EMPOWER THE DRIVE

INFINITI

EMPOWER THE DRIVE

We are like you. We push ourselves beyond our comfort zone. While others might be content with making better machines, we are driven to go beyond—to design cars that push human potential. We build technology to enhance your senses, striking design that demands a response and performance that makes you feel more alive. Prepare to experience the road as it was intended.

INFINITI Q60

Empower the drive with performance. We gave it daring curves and a powerful stance. The exhilarating performance of a twin-turbocharged¹ 405-horsepower V6 engine. The thrilling responsiveness of the first digitally adaptive handling system. The all-new Q60. Redefine the drive.

EXTERIOR DESIGN

EVERY LINE SHAPES AN EMOTION

Our philosophy—and the future of INFINITI design—takes stunning shape on the all-new Q60. Emotion is boundless. So is daring design.

ATHLETIC STANCE Large 19-inch alloy wheels¹ make your intentions known. Add red sport brakes with opposed front and rear callipers², and the visual message is clear: the all-new Q60 is meant to perform.

IMPRESSION AMPLIFIED INFINITI signature cues express a unique design language. The double-arch grille reflects a bridge, with the arc of the top mirroring the arc of the bottom. Optical-inspired LED headlights give a provocative stare, while the crescent-shaped C-pillar curves forward, punctuating the exterior with dynamic detail.

WELL-GROUNDED The dynamic proportions make a purpose-built statement. Low enough to hug the ground. Wide enough to deliver impressive stability.

AERODYNAMIC ADVANTAGE A .29 coefficient of drag¹ says as much time has been spent making this sports coupe invisible to the wind as striking to the eye. This is evident with near zero-lift aerodynamics in the front and rear, and an Active Grille Shutter¹ that stays closed to lower drag at speed, but opens if additional cooling is needed.

DEEP DRAMATIC CREASES Using a revolutionary 3-D stamping process that allows for aggressive creases and deep curves, the high character lines capture your imagination. Engineers even redesigned the door hinges so the leading edge tucks into the fender to provide dramatic sculpting.

INTERIOR DESIGN

A BODY OF ART CRAFTED EXPRESSLY FOR YOU

Tailored to accentuate the human form, the cabin celebrates the driver with bold thinking and fine modern materials.

VISUAL REWARD With Fine Vision electroluminescent gauges, see how quickly the needle moves under any lighting condition. The contrast delivers information clearly, helping to improve visibility at a glance.

FLEXIBLE DOORSTOP Every time you get in, you'll appreciate the exclusive flexible doorstop that can hold open in almost any position. Thanks to this smart technology, INFINITI's 2-door coupe features not only aesthetically pleasing long doors and a low sitting position that ensures comfort and convenience for both driver and passenger, but also reduces risk to the car's exterior when opening doors in tight spaces. Easy entry. Easy exit.

SPORT SEAT DESIGN Feel the sport-inspired difference. The end-product of zero gravity research, science meets style in the new shape and cushioning of the driver's seat, which is specially designed to help minimise fatigue on long drives. Deep bolsters help hold you in place and sporty integrated headrests provide the right support for a comfortable ride.

TAILORED AND ACCENTED Craftsmanship is obvious in the lasercut holes in the leather seat upholstery, which permit tighter stitching and more dynamic free-flowing shapes. Around the centre console and throughout the interior, available black or silver optic carbon-fibre trim² offers an upscale modern look.

NATURAL GRIP Your hands move in unique ways and a steering wheel should reflect that. This one does. Sport-inspired thumb grips and steering wheel-mounted paddle shifters¹ are just the right shape for performance driving¹. The all-new Q60 gear shift layout features an ergonomic knob with the INFINITI logo that's designed for smooth, effortless gear shifting.

SAFETY. COMFORT. STYLE. With no detail overlooked, the all-new Q60 comes with seatbelts that are made from a soft, durable herringbone weave that helps reduce friction so they're comfortable, snag-resistant and easy to remove when opening the clasp. Stay safe. Stay comfortable.

ACCELERATE YOUR POTENTIAL AND PERFORMANCE

This is power through innovation, where the forces of advanced technology open new horizons. A first-ever INFINITI twin-turbo engine culminates in jaw-dropping performance.

SIGN OF PERFORMANCE At INFINITI, performance is more than delivering a heightened driving experience. We believe it should unleash a more dynamic driver in you. And now, a shared passion can be boldly displayed by the letter S. Whether it is more intense power, tuning or design, the INFINITI Sport Model represents something special.

SPORT—"RED" The Red "S" badge represents the highest level of performance and power in its lineup. In the all-new Q60S 3.0t, that means a 3.0L V6 twin-turbo 405 PS engine¹.

SPORT—"SILVER" The all-new Q60S represents an enhanced styling and performance package while featuring a powerful, yet fuel-efficient powertrain—2.0t Turbocharged Petrol engine with 211 PS.

ALL-NEW 3.0-LITRE V6 TWIN-TURBO 405-PS ENGINE With the new V6 twin-turbo, torque builds quickly, acceleration is instant and power feels limitless. Direct Injection Gasoline (DIG), water-cooled air charging, a turbo speed sensor and advanced turbine blade design make for quicker response and a higher peak¹.

2.0-LITRE I-4 TURBOCHARGED ENGINE Feel the rush of a turbo. Experience the fuel economy of a four-cylinder. With optimal power and efficiency, you glide forward confidently. The turbo spools quickly to produce 211 PS at 5,500 rpm and outputs a stirring 350 Nm of torque while achieving 41.5 mpg combined fuel consumption².

CLOSER THRILLS All paddle shifters are not positioned equally. In the all-new Q60, paddle shifters are steering wheel-mounted instead of column-mounted for easy reach during cornering.¹

HANDLING

AMPLIFY EVERY MOVE DIGITALLY

Unleash the full performance potential—of the all-new Q60 and yourself—with the world's first pairing of digital steering and suspension.

STEER WITH ENHANCED PRECISION When you turn the wheel, Direct Adaptive Steering² does something no other steering system can do. It transmits driver input at the speed of electrons versus the speed of mechanical linkages. Since your steering is digitally processed, you get the response you want. Smooth. Quick. Precise. Every movement is a reaction to your command, tuned for an instinctive natural connection.

FIRST DIGITALLY ADAPTIVE HANDLING SYSTEM

A performance car is engaging. An INFINITI is empowering. In the all-new Q60, you amplify your capabilities with a true 21st century handling system.

HANDLE WITH INSTANT ADAPTABILITY The all-new Q60 recalibrates the balance between comfort and performance into something revolutionary. Change from comfort-biased to dynamic ride with the push of a button and release a highly personal and responsive experience. Without you doing a thing, Dynamic Digital Suspension³ continually adjusts to corners and road imperfections for confidence on any road.

CHOOSE YOUR DRIVE The INFINITI Drive Mode Selector takes performance and control to a more refined level. Select between Standard, Snow, ECO¹, Sport, Sport+¹ and Personal modes. Then, further tailor your drive by tuning steering, engine and suspension inputs. The result is one that suits the moment, and more importantly, can be personalised exactly to your liking. Expand your experience beyond road conditions and preset factory settings.¹

MORE WAYS TO CARVE A TURN

Personalise your performance with a range of choices for steering and suspension. Grasp your freedom. Drive fully immersed in every moment.

2 STEERING SYSTEMS

(1) **DIRECT ADAPTIVE STEERING^{®1}** Today, the future is in your hands and it's moving fast. Hundreds of adjustments a second, Direct Adaptive Steering^{®1} is a worldwide first INFINITI innovation that constantly fine-tunes your steering performance. Easy manoeuvrability at low speeds. Spirited driving on winding mountain roads. The system operates by digitally transmitting your steering input both to and from the wheels for a smoother and quicker response, in addition to filtering out unwanted vibrations from the road surface or impacts of crosswinds. Fewer steering corrections are required, giving you a strong feeling of control and ease.

(2) **HYDRAULIC ELECTRIC POWER STEERING.** For those who prefer the feel of hydraulic assist, the all-new Q60 provides an easy, every-day steering experience.

2 SUSPENSION SYSTEMS

(1) **DYNAMIC DIGITAL SUSPENSION (DDS)¹** You are the driver. Let the all-new Dynamic Digital Suspension (DDS)¹ adapt to you. Enjoy a smooth ride when you want it or a more agile response when you demand it. New adaptive dampers change the focus based on your Drive Mode Selector choice. Switching between modes is instantaneous. So is the ability of DDS¹ to constantly monitor chassis vitals like body roll, pitch and bounce rate. This is driver-centric performance for the digital age.

(2) **STANDARD SUSPENSION** With a double wishbone front and an independent multi-link rear suspension, you'll enjoy a smooth level ride. Handle every twist and turn with aplomb, thanks to shock absorbers that deliver a direct, linear feel with low road noise and vibrations. From now on, you are part of a dynamic team, where every S-curve belongs to you—and the all-new Q60.

2 DRIVETRAIN SYSTEMS

REAR-WHEEL DRIVE (RWD) OR INTELLIGENT ALL-WHEEL DRIVE (AWD) To enthusiasts, nothing matches the flat-out joy of a rear-wheel drive car. But consider this: Intelligent All-Wheel Drive can send anywhere from zero to 50% of the power to the front wheels when you need it, and 100% to the rear wheels for sporty response when you don't. So you get AWD traction without sacrificing rear-wheel drive feel.¹

SOUND

A NEW STAGE FOR A NEW SOUND

Hear it here first. The new Bose® Performance Series makes its worldwide debut on the all-new Q60. Enjoy concert-like sound that envelops you, transforming the cabin into a dynamic listening experience.¹

THE LATEST FROM BOSE® For those who demand a performance-focused sound system, the new Bose® Performance Series with Advanced Staging Technology delivers. Thirteen high-performance speakers, including multiple new 255 mm and 150 x 230 mm woofers and a lightweight silk dome tweeter achieve “live performance” precision. Revel in a wide and precise soundstage, where the acoustics are always ideal.¹

PROPRIETARY DIGITAL SIGNAL PROCESSING A recent Bose® innovation, Advanced Staging Technology utilises advanced algorithms to dynamically direct music to their ideal locations within the cabin. Instruments and vocals have exceptional clarity. So from the driver’s seat, you feel as if you’re sitting in the front row at a concert.¹

IMPROVED AUDIO PERFORMANCE Immerse yourself in an exhilarating sound experience. AudioPilot® 2.0 Noise Compensation Technology constantly monitors outside sounds and adjusts the music accordingly while Centerpoint® 2.0 Surround Technology allows you to enjoy surround sound from CDs, MP3 and Digital Audio Broadcasting.¹

ACTIVE NOISE CANCELLATION Minimise unwanted road noise and create optimal listening environments with Active Noise Cancellation. The technology works by neutralising distracting sounds with an acoustically opposite signal. The quieter the cabin, the better the music and conversation.¹

ACOUSTIC GLASS Create serenity all around you. Thin sound-absorbing material between the glass layers significantly reduces noise, delivering a more personal driving experience.

EFFORTLESSLY EXTEND YOUR ABILITIES

Driver-enhancing technologies allow you to move with a new level of ease on the road, by enabling smarter cruising, faster responses, improved visibility both in front of and around you, and more effortless steering.

CRUISE SMARTER

Set your desired speed and safety distance and Intelligent Cruise Control (ICC)^{1,5} with Distance Control Assist (DCA)¹ will automatically and smoothly decelerate in slowing traffic. When traffic pace resumes, Intelligent Cruise Control (ICC) will bring you back up to your preset speed and safety distance.

RESPOND FASTER

High Beam Assist automatically dims your high beams as oncoming vehicles approach, and turns them back on when traffic clears.¹

SEE FURTHER

The Adaptive Front lighting System (AFS) improves visibility at intersections and around curves by sensing your steering and turning the headlights. Together with LED auto-leveling headlights, AFS helps you see not just ahead, but around as well.¹

TRAFFIC SIGN RECOGNITION

The all-new Q60 also features a Traffic Sign Recognition system, a technological breakthrough that helps alert drivers to different speed limits. A camera scans the road for signs, and any changes are displayed on the instrument panel through character recognition software. It's a simple way to maintain safe speeds and be aware of any changes up ahead.

STEER EASIER

Working with Direct Adaptive Steering[®], Active Lane Control^{1,6} proactively evaluates the road ahead and can automatically make small steering angle corrections if your allnew Q60 experiences minor direction changes due to uneven road surfaces or crosswinds. You gain an increased feeling of stability, while reducing steering wheel vibration.

VIEW CLEARER

Gain a new perspective on what's around you. With the Around View[®] Monitor (AVM) with Moving Object Detection (MOD), four cameras and one virtual 360° view from above makes it easy to see and manoeuvre in even the tightest spaces.^{1,7}

SAFETY

EFFORTLESSLY EXTEND YOUR AWARENESS

A unique combination of active and passive safety innovations enhance your ability to respond instinctively.

A SHIELD OF PROTECTION The INFINITI Safety Shield® concept—our comprehensive approach to safety layers technologies to monitor conditions that can help avoid a collision and protect you and your passengers if one occurs.

MORE CONFIDENT IN REVERSE Back-up Collision Intervention^{1,7} helps increase your awareness. As you back up, the system warns you if approaching vehicles or large stationary objects are detected behind your all-new Q60, and can help you avoid a collision by applying the brakes.

RESPOND TO YOUR SURROUNDINGS Forward Emergency Braking with Pedestrian Detection^{1,6} uses sensors to watch for vehicles in the lane ahead of you, and if deceleration is required, the accelerator pedal is pushed up and the brakes are applied to help minimise a collision—or possibly prevent one. It also adds another dimension of security by looking out for pedestrians who enter your vehicle's path.

BRAKE CONFIDENTLY The all-new Q60 braking system responds automatically to changing conditions with 4-wheel Anti-lock Braking System (ABS) and Electronic Brake force Distribution (EBD).

SENSES WHERE YOU CAN'T SEE The Blind Spot Warning and Blind Spot Intervention® Systems^{1,6} use sensors to detect vehicles entering the blind spot area. First, a warning light will illuminate; then, if you move toward the occupied lane, the steering wheel vibrates. A brief steering or slight braking input will also be provided to help keep your all-new Q60 in your current driving lane.

RECOGNISING DANGER Predictive Forward Collision Warning (PFCW)^{1,7} uses radar to continuously monitor not only the vehicle directly ahead of you, but also the vehicle in front of that one. If the system detects a potential risk, such as a large vehicle blocking the traffic in front of you, the all-new Q60 provides an audible and visual alert.

MAINTAIN YOUR LANE The Lane Departure Warning and Lane Departure Prevention Systems^{1,6} monitor lane markings and will warn you with a vibration through the steering wheel if you start to drift. If the drift continues, the Lane Departure Prevention System will provide brief steering input to ease your all-new Q60 back towards the centre of your lane.

STRONGER AND LIGHTER Ultra high-strength steel is twice as strong as conventional steel and is built around you to enhance your safety in case of a collision.

ENHANCED PROTECTION The all-new Q60 not only features front driver and passenger airbags, but also both front seat-mounted side-impact supplemental air bags and roof-mounted curtain side-impact supplemental air bags.⁸

PREPARED TO PROTECT Safety technology is a key feature of your all-new Q60. Pre-crash safety seatbelts¹ are automatically tightened in emergency braking situations by activating electric motors. The occupants are securely and immediately restrained before a collision occurs.

THERE SHOULD YOU NEED IT Another industry-leading, breakthrough safety feature from INFINITI is the Engine Pop-Up Bonnet¹. In the event of a front-end pedestrian collision, the all-new Q60 bonnet will pop up instantly, creating additional space above the engine which is designed to help reduce the severity of the impact.

DRIVEN BY DESIRE

Design doesn't answer to logic, it answers to the heart. It begins with the artist drawing a simple line, curve or shape and loving something in it that must be fully expressed. To INFINITI, design is more than a passion, it is part of our business DNA.

In synthesis with powerful design, purity of form rises above style. Through sweeping lines and arching curves, the thing we place above all else is the artist. His sense of the future.

INFINITI DESIGN DIRECTOR

QX Sport Inspiration

WHEN A BRAND IS LED BY DESIGN, that becomes the brand's way of communicating. Every vehicle gives voice to that language through the harmony of striking lines, liquid curves and muscular stance. Proprietary elements, including the double arch grille and crescent cut, distinctly express the INFINITI design-led approach to product development and business vision. Fuelled by the power of design, an INFINITI concept car is a glimpse into tomorrow as it develops from being a sketch on the artist's table to taking its rightful place on the road.

UNDENIABLE PRESENCE. UNFORGETTABLE EXPERIENCE

The INFINITI vehicle range defies convention and redefines the premium segment through empowering technologies and expressive design.

ESTABLISHED IN 1989, INFINITI has now grown to include saloons, coupés, convertibles, crossovers and SUVs in its line-up and spans 50 countries worldwide. INFINITI is unique and distinctive—not trying to be all things to all people, but everything to some people. At the heart of the INFINITI brand is a history of human attentiveness where the belief that the total ownership experience is much more important than just the car itself, coupled with a commitment to delivering a more empowering, more assured and more exhilarating driving and ownership experience.

INFINITI HAS COME to be recognised as a brand that delivers expressive and striking car design. A distinctive design crafted by human hand and delivered with a powerful and daring presence on the road. This, combined with an obsessive attention to detail and precision engineering, all contribute to the feeling that to drive an INFINITI is something special.
