be buying a new MINI, but we want you to feel comfortable enough to drive it like you've owned it forever. To help ease your conscience as you carve every corner, we offer a standard 3-year/50,000 km (whichever comes first) No-Charge Scheduled Maintenance package.

MINI ROADSIDE ASSISTANCE

Peace of mind now, and down the road. MINI Roadside Assistance gives you an outstanding 4 years of unlimited travel protection, wherever the road takes you. The program offers towing, lock-out service, on-site assistance, and even custom-computerized trip-routing services. MINI Roadside Assistance, and our industry-leading MINI Accident Management, are available 24 hours a day, anywhere in Canada and the U.S.

MINI WARRANTY

Each MINI is built according to the highest possible quality standards. To guarantee that you'll experience driving thrills for the entirety of your MINI's life, you will receive a new car warranty of 4 years or 80,000 km (whichever occurs first). This is backed by a 2-year warranty with a no-distance limit on Original MINI Parts and Accessories (the only exception being wear-and-tear parts).

ALL4 ALL-WHEEL DRIVE

The ALL4 All-Wheel Drive system, standard in the MINI Countryman and MINI Paceman, and now available in the MINI Clubman, takes our hallmark agility to a whole new level. By distributing power and torque between front and rear axles, ALL4 delivers superb traction and confident cornering, regardless of what the road, or Mother Nature, throws your way.

MINI CONNECTED

The in-car infotainment revolution starts here. The available MINI Connected system seamlessly integrates our most advanced technology in a stunning 6.5" or 8.8" dash display. With MINI Connected, your link-up to the outside world will be even better – with safe, comfortable, and intuitive controls for all functions available right at your fingertips.

MINI has much more to offer. Visit mini.ca or ask a MINI Representative for more information.

THE NEW MINI CLUBMAN.

GO WITH YOUR GUT.

Just one look at the new MINI Clubman is all it takes to get carried away. Its bold, distinctive silhouette is perfectly complemented by an exquisitely crafted interior with top-shelf finishes and premium technological features. It is the largest and roomiest MINI ever produced, with six doors, seating for five, and ample cargo space. Despite its size, it drives the way a MINI should, with direct power and impeccably precise steering. And with available ALL4 All-Wheel Drive, the MINI Clubman is well suited to command any road with confidence. But most importantly, it just feels right. So follow your instincts and let the new MINI Clubman lead you to a whole new level of motoring.

For more about the new MINI Clubman, visit mini.ca/clubman or configure your own at buildmymini.ca.

Six doors, seating for five, and ample cargo space.

REFINED VERSATILITY.

DESIGN

Premium Cabin with New Centre Console.

The MINI Clubman's sophisticated interior sets a new standard with premium surface finishes and five high-end leather upholstery options, including Chester Leather with diamond pattern stitching.

Split Rear Doors.

A highly-functional, charmingly iconic feature passed down from the classic Mini Traveller.

Aerodynamic, Sculpted Body.

The MINI Clubman's streamlined body is further accentuated by strong shoulder contours and stylized air breathers.

SAFETY

Eight Airbags.

2 front, 2 side-impact, 2 ceiling-mounted side-curtain, and 2 knee airbags monitor collision severity to adjust inflation rates and help protect you and your passengers from potential secondary impacts.

Uniquely Crafted Alloy Wheels.

New spoke options, new bespoke possibilities. Visit buildmymini.ca to discover the full range of alloy wheels.

TECHNOLOGY

MINI Connected.

Available with a full colour 6.5" or 8.8" in-dash display that puts innovative entertainment, communication, and navigation features right at your fingertips.

Twin Power Turbo Engines.

Leveraging the award-winning engine expertise of the BMW Group, both MINI Cooper and MINI Cooper S Clubman variants feature a potent Twin Power Turbo punch.

ALL4 All-Wheel Drive.

The available ALL4 All-Wheel Drive system distributes engine torque between front and rear axles depending on your MINI's speed, acceleration, and steering angle. As a result, the MINI Clubman delivers optimum traction and agility on slippery or uneven road surfaces.

PERFORMANCE

Eight-Speed Automatic Transmission.

The MINI Cooper S Clubman's Eight-Speed Automatic Transmission allows for impeccably smooth and precise gear changes, while the Steptronic system lets you choose between the convenience of automatic and the thrill of manual shifting.

THE NEW MINI CONVERTIBLE.

STAY OPEN.

Open top. Open air. Open-ended possibilities. The new MINI Convertible benefits from three generations of MINI design and engineering innovations. With seating for four and a 3-in-1 Soft Top Roof that can function as either a sunroof or a full-fledged drop-top, it's always ready for your next impromptu excursion. And with a lively 2.0 L Twin Power Turbo engine capable of hitting 100 km/h in a blistering 7.2 seconds in the Cooper S version, it isn't afraid to seize every moment along the way.

For more about the new MINI Convertible, visit mini.ca/convertible.

Woven Union Jack Soft Top.

An iconic accent: the woven Union Jack Soft Top, available with the MINI Yours design package, echoes MINI's British heritage, while epitomizing the premium craftsmanship imbued into the third generation lineup.

From the 3-in-1 Soft Top Roof to the "Always-Open Timer", the new MINI Convertible is packed with a host of features you won't find in any other convertible.

LEAP INTO SOMETHING NEW.

DESIGN

① A Memorable Ending.

From behind, the new MINI Convertible has a dynamic and polished presence. Taillights are set wide apart and are accented by a sleek chrome surround. The Cooper S model features not one, but two tailpipes – a great view for everyone playing catch-up.

② A Top Choice.

The new MINI Convertible's 3-in-1 Soft Top Roof can be up, down, or used as a sunroof to let the breeze in. Also available with a woven Union Jack design from the MINI Yours customization programme for a touch of British heritage.

③ Streamlined Agility.

There's no doubt about it – the new MINI Convertible is a smooth operator. Long yet agile proportions create a more streamlined silhouette that's accentuated by a precisely defined roofline. It's sleek all around.

TECHNOLOGY

Head-Up Display.

All the information, right where you need it. The available MINI Head-Up Display projects driving data such as speed and navigation prompts in your field of vision, helping you keep your eyes on the road ahead.

Rain Warner App.

Drenched is never a good look. Stay ahead of the storm with the new Rain Warner App, which is part of MINI Connected XL Journey Mate. It's the smartest kind of weather-proofing.

SAFETY

Invisible Rollover System.

The new Invisible Rollover Protection System in the rear belt outlet, disguised by elegant Matte Black caps with chrome trim, activates within a fraction of a second in an emergency to protect passengers.

THE MINI 3 DOOR.

THE LEGEND CONTINUES.

It's the original icon, re-born and re-interpreted for modern motoring. The MINI 3 door features the same wheels-pushed-out body design that made its forefather an instant classic back in '59. It now comes equipped with powerful 3 and 4-cylinder engines, both featuring Twin Power Turbo technology that make it faster, feistier, and more efficient than ever before. Jump into the driver's seat and discover an array of premium features that deliver an enhanced level of comfort, connectedness, and class.

For more about the MINI 3 door, visit mini.ca/3door or configure your own at buildmymini.ca.

PUT YOUR FOOT DOWN AND LET THE FUN BEGIN.

① Go-Kart Handling.
Make no mistake about it: the MINI 3 door was born to corner. With its wide track and short overhangs, the MINI 3 door is designed to deliver incredibly nimble handling, a low centre of gravity, and a sensation of being close to the road as you carve through corners.

② 3 & 4-Cylinder Twin Power Turbo Engines.
Thanks to a combination of BMW Group engineering and premium lightweight materials, MINI's 3 and 4-Cylinder Twin Power Turbo engines are more powerful and fuel-efficient than ever. And by supplying immediate torque that holds steady through the engine's power curve, they're quicker, too.

③ Driving Modes: Sport, Mid, & Green.
The MINI 3 door's standard Driving Modes allow you to customize drive response with the turn of a dial. Go "Green" for leisurely cruising and optimized fuel-efficiency, or jump into "Sport" for ultra-responsive steering and acceleration. Of course, you can always choose "Mid" for a happy motoring medium.

④ Automatic Start / Stop Function.
Why burn fuel when you don't have to? The MINI 3 door's Start / Stop function automatically disengages the engine when you come to a complete stop, and seamlessly re-engages it when you're ready to motor on.

⑤ Dynamic Lighting.
The MINI 3 door allows you to customize ambient cabin lighting, as well as the colour of the LED Ring around the Centre Instrument. This glowing ring can be set to change colours in response to engine acceleration, climate control adjustments, incoming calls, or Driving Mode changes.

THE MINI 5 DOOR.

SAME HANDLING. MORE HANDLES.

The turbocharged icon, with more handles to love. The MINI 5 door is loaded with renowned handling and world-famous agility, and comes equipped with two more doors, extra room for friends, and up to 941 Litres of boot space for cargo. And with a powerful Twin Power Turbo engine under the bonnet, the MINI 5 door serves up the ideal mix of motoring fun and driving function.

For more about the MINI 5 door, visit mini.ca/5door or configure your own at buildmymini.ca.

① **Seating for Five.**

The MINI 5 door offers seating for three passengers in the back, thanks to a standard rear-seat bench with a body-hugging shape.

② **More Cargo Space.**

In comparison to the MINI 3 door, the boot of the MINI 5 door packs an extra 67 Litres of space. This takes the total cargo capacity to 278 Litres – perfect for bringing everything along.

LED Headlights.

Optional headlights are designed with two 3-D light rings that enclose LED modules in the centre. Lights are accentuated by a sleek chrome trim, which adds a striking and upscale appearance to the front end.

TECH GEEK AT HEART.

Rear-View Camera & Parallel Park Assist.

This optional feature provides a boot's-eye view by projecting real-time video on your MINI's Centre Instrument display. It also superimposes helpful guidelines and distance marks to assist with reverse and parallel parking.

MINI Touch Controller.

All the power of the MINI Connected system, right at your fingertips. Use the simple buttons to navigate through menus, and use your fingers on the touchpad to handwrite a destination or cue up a tune.

FIT FOR ALL ADVENTURES.

① **Versatile Boot Space.**
With rear seats folded down, the MINI Countryman's cargo capacity expands to 1,170 Litres. There's also a hidden storage compartment under its flat-loading floor for stowing away your more valuable belongings.

② **Seating for Five.**
The MINI Countryman's larger base means more space for everyone lucky enough to hitch a ride. Its standard rear-seat bench offers plenty of legroom for three passengers, ensuring a comfortable ride during short trips and long excursions alike.

ALWAYS IN CONTROL.

Multi-Functional Controls.

The steering wheel of the MINI Countryman puts a variety of functional, easy-to-use controls at your fingertips. Access your MINI's radio, answer incoming phone calls, and engage the cruise control – all without taking your hands off the wheel.

ALL4 All-Wheel Drive.

The MINI Countryman's standard ALL4 All-Wheel Drive system distributes engine power and torque between front and rear axles, ensuring optimum traction on any terrain. The result: exceptional road holding and improved safety.

MINI JOHN COOPER WORKS.

TORQUE OF THE TOWN.

The MINI John Cooper Works lineup offers a potent combination of balanced handling and ballistic acceleration, and is tuned to achieve performance normally reserved for race cars. One look under the bonnet reveals an engine that is capable of boasting up to 228 hp at 6,000 rpm. If that isn't enough power for you, try engaging Sport Mode. This will transform your MINI into an absolute top athlete, with more precise steering responses and faster acceleration – even the tone of the twin-pipe exhaust moves up a key. From one motoring connoisseur to another – you're welcome.

For more about the MINI John Cooper Works lineup, visit mini.ca/jcw or configure your own at buildmymini.ca.

High-performance tuning and parts give the MINI John Cooper Works lineup its fearsome firepower. Both Twin Power Turbo and Twin Scroll Turbo engines deliver serious torque with bone-shaking force. Even before you've put your foot down, the throaty growl beneath the bonnet is enough to set your heart racing.

STREET LEGAL. JUST BARELY.

Inspired by a Legend.

In 1961, British carmaker John Cooper designed a racing-class version of the Original Mini that would achieve a string of stunning motorsport victories, including three wins in the Monte Carlo Rally. Today, John Cooper Works remains a byword for motorsport excellence; as seen in the optional John Cooper Works package, the John Cooper Works models, and dynamic John Cooper Works Tuning components.

Exclusive Interior.

The motorsport-inspired interior of the John Cooper Works range features unique trims and surfaces, an ergonomic steering wheel with leather handgrips and race-red stitching, as well as large side bolsters to keep you snugly in place.

More Power to You.

MINI John Cooper Works models produce up to 228 hp and 236 ft/lb of torque. Pair that with MINI's renowned corner-carving abilities and you've got yourself a genuine force to be reckoned with.

EXCEPTIONAL SAFETY.

SAFETY & EQUIPMENT

① Run-Flat Tires.

Run-flat Tires are designed to keep their shape in the event of a puncture. Made with heat resistant rubber and reinforced sidewalls, they let you drive up to 80 km at 80 km/h even with zero tire pressure, so you can get to a safe location.

② Adaptive LED Headlights.

Optional adaptive LED headlights give you crisp visibility in the dark or during poor weather. They can also swivel in the direction of the road to illuminate what's around the corner and adjust their angle to the road based on your MINI's speed and weight-load.

③ Rigid Chassis.

The body structure of a MINI is rigid, yet collapsible – essential for absorbing and shielding you in case of impact. Using high-tension steel, optimized for weight and rigidity, your MINI retains its sporty feel while reducing body torque, and enhancing its agile handling.

④ Flexible Rear Axle.

The Multilink Rear Axle allows each wheel to react independently. So an uneven road surface won't affect the entire chassis – and your drive stays smooth.

LEVELS OF CONTROL

⑤ Dynamic Stability Control (DSC).

Intelligent sensors detect if you're veering even slightly off course. DSC then activates to adjust the engine torque, and applies brake force to individual wheels where needed.

⑥ Dynamic Traction Control (DTC).

DTC provides the best possible driving force on every surface, even slick or sandy ones. It also restores power to the engine sooner than DSC, and lets the car slide a bit before correcting its course, which is kind of fun if you're into driving thrills.

⑦ Automatic Stability Control + Traction (ASC+T).

ASC+T prevents the front wheels from spinning, which guarantees ideal starting conditions and plenty of traction.

ADVANCED BRAKING

⑧ Dynamic Brake Lights.

In case you need to apply the brakes abruptly, these brake lights will begin to flash to alert the vehicles behind you and activate your hazard warning lights automatically to help defuse the critical situation even further.

⑨ Electronic Brakeforce Distribution (EBD).

Automatically distributes braking force between wheels to suit the driving conditions, and your MINI's weight distribution.

⑩ Anti-Lock Braking.

Latest-generation, four-sensor, anti-lock brakes allow you to stop quickly even on slippery roads.

⑪ Cornering Brake Control (CBC).

Taken a turn a little too quickly? CBC improves stability on cornering at speed.

MINI ASSISTANCE

⑫ Driver Assistant System.

Who said a safe drive has to be boring? At MINI, we think you have more fun on a new adventure if you know you're secure. MINI's optional Driver Assistant System provides you with features like collision and pedestrian warnings with braking function, traffic sign recognition, high beam assistant, and active cruise control.

A camera mounted behind the rear-view mirror in the windscreen identifies critical situations, gives you a two-step warning, and prepares the braking system in order to reduce reaction time.

⑬ Brake Assist.

Helps you stop faster in emergency situations, by speeding up the process and minimizing the braking distance.

MINI ACCIDENT MANAGEMENT HOTLINE.

One of the many benefits included in the Roadside Assistance program is MINI Accident Management. If you are involved in an accident and do not require medical assistance, the MINI Accident Management Hotline is your first call. MINI will arrange for a fully equipped towing service to ensure that you, your occupants, and your MINI are properly taken care of. One call is all it takes.

MINI Accident Management provides the following services:

- 24-hour hotline, 365 days a year
- Access to an Accident Management Specialist
- Notification of police and emergency services (as required)
- Organization of towing services to the nearest MINI Certified Collision Repair Centre, ensuring the transportation of you and your passengers to a safe location
- Notifying the MINI Certified Collision Repair Centre of incoming towing
- All costs of towing to a MINI Certified Collision Repair Centre, Accident Reporting Centre, and/or overnight storage facility (if applicable) are covered under the program
