The all-new Audi A4 allroad quattro

Impressive off-road performance is in this car's genes. It's what established the Audi A4 allroad quattro's reputation over the years, and it's what makes the latest model capable of taking on all terrains, effortlessly. The features that stand out on the road also excel off it. Like increased ride height, robust underbody guards and quattro all-wheel drive in its latest and most sophisticated form, which ensure the all-new Audi A4 allroad is a match for even the most challenging surfaces.

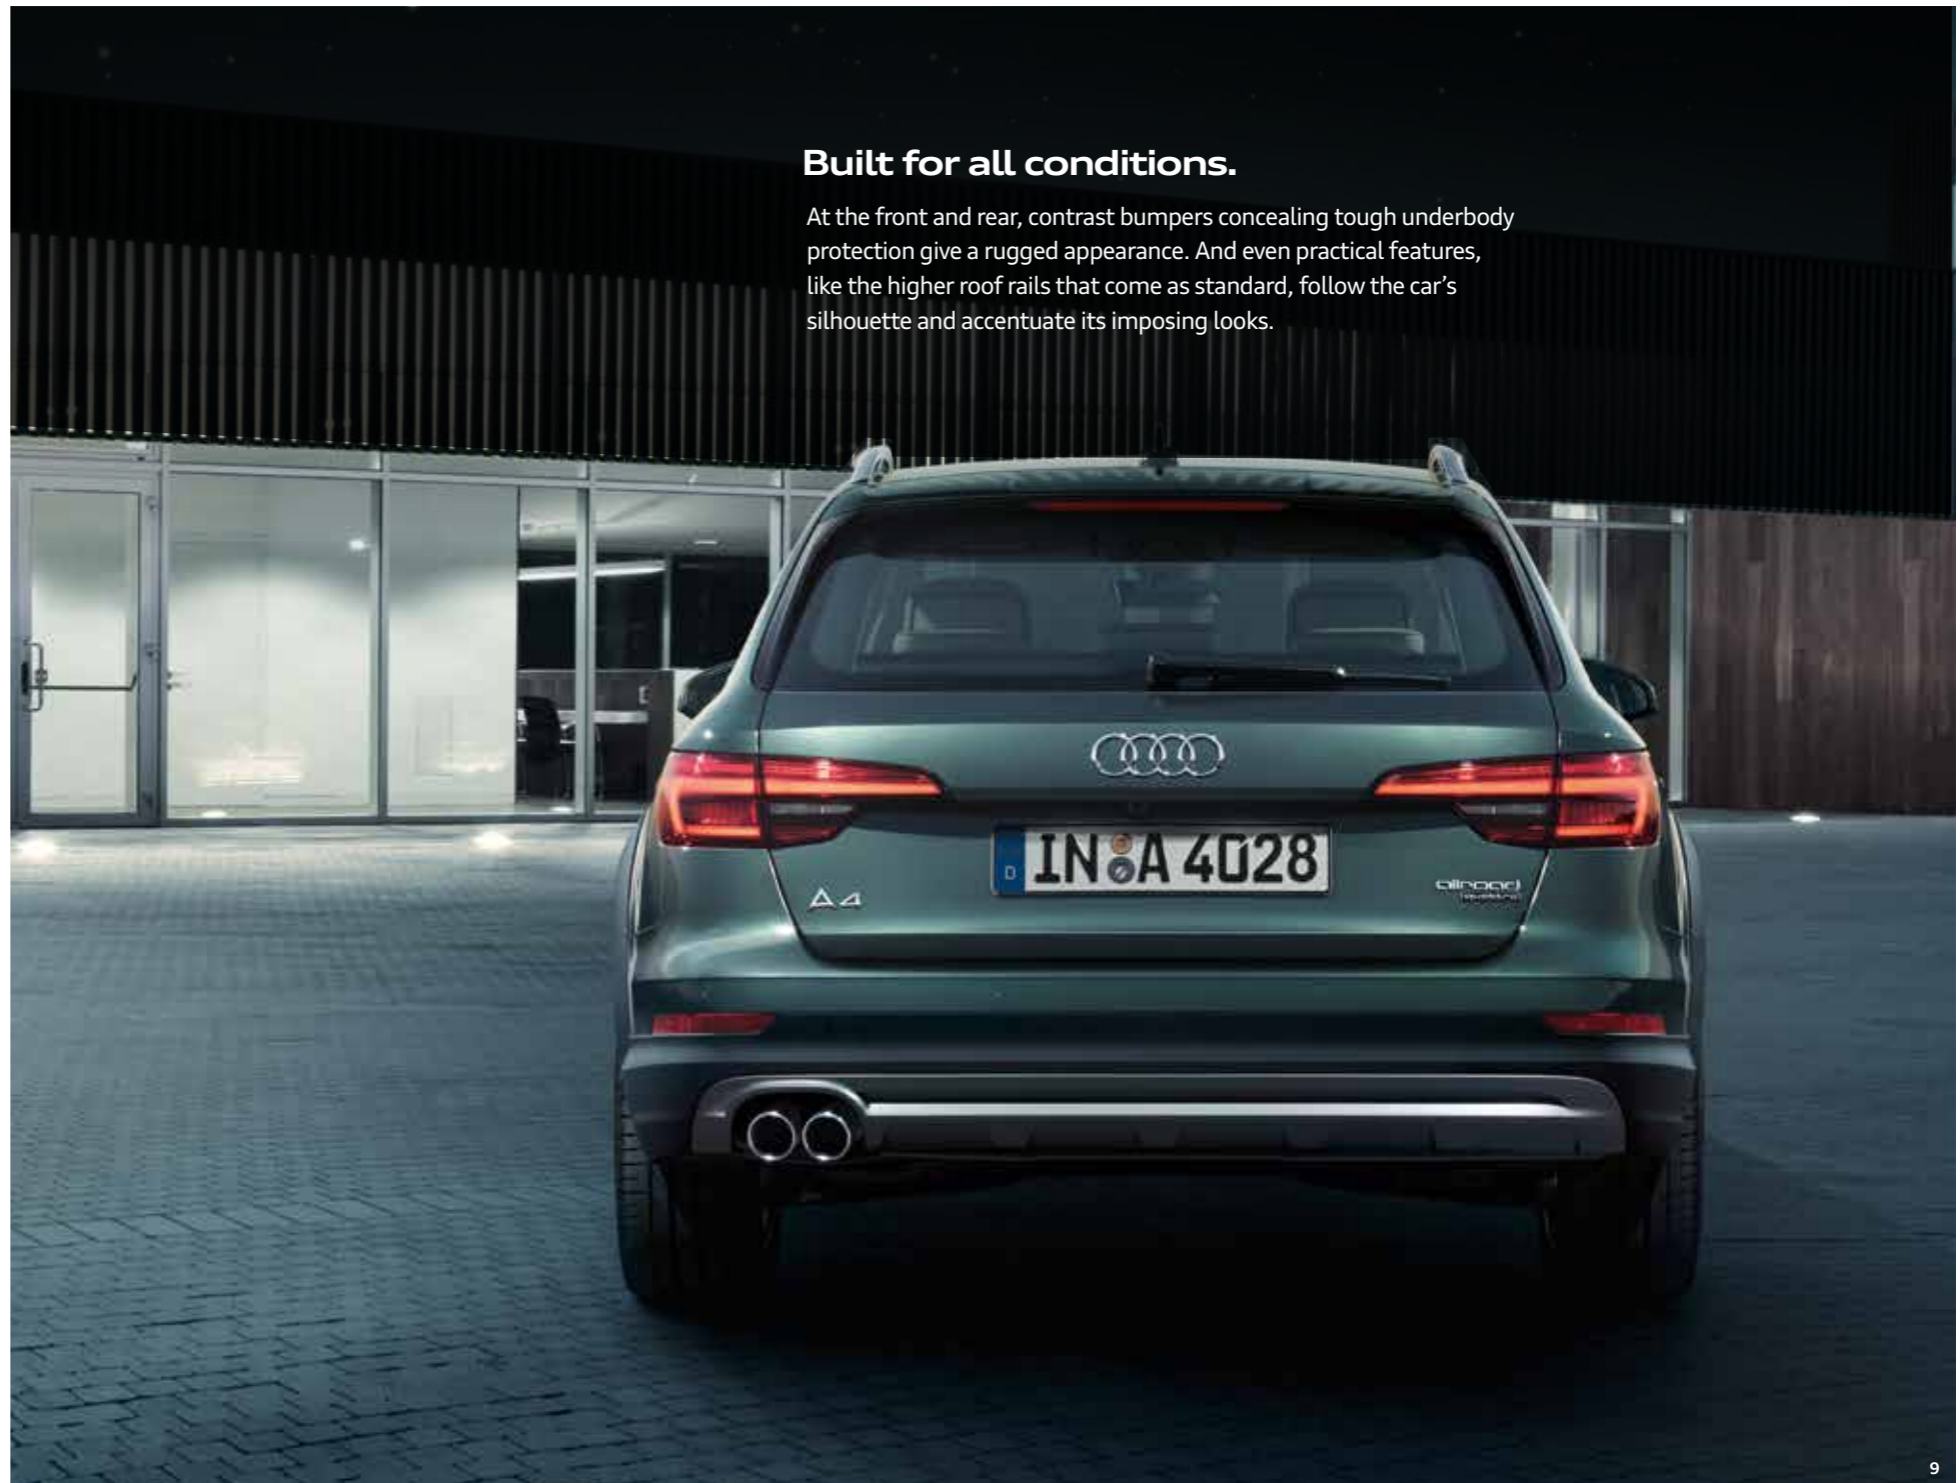

The Exterior

Striking. Rugged. Expressive.

With larger wheels, flared wheel arch extensions and a ground clearance 34mm higher than the standard Audi A4 Avant, the Audi A4 allroad's off-road capabilities are clear. Xenon headlights with LED daytime-running lights bring superb visibility, while the powerful shoulder line and bold single-frame grille give a distinctive impression.

Built for all conditions.

At the front and rear, contrast bumpers concealing tough underbody protection give a rugged appearance. And even practical features, like the higher roof rails that come as standard, follow the car's silhouette and accentuate its imposing looks.

Performance

Powerful. Assured. Composed.

Thanks to quattro all-wheel drive as standard, the Audi A4 allroad is ready for the most testing of journeys. That's because quattro represents the ultimate advantage in dynamics, traction and straight-line stability. The power comes from a choice of advanced TDI and TFSI engines, all with S tronic automatic transmission – or, on the 3.0 TDI engine, an 8-speed tiptronic gearbox is available for the first time in the new A4 allroad.

Adaptive on and off the road.

This car doesn't just adapt to the road; it also adapts to the driver. As on other Audi models, Audi Drive Select lets you tailor steering, transmission control and pedal responses precisely to suit you. But on the A4 allroad, the system also links to quattro all-wheel drive, so you can select the 'Offroad' mode to change the way it holds the surface under the wheels, even in light terrain.

The Interior

A cabin that surrounds you.

With its unique wraparound design and improved headroom, the interior of the Audi A4 allroad is designed to provide a feeling of space and safety. The air vents and 3D inlay run the width of the cabin in a long, unbroken line. The plunging centre console lends a 'floating' aspect to the low-profile dashboard with its large, yet slimline MMI display. And small details add to the feeling of refinement, like touch switches for the climate control or the S tronic gear lever that also acts as a hand rest for the MMI system.

Quietly brilliant.

The Audi A4 allroad's improved aerodynamics don't just reduce drag and fuel consumption; they also lessen wind and road noise for a quiet, relaxed drive. It's more spacious than its predecessor, which means passengers in the front and rear are immersed in a feeling of comfort. There's extra room for cargo too, with a redesigned boot and added practicality with the power-operated tailgate and electric load cover. In fact, the A4 allroad offers over 500 litres with the rear seats up and over 1,500 litres when the rear seats are down.

Technology

Bring your A4 allroad to life.

It's the latest technology options that really define the new A4 allroad. Audi Virtual Cockpit, which transforms the instrument cluster at the touch of a button. Driver assistants that watch the road intelligently. A head-up display which puts the information you want right where you need it. These options represent the very pinnacle of Audi technology.

Vorsprung durch Technik

Not just a slogan. A philosophy.

Progress. It's behind everything we do at Audi. It's why, in the A4 allroad quattro, we've incorporated new technologies to help you on the road and new engines to deliver enhanced performance and fuel economy.

The all-new Audi A4 allroad is the embodiment of our forward-thinking approach.

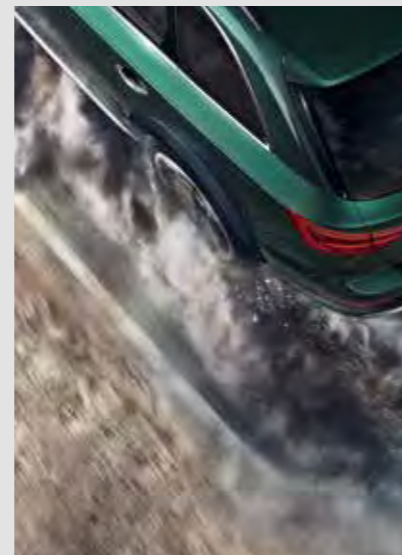

When conditions are always changing, quattro changes too.

The legendary quattro all-wheel drive system comes as standard on every A4 allroad. Whether you're on or off the road, it adjusts second by second to give you superb grip. By automatically distributing drive force between all four wheels, it gives you the ultimate advantage in dynamics, traction, driving safety and straight-line stability.

Image for illustrative purposes only.

Reactive. Predictive. Proactive.

**All-wheel drive when you need it.
Front-wheel drive when you don't.**

Our revolutionary new predictive quattro on-demand system, available only with the 2.0 TFSI 252PS engine, can switch between the two in a fraction of a second.

It does this with a highly intelligent networked sensor system that analyses the road in the same way a driver does. The all-wheel drive system always looks ahead monitoring driving dynamics, road conditions and driver behaviour.

As a result, potential CO₂ emissions and fuel consumption are significantly reduced compared to a car with permanently engaged all-wheel drive. Yet you still have all the benefits of quattro, as the system is always ready to step in when needed.

Reactive. Predictive. Proactive. Our quattro on-demand system engages all-wheel drive at precisely the moments when you'll benefit. And not a second sooner.

quattro

on-demand

Matrix LED lights

Illuminating features.

The Audi A4 allroad's new optional Matrix LED headlights produce a light similar in colour to daylight. They also incorporate sensors and an inbuilt camera that detects other road users, as well as ambient light in built-up areas. They then react by dipping individual LEDs to prevent dazzle, while still fully illuminating the remainder of the road.

Where available, Matrix LED technology will even use the vehicle's navigation data to anticipate corners, adjusting LEDs as you negotiate the bend. The result is a much wider visual range, benefitting both you and other road users. Dynamic sweeping indicators complete the striking look at the front and rear.

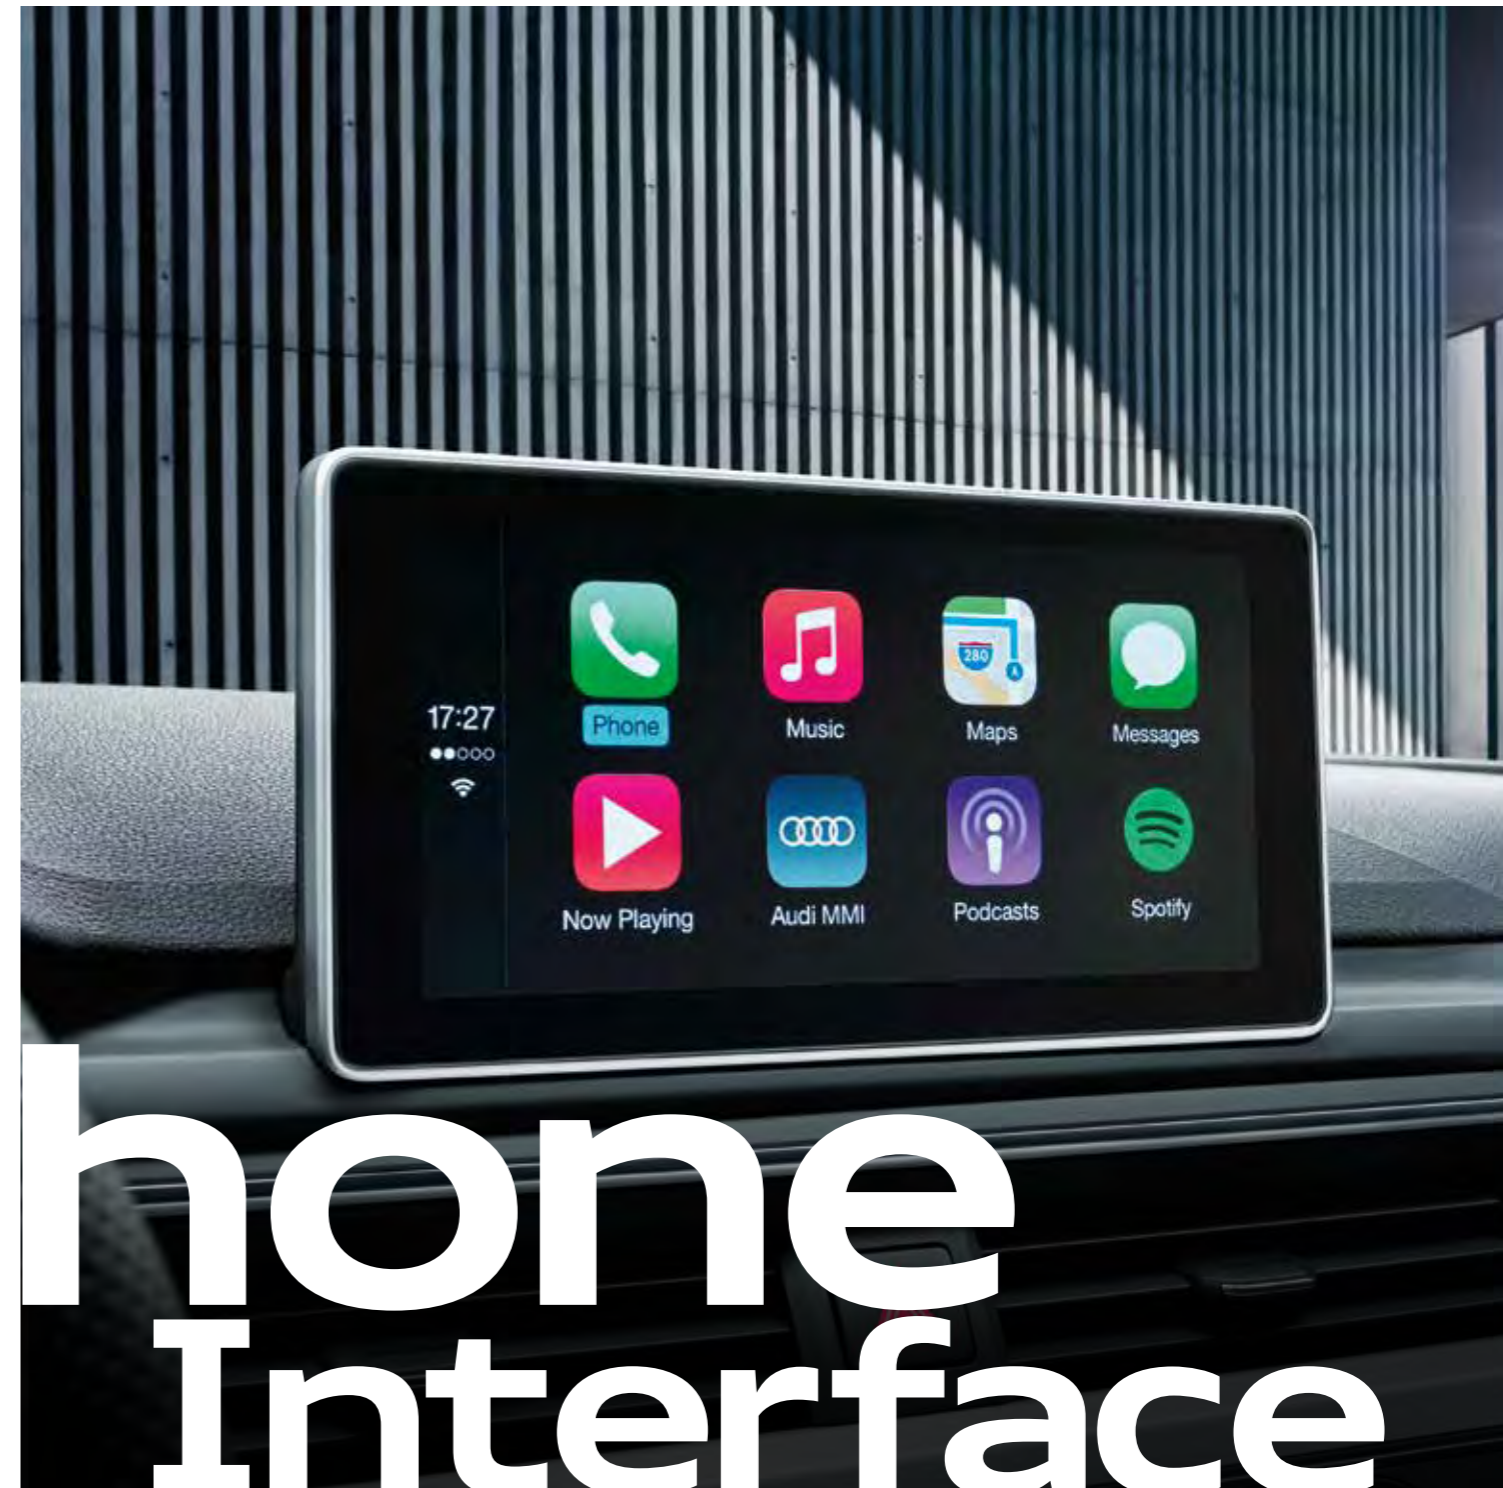

Bring your phone to the fore.

Imagine being able to use your smartphone applications safely while driving. The Audi Smartphone Interface, standard on the Audi A4 allroad quattro, lets you do just that.

Satellite navigation. Music streaming. Your contact list. Now you can access apps, approved for in-car use by Android and Apple, from the MMI controls on the A4 allroad's centre console, from the multi-function steering wheel, Audi Voice Control, or even via your smartphone's assistant, like Siri.

Simply connect your compatible smartphone via USB* and approved apps appear in full colour on the central MMI screen.

Smartphone Interface

Smartphone Interface

Finding your way

You can now use Apple and Google Maps* as your navigation system. Turn-by-turn directions, traffic guidance and estimated arrival times are easy to see on your MMI screen without having to touch your phone – and addresses from your email, texts, contacts and calendar can be added as destinations. Don't forget, planning your journey at home reduces data usage while on the move.

Google Maps*

Your own soundtrack

You can play music stored on your phone as you drive, controlling it simply and intuitively through the interface. Streaming services are also available, including Spotify and Google Play Music.*

Spotify and Google Play Music*

Keeping in touch

With Audi Smartphone Interface, any text messages you receive while driving can be read out to you – and if you need to respond, you can do so simply by dictating your message. But not only that. You can also use approved third-party apps* like WhatsApp to keep in touch while driving.

WhatsApp, Skype and Google Hangouts*

What's on your phone is now available on the road.

The Audi Smartphone Interface makes linking your smartphone* to your car quick, safe and easy.

With Android Auto and Apple CarPlay, you can access approved apps* from your phone safely via the Audi A4 allroad's MMI system – both by voice or fingertip control. So you can make calls, receive and dictate messages, navigate, select music and podcasts and much more without taking your eyes off the road.

All imagery on these pages show use of Apple CarPlay with Audi Smartphone Interface. *Smartphone Interface uses Apple CarPlay, which is available with iPhone 5 and above, or Android Auto, which is available with phones using Android 5.0 Lollipop or above. *Availability of applications differs by operating system and is dependent on approval by Apple or Google. An up-to-date list of approved apps is available on the relevant systems' websites. Permanent availability cannot be guaranteed as this is the responsibility of Apple and Google. Use of certain apps with Smartphone Interface will be subject to signal availability of the mobile network in your location and in-car usage may increase your mobile data usage. If using regularly, a mobile phone contract including an unlimited or high amount of data is recommended.

Image for illustrative purposes only.

Audi

Connect

Infotainment Services

The world at your fingertips.

Audi Connect is the link between your Audi and the internet, giving you access to entertainment, information and search functions via scrolling, tapping or verbal commands.

With high-speed 4G internet access in your car, via an embedded SIM card with no data charge, you can call up flight information, fuel prices and weather. You can also access high-resolution aerial and satellite pictures from Google Earth™ and Google Street View™, connecting you to the journey ahead, and your world beyond.

Audi Connect is available as a three-month trial on the A4 allroad Sport model or a three-year subscription can be purchased as part of the optional Technology Pack.

Audi Connect

Infotainment Services

Stay connected on the move.

The following Audi-supported services are currently available in the all-new Audi A4 allroad:

Infotainment

Online media streaming. Pairing a smartphone with the Audi Music stream app offers access to worldwide radio stations and music stored on the smartphone

Weather information. Gives you forecasts and maps for your chosen destination

News online (individual). Text and images from your favourite news sources with text-to-speech function

Country-specific information.*
The legal regulations for a specific country, such as speed limits or whether it is compulsory to carry a high-visibility vest or display a motorway toll sticker, are displayed when crossing a border

Communication

Twitter. Enables you to tweet and receive updates on the move. With text-to-speech and other convenient text functions

Email.** Your emails can be transmitted to your Audi MMI and read out conveniently

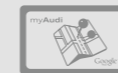

Mobility and navigation

Points of interest.
Search Google™ using voice control

Navigate with Google Earth™ and Google Street View™.
Uses high-resolution aerial and satellite images as well as photos to guide you to your destination with ease

Destination entry via myAudi or Google Maps™.
If required, navigation destinations can be conveniently planned on your PC or smartphone. myAudi and Google Maps™ allow individual navigation destinations to be sent to the vehicle. When you start your journey, these can be easily loaded as your destination. myAudi or Google account required

myAudi – special destinations.*
Import individual point-of-interest (POI) lists to your Satellite Navigation system via the myAudi portal

Map update online.* The map version delivered can be updated free of charge with the first 5 navigation updates which are issued at intervals of 6 months. In conjunction with Audi Connect, the update can be carried out online in the vehicle

Flight information. Get information about departure and arrival times, as well as the corresponding gates, and search directly for flight numbers

Train information. Find departure and arrival times and platform information while you're on the road (also available for other types of public transport such as underground systems)

Fuel prices. Information on filling stations with the cheapest prices in your selected search area

Parking information. Helps you find car parks nearby and, where available, information on prices and currently vacant spaces

Traffic information online. Complements the dynamic route guidance with real-time traffic flow information for individual stretches of road

Please note that an external data source is required to enable Audi Connect online services.

Terms and conditions apply to certain Audi Connect functions. Please see page 94 for additional information.

*For information about compatible phones please visit www.audi.co.uk/phonecompatibility

*Only available when ordered in combination with Technology Pack (WB4).

Customisable control.

The information you need is always changing, so the Audi Virtual Cockpit changes too. Available as an option, it replaces the traditional dashboard with a high resolution, 12.3" LCD screen, which you can customise just by pressing the 'view' button on the multi-function steering wheel. Choose the 'classic' view, with prominent speedometer and rev counter, or the 'infotainment' view, which brings functions such as the navigation map or media to the fore – with crisp 3D graphics and highly detailed effects.

Everything you need to know right in front of you: it's the embodiment of Vorsprung durch Technik.

A4 allroad

Key features that come as standard.

A4 allroad offers premium specification as standard. Highlights include quattro all-wheel drive, Xenon headlights with LED daytime running lights, distinctive allroad exterior styling, Audi Smartphone Interface, 3-zone climate control and a 7” colour MMI monitor. A power operated tailgate and an electrically retracting luggage cover are also standard, facilitating access to the allroad's accommodating load bay.

Wheels

- ▶ 17” ‘Multi-spoke’ design alloy wheels
- ▶ Collapsible spare wheel
- ▶ Tool kit and car jack

Performance and suspension

- ▶ Automatic Start-Stop system with coasting functionality and efficiency programme
- ▶ Electromechanical power steering
- ▶ Comfort Dynamic suspension with 34mm increased ride height over A4 Avant
- ▶ quattro all-wheel drive
- ▶ Off-road detection system
- ▶ Audi Drive Select with additional Offroad mode

Lighting

- ▶ Xenon headlights with LED daytime-running lights

Exterior

- ▶ allroad radiator grille with vertical chrome slats
- ▶ Front and rear bumpers and extended wheel arches in contrasting finish
- ▶ Underbody protection
- ▶ Extended aluminium side sills

- ▶ Off-road aluminium package – roof rails, roof frame, window capping strip and door handles in aluminium
- ▶ High-gloss package – B-pillar trims and triangular rear door trim in high-gloss black
- ▶ Chrome-plated exhaust trims
- ▶ Door mirrors – electrically adjustable and heated with integrated LED side indicators
- ▶ Body-coloured door mirrors
- ▶ Tow bar preparation
- ▶ Windscreen with acoustic glazing

Seats

- ▶ Standard seats in Index cloth
- ▶ Manual seat adjustment

Interior inlays

- ▶ Inlays in Aluminium Ellipse, silver

Interior equipment

- ▶ Deluxe 3-zone electronic climate control

- ▶ 3-spoke leather multi-function steering wheel with chrome clip and gear-shift paddles – height and reach-adjustable
- ▶ Door sill trims with Aluminium inlay with allroad logo
- ▶ Auto-dimming rear-view mirror
- ▶ Front centre armrest
- ▶ Split-folding rear seat bench in 3 parts (40/20/40) with rear centre armrest
- ▶ Power-operated tailgate
- ▶ Electric load area cover
- ▶ Interior lighting
- ▶ Stainless steel loading sill protector
- ▶ Luggage compartment mat
- ▶ Storage Pack

Audio and communication

- ▶ MMI Radio Plus with 7” colour MMI screen
- ▶ Audi Smartphone Interface
- ▶ Driver's Information System – 5” monochrome display
- ▶ Voice control
- ▶ Bluetooth interface[†]
- ▶ DAB digital radio reception
- ▶ 2 USB charging ports and 1 AUX-IN
- ▶ 8 passive loudspeakers
- ▶ CD drive
- ▶ Navigation preparation (‘Ready 4 Nav’)

Driver assistance

- ▶ Cruise control system with free-wheeling capability and speed limiter
- ▶ Parking System Plus – front and rear parking sensors
- ▶ Keyless go
- ▶ Pre-sense city
- ▶ Multi-collision brake assist

Safety and security

- ▶ Pop-up bonnet for pedestrian protection
- ▶ Electronic Stabilisation Control (ESC), including ABS, ASR and EDL
- ▶ Light and rain sensor
- ▶ Anti-theft alarm
- ▶ ISOFIX child seat mounting and Top Tether
- ▶ 6-airbag system
- ▶ Anti-theft wheel bolts
- ▶ First aid kit with warning triangle
- ▶ Seat belt monitoring

Wheels

Enhance your style.

Whatever your taste, there’s a set of alloy wheels that will add the final flourish to your A4 allroad.

Tyre information

All 17” wheels supplied with:
17” x 7.5J 225/55 R17 tyres.

Depending on the 18” alloy chosen, the wheel will be supplied on either: 18” x 7.5J 245/45 R18 tyres or 18”x 8.5J 245/45 R18 tyres

All 19” wheels supplied with:
19” x 8.0J 245/40 R19 tyres.

All pricing is RRP including VAT at 20%.

Options are subject to availability and may extend time taken for delivery.

Please note that the size of your chosen A4 allroad wheel may affect the fuel consumption figures and the CO2 emissions. This may result in a change in subsequent Vehicle Excise Duty payable. Please see pages 89 and 95 for details.

Performance and suspension

Options for ultimate handling, comfort and agility.

allroad Suspension with damping control

Electronically regulated suspension system offering enhanced dynamic or comfort orientated characteristics according to the surface conditions and the driving situation. The results are enhanced handling with even greater comfort and impressive off-road capability. Shock absorber settings adjusted via Audi Drive Select.

Dynamic steering

Enhances driving dynamics and ride comfort by regulating the steering according to the driving situation. With this technology, driving is significantly more agile under everyday conditions, while directional stability and precision are increased at high speeds and in demanding driving situations.

		allroad	allroad Sport
2MN	allroad Suspension with damping control	£900	£900
1N8	Dynamic steering	£950	£950

1. Matrix LED headlights with LED rear lights and dynamic front and rear indicators (PXC). 2. Dynamic rear indicators (PXC or PX2). 3. Headlight washers (8X1). 4. LED headlights with LED rear lights and dynamic rear indicators (PX2).

Lighting

Advanced headlights that adapt to the road.

Matrix LED headlights with LED rear lights and dynamic front and rear indicators

Audi Matrix LED technology provides precise illumination without dazzling other road users. Using information obtained from the vehicle’s sensors, camera and MMI Navigation (if equipped), Matrix Beam calculates the appropriate lighting required and automatically dips or turns off individual lighting diodes, creating corridors of lights either side of the vehicle or the object in front of it. Includes dynamic front and rear indicators which sweep from inside to out. This helps to clearly identify not only that the vehicle is turning, but in which direction – increasing road safety.

LED headlights with LED rear lights and dynamic rear indicators

All-weather headlights with dynamic headlight adjustment and dipped beam, high beam, indicators and turning light in LED technology. Enables a near daylight illumination of the road, minimum energy consumption and long service life. Includes dynamic rear indicators which sweep from inside to out. This helps to clearly identify not only that the vehicle is turning, but in which direction.

High-beam assist

Detects the headlights of oncoming traffic, the rear lights of other road users and light sources in built-up areas. Depending on the traffic situation, the high beam automatically adjusts to dipped beam and vice versa. The system improves the driver’s visibility and ensures a more relaxed drive thanks to the extra comfort and convenience.

1. Panoramic glass sunroof (3FU). 2. Tow bar, folding (1D4).*

Exterior equipment

Innovative options for added style and convenience.

Trailer pack*

Includes electrical folding tow bar and trailer assist which supports the driver when reversing with a trailer.

Tow bar (electrically folding) Electrically folding ball head with electric release. Operated via a button in the luggage compartment. Includes trailer/caravan stabilisation via Electronic Stability Control (ESC) and allows continual use of electrical devices in the trailer/caravan whilst driving. 13- to 7-pin adaptor may be required please consult your Audi Centre for details.

Trailer assist Activated at the push of a button to help you manoeuvre while reversing with a trailer. The driver can adjust the desired angle or desired path of travel, shown on the MMI screen, via the rotary push-button control. Steering is done by the vehicle; the driver need only accelerate and apply the brakes. The system automatically brakes if the driver exceeds a defined speed or if a critical articulation angle is reached.

Panoramic glass sunroof

Available on Avant models, the panoramic glass sunroof comprises two tinted glass sections. The front glass section raises and opens electrically. Includes an electrically adjustable sunshield and convenience closing via the central locking remote control.

Tow bar (folding)

Manually swivelling ball head with electric release. Operated via a button in the luggage compartment. Includes trailer/caravan stabilisation via Electronic Stability Control (ESC) and allows continual use of electrical devices in the trailer/ caravan whilst driving. 13- to 7-pin adaptor may be required – please ask for details and pricing at your local Audi Centre.

A4 allroad Sport seat colours and trim

Sport seats

Twin leather (N1F) – standard on allroad Sport
The seats on the A4 allroad Sport not only have a sport design but also with their extended thigh support, prominent side bolsters and improved lateral support, they offer a firmer and more supported driving style to the standard seats. Also include the added functionality of electric 4-way lumbar support (7P1). Seat functionality includes manual adjustment for seat height, seat forwards/backwards position, backrest angle, head restraint and seat belt height. A new combination trim offering the comfort and style of leather without the higher cost. For details on Twin leather and where it is applied please see page 52. Available in a choice of three leather colours as shown on page 55.

Leather/Alcantara (N7U) – optional on allroad Sport £350
The addition of Alcantara upholstery with leather enhances the style of your seats, offers additional grip for sportier driving and at the same time offers added comfort across the seasons. Seat centre, shoulder panels and door trim inserts in Alcantara. Seat side bolsters, head restraints and front centre armrests in leather complete the look. Available in a choice of two leather colours as shown on page 55.

Milano leather (N5W) – optional on allroad Sport £850
High quality and long lasting leather with fine grained appearance. For details on Milano leather and where it is applied please see page 52. Available in a choice of four leather colours as shown on page 55.

Image shows a Sport seat with Climate function (PS8) and with optional Electrical adjustment (3L5) and 4-way electric lumbar support (7P1). For an image of a Standard front Sport seat see page 52. All pricing is RRP including VAT at 20%. Options are subject to availability and may extend time taken for delivery.

A4 allroad Sport optional trim colours

Climate function for Front Sport seats PS8

Optional on allroad Sport

To maximise seat comfort in hot weather, the climate function option provides active ventilation for the seat and backrest centre sections of the driver and front passenger seats. Three different cooling intensities are available and operated via the climate control panel. To allow for ventilation, the seat centre panels are perforated. The outer rear seats are also perforated to match, but are not ventilated.

Only in combination with Twin leather (N1F) or Milano leather (N5W) and with the following chargeable options: Heated seats (4A3 or 4A4) and Electrically adjustable front seats (3L5 or PV3). Please note: these seats have a unique design compared to standard Front Sport seats – see page 52.

Seat options

Further options to enhance your seats.

4-way electric lumbar support

For front seats with horizontal and vertical adjustment to further increase seat comfort.

Electrically adjustable front seats

Electric adjustment for seat height, seat forwards/backwards position, seat angle and backrest angle.

Electrically adjustable front seats with memory function for the driver’s side

Electric adjustment of both front seats, with memory function for the driver’s side. Includes the following:
Electric adjustment for seat height, seat forwards/backwards position; seat angle and backrest angle; Electric 4-way lumbar support; Two memory spaces for the electrically adjustable driver’s seat and exterior mirrors.

Heated front seats

Heating for seat and backrest centre panels. When in combination with Sport seats and leather upholstery, the side bolsters are also heated. Individually adjustable in several stages for driver and front-passenger side via the air-conditioning controls.

Heated front and outer rear seats

Works in the same way as front seat heating, enabling you to regulate the outer rear seats separately.

1. Rails system with load-securing kit (3GN). 2. Variable foldable trunk mat (6SJ).

Interior equipment

Practical options for advanced storage and stowage.

Rails system with load-securing kit

Flexible system for securing objects in the A4 allroad luggage compartment. A telescopic bar and securing strap enable the luggage compartment to be divided diagonally and/or horizontally. Four sliding lashing points on the rail provide additional fastening options. After use, the kit can be stowed away in the loading floor.

the luggage area into individual compartments. Thanks to its compact design, the trunk mat can be stowed away to the side of the luggage compartment.

Rear side airbags

For the outer rear seats, incorporated into the seat backrests; supplements the standard airbag systems.

Variable foldable trunk mat

Increase the everyday usability of the luggage area, with a reversible, flexible rubber mat. The entire load area, even with rear seat backrest folded, can be covered to protect against dirt or damage. Or, if the trunk mat is installed horizontally, the side panel trims of the luggage compartment can be covered. Alternatively, the mat can be used flexibly to divide

Variable head restraints for front seats

With manual adjustment of headrest height, tilt and distance.

		allroad	allroad Sport
3GN	Rails system with load-securing kit	£200	£200

5ZC	Variable head restraints for front seats	£125	£125

Technology Packs

Technology Pack ^{WB4}

This pack brings together the most popular technology options that are frequently ordered together for those wanting the highest level of connectivity and navigation.

MMI Navigation Plus with MMI touch. In addition to standard MMI Radio Plus*, includes the following:

- 8.3” high resolution, colour MMI display with aluminium frame
- Touch-sensitive control panel for fast, intuitive operation, handwriting recognition, and ability to move and zoom freely on the map
- Integrated navigation with 3D map display of places of interest
- Online map updates
- Detailed route information: map preview, choice of alternative routes, POIs, lane recommendations, motorway exits, detailed junction maps and more
- Dynamic route guidance traffic updates with TMCpro (in conjunction with Audi Connect: traffic information online)
- MMI search: free text search with intelligent suggestions provided during entry
- Natural voice recognition
- Jukebox hard drive memory for music (10 GB)
- DVD drive for music CDs and video DVDs
- 2 x SDXC memory card reader.

MMI Navigation Plus

Driver Information System – 7” colour display
High-resolution TFT 7” full colour display in the instrument cluster offering an even better overview and readability of information compared to the standard 5-inch display. Displays additional information from the standard DIS such as navigation map and driver assistance systems. See page 85 for standard display information.

High multi-function 3-spoke leather steering wheel.
Includes paddles for automatic transmission. Control of onboard computer, telephone, radio and navigation system with both hands on the steering wheel. Refer to trim pages for steering wheel designs.

MMI touch

High multi-function 3-spoke leather steering wheel

Audi Phone Box with wireless charging

Audi Connect (3-year subscription). Convenient connection of your vehicle to the internet via an integrated data module with LTE/UMTS connection. Highlights of Audi Connect services include navigation with Google Earth™ and Google Street View™, destination input via myAudi or Google Maps™, access to Google and Twitter, weather and news online and travel information. See pages 30-31 and 94 for more information.

Audi Phone Box with wireless charging. Offers improved reception quality and wireless charging (with Qi enabled compatible phones). For more information, see full option description of Audi Phone Box on page 75. Audi Phone Box option also provides an additional Bluetooth interface for a second device, meaning two mobile phones can be connected to the vehicle simultaneously. For mobile phone bluetooth compatibility, please visit your Audi Centre or www.audi.co.uk/phonecompatibility

		allroad	allroad Sport
WB4	Technology Pack	£2,000	£1,450

*For details on MMI Radio Plus please refer to the Glossary.
All pricing is RRP including VAT at 20%. Options are subject to availability and may extend time taken for delivery.

Image also shows optional Audi Virtual Cockpit (9S8) which is available separately.

Technology Packs

Comfort and Sound Pack WB3

A pack that adds value by combining some of our most popular options – designed to offer convenience as well as enhancing your driving comfort, sound experience and pleasure.

Electrically adjustable front seats. Electric adjustment for seat height, seat forwards/backwards position, seat angle and backrest angle.

4-way electric lumbar support. For front seats with horizontal and vertical adjustment.

Convenience key. Access and authorisation system that works through automatic data exchange between key and vehicle, allowing the driver to keep their car key in their pocket or bag at all times. Vehicle locked and unlocked from outside via sensors on the door handles. Pressing the Start/Stop button integrated in the centre console starts and stops the engine.

Bang & Olufsen 3D sound system

Electrically adjustable front seats

Bang & Olufsen 3D sound system. The system features 19 loudspeakers including a subwoofer and centre loudspeaker and a 16-channel amplifier with an output of 755 Watts. Spatial sound reproduction through the new 3D sound feature for the front seats. Includes speed-sensitive volume adjustment and illuminated loudspeakers within the front doors.

		allroad	allroad Sport
WB3	Comfort and Sound Pack	£1,775	£1,250

Vision Pack WB6, 9S8

Keeps your focus on the road, with features that put driver information in your line of vision as well as enhancing your A4 allroads’s headlights, so they won’t dazzle other drivers. As with other technology packs, you can expect a high level of value.

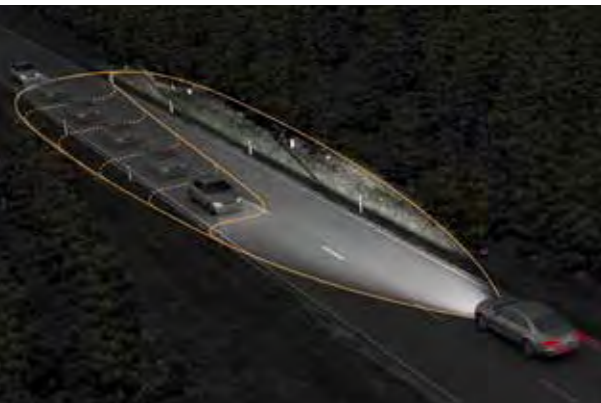

Audi Virtual Cockpit and Head-up display

Audi Virtual Cockpit. Innovative 12.3” full colour digital instrument cluster for the flexible display of information tailored to the driver’s needs. Displays the following:
► Vehicle/engine speed ► 3D Navigation map ► Audi Connect services ► Radio/media information ► Driver assistance systems ► All MMI functionalities (e.g. Telephone, Car settings etc). The ‘view’ button on the multi-function steering wheel allows you to change between two differently sized representations of the instrument dials. The display with small instruments allows the onboard computer and MMI contents to be shown across the full display area.

Head-up display. Projects warning messages or driving related information from assistance systems and navigation system (if ordered) in full colour onto the windscreen in the driver’s direct field of vision, giving faster access to information. Display is adjustable in height.

High-beam assist. Detects the headlights of oncoming traffic, the rear lights of other road users and light sources in built-up areas. Depending on the traffic situation, the high beam automatically adjusts to dipped beam and vice versa, improving the driver's visibility and enhancing comfort and convenience.

High-beam assist

		allroad	allroad Sport
WB6, 9S8	Vision Pack. Only available in combination with Technology Pack (WB4)	£1,150	£1,150

Technology Packs

Light and Vision Pack WB7, 9S8

See more, both inside and outside your A4 allroad with our advanced lighting technology and our ultimate driver information system, Audi Virtual Cockpit. Available for allroad Sport models only, this pack combines our most innovative options with great value.

Audi Virtual Cockpit. Innovative 12.3” full colour digital instrument cluster for the flexible display of information tailored to the driver’s needs. Displays the following:

- Vehicle/engine speed
- 3D Navigation map
- Audi Connect services
- Radio/media information
- Driver assistance systems
- All MMI functionalities (e.g. Telephone, Car settings etc).

The ‘view’ button on the multi-function steering wheel allows you to change between two differently sized representations of the instrument dials. The display with small instruments allows the onboard computer and MMI contents to be shown across the full display area.

Audi Virtual Cockpit

Extended LED Interior Lighting Pack – multi-coloured.

In addition to the LED Interior Lighting Pack (QQ1) includes coloured ambient lighting in the following areas:

- Door trims, front and rear
- Door storage areas, front and rear
- Cup holder
- Centre console
- Footwells, front and rear.

Three pre-defined colour profiles are available which can be individually selected, or interactively set with your Audi Drive Select mode.

Extended LED Interior Lighting Pack – multi-coloured*

Matrix LED headlights with LED rear lights and dynamic front and rear indicators

Matrix LED headlights with LED rear lights and dynamic front and rear indicators

Audi Matrix technology is designed to provide precise illumination at all times without dazzling other road users. The vehicle uses information obtained from multiple sources including sensors, a camera and the MMI Navigation system (if ordered) to identify the appropriate lighting required. Using these sources, Matrix beam dips or fully extinguishes individual lighting diodes when vehicles are detected ahead. Matrix beam is capable of establishing and tracking multiple road users and illuminating the appropriate corridors

of lights either side of them, to maintain maximum visibility of the road and surrounding environment, without causing disruption to other drivers. Matrix beam technology includes dynamic front and rear indicators which sweep from inside to out. This helps to clearly identify not only that the vehicle is turning, but in which direction – increasing road safety as it is easier for other road users to determine which way cars are moving in a shorter amount of time.

		allroad	allroad Sport
WB7, 9S8	Light and Vision Pack. Only available in combination with Technology Pack (WB4)	Not available	£975

*Image for illustrative purposes only as shows an A4 S line model.

Technology - Audio and communication

Your options for music and entertainment.

Bang & Olufsen 3D sound system

A premium sound experience in your A4 allroad with concert hall acoustics and for the first time, with 3D stereo surround sound. The system features 19 loudspeakers, including a subwoofer and centre loudspeaker and a 16-channel amplifier with an impressive total output of 755 Watts. The natural 3D surround sound is produced with additional speakers in the A-pillar, which now create a new height dimension in sound, in addition to depth and width enhancing the feeling of space. Includes speed sensitive volume adjustment and illuminated loudspeakers within the front doors.

Audi sound system

Impressive sound with 10 loudspeakers including centre speaker and subwoofer, plus a 6-channel amplifier with a total output of 180 Watts.

Digital TV reception

Reception of digital (DVB-T) uncoded television stations (MPEG-2 standard), TV picture, Teletext and Electronic Programme Guide (EPG). Facility to connect two external AV sources via adaptor cables (available from Audi Genuine Accessories). Please note: TV reception depends on local digital network availability. Picture display only possible on MMI screen when your Audi A4 allroad is stationary, audio available at all times.

Audi Entertainment Mobile

Includes two detachable high definition 10.1” touch screens fitted to the back of the front seats (supplied by Audi Genuine Accessories*). The backs of the front seats are fitted with mountings and power connections. The system can be used outside the car with rechargeable battery, which is included in the package. Content is either streamed from your iOS (iPhone) or Android (Samsung, HTC, Sony etc) smartphone via an Audi App, via an integrated SD card reader, USB cable, Miracast Wi-Fi or Bluetooth. Includes two sets of headphones, USB cable and storage bag.

		allroad	allroad Sport

QU1	Digital TV reception. Only available with Technology pack (WB4)	£1,100	£1,100
9WQ	Audi Entertainment Mobile.* Only available in combination with Electrically adjustable front seats (3L5) and 4-way electric lumbar support (7P1)	£1,325	£1,325

1. Bang & Olufsen 3D sound system (9VS). 2. Audi Entertainment Mobile (9WQ).

Technology - Audio and communication

Your options for infotainment and connectivity.

Audi Virtual Cockpit

Innovative 12.3-inch full colour digital instrument cluster for the flexible display of information tailored to the driver's needs. Displays the following: ▶ Vehicle/engine speed ▶ 3D Navigation map ▶ Audi Connect services ▶ Radio/media information ▶ Driver assistance systems ▶ All MMI functionalities (e.g. Telephone, Car settings etc). The 'view' button on the multi-function steering wheel allows you to change between two differently sized representations of the instrument dials. The display with small instruments allows the onboard computer and MMI contents to be shown across the full display area.

MMI Navigation (SD card based)

In addition to standard MMI Radio Plus, includes the following:

- ▶ Integrated navigation with 3D map display
- ▶ Detailed route information: map preview, choice of alternative routes, POIs, lane recommendations, motorway exits, detailed junction maps and more
- ▶ Dynamic route guidance with TMCpro (in conjunction with Audi Connect: traffic information online)
- ▶ MMI search: free text search with intelligent suggestions provided during entry
- ▶ Natural voice recognition
- ▶ 2 x SDXC memory card reader
- ▶ Audi Connect (three-month trial)

For details on MMI Radio Plus please refer to the Glossary on pages 84-87

Audi Phone Box with wireless charging

Enables drivers to use their mobile phone in the car by placing it in the storage compartment provided in the front centre console to create a wireless connection to the vehicle aerial, improving reception quality (subject to network coverage). Operated via the MMI control panel, the multi-function steering wheel or the voice control system. Wireless charging available (with Qi enabled compatible phones) or via USB port. Audi Phone Box option also provides an additional Bluetooth interface for a second device, meaning two mobile phones can be connected to the vehicle simultaneously. For mobile phone bluetooth compatibility, please visit your Audi Centre or www.audi.co.uk/phonecompatibility

1. Audi Virtual Cockpit (9S8).* 2. MMI Navigation (SD card based) (PNU). 3. Audi Phone Box with wireless charging (9ZE).

Technology - Driver assistance

Driver Assistance Pack – Tour PCN

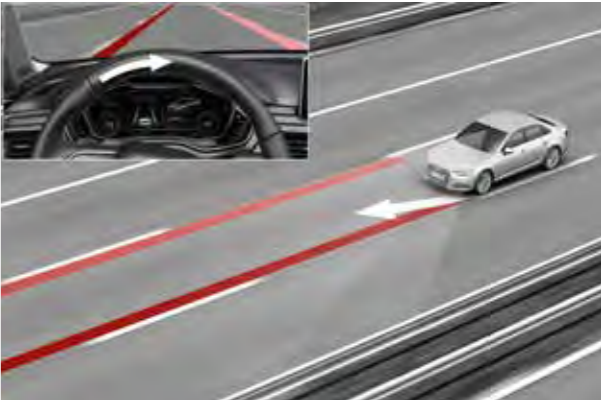

With busier roads than ever, Audi technology can keep an extra eye out. This pack brings together the driver assistance systems that support long distance driving, especially when driving in congestion and varying average speed limit zones. As well as helping you to drive more efficiently, the pack also includes advanced safety systems.

Adaptive Cruise Control with Stop & Go and Traffic jam assist – Automatic distance regulation, using radar sensors to maintain the required distance between your A4 allroad and vehicles ahead by braking and accelerating. With the Stop & Go function, the system brakes the car to a stop. The driver can select from 5 warning thresholds and influence the system's acceleration behaviour via Audi Drive Select. Traffic jam assist detects vehicles ahead and on adjacent lanes to assist with the braking, acceleration and also steering up to 37mph, to keep the vehicle in lane. Adaptive Cruise Control requires additional sensors in the lower front air inlets. Please see the image below for the design of the front air inlet.

Predictive efficiency assistant – The system uses navigation data e.g. speed limits, traffic signs, road bends, junctions and roundabouts to give the driver efficiency advice in the instrument cluster (or via the optional Audi Virtual Cockpit). In conjunction with Adaptive Cruise Control (ACC), the system uses the route data and speed limits to adjust the ACC desired speed and cornering accordingly. With automatic transmissions, the system activates free-wheeling mode or engine braking, which can help reduce fuel consumption and enhance ride comfort.

Camera-based traffic sign recognition*

Active Lane Assist*

Pre-sense Front – Extends the collision warning and automatic braking function of Pre-sense City to cover the entire speed range and can also increase braking initiated by the driver if this is inadequate. The system uses the camera located on the front rear-view mirror to detect vehicles and pedestrians in front, in order to reduce severity of a collision, or if possible prevent an accident. The driver is first given a visual and acoustic warning followed by partial braking and then full brake application.

Collision avoidance assistant – Supports the driver's actions during an avoidance manoeuvre, reducing the likelihood of a collision or of swerving off the road. The system provides additional steering torque and uses vehicle sensors to calculate the optimum path of avoidance.

Turn Assist – When turning at junctions, from the moment the turn indicators are activated, the turn assist system detects approaching vehicles and applies braking to help avoid a collision.

Active Lane Assist – Detects lane boundary markings and helps the driver to stay in lane with gentle steering intervention for greater safety and convenience, particularly on motorways. Works at speeds above 37mph.

Adaptive Cruise Control with Stop & Go and Traffic jam assist*

Predictive efficiency assistant*

*Images show display on optional Audi Virtual Cockpit, which can be ordered as part of the Vision Pack, Light and Vision Pack or as an individual option.

		allroad	allroad Sport
PCN	Driver Assistance Pack – Tour. Only available in combination with Technology Pack (WB4) and High-beam assist (8G1)	£1,250	£1,250

Technology - Driver assistance

Parking Assistance Pack PCF

Enhancing the front and rear parking sensors that come as standard, this pack adds front sensors and all-round cameras to help optimise your view while parking – and can even help you find and manoeuvre into a parking space.

360° camera showing bird's eye view

360° camera – Wide angle lenses cover the close range around the vehicle. The driver can choose between different image representations in the MMI display, including a live “bird’s eye view” image for parking. Includes guidelines which help the driver manoeuvre and navigate the vehicle into the right position.

Parking assist – Searches for suitable parking spaces along the road by means of ultrasonic sensors, calculates the ideal parking path and performs the steering action virtually automatically. The system can support the driver with:

- Parallel parking in reverse
- Exiting a parallel parking space, driving forwards
- Bay parking, both reverse and forwards.

Steering is done by the vehicle, with the driver responsible for acceleration and application of the brakes.

Parking assist

		allroad	allroad Sport
PCF	Parking Assistance Pack. Only available with optional mirrors (6XE, 6XF, 6XL) and Technology Pack (WB4)	£900	£900

Parking Assistance Pack Advanced PCZ

In addition to the contents of the Parking Assistance Pack, this pack includes the latest technology to provide help in busy traffic situations, when changing lane, exiting your car and when reversing – for the convenience and protection of all occupants.

Cross Traffic Assist Rear

Audi Pre-sense Basic – Audi Pre-sense is a comprehensive technical package for identifying dangers well in advance and intervening appropriately to provide extra safety and protection. Where necessary, actions are taken to protect the driver and passengers from a potential collision. These include: belt tightening, activating the hazard warning system, closing the windows and the sunroof (if fitted).

Audi Pre-sense Rear – Monitors vehicles following from behind and if a potential collision is detected, the driver is first warned visually via flashing light, then Audi Pre-sense Basic measures (e.g. closing windows) are initiated and if a collision is unavoidable, the system will tighten the front seat belts. The system is deactivated when towing.

Audi Side Assist – Aids the driver when changing lane. Audi Side Assist monitors the area behind the vehicle, using radar sensors located discreetly in the rear bumper, informing the driver with a visual warning signal in the door mirror if there is a vehicle in their blind spot or approaching quickly from behind.

Cross Traffic Assist Rear – Warns the driver of traffic crossing behind their own vehicle when reversing. The system alerts the driver first visually and then acoustically via the MMI, and then applies a brake jolt if a potential collision is detected.

Exit Warning – Monitors the rear and side of your stationary A4 allroad and warns the occupants via a warning light on the door before they exit that vehicles/cyclists are approaching from behind.

Exit warning

		allroad	allroad Sport
PCZ	Parking Assistance Pack Advanced. Only available with optional mirrors (6XE, 6XF, 6XL) and Technology Pack (WB4)	£1,350	£1,350

Technology - Driver assistance

Advanced options to help you on and off the road.

Head-up display

Projects warning messages or driving-related information from assistance systems and the navigation system (if ordered) in full colour onto the windscreen in the driver's direct field of vision, giving the driver faster access to information. Display is adjustable in height.

Camera-based traffic sign recognition

Speed limit and traffic sign display via the Driver's Information System (DIS) or optional Head-up display. Detects the following signs: speed limits (including temporary limits), overtaking restrictions and no-entry warnings.

Garage door opener (Homelink®)**

Programmable radio-operated remote control buttons incorporated in the interior lighting module. Can be used for opening and/or closing garage doors and exterior gates. Control of security and lighting systems is also possible.***

Rear-view camera

An image of the area behind the vehicle is shown on the MMI display. Reversing camera is concealed in the handle strip of the luggage compartment lid.

Advanced key with electric hands-free boot opening system

Access and authorisation system that works through automatic data exchange between key and vehicle, allowing the driver to keep their car key in their pocket or bag at all times. To unlock and open, simply lift the exterior door handle. Pressing the Start/Stop button integrated in the centre console starts and stops the engine. Also includes an electric hands-free bootlid release sensor located underneath the rear bumper, which can be operated by a simple kicking movement underneath the sensor.

		allroad	allroad Sport

1. Head-up display (KS1). 2. Rear-view camera (KA2). 3. Camera-based traffic sign recognition (QR9). 4. Advanced key, with electric hands-free boot opening system (PGD).*

All pricing is RRP including VAT at 20%. Options are subject to availability and may extend time taken for delivery. **Homelink® is a registered trademark of Johnson Controls.

***For information on compatible hand transmitters, please go to www.eurohomelink.com

Vehicle driver assistance and safety systems are not a substitute for attentive driving. Drivers retain full responsibility for providing the necessary inputs for safe control of the vehicle. System descriptions within this brochure are provided for information purposes only. System limitations and operational requirements apply. See manual for details. *Image for illustrative purposes only as shows an Audi A4 Avant.

Audi Genuine Accessories

Personalise your Audi today.

Make your Audi A4 allroad your own by adding some genuine accessories. All created by Audi and specially crafted for our models, so they'll deliver the high standards you expect. What you see here is just a selection. See the full collection at www.audi.co.uk/accessories or speak to your Audi Centre for pricing.

Rubber/Textile floor mats
Protect the A4 interior from muddy feet and daily wear and tear.

Boot liner
Avoid damage while loading and unloading luggage.

Roof bars
Transport larger items, from bikes to snowboards.

Roof box[†]
Add to the A4's already generous luggage capacity.

Audi entertainment mobile
Keep rear seat passengers entertained with the double screen package.

Rear seat storage bag
As part of the touring pack, the rear seat storage bag is a great way to keep your things safe and tidy whilst you travel.

Audi warranty

Protection against the unexpected.

All new Audi models come with a three-year warranty as standard, and you can choose to extend this to a four or five-year warranty* for a one-off cost. What's more, if you decide to sell your Audi before the warranty expires, it will be fully transferred to the new owner. Warranty terms and conditions apply. Please see www.audi.co.uk/warrantyterms for further details.

		allroad	allroad Sport
-	Audi Warranty , covering you for unlimited mileage in the first two years of ownership, and up to 60,000 miles in the third year. Transferable between owners**	Standard	Standard
EA6	Audi Warranty , covering you for up to four years or 75,000 miles, whichever comes sooner. Cover includes a two-year unlimited mileage warranty, and up to 75,000 miles in the third and fourth years. Transferable between owners**	£385	£385
EA9	Audi Warranty , covering you for up to five years or 90,000 miles, whichever comes sooner. Cover includes a two-year unlimited mileage warranty, and up to 90,000 miles in the third, fourth and fifth years. Transferable between owners**	£905	£905

*Three-year warranty consists of a two-year unlimited mileage warranty and a third year warranty with a 60,000-mile limitation. Four-year warranty consists of a two-year unlimited mileage warranty and two further years' coverage with a 75,000-mile limitation. Five-year warranty consists of a two-year unlimited mileage warranty and three further years' coverage with a 90,000-mile limitation. **Only available before registration of your Audi A4 allroad. Please speak to your Audi Centre for full details. [†]Image for illustrative purposes only as shows an Audi A4 Avant.

Audi glossary

Your guide to A4 allroad standard equipment.

AdBlue®

All Audi A4 allroad TDI models are fitted with AdBlue® technology. The AdBlue® solution is stored in a tank positioned near the car's conventional fuel tank, accessed through a screw-cap usually found next to the car's fuel filler nozzle. The AdBlue® tank may require a top-up between services. For information on the size of the AdBlue® tank on your TDI model, please see page 88.

Audi Connect, three-month trial

Free use of Audi Connect services for a period of three months. See pages 30-31 and 94 for more information on Audi Connect services. Only available with MMI Navigation.

Audi Drive Select

Changes your car's handling and response at the touch of a button to suit the way you want to drive. Enables the driver to alter the throttle response, gearshift characteristics and steering feel between six pre-set modes: Comfort, Auto, Dynamic, Efficiency, Offroad and in conjunction with an MMI navigation system, Individual.

The Efficiency mode sets the engine, automatic transmission, air conditioning and cruise control systems to a more fuel efficient basic setting helping to save fuel and reduce emissions.

The Offroad mode optimally adjusts the engine and transmission control, the steering, the optional adaptive suspension and all relevant driver and assistance systems to operation in light terrain.

Automatic Start-Stop with coasting functionality

Helps to reduce fuel consumption by switching off the engine when the vehicle is stationary, and also when slowing down e.g. on approach to traffic lights. The engine restarts as soon as the clutch is depressed or the foot brake is released. It can be deactivated via a button at any time.

Bluetooth interface (one device)

This allows Bluetooth-compatible mobile phones to be connected to the vehicle, allowing hands-free calls via the microphone. Also includes Bluetooth audio streaming (dependent on mobile phone capability). For mobile phone compatibility, please visit your Audi Centre or www.audi.co.uk/phonecompatibility

Comfort Dynamic suspension with 34mm increased ride height over A4 Avant

Outstanding handling characteristics and excellent driving comfort with lightweight five-link front and rear suspension and tubular anti-roll bar.

Cruise control system with speed limiter

At speeds above approximately 19mph, cruise control maintains the set desired speed. The speed limiter allows a maximum speed to be set which can not be exceeded even by increasing the pressure on the accelerator pedal helping the driver to keep to the speed limit. The driver can temporarily disable or deactivate the speed limiter at any time by kick down (pressing on the accelerator pedal past the point of resistance). Also includes free-wheeling capability, which helps to reduce fuel consumption through intelligent use of free-wheeling phases when cruise control is active. This is available in the Audi Drive Select Efficiency mode and only in combination with automatic transmissions.

Deluxe 3-zone electronic climate control

Design-led and intuitive operation via a large TFT display which features touch sensitive rocker switches and integrated digital temperature displays in the rotary push buttons. Electronically regulates air temperature, air flow rate and air distribution. Exact temperature can be set individually for driver, front passenger and rear seats. The rear air conditioning can be operated from the front and additional control panel in the rear. Eco button activates efficiency-optimised air conditioning.

The newly developed air conditioning blower is more efficient, quieter and lighter. The system automatically selects the climate control mode for optimum comfort and maximum efficiency. Air quality inside the vehicle is also improved thanks to the combination filter with activated charcoal, air quality sensor and automatic air recirculation control.

Driver's Information System – 5” monochrome display

Standard on all models with MMI Radio Plus and/or MMI Navigation (SD card based). 5” TFT monochrome display in the instrument cluster. Displays the following: ► Time ► Distance travelled ► Outside temperature ► Fuel level warning with remaining range ► Gear change recommendation (for manual transmission and automatic transmission in manual mode) ► Telephone menu ► Current radio station or music title, radio and media lists.

The on-board computer with short-term and long-term memory supplies information about the average and momentary fuel consumption, remaining range, average speed, driving time and distance travelled.

Efficiency programme

Supports the driver with overviews of fuel consumption data, gear-change indicator (for manual transmission) and tips for more economical driving. Displayed in the Driver's Information System. Includes attention assist.

Electric load area cover

Electric, rail-mounted cover for the luggage compartment. Moves up automatically, uncovering the load area as soon as the tailgate is opened (with both manual and electric opening). When the tailgate is closed, the load area cover moves down again to cover the load area. The load area cover can still be retracted manually.

Electromechanical parking brake

Includes parking brake function when stationary, drive-off assistance function through automatic release when driving away and emergency braking function whilst driving, acting on all four wheels.

Audi glossary

Exhaust system

Three different tailpipe versions differentiate models visually according to their engine.

Single-branch design with two tailpipes on the left:
2.0 TDI 190PS and 3.0 TDI

Dual-branch design with one tailpipe each on the left and right: 2.0 TFSI

Chrome-plated exhaust trims are standard on every A4 allroad

Interior lighting

Includes the following:

- ▶ Passive door warning lights
- ▶ Front and rear roof module lights
- ▶ Glove compartment light (with bulb)
- ▶ Tailgate lighting
- ▶ Luggage compartment lighting

Keyless go

Conveniently allows the engine to be started by simply pressing the Start/Stop button in the centre console allowing the driver to keep the key in their pocket or bag.

MMI Radio Plus with Smartphone Interface and MMI controller

Includes the following:

- ▶ 7” colour MMI display with black frame
- ▶ MMI controller with integrated joystick function
- ▶ Audi Smartphone Interface – Connects your smartphone with your A4 allroad bringing your mobile content seamlessly via USB directly into the MMI display. Navigation, telephone, music and selected third-party apps can be easily controlled via the MMI controller and via voice control system. See pages 28-29 for more information
- ▶ Voice recognition and control – a short press on the voice control button activates Audi voice control and a long press activates your smartphone voice assistant
- ▶ 2 USB charging ports and 1 AUX-IN located in the centre console
- ▶ CD drive
- ▶ 2 x SDXC card reader
- ▶ AM / FM / DAB radio
- ▶ 8 passive loudspeakers (4 front and 4 rear)
- ▶ Ready for Nav – preparation that enables MMI Radio Plus to be upgraded to MMI Navigation as a retro-fit at your local Audi Centre

Multi-collision brake assist

Once a primary collision has happened, Multi-collision brake assist supports to avoid additional accidents if possible. The system automatically initiates a full braking application to reduce the risk of skidding and further collisions in an accident. The reduction in speed also makes the vehicle easier to control after impact.

Pop-up bonnet

Active hinges raise the bonnet if pedestrian contact is sensed.

Parking System Plus

Acoustic and visual park assist system for the front and rear with MMI screen display showing a graphic representation of the distance to any obstacles detected outside and within the driving path. Measurement is by ultrasonic sensors concealed in the bumpers.

Power operated tailgate

The luggage compartment lid opens automatically when the luggage compartment is unlocked with the remote control key, the button in the driver’s door or by pushing the soft-touch release on the lid. In conjunction with optional convenience key or Advanced key, opening/closing is also possible from the key.

Pre-sense City

The system uses the camera located on the front rear-view mirror to detect vehicles and pedestrians in front. If an imminent collision is detected, the system warns the driver. Subject to certain system limits, up to speeds of approximately 52mph, the system may initiate emergency braking application and if possible prevent the collision.

Vehicle driver assistance and safety systems are not a substitute for attentive driving. Drivers retain full responsibility for providing the necessary inputs for safe control of the vehicle. System descriptions within this brochure are provided for information purposes only. System limitations and operational requirements apply. See manual for details.

S tronic 7-speed transmission

The new S tronic transmission with completely revised driveline has remarkable gear-shift performance, sporty set-up. Now available for the first time with front-wheel drive. S tronic can be manually operated using the shift paddles behind the steering wheel or via the selector lever. In automatic mode, programmes D (Drive) and S (Sport) can be selected.

Tiptronic 8-speed transmission

For engines with torque higher than 400 Nm, Tiptronic enhances the quattro experience with improved traction and driving dynamics. The gear-shifts between the eight speeds are achieved smoothly, quickly and are always appropriate for the current driving situation.

Tow bar preparation

Includes wiring. The set of parts for retrofitting are available from Audi Genuine Accessories or as an option (1D4 or 1D9). Please contact an Audi Centre for more details.

Tyre pressure warning light

Visual and acoustic warning if the pressure drops in one or more tyre.

Xenon headlights with LED daytime running lights

The Xenon high-beam headlights underline the progressive character of the all-new Audi A4 allroad.

All-weather headlights with dynamic headlight adjustment. Dipped beam and high beam, featuring Xenon technology with LED daytime running lights.

A4 allroad technical data

Key information about your car.

All of our A4 allroad engines meet EU6 emissions standards. For diesel engines, this means the addition of an AdBlue® tank to ensure compliance. The AdBlue® tank size for your engine is shown below and it may require a top-up between services.

	Petrol	Diesel		
Engine	2.0 TFSI quattro on-demand	2.0 TDI quattro	3.0 V6 TDI quattro	3.0 V6 TDI quattro
Transmission	7-speed S tronic	7-speed S tronic	7-speed S tronic	8-speed tiptronic

ABI insurance group 1-50 ⁴	33E	27E	28E	39E

¹The given value was obtained in accordance with the specified measurement procedure (the respective current version of the Directive 80/1269/EEC). The maximum power output figures are quoted in PS (or Pferdestärke, which is the metric equivalent of brake horsepower). To convert to brake horsepower, divide the PS figure by1.0139. ²Vehicle's unladen weight without driver (calculated in accordance with the current version of Directive (80/1268/EEC).The fitting of additional equipment may increase the vehicle's unladen weight and drag coefficient, whereupon the potential carrying capacity and top speed will be correspondingly reduced. ³The engine's power output always goes down with increasing altitude. At 1,000m above sea level, and for every additional 1,000m, deduct 10% from the weight of the outfit (trailer load limit + gross weight of the towing vehicle). ⁴Highest insurance group rating shown. Group may be lower dependent on trim level. Please visit www.thatcham.org/abigrouprating for details.

Depending on your chosen A4 allroad wheel size, different efficiency figures for CO2 emissions and fuel consumption will apply (based on EU directive no. 715/2007 effective 01/09/14). This table is a quick reference guide to help you find the correct values based on wheel sizes and your chosen engine.

		Petrol	Diesel		
Engine		2.0 TFSI quattro on-demand	2.0 TDI quattro	3.0 V6 TDI quattro	3.0 V6 TDI quattro
Transmission		7-speed S tronic	7-speed S tronic	7-speed S tronic	8-speed tiptronic
Max. power, ¹ PS at rpm		252/5000-6000	190/3800-4200	218/4000-5000	272/3250-4250
Wheel and Tyre Clustering					
CO ₂ emissions, ² g/km	17" wheels	147	128	137	139
	18" wheels	152	132	141	143
	19" wheels	154	134	143	146
Benefit in kind (BIK)%	17" wheels	26%	25%	27%	27%
	18" wheels	27%	26%	28%	28%
	19" wheels	30%	26%	28%	29%
Fuel consumption, ² mpg (l/100km) Urban	17" wheels	35.8 (7.9)	51.4 (5.5)	52.3 (5.4)	49.6 (5.7)
	18" wheels	34.9 (8.1)	50.4 (5.6)	51.4 (5.5)	48.7 (5.8)
	19" wheels	34.4 (8.2)	49.6 (5.7)	50.4 (5.6)	48.7 (5.8)
Fuel consumption, ² mpg (l/100km) Extra Urban	17" wheels	50.4 (5.6)	61.4 (4.6)	56.5 (5.0)	56.5 (5.0)
	18" wheels	48.7 (5.8)	60.1 (4.7)	55.4 (5.1)	54.3 (5.2)
	19" wheels	47.9 (5.9)	58.9 (4.8)	54.3 (5.2)	53.3 (5.3)
Fuel consumption, ² mpg (l/100km) Combined	17" wheels	44.1 (6.4)	57.6 (4.9)	55.4 (5.1)	53.3 (5.3)
	18" wheels	42.8 (6.6)	56.5 (5.0)	54.3 (5.2)	52.3 (5.4)
	19" wheels	42.2 (6.7)	55.4 (5.1)	53.3 (5.3)	51.4 (5.5)

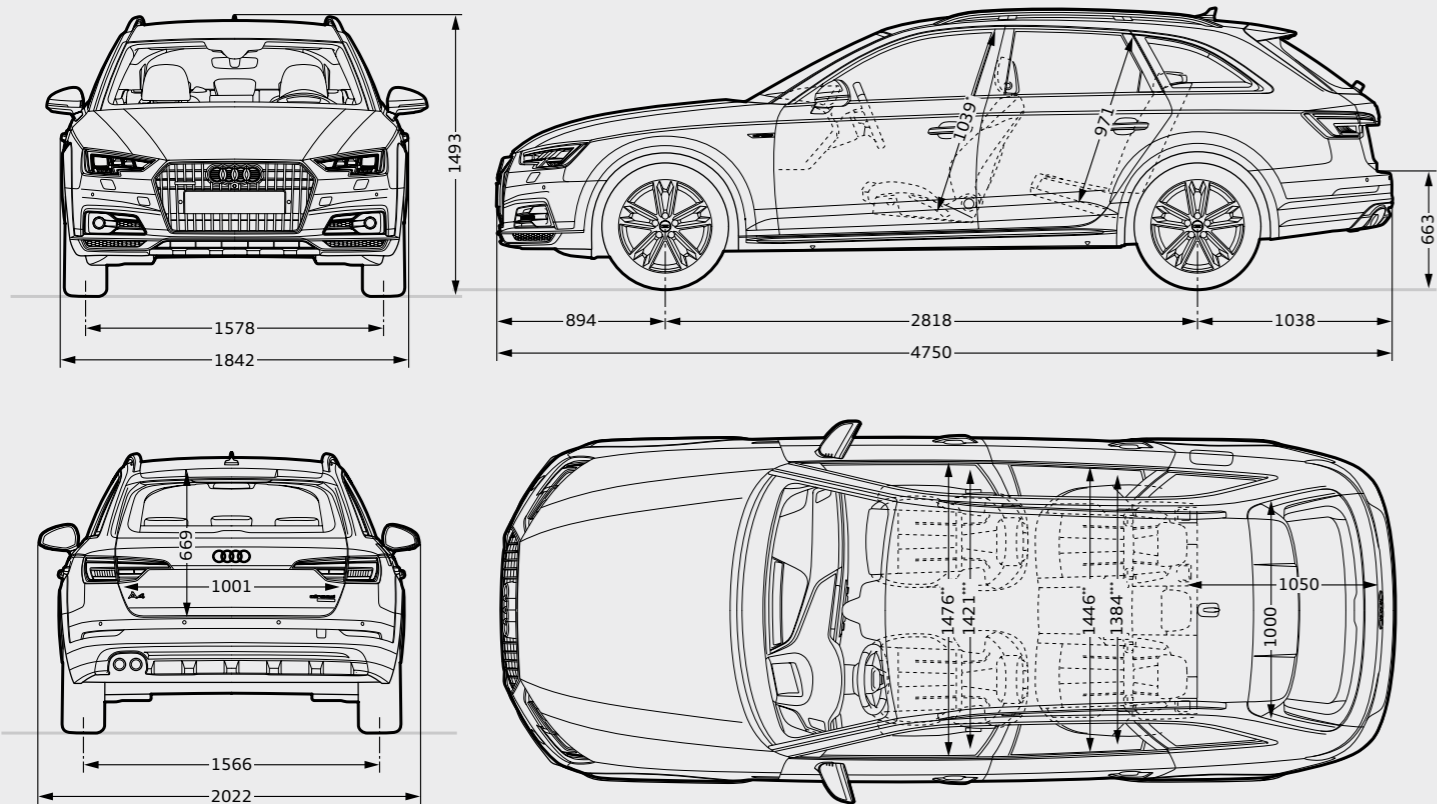

¹The given value was obtained in accordance with the specified measurement procedure (the respective current version of the Directive 80/1269/EEC). The maximum power output figures are quoted in PS (or Pferdestärke, which is the metric equivalent of brake horsepower). To convert to brake horsepower, divide the PS figure by 1.0139. ²Fuel consumption and CO2 emissions figures are obtained under standardised test conditions (Directive 93/116/EEC) using a representative model. This allows direct comparison between different models from different manufacturers, but may not represent the actual fuel consumption achieved in ‘real world’ driving conditions and may be affected by optional equipment. More information is available at www.dft.gov.uk/vca

A4 allroad dimensions

All the measurements you need.

See the exact dimensions of the all-new Audi A4 allroad, so you can check everything – from whether the car fits your garage to whether your luggage fits the boot.

A4 allroad

Dimensions in millimetres. Optional equipment may affect dimensions. *Maximum headroom. **Elbow room width. ***Shoulder room width. Dimensions were measured with vehicle at unladen weight. ****Measured by the VDA standard test method using 200 x 100 x 50mm blocks. Turning circle approx. 11.6m.

The Audi Difference

There’s no single factor that makes an Audi Centre the right place to bring your car for servicing or maintenance. Really, it’s the sum of many different parts. Together, we call them the Audi Difference.

Servicing by Audi

Regular servicing is key to the smooth running of your Audi. We offer Audi service schedules designed with your car in mind. There are two main types: fixed, where servicing is due after a set time or mileage, and flexible, where sensors will monitor your driving style and alert you when a service is needed.

Fixed Inspection Service Schedule

	Vehicle Usage
Mileage	Less than 10,000 miles per annum. Mainly city/town centre driving. Short journeys.
Service Intervals	
Oil-Change Service	Fixed to every 9,000 ¹ miles/1 year
Inspection Service	Fixed to every 19,000 ¹ miles/2 years

Flexible Service Schedule

	Vehicle Usage
Mileage	More than 10,000 miles per annum. Motorway and main road driving. Mainly longer distance journeys. Constant speeds.
Service Intervals	
Oil-Change Service	Variable to a maximum of every 19,000 ¹ miles/2 years
Inspection Service	Fixed to every 19,000 ¹ miles/2 years

Everything you need

Book a ‘service while you wait’ appointment, or leave your car with us and take advantage of a courtesy car,² which we can even deliver to you. We will also ensure your car is returned to you with a full valet.

Genuine parts, genuine prices

When we work on your car, we’ll only use Audi Genuine Parts, which come with a 2-year guarantee (excludes wear and tear). So you know they’ll be of the same high standards as the originals.

We’ll keep you updated

Whenever we see your Audi, we’ll connect it directly to our headquarters in Ingolstadt for the latest software updates. These can be applied immediately, enhancing everything from your car’s efficiency to the precision of its parking system.

Audi Roadside Assistance

For even more reassurance, your Audi comes with 3 years’ complimentary roadside assistance provided by the Automobile Association Insurance Services Limited. It means you’ll be covered across the UK and throughout Europe in the unlikely event of a breakdown. For more information, please visit www.audi.co.uk/roadside

When a vehicle is frequently used in the following conditions, we recommend a Fixed Inspection Service Schedule, regardless of mileage: Uneconomical driving styles, e.g. heavy acceleration and braking, constant use of high revs. High engine-loading conditions, e.g. frequent towing and hill climbs. ¹As indicated by the service interval display. Mileages are approximate as the Service Indicator system uses kilometres as its distance measurement. ²Subject to availability.

Financing your Audi A4 allroad

A range of finance plans designed to suit you.

At Audi, we don't just offer help to finance your new Audi A4 allroad – we also offer value when it comes to keeping your new A4 allroad maintained to the highest Audi standards. With most finance agreements, you just need to choose your annual mileage and the length of the term, then pay an initial deposit which could be as little as one monthly payment. For more details, see the accompanying Audi Finance booklet, or speak to your local Audi Centre.

Solutions Personal Contract Plan

A flexible finance plan designed to give you a number of options, making it ideal if you want to change your car more regularly. At the end of the agreement, you have three choices:

1. Exchange the car for a new Audi.
2. Pay the option to purchase fee and optional final payment, then take full ownership of the car.
3. Simply return the car to Audi (fees may be payable).

Hire Purchase

If you know you'd like to keep your Audi, Hire Purchase could be right for you. And as you're making your payments with a view to owning the car, there's no restriction on how far you can drive each year.

Contract Hire

If you don't want to own your Audi, Contract Hire could be a great option. You can add a service, maintenance and tyres plan and, for VAT-registered businesses, an element of the VAT on rentals may be recoverable. You simply need to commit to a regular monthly payment and hand your car back at the end of your agreement (subject to our return standards).

Online finance calculator

To get an idea of your repayments on a finance scheme, enter a few details online at audi.co.uk and you'll see what you can expect to pay for your new Audi.

Audi Complete

Audi Complete is simply a way to look after the servicing and maintenance costs for your Audi in a single package. You pay a one-off or monthly fee and we'll cover all your servicing, maintenance and tyres for the next three years, including your MOT. Or if you prefer, you can opt for our 'service only' or 'service and maintenance' packages.

Audi Insurance

To ensure you can start enjoying your new car from day one, the first five days' insurance* is included as standard with all new Audi models. To activate it, simply call 0330 303 6900, give us a few details and you can drive it away as soon as you take delivery.

Telephone lines are open Monday to Friday 8am-8pm, and Saturday 9am-4pm. For details of our full range of insurance products, visit www.insurewithaudi.co.uk

Important information

Welcome to Audi.

By placing an order for your Audi, you're choosing to drive a car created in the spirit of Vorsprung durch Technik. And because we believe the service we offer should reflect the quality of our cars, we want to let you know exactly what you can expect from us, now and in the future.

Audi Centres

We guarantee that all our Centres will be open as follows:

Sales: Monday to Friday 9am–6pm
Saturday 9am–5pm

Service: Monday to Friday 8am–6pm
Saturday 8.30am–1pm

Sunday opening is at local discretion.

Audi customer care

Every new Audi includes these reassuring features as standard:

- ▶ 3-year Audi warranty (unlimited mileage in the first two years, with a full mechanical and electrical warranty up to 60,000 miles in the third year)
- ▶ A 3-year paint warranty
- ▶ A 12-year anti-corrosion warranty
- ▶ 3-year UK roadside assistance and recovery
- ▶ 3-year Accessories warranty on any accessories purchased with your car (2-year warranty if purchased separately from your new Audi)*

You also have the option when ordering your new car of choosing a 4-year or 5-year Audi warranty. Speak to a member of the sales team for more information. Warranty terms and conditions apply. Please see www.audi.co.uk/warrantyterms for further details.

Information in this guide

We've done all we can to make the prices, specifications, technical details and all other information you see in this guide accurate at the time of publication. However, as our products are constantly being updated, we recommend checking the details with your Audi Centre. We reserve the right to change prices or specification at any time.

All prices shown in this guide include VAT which is currently charged at 20%. Delivery charges and number plates are not included in the Total RRP inc VAT vehicle price.

Delivery charge	£504.99
Number plate	£20.00
VAT	£105.01
Total	£630.00

Recommended On-The-Road (OTR) prices include the delivery and number plate charges above, Road Fund Licence (which may vary depending on model/transmission – see table for details) and first registration fee at £55.00.

The images featured in this guide are for illustrative purposes only. They may feature left-hand drive vehicles and include equipment that is not UK specification.

Delivering your new car

As we build your car, we'll keep you updated on its progress. And once it's finished, subject to reasonable notice, we'll deliver it to a place of your choice, whether that's your home or work.

Audi tax-free sales

If you are entitled to purchase a vehicle free of VAT, normally through military or diplomatic privilege, please contact your local Audi Centre for full details. Should you have any difficulty obtaining the information you require, please call 0870 241 5663.

*Subject to eligibility criteria. Audi Motor Insurance is sold and administered by Ageas Retail Limited. Audi Financial Services is a trading name of Volkswagen Financial Services (UK) Limited ("VWFS UK"). Registered in England and Wales No. 2835230. Registered Office: Brunswick Court, Yeomans Drive, Blakelands, Milton Keynes MK14 5LR. Financial and consumer credit services are provided by VWFS UK. Volkswagen Financial Services (UK) Limited is authorised and regulated by the Financial Conduct Authority, registration number 311988. Audi Motor Insurance from Audi Financial Services is sold and administered by Ageas Retail Limited, registered in England and Wales No. 1324965. Registered office: Ageas House, Hampshire Corporate Park, Templars Way, Eastleigh, Hampshire SO53 3YA. Ageas Retail Limited is authorised and regulated by the Financial Conduct Authority (FCA), registration number 312468. Volkswagen Financial Services (UK) and Ageas Retail Limited are not part of the same corporate group.

Audi Connect

Audi Connect Infotainment Services are provided via a SIM card embedded in the vehicle. The cost for data connection is free of charge during the standard 3-month free trial or included within the cost of the optional Audi Connect Infotainment Services 36-month subscription. Data is unlimited (but you will not, for example, be able to use the embedded SIM to provide Wi-Fi hotspot services or to tether any other device to the embedded SIM). There are no additional charges for data roaming within the EU, (availability of services limited to certain countries). Please note that, if an external SIM card is inserted into the card slot (e.g. so as to enable Wi-Fi hotspot services), then all Audi Connect Infotainment Services data connections will be made via this SIM card (not the embedded SIM card) and all related data costs incurred may be charged to the customer by the provider of the plan associated with the external SIM card.

Audi Connect Infotainment Services are available only within the range of the selected mobile phone network operated by Audi’s chosen mobile phone provider. The content and scope of the online based services offered may vary.

Audi Connect Infotainment Services enables access to the certain search, social media and other online services provided by third parties. Permanent availability cannot be guaranteed as this is the responsibility of the relevant third-party provider. Google and the Google logo are registered trademarks of Google Inc. All other trade marks are the property of their respective owners.

The availability of services supported by Audi Connect Infotainment Services varies from country to country and can be dependent on the capability of your mobile phone. For mobile phone and software compatibility please visit www.audi.co.uk/phonecompatibility or your Audi Centre.

Audi Connect Infotainment Services 3-month trial
The 3-month free use of Audi Connect Infotainment Services is activated from vehicle delivery. Should you wish to continue with the services after the 3 months please consult your Audi Centre for details. Charges will apply upon renewal. The Audi Connect Infotainment Services listed are correct at time of publication, please be aware that we cannot guarantee permanent availability to all these services throughout the 3-month trial.

Audi Connect Infotainment Services 36-month subscription
If purchased as part of the optional Technology Pack, a 36-month subscription for the use of Audi Connect Infotainment Services is activated from vehicle delivery. The Audi Connect Infotainment Services listed are correct at time of publication, please be aware that we cannot guarantee permanent availability to all these services throughout your subscription. Should you wish to continue to use Audi Connect Infotainment Services after 36 months please consult your Audi Centre for details. Charges will apply upon renewal.

Online Map updates with MMI Navigation Plus
The map version delivered for the optional MMI Navigation Plus can be updated with the first five updates which are issued at intervals of 6 months. The current navigation data can be downloaded from the myAudi Platform at www.audi.com/myaudi and installed in the vehicle via SD card. In conjunction with Audi Connect, the update can be carried out online in the vehicle. In addition, it is possible to have the new navigation data installed by an Audi Centre at extra cost.

CO2 emissions-based Vehicle Excise Duty

Vehicle Excise Duty (Road Fund Licence) is based upon the amount of Carbon Dioxide (CO2) a vehicle emits, measured in grams per kilometre (g/km). First year VED rates apply to the first year of ownership. Annual VED rates apply thereafter. The DVLA has created thirteen categories:

Petrol and Diesel engines	First year	Annual rate (second year onwards)
A – up to 100g/km	£0	£0
B – 101 to 110g/km	£0	£20
C – 111 to 120g/km	£0	£30
D – 121 to 130g/km	£0	£110
E – 131 to 140g/km	£130	£130
F – 141 to 150g/km	£145	£145
G – 151 to 165g/km	£185	£185
H – 166 to 175g/km	£300	£210
I – 176 to 185g/km	£355	£230
J – 186 to 200g/km	£500	£270
K – 201 to 225g/km	£650	£295
L – 226 to 255g/km	£885	£500
M – over 255g/km	£1,120	£515

Vehicle Excise Duty (VED) rates correct at time of going to print, but these may alter to reflect any change in the applicable VED rate.
