

FARM WORKER 4x4.

Introducing the Suzuki Farm Worker 4x4. The best help a farmer can get!

Farm Worker Wellside

Farm Worker Flatdeck

***RUGGED, ALL-TERRAIN CAPABILITY  SELECTABLE 4WD WITH HI-LO RATIO
ALL-WEATHER PROTECTION  BUILT FOR NZ CONDITIONS***

Farm Worker Versatile

FARM WORKER 4x4

The Suzuki Farm Worker heralds the return of one of New Zealand's favourite off-road vehicles modified specifically to meet the needs of the modern New Zealand farmer.

Many years of reliable service in some of the world's most diverse and challenging environments is testament to the endurance and reliability of Suzuki's 4x4 technology.

Now, the extremely capable 1.3 litre Suzuki Farm Worker with selectable high/low ratio 4WD is set to continue the legend here on the land.

The Farm Worker provides a practical option to side by side UTVs, with more load space, better protection from the elements, and better all-round comfort.

This is not a converted ATV, rather a solid work vehicle with real carrying and towing ability. When compared to competitor UTVs it boasts the largest deck in its class with a 500 kg load rating. It's comfortable and offers true protection from harsh weather.

If you are looking for versatility, comfort, and rugged reliability, the Suzuki Farm Worker 4x4 could be just what you need.

Farm Worker Multi Purpose

FARM WORKER WELLSIDE

With a double skinned gel-coated roof and fibreglass bulkhead, the Farm Worker cabin offers great protection with excellent headroom and driver comfort. Simple controls make driving easy and, with plenty of space on the back, you can carry all you need to get the job done. A galvanised stock crate is available as an option, as are the solid galvanised bullbars, towbar and Maxxis tyres. The Farm Worker Wellside is an excellent and safe load carrier. The wide easy-access tray will have many other uses around the farm or horticultural unit.

FARM WORKER FLATDECK

Muddy tracks, high hills, or forest trails; it's all in a day's work for the Farm Worker Flatdeck. The deck is built from galvanized steel and tough plywood, with an integrated steel cage to protect the bulkhead. Measuring 1550 mm wide and 1600 mm long the deck will manage loads up to 500 kg and double as a mobile work station. Its low positioning makes loading and unloading easier. Comes standard with a fully enclosed cabin and towbar. Bullbars and Maxxis tyres are optional features.

FARM WORKER VERSATILE

With a full canvas cover and folding rear bench seats running lengthwise, this Farm Worker is totally versatile. Whether you need a people mover on the farm or a cover for your tools when you head out the back on rainy winter days, Farm Worker Versatile will see you right. It even has a forward folding windscreen and the cover can be fully removed for use as an open safari type vehicle. Shown with optional Maxxis tyres fitted – please ask your dealer for costs.

FARM WORKER MULTI PURPOSE

W With its easy to remove vinyl roof, the Farm Worker Multi is the best choice when it comes to getting the job done with a minimum of fuss. Fitted as standard equipment, a painted steel bulkhead behind the driver's seat transforms the Multi into a purposeful wellside utility with more capacity than most other side-by-sides on the market. The Multi has been designed to make owning a Farm Worker not only affordable, but also practical. Shown here with optional tyres and radio fitted. See your dealer to check out the large range of accessories that are available for this model.

Suzuki Farm Worker offers excellent value, rugged practicality, protection from the elements, and greater safety around the farm. If you need more than a standard ATV, then Farm Worker is a better, more cost effective way to manage a variety of on-farm projects, big or small. Simple, rugged functionality is the key. Plus an unmatched ability to go wherever you need to go. Suzuki Farm Worker comes with a comprehensive 24 month warranty.* The Farm Worker range has been developed to operate as an off-road vehicle only and consequently is not able to be registered for road use.

STANDARD EQUIPMENT

- 2-speed wipers with washer
- Temperature and fuel gauges

OPTIONAL ACCESSORIES

TOWBAR

Powder coated in black and rated for 500kg. Fitted standard on Farm Worker Flatdeck as part of the galvanised steel deck.

BULL BARS

Formed from galvanized tubing and mounted to the front bumper and door pillars.

STOCK CRATE

Made in New Zealand of durable galvanized steel, this is one sound option when you need to transport stock safely.

MAXXIS TREPADOR MUDGRIP TYRES

Get plenty of grip with these quality tubeless tyres. Soft and flexible, the Trepador tyre is made to perform in most terrain and offers the best all-round performance without compromising ride quality.

REAR WINDOW

An optional extra for the Flatdeck or Wellside. Cut and fitted with approved safety glass, the rear window fitted to the fiberglass bulkhead offers good rearward vision.

SEAT COVERS

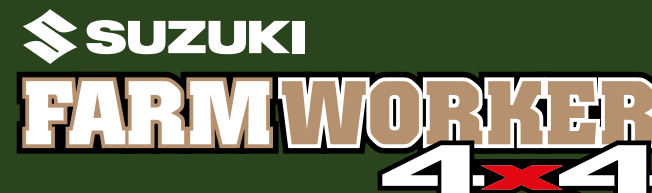

Designed and made in New Zealand from super hardwearing canvas. Easy to remove for cleaning.

SONY CD/RADIO

Big-sounding Sony system with flush mounted speakers. If you like a few tunes while you work, be sure to ask your dealer about this option.
