CHOOSE TO GET IT ALL

They say life's all about decisions. Choices. Well, we say, why choose when you can have it all? The Nissan Tiida is a locally manufactured car designed for ease-of-use, openness and practicality. Giving you what you want and not just what you need. Spirited, contemporary styling. High specification, intelligent features. Luxurious interior. Space. Safety. And then you get behind the wheel... So, one less decision to make.

Tiida means 'dawn of a new day' in Japanese.

LARGER THAN LIFE

05

To face life head on, you need room to manoeuvre. The Nissan Tiida gives you just that. Its extended roof means a more spacious interior, ample front and rear legroom and generous headspace. Most models have 60/40 split rear seats and the high end 1.6 and 1.8 hatch models have rear sliding and reclining seats that significantly extend the luggage room.

The open, airy feel of the interior is enhanced with 18 storage compartments to keep all your odds and ends secure and out of sight: a glovebox big enough to hold a handbag, a large driver side pocket, a sunglasses holder, cupholders and many more. All adding up to an interior that's clean, spacious, and perfectly in tune with your ever changing needs.

INNER SATISFACTION

Designed for people who refuse to settle for second best, the Tiida boasts new levels of interior refinement and modern sophistication. From the super soft, high quality upholstery and interior materials, to the luxurious atmosphere created by gentle, welcoming lighting, the Nissan Tiida's interior is elegant. Indulgent. And thoroughly rewarding.

The moment you slide behind the wheel, you'll revel in the superb comfort of the wide, well-tailored seats. The carefully coordinated interior space of the hatch is enhanced with a chic black colour theme, accented with silver trims. Notice the high levels of finishing and flush fitment? The sophisticated moulding of the dashboard? Get used to it. With the Nissan Tiida, luxury quality is no longer reserved for luxury vehicles.

High-level features and sporty good looks mean nothing without performance to match. Which is why you'll really enjoy the Nissan Tiida. Put the key in the ignition. Buckle up. Engage. And enjoy ride quality like never before.

Powered by an advanced, aluminium engine that delivers excellent fuel economy, the Tiida is ultra responsive. The 1.6 litre 4 cylinder comes equipped with a 5 speed gear box, giving you all the power and acceleration you need, whether you're driving around town or opening her up on the freeway. Engine power is important, but quietness and smoothness can't be underestimated. Extensive use of sound absorbent materials helps reduce road noise, while a pendulum mount engine system reduces vibration, contributing to an extraordinarily quiet cabin.

The Tiida literally slides through the air thanks to its aerodynamically sloped bonnet and windscreen, and sculpted rear. Add agile, precisely weighted steering for brisk control and secure handling. Increased road and trace stability. Distinguished body motion control. Improved shocks. And high specification suspension for a ride that's smoother than smooth. Fuse that with sub-ventilation that effectively cools the entire cabin without direct airflow, luxurious Tempur pillow seats and lavishly soft door and centre console armrests. You'll begin to see why you don't just drive in a Nissan Tiida, you revel in it.

SMART, SOPHISTICATED SENSIBILITY

11

Spacious, modern and sophisticated, the Nissan Tiida sedan combines distinctive styling and thrilling performance with the utmost in driver friendliness. With our range of four derivatives, two engine sizes and manual or automatic transmissions in the 1.6, there's a Tiida sedan that's made for you.

The Tiida sedan exudes dignified, modern elegance based on meticulous details. The sculpted bonnet and gentle curves in all the right places create a dynamic appearance. The refined wheel arches emphasise an understated confidence. And the wide, delicately-featured grille hints at a sportier drive.

The large, modern cabin provides ample legroom and headspace and luxuriously soft seating. And with a substantial 467 litre boot capacity, there's more than enough room for whatever you need, wherever you're going. All in all, a true reflection of every part of you.

CONFIDENCE TO LIVE LIFE TO THE MAX

13

The Nissan Tiida is a car designed to be driven and enjoyed. As such, it's equipped with all the active and passive safety features required to ensure complete peace of mind. Electric power steering across all models, Anti-lock Braking System (ABS), Electronic Brake force Distribution (EBD) and Brake Assist (BA) ensure maximum grip and control. So you can manoeuvre agilely around tricky situations. And powerful halogen headlights provide a wide arc of strong illumination to cut through darkness and bad weather.

The Tiida Visia+ comes standard with dual front airbags, high mounted stop lamp, front seatbelt pre-tensioner and a warning triangle. An immobiliser and NATS (Nissan Anti-Theft System) security on all models add to the feeling of safety and security that comes from knowing that you have the best possible protection on your side.

SAFETY SHIELD

In the commitment to "Real World Safety", Nissan pursues innovation as part of its Safety Shield concept. Based on the idea that cars should help protect people, advanced, proactive safety technologies help driver and passengers to avoid danger and injury in a wide range of circumstances. Visit www.nissan.co.za to find out more.

The Nissan Tiida's stylish 15" steel wheels add a subtle glamour to its already breathtaking style.

The tasteful, high quality upholstery material covering the comfortable seats is a treat, both to look at and to touch.

Nissan's commitment to quality

To provide all customers with a consistently high level of quality, Nissan applies the same standards worldwide, to ensure that all Nissan owners enjoy peace of mind for the lives of their vehicles. The approach is based on quality from the customer's perspective on three key elements:

First, the expectation of a smooth driving experience with complete peace of mind. Second, the intangible appeal of a vehicle, its power to captivate and excite, with features that capture attention and imagination. Third, the level of attentiveness and service during the sales process, and long after the sale is concluded.

Nissan's commitment to the environment

Nissan's environmental philosophy embraces people, vehicles and nature. In the pursuit of a sustainable mobile society, the Nissan Green Program 2010 aims to reduce the environmental impact of Nissan vehicles at every stage of the vehicle life cycle, while corporate activities address environmental challenges.
