ABOVE & BEYOND

Ever since the first Land Rover vehicle was conceived in 1947, we have built vehicles that challenge what is possible. These in turn have challenged their owners to explore new territories and conquer difficult terrains. Our vehicles epitomise the values of the designers and engineers who have created them. Each one instilled with iconic British design cues, delivering capability with composure. Which is how we continue to break new ground, defy conventions and encourage each other to go further. Land Rover truly enables you to make more of your world, to go above and beyond.

INTRODUCTION

THE CONCEPT OF DISCOVERY

Ever since it first took to the streets, mud tracks and deserts in 1989, Discovery has blazed its own trail. From Alaska to Zambia, it has become synonymous with capability and versatility, whether off-road or in the city. Discovery takes those characteristics, together with several innovations pioneered by Land Rover, to uncharted territories.

Discovery is a quantum leap forward in SUV design. A radical and sharply focused approach to embodying Land Rover's vision of the most versatile and capable SUV.

Discovery combines the flexibility of a beautifully crafted full-size seven seat interior, packed full of ingenious design details, with dramatic proportions, clean modern lines and a dynamic silhouette.

NEW DISCOVERY LANDMARK EDITION

Whether you're in the midst of city life or driving to a secluded Spanish retreat, Discovery Landmark Edition has been designed to suit every occasion.

Vehicle shown right is Landmark Edition in Eiger Grey with optional features fitted.

DISCOVERY – THE FACTS

Form, function and exemplary levels of finesse are brought together to help create one of Land Rover's most compelling vehicles to date. Its inherent strength and off-road capabilities are matched only by its bold contemporary looks and alluring touches of luxury. Inside, astute use of space coupled with high-quality design and use of premium materials enhance the vehicle's bold horizontal and vertical lines.

The versatility of the cabin is highlighted by the easily configurable seven-seat layout and plentiful stowage, with clever use of space and refined comfort.

NEW DISCOVERY LANDMARK EDITION

Wherever you go, and whatever you do, Discovery Landmark Edition has been designed with a distinctive look. This is complemented by key technology enhancements to enrich your driving experience. See page 81 for details.

¹Standard on HSE Luxury. Optional on HSE models. ²Not available on S models. ³3,000kg on Si4 Ingenium engine. ⁴Standard on HSE Luxury, optional on SE, HSE and Landmark Edition. NA on Si4 300HP engine.

For full feature and option availability please refer to the accompanying Specification and Price Guide or visit your nearest Land Rover Retailer.

Vehicle shown right is HSE Luxury in Namib Orange with optional 'Style 5011' wheels.

SEVEN FULL-SIZE SEATS WITH INTELLIGENT SEAT FOLD

Discovery features three rows of seats with Intelligent Seat Fold¹, allowing you to configure the second and third row seating using switches located in the loadspace or on the main Touchscreen. Furthermore, using technology pioneered by Land Rover, Discovery allows you to remotely configure the seats when you're not in your vehicle, via an app on your smartphone¹. See page 19 for details.

ACTIVITY KEY

The Activity Key² lets you live life to the full. Housed in a robust and fully waterproof wristband, it allows you to pursue a range of activities from sailing to skydiving, safe in the knowledge that your vehicle is always protected. See page 65 for details.

POWERED INNER TAILGATE

The first of its kind, this hands-free system provides a seating and loading platform and can also be used as a load retention barrier for when the tailgate is open. See page 22 for details.

UNRIVALLED TOWING

Over the years, Discovery has earned many accolades around the world for its towing capabilities, which is why so many would naturally expect this vehicle to live up to the most demanding expectations. It doesn't disappoint. Discovery takes it to a new level, delivering an impressive towing capacity of up to 3,500kg³, ensuring it measures up to the vehicle's proud DNA. See page 56 for details.

SUPREME CAPABILITY

The vehicle's lineage and DNA are without question. Its all-terrain capability, wading ability and features such as Terrain Response 2⁴ ensure Discovery is always ready to get out there and tackle whatever comes over the horizon, no matter where that happens to be. See page 29 for details.

UNCOMPROMISED LOADSPACE CAPACITY

With over 2,400 litres of loadspace, ideal for wet or dirty gear, and the flexibility of seven seats, Discovery is every vehicle you'll ever need. See page 24 for details.

DRIVER ASSISTANCE FEATURES

Whether you're off-road or in the city, our Driver Assistance technology, available on Discovery, will ensure a seamless driving experience. Driver Condition Monitor detects when you show signs of drowsiness, whilst Adaptive Cruise Control with Steering Assist automatically moderates the steering, braking and acceleration of your vehicle. Standard safety features include Rear Camera and Emergency Braking. See pages 48-53 for details.

INTERIOR COMFORT

Passengers enjoy optimum comfort, unparalleled views and benefit from new optional Cabin Air Ionisation technology, helping improve the air quality within the vehicle cabin. See page 61 for details.

CLEVER STOWAGE

From the fold-down stowage behind the climate controls, to the upper and lower glovebox² and a comprehensive space below the centre console cupholders, Discovery has stowage in places you simply would not expect. See page 21 for details.

INTUITIVE CONNECTIVITY

Discovery features the very latest suite of technologies, including InControl, a raft of USB ports and the latest in infotainment to keep you and your passengers connected and entertained. See page 42 for details.

DESIGN

EXTERIOR

The vehicle's exterior design is a revolutionary re-imagining of Discovery for the next generation.

Discovery is beautifully proportioned for a full-size SUV, with sleek, wrap-around headlights and tail lights combining with short front and rear overhangs to reduce visual length. A fast windscreen angle, rising belt line and elegant, smoothly contoured shape result in a streamlined and dynamic form which combines aerodynamic efficiency with class-leading interior space. The body-coloured c-pillar, stepped roof and asymmetric element on the rear number plate panel all refer to the rich lineage of previous Discovery design.

Clean flush elements, a dynamic rising waistline and wrap-around lights convey a strong sense of modernity. Cleverly designed LED lights have been developed to wrap around the side of the vehicle to enable the indicators to be more visible to improve safety. LED lights are fitted as standard on SE, HSE, HSE Luxury and Landmark Edition.

Discovery introduces a new level of refinement, as demonstrated by its beautifully crafted and sculpted surfaces. The distinctive roof and feature lines rising towards the rear of the vehicle give it an assertive, recognisable stance that is further enhanced by the front and rear graphics.

Sophisticated and urbane, Discovery epitomises the most compelling contemporary British design.

INTERIOR

The highly desirable interior is a re-imagining of the classic Discovery design elements with the striking use of strong horizontal and vertical lines connecting through the main fascia beam. The use of materials such as premium leather, authentic wood and metal finishers, coupled with focused craftsmanship and precision, create an air of cultured modern living.

The 10" infotainment Touchscreen helps you connect to the outside world and puts a wealth of entertainment and information at your fingertips. The clever use of both seating design and stowage space helps deliver class-leading capability for you, your family and friends.

The new 12.3" Interactive Driver Display* ensures you're always entertained, informed and connected. See page 39 for details.

*Standard on HSE and HSE Luxury. Optional on S, SE and Landmark Edition.

All in-car features should be used by drivers only when safe for them to do so. Drivers must ensure they are in full control of the vehicle at all times.

Interior shown is HSE Luxury in Light Oyster/Espresso.

UNCOMPROMISING ATTENTION TO DETAIL

An eye for the minutiae. The finest materials. These are the qualities that our designers have carefully considered to help shape Discovery's interior. Added to which, sumptuous leather, beautifully finished handcrafted Wood veneers, Noble Chrome details, Brushed Aluminium finishers and crafted stitching can be incorporated throughout the interior for added luxury.

Interior shown is HSE Luxury in Light Oyster/Espresso.

SEVEN FULL-SIZE SEATS

Discovery's seven full-size seats truly exemplify comfort and versatility. Divided across three rows and readily deployable, no other vehicle in its class is so well appointed. For instance, the second row enjoys a 60:40 slide and recline configuration, coupled with a load-through facility. Stadium seating ensures everyone can see the road ahead in the greatest comfort whilst the stepped roof allows for greater headroom in the second and third rows; such clever use of space ensures everyone travels first class. Added to which, there are a number of comfort features available, including heated seats across all three rows and cooled seats on the first and second row: please refer to page 90 for a full list of available options.

REMOTE INTELLIGENT SEAT FOLD

A standard feature on HSE Luxury, and optional on HSE, there's a choice of ways you can easily deploy the seats with our Remote Intelligent Seat Fold: from the Touchscreen, switches located in the loadspace or via our innovative app from your smartphone. When you're standing well away from the vehicle, in a shopping queue for example, the vehicle can be ready for your return so you can utilise the space according to the size or shape of what you want to carry. You can reconfigure the seats without any fuss simply by using this feature.

The powered seat folding mechanism uses an intelligent control system which ensures the seats, including the headrests, fold away seamlessly, safely and conveniently. The system understands when seats are occupied or have heavy items on them and, when folding, automatically adjusts their position to prevent a conflict.

1 Second row legroom 954mm

2 Third row legroom 850mm

SPACE AND COMFORT

Each and every passenger in Discovery enjoys a truly comfortable ride, with a generous amount of legroom offered. Those in the second row will find they have 954mm, whilst the third row offers a plentiful 850mm.

Seven adults can travel in comfort. Added to which, when slide and recline is specified, you can configure the second row to optimise the available room even further.

Cubby box storage with an optional cooler compartment

Centre console storage behind the climate controls¹

Cupholders with additional storage beneath¹

Upper and lower glovebox²

Push operated hook¹

Third row storage with lid

STOWAGE

Discovery is brimming with clever spaces in which to stow away all those electronic devices and travel guides. From the upper and lower glovebox on SE, HSE, HSE Luxury and Landmark Edition, to central armrest storage with an optional cooler compartment and space for multiple tablets, you'll find space in places you simply wouldn't expect. The central armrest cubby box can hinge back 180° to create a flat tray, should second row passengers require more stowage, whilst the door bins can also accommodate one litre bottles in the front and 0.5 litre bottles in the second row.

Standard on HSE and HSE Luxury, a neatly integrated push-operated hook to hang a small shopping bag sits flush in the front passenger footwell when not in use.

Third row passengers benefit from individual storage spaces, including one within the side panel. In fact, across all rows there's more than enough space for even the most demanding of families.

¹Only available on HSE and HSE Luxury. ²Not available on S.

POWERED INNER TAILGATE

Pioneered by Land Rover, Discovery features a powered inner tailgate, which when deployed can provide a platform for use at social and sporting events, coupled with greater protection from the elements. This platform also allows for easier loading and acts as a retainer when the loadspace area is filled.

POWERED GESTURE TAILGATE

Powered gesture tailgate allows you to operate the tailgate (both to open and close) from outside the vehicle without needing to physically touch the vehicle or the smart key.

Provided that the smart key is detected, the tailgate may be operated by a kicking gesture underneath the rear of the vehicle.

Two sensors mounted on either side of the tailgate allow kerbside operation, rather than needing to be immediately behind the vehicle. And as the system is compatible with towing solutions, you can still open and close the tailgate with the least amount of fuss. Powered gesture tailgate is fitted as standard on HSE and HSE Luxury, and available as an option on SE and Landmark Edition.

Additionally, a button located inside the tailgate or on the smart key allows the tailgate to be closed automatically with powered tailgate.

LOADSPACE CAPACITY

With a luggage-devouring 2,406 litres of space behind the first row of seats, Discovery welcomes a greater load than any other SUV in its class. There's a generous 1,137 litres of space behind the second row of seats. Even when you utilise all seven seats, you can still fit up to three cabin bags behind the third row. When it comes to carrying any load, having the option to fold all second and third row seats gives you more options, making life that bit easier.

Loadspace capacity figures represent seven-seat vehicles fitted with Two or Three-zone Climate Control only.
 Vehicle shown is HSE Luxury in Silicon Silver with optional 'Style 5011' wheels.
 Interior shown is HSE Luxury in Light Oyster/Espresso.

DRIVING CAPABILITY

TESTING

Before any vehicle can carry the Land Rover badge, it must complete a series of rigorous tests to establish the very highest levels of luxury, performance and capability.

SUSPENSION

You're unlikely to push any Land Rover harder than we have. For an unrivalled breadth of dynamic capability, both on and off-road, the vehicles have been exposed to 10 years of the most extreme driving pressures in a fraction of the time using our state-of-the-art test rig.

WIND SPEED

Discovery was developed in state-of-the-art wind tunnels and a suite of climatic chambers to recreate some of the most challenging aerodynamic conditions it will face. Only by pushing all systems to their limits do we develop true reliability.

HOT AND COLD CLIMATE

In real-world environments and our climate chambers, we freeze vehicles to -40°C and bake them to 50°C. Key functions and systems are then scrutinised to our exacting standards. So even in the most remote locations, comfort and peace of mind are never far away.

OFF-ROAD

From the icy proving grounds of Arjeplog, Sweden, to Dubai's unforgiving desert sands, we ensure our legendary all-terrain performance is innate in every vehicle. Prototypes are developed across approximately 5,280 miles of the most demanding off-road routes.

SEMI-ANECHOIC CHAMBER

In the 'neutral sound' of our semi-anechoic chamber, we precisely expose the cabin to a range of frequencies and vibrations, making certain that Discovery sounds most refined at every speed and across every surface.

MONSOON

Our water testing facilities ensure each vehicle can enter and exit a body of water without a single droplet entering the cabin. In the monsoon simulator, each one is drenched with some 85,000 litres of specially dyed water, while tilting it by as much as 45°, checking for even the slightest leak with UV lights.

ALL TERRAIN TECHNOLOGY

Discovery not only looks truly at home in the city, but also drives impeccably off-road. Its optimised geometry, coupled with unique Land Rover technologies, ensure it delivers class-leading all-terrain capabilities.

TERRAIN RESPONSE

With 70 years of all-terrain expertise, this vehicle has Land Rover capability at its heart. Our unique Terrain Response systems enable the driver to optimise the vehicle's engine, gearbox, centre differential and chassis systems to match the demands of the terrain, by selecting one of the easily identifiable driving modes. It also includes additional Rock Crawl Mode when your vehicle is specified with a twin-speed transfer box.

TERRAIN RESPONSE 2

The optional Terrain Response 2¹ system enhances this even further by monitoring driving conditions and automatically selecting the driving modes to achieve the best possible chassis and powertrain set-up for the conditions.

 General Driving

 Sand

 Grass, Gravel, Snow

 Rock Crawl

 Mud & Ruts

ALL TERRAIN PROGRESS CONTROL

All Terrain Progress Control² (ATPC) is a state-of-the-art optional system that enables drivers to set and maintain a steady speed in challenging conditions.

Operating like a cruise control system, it functions at very low speeds between 1mph and 19mph, enabling the driver to maintain full concentration on steering and finding a path through obstacles.

Developed by Land Rover's industry-leading all-terrain specialists, the system works seamlessly alongside the Terrain Response 2 and All Wheel Drive (AWD) traction and braking systems.

Once ATPC is activated, the standard steering wheel +/- cruise control buttons are used to set the speed. Brake and accelerator pedals can still override the chosen settings, with gentle braking achieving a reduction in speed.

¹Standard on HSE Luxury. Optional on SE, HSE and Landmark Edition. Not available on S models or Si4 Ingenium engine.

²Not available on S models or Si4 Ingenium engine.

Features and their availability may differ by vehicle specification and market. Please see pages 86-101, or contact your nearest Land Rover Retailer, for more information.

Vehicle shown left is HSE Luxury in Namib Orange with optional 'Style 5011' wheels.

HILL DESCENT CONTROL

Land Rover's patented Hill Descent Control (HDC) is a standard feature. It assists the driver with controlled descents of difficult slopes by maintaining a constant speed and applying braking separately to each wheel.

Hill Launch Assist ensures the vehicle doesn't roll backwards as it pulls away on an incline.

The vehicle also utilises **Gradient Release Control (GRC)** which is designed to prevent the vehicle accelerating too quickly on a steep incline when the driver releases the brake.

WADE SENSING

Discovery's improved geometry enables a significant improvement in wading capability when compared to its predecessor.

With a wading depth of up to 900mm, whether crossing streams, fords or flooded areas, the optional Wade Sensing feature can prove invaluable. Available as an option on HSE and HSE Luxury.

Unique to Land Rover, sensors located in the door mirrors give the driver pictorial real-time information about the water's depth in relation to the vehicle, as well as maximum wading capability via the Touchscreen.

PERMANENT ALL WHEEL DRIVE SYSTEMS

Discovery features a choice of intelligent, permanent Land Rover All Wheel Drive (AWD) systems to deliver unrivalled all-weather and all-surface capability. You can select from the following systems depending on capability requirements:

SINGLE-SPEED TRANSFER BOX (HIGH RANGE ONLY)

This system has a single set of high-range, road-biased gears with the intelligence to sense wheel slip and move torque to the other axle to provide additional traction. It normally delivers 42 percent drive to the front axle with 58 percent drive biased to the rear axle. The centre differential is reactive to wheel slip on one axle and can change the amount of bias to add more torque and traction to the other axle to support. This system is standard on Si4 Ingenium engines.

TWIN-SPEED TRANSFER BOX (HIGH/LOW RANGE)

An additional set of lower gears can prove invaluable in challenging conditions such as steep inclines or declines, off-road driving or when towing. This system gives you precise speed and control in such instances. The heart of the twin-speed system is the electronic centre differential that offers a 50:50 torque split between front and rear axles with the ability to pre-emptively lock the axles before slip commences. This system is standard on Sd4 Ingenium engines and Sd6 engines.

ACTIVE REAR LOCKING DIFFERENTIAL

The Active Rear Locking Differential* - an option on Sd4 Ingenium and Sd6 engines - offers an additional benefit of controlling the slip between the left and right wheels on the rear axle. This can be especially useful in low-grip conditions such as on wet grass, where the vehicle monitors the slip and torque between front and rear axles and also from one wheel to another on the rear axle to deliver effortless capability.

ADAPTIVE DYNAMICS

Adaptive Dynamics makes the miles go by virtually unnoticed. The system monitors vehicle movements up to 500 times a second, reacting to driver or road inputs almost instantaneously to give greater control and minimise body movement, ensuring a composed, flat ride. The system even senses off-road conditions, and optimises damping accordingly so driver and passengers arrive at their destination refreshed and relaxed. Available as an option on Sd6 HSE and HSE Luxury.

SUSPENSION

ELECTRONIC AIR SUSPENSION

A sure-footed, composed drive is completed by the latest four-corner air suspension which provides exceptional wheel articulation and poise.

Capable of taking on tough situations, this system is designed to keep Discovery stable no matter how rough the terrain. For unprecedented ride quality, it switches heights seamlessly when necessary.

Air suspension also allows for innovative new access features to enhance versatility and ease of use.

Automatic Access Height is a feature which automatically lowers the ride height by 40mm when the vehicle is parked.

Rear Height Adjust allows the use of switches in the loadspace or on the key fob to lower the rear ride height. See page 56 for more information.

*Not available on S models.

Features and their availability may differ by vehicle specification and market. Please see pages 86-101, or contact your nearest Land Rover Retailer, for more information.

Vehicle shown left is HSE Luxury in Namib Orange.

EFFICIENT TECHNOLOGIES

SUSTAINABLE BY DESIGN

Land Rover are committed to producing vehicles that use more sustainable materials, produce less waste and use fewer natural resources as part of our approach to sustainable and responsible business. Land Rover's development process has included a full life cycle assessment and has been designed to be 85 percent recyclable/re-usable and 95 percent recoverable at the end of the vehicle's life.

Our innovative design enables the use of a unique alloy in the vehicle body, made from up to 50% recycled aluminium derived from our closed loop manufacturing process, retaining quality and performance but delivering lower life cycle CO₂ emissions. Closed loop manufacturing means taking the scrap from the body pressings process, segregating it and re-melting it back into quality sheet aluminium at our supplier, to be used again to press out body panels, thereby reducing the need to use primary aluminium.

STOP/START

Discovery engines are all available with Stop/Start. This system shuts down the engine when you come to a complete halt and restarts the engine immediately when required, helping to save fuel, especially during urban driving.

LIGHTWEIGHT MATERIALS

At every stage of the development process, the use of lightweight materials across all the vehicle's elements has optimised the balance between best vehicle performance and weight saving for greater fuel and emissions efficiency. Discovery adopts an advanced all-aluminium body structure, delivering significantly reduced weight versus traditional materials, improved dynamic performance and enhanced sustainability. Its tailgate is made from a lightweight plastic composite material which is also very stiff and strong, whilst high-precision lightweight magnesium castings are used for some of the body and chassis components.

ADBLUE®¹

Discovery diesel models are fitted with AdBlue® to help clean exhaust gases. AdBlue® is a non-toxic, non-flammable, biodegradable additive that cleanses the gases in the vehicle's exhaust system to reduce harmful nitrogen oxide emissions by up to 98 percent.

LOW-FRICTION TECHNOLOGIES

Discovery's petrol and diesel engine range uses smart coating technologies on pistons, needle roller bearings and other mechanical parts. This helps to reduce friction, especially at low engine temperatures, so the vehicle performs at its efficient best.

ADVANCED AERODYNAMICS

The modern streamlined design has been carefully optimised using advanced Computational Fluid Dynamics software and a state-of-the-art wind tunnel. This has led to an improvement of up to 15 percent drag reduction when compared to its predecessor, whilst still maintaining stadium seating and two additional seats in the third row. An enhanced rear spoiler has been designed with slots to direct airflow over the tailgate and minimise rear screen soiling, producing a reduction in drag.

Discovery is the first Land Rover to optimise airflow past the front wheels, by creating an 'air curtain'² that feeds air to the inner wheel arch from ducts in the front bumper. The pressure change in the wheel arch helps to reduce drag and improve air flow down the vehicle sides.

Air suspension, fitted as standard, means vehicles benefit from speed lowering, where the vehicle automatically lowers by 13mm to reduce drag when cruising at motorway speeds.

¹AdBlue® is a registered trademark of the Verband der Automobilindustrie e.V. (VDA).

²Only available with Sd4 Ingenium engine.

Vehicle shown left is HSE Luxury in Silicon Silver with optional 'Style 5011' wheels.

ON-ROAD DYNAMICS

Discovery has been designed to deliver a confident, comfortable and engaging driving experience to make the miles go by virtually unnoticed.

With its wide-spaced double-wishbone design at the front and advanced multi-link layout at the rear, the suspension delivers more responsive handling without compromising Land Rover's hallmark all-terrain capability.

Dynamic Stability Control (DSC) monitors Discovery's dynamic behaviour, and intervenes if the system determines that the vehicle is not responding according to the driver's inputs.

The DSC system operates by reducing engine torque and/or applying the brakes on selected wheels to correct the vehicle's cornering attitude, and in addition, can counteract understeer or oversteer conditions effectively. This system is standard on all models.

Discovery's sublime ride quality is heightened further by such features as Electronic Power Assisted Steering (EPAS), a variable ratio system and speed-sensitive steering. Standard on all models, EPAS is integrated into driver and chassis systems, helping to reduce the engine load to aid efficiency and deliver a confident and intuitive drive.

The variable ratio system has been tuned by Land Rover engineers to provide ease of control, on or off-road, when driving in a straight line or when turning. Different gear ratios within the steering rack help to reduce steering sensitivity when driving straight, but compensate for less steering input when turning.

Speed-sensitive steering increases the weight and feel of the steering as your speed increases to give stability and a greater feel of confidence. It also assists you at lower speeds to aid manoeuvrability by lightening the feel of steering. This system is standard on all models.

TECHNOLOGY

INFOTAINMENT

Touch Pro not only looks like no other, it performs like no other. Delivering a wealth of information and entertainment, it features the most intuitive and advanced integrated technologies to ensure everyone can make the most of their journey.

Search 'Discovery Infotainment System' for more details.

TOUCH PRO

Touch Pro is our state-of-the-art infotainment system that connects you to your world, delivers a raft of entertainment options and puts all the information in one place. The optional Touch Pro Dual View system¹ is also powered by the 10" high-resolution Touchscreen and allows the driver and passenger to view completely independent display content. For example, the driver can use the Satellite Navigation system, while the front seat passenger is able to watch a DVD or Digital TV², where fitted. One set of WhiteFire® digital wireless headphones is also included.

INTERACTIVE DRIVER DISPLAY

Discovery ensures you're always entertained, informed and connected. It features a 12.3" high-definition Interactive Driver Display³ that can receive and project a vast amount of driving information, entertainment and active safety data including navigation, phone and media. Its high resolution ensures the utmost clarity and its refined processing engine delivers smooth-moving, pin-sharp graphics.

HEAD-UP DISPLAY

Without distraction or the need for you to take your eyes off the road, our enhanced next-generation Head-up Display⁴ is an option that presents key vehicle data such as your speed, gear position and navigation directions on the windscreen in the most innovative way. It features crystal clear full-colour graphics in high resolution, enabling you to see all driver inputs and information with ease. It can display important information from the Touch Pro Touchscreen including phone, as well as information and guidance for off-road driving via the All Terrain Info Centre. The feature can be turned on and off dependent on driver preference.

8" REAR SEAT ENTERTAINMENT

The optional Rear Seat Entertainment⁵ System provides two 8" screens built into the rear of the front headrests. It includes 'Journey Status': a navigation summary screen which displays a pop-up for the rear occupant detailing the time and distance to destination. The system comes with two pairs of WhiteFire® digital wireless headphones and HDMI, Mobile High-Definition Link (MHL) and USB connections. Passengers can also enjoy their favourite TV shows via the optional Digital TV¹ feature. Digital TV channels can be watched on the 10" Touchscreen² in the front cabin and the Rear Seat Entertainment screens.

¹Optional on HSE and HSE Luxury. ²Digital TV may only be viewed on the 10" Touchscreen when the vehicle is stationary, unless it is fitted with Dual View.

³Standard on HSE and HSE Luxury. Optional on S, SE and Landmark Edition with Navigation. ⁴Not available on S models. ⁵Standard on HSE Luxury. Optional on HSE.

All in-car features should be used by drivers only when safe for them to do so. Drivers must ensure they are in full control of the vehicle at all times.

Interior shown left and above is HSE Luxury in Light Oyster/Espresso.

AUDIO

A vehicle's cabin is the ideal place within which to experience your personal choice of music and Discovery has the option of four different audio systems to bring your music to life:

SOUND SYSTEM

Excellent acoustic range through six speakers and is standard on S models.

ENHANCED SOUND SYSTEM

The 250W Enhanced Sound System features 10 speakers and is standard on SE models and available as an optional upgrade on S models.

MERIDIAN™ SOUND SYSTEM

Great definition, crystal clear highs and full, deep bass - delivered through this 380W system's careful arrangement of 10 speakers and a dual channel subwoofer. It is standard on HSE and Landmark Edition and available as an optional upgrade on S and SE models.

MERIDIAN SURROUND SOUND SYSTEM

All the fullness and clarity of a live performance delivered through an arrangement of this 825W system's 14 front, side and rear speakers and a dual channel subwoofer - seamlessly brought together using Trifield™ technology. Exclusive to Meridian, Trifield perfectly blends the centre and surround channels with left and right channels ensuring an optimum, consistent sound experience for each passenger. It is standard on HSE Luxury models and available as an optional upgrade on HSE models.

DAB RADIO

DAB radio technology offers improved sound quality, a wide choice of stations and live text information about the station, show and song you are listening to. It is standard on all models.

MERIDIAN™

Formed in 1977 in Cambridgeshire, England, Land Rover's audio partner Meridian has pioneered many firsts including active speakers and the world's first digital surround sound processor.

Meridian's audio technology input has helped ensure that Discovery is the most superb space within which to experience sound. Meridian Cabin Correction technology was utilised to analyse cabin shape, acoustics and resonance characteristics in order to help remove unwanted sounds.

The advanced algorithm ensures that the rhythm, punch and timing of any piece of music are heard precisely how the artist intended, providing a consistently exceptional quality audio experience for all passengers in the vehicle.

DIGITAL SIGNAL PROCESSING

Brings all elements of the audio system together as one, for performance that would otherwise require significantly larger speakers.

MERIDIAN CABIN CORRECTION

The advanced algorithm of Meridian's Cabin Correction tailors the sound experience to the precise acoustics of Discovery's interior.

MERIDIAN DIGITAL DITHER SHAPING

To maintain the quality of musical recordings, they are converted into a common digital format. Meridian Digital Dither Shaping ensures that digital signal conversions are made smoothly and seamlessly, preserving the finest details of the audio performance. The result is authentic musical conversion, evoking the emotions of the original recording.

TRIFIELD™

Exclusive to Meridian, Trifield blends the centre and surround channels seamlessly with left and right channels, delivering a consistent, concert-like experience for all occupants.

Features and their availability may differ by vehicle specification.

CONNECTIVITY

InControl is Land Rover's suite of standard and optional features that connects you to your vehicle and links you seamlessly, and securely, with the outside world. Select from the available packs, that can be further enhanced by our individually offered feature, Secure Tracker. With a selection of apps, even when you're away from your vehicle, some of the InControl features stay with you, making sure the Land Rover experience is more enjoyable than ever.

Search 'Discovery Technology' for full details.

OPTIONAL FEATURES

VOICE RECOGNITION SYSTEM

Understands clear spoken instructions, so you can concentrate on the road ahead without any distractions. Voice Recognition is a standard feature with Navigation Pro.

NAVIGATION PRO

Available as an option on S and fitted as standard on SE, HSE, HSE Luxury and Landmark Edition, Navigation Pro allows you to save your favourite places, use pinch-to-zoom gestures for simple map exploration and can display a choice of either 2D or 3D crystal clear map graphics. Navigation Pro functionality is further enhanced by Connect Pro.

CONNECT PRO PACK^{1,2}

Connect Pro consists of 4G Wi-Fi Hotspot and Pro Services, and is designed to enhance your in-car and out-of-car experience, ensuring you and your passengers enjoy the journey whilst remaining connected to the world.

Pro Services include:

- **Real Time Traffic Information** - Uses live traffic data feeds to give you the most accurate picture of what the traffic is like on the way to your destination.
- **Online Search** - Wherever you are, you can search the surrounding area for places of interest. The system can access expert destination information, travel tips and inspiration as well as online travel reviews of the local area.
- **Planning Routes and Door-to-Door Routing** - Before setting off, use the optional Route Planner app or online portal to search, save locations or set your destination. The app uses the Cloud to send your destination automatically to your vehicle's navigation screen. Once you've parked, the Route Planner app will guide you to your destination - a true door-to-door experience which includes public transport options.
- **Share ETA** - You can share your estimated time of arrival so your selected contact(s) will know exactly when you will arrive, as calculated by the navigation guidance system. If you're running late, Share ETA can then send automatic updates via text messages or email, without any further action from you.
- **Satellite View** - There may be times when you want to get the context of your surroundings from overhead. With Connect Pro you can switch to satellite view with a single tap.
- **Street Level Imagery** - To help you recognise your destination as you approach it, the screen can display a 360° panoramic street level image.

¹Optional on S when Navigation Pro is specified. Standard on all other trim levels. ²Connect Pro requires a SIM with a suitable data contract. Online functionality and Wi-Fi connectivity is dependent on the installation of a micro SIM with a suitable data contract. Remote Premium contains subscription services that can be extended after the initial term advised by your Land Rover Retailer.

InControl features, options and their availability remain market dependent - check with your Land Rover Retailer for local market availability and full terms. Information and images displayed in relation to the InControl technology, including screens or sequences, are subject to software updates, version control and other system/visual changes depending on options selected. Mobile network connectivity cannot be guaranteed in all locations. InControl Apps and Remote App will need to be downloaded from the Apple/Play Store. All in-car features should be used by drivers only when safe for them to do so. Drivers must ensure they are in full control of the vehicle at all times.

Stay connected while on the move. When specified with 'Pro Services & Wi-Fi Hotspot', your new Land Rover Discovery will arrive with a SIM card equipped with an essential data plan of 500MB of data per month for the initial warranty period. You'll be better connected, receiving live traffic updates and more. Additional data can be purchased. Terms, conditions and restrictions apply. Contact your local Jaguar Land Rover retailer for more information.

OPTIONAL FEATURES CONTINUED

CONNECT PRO PACK CONTINUED

- **Commute Mode** - Allows the system to learn your commutes and automatically advises you of the expected journey time based on live and historical traffic movements without you having to input a destination. The system learns the routes you take for a given destination and then advises which of those is the quickest.
- **Parking Service** - As you approach your destination, you can see where parking is available. Simply tap on your preferred car park and the navigation system updates to direct you to it.
- **Online Media** - Allows for the aggregation of numerous content providers and their personalised content - such as Deezer and TuneIn - that gives access to more than 40 million music tracks and four million on-demand programmes and podcasts. For the first time, these can be directly streamed from the vehicle without the need for a smartphone - providing a seamless and integrated experience.

Remote Premium^{1 2} app provides upgraded information on your vehicle and enables you to interact with it remotely. Compatible with most smartphones, Android Wear™ or the Apple Watch®, this service includes:

- **Remote Lock/Unlock** - Lock or unlock your doors remotely with the click of a button.
- **Remote Climate** - Prepare your Land Rover in advance by pre-heating or pre-cooling the cabin, so that you and your passengers are comfortable from the moment you step inside.
- **Beep/Flash** - This feature turns on your Land Rover's hazard lights and dipped headlights, and sounds an audible alert to help you locate your vehicle in a crowded car park.
- **Journey Tracking** - This opt-in feature can automatically record your journey history including your route and mileage statistics. This information can be exported by email to use for expense reporting.
- **Vehicles Status Check** - Check current fuel level and range, and status of door and window position and locks. See the last parked location of the vehicle and find your way back to it with on-foot directions.

PROTECT

Land Rover Optimised Assistance³ - If you break down, you can make a direct call to the Land Rover Assistance team by pressing the button on the overhead console or from the Assistance screen within the InControl Remote smartphone app.

SOS Emergency Call - In a more serious incident, SOS Emergency Call will automatically connect you to the emergency response team who will notify the emergency services to your location. For peace of mind, this service is provided for the first ten years from date of registration.

SECURE TRACKER⁴

Uses tracking technology to alert you to an attempted theft, and signals your vehicle's location to the relevant authorities, for a timely recovery. Includes service subscription for warranty period.

¹Optional on S when Navigation Pro is specified. Standard on all other trim levels. ²Remote Premium contains subscription services that can be extended after the initial term advised by your Land Rover Retailer. ³Land Rover Optimised Assistance is a subscription service that can be extended after the initial term advised by your Land Rover Retailer. ⁴Secure Tracker will require further subscription after the initial term as advised by your Land Rover Retailer. Requires mobile network connectivity. InControl features, options and their availability remain market dependent - check with your Land Rover Retailer for local market availability and full terms. Information and images displayed in relation to the InControl technology, including screens or sequences, are subject to software updates, version control and other system/visual changes depending on options selected. Mobile network connectivity cannot be guaranteed in all locations. Remote App will need to be downloaded from the Apple/Play Store.

SMARTPHONE PACK

By screen sharing with Land Rover Discovery's InControl infotainment system, the Smartphone Pack helps you stay safely connected to your smartphone even while in the car. Applications include:

- **Android Auto™** - was designed with safety in mind. With a simple and intuitive interface, it is designed to minimise distraction so that you can stay focused on the road. Simply connect your Android smartphone via a USB and control compatible apps on the in-car Touchscreen.
- **Apple CarPlay®** - is also designed for increased safety, enabling the use of apps while allowing the driver to concentrate on the road ahead. Connect your Apple smartphone to your car to use compatible apps such as maps, messages and music through the Touchscreen.
- **Spotify⁵** - Access a library of more than 30 million songs with this seamlessly integrated app - the first true in-car, Spotify experience. Featuring all the same intuitive functionality as the Spotify smartphone app, you can search songs, stations and recommendations, create playlists and access your music in offline mode.

⁵Please check App Store and Google Play for availability.

Android Auto is a trademark of Google Inc.

iPhone and Apple CarPlay® are registered trademarks of Apple Inc., registered in the US and other countries.

INTERIOR POWER POINTS

Discovery is packed with the latest innovative technologies, and USB charging points are available for all three rows of seats. So no matter where they sit, every single passenger can stay entertained – whether on their tablets, mobile phones or other devices¹.

It includes a 12V port in the upper glovebox, one in the instrument panel, a USB port in the centre console, and one 12V and two USB ports in the cubby box. There's also up to two 12V or USB ports in rear centre console, two USB ports in the row three stowage, one 12V in the luggage compartment, and two additional USB ports when 8" Rear Seat Entertainment is fitted.

A Wi-Fi Hotspot system is also available as part of the Connect Pro Pack². It comes as standard on SE, HSE, HSE Luxury and Landmark Edition, and is available as an optional upgrade on S models.

¹Fitment of USB ports and 12V locations varies by trim level. ²Only available with Navigation Pro. Online functionality and Wi-Fi connectivity is dependent on the installation of a micro SIM with suitable data contract. 4G Wi-Fi Hotspot and Pro Services contain subscription services that can be extended after the initial term advised by your Land Rover Retailer.

Interior shown is HSE Luxury in Light Oyster/Espresso.

DRIVING TECHNOLOGY

DRIVER ASSISTANCE

EASIER AND SAFER

From negotiating city traffic or the motorway to providing additional safety for you and your passengers, you'll find a range of features designed and engineered to heighten your enjoyment of the vehicle.

Discovery offers the most advanced technologies to deliver intuitive and easy parking solutions. Whether reversing, parallel parking or getting into or out of tight spaces, these features make life easier.

Available as standard, optional or as part of an optional pack.

Search 'Discovery Driver Assistance' for more details.

STANDARD

Front and Rear Parking Aid

Front and Rear Parking Aid helps make manoeuvring even easier. When you select Reverse, or choose to activate them manually, sensors located in the front and rear bumpers are triggered. As you park, the Touchscreen display and audio feedback indicate how close you are to obstacles.

Rear Camera provides improved visibility when reversing. This valuable parking aid also helps when hitching a trailer. Static lines representing the vehicle's outer perimeter and predicted path are superimposed on the rearward image, to make parking in tight spots as easy as possible.

Cruise Control with Speed Limiter¹ allows the driver to maintain the current speed of the vehicle without the need for continued use of the accelerator pedal, helping to reduce driver fatigue. The Speed Limiter will also allow the driver to pre-set a maximum specified speed which the vehicle will not exceed. Both functions can be easily turned on or off by the driver as desired.

Driver Condition Monitor detects if you're starting to feel drowsy and gives you an early warning when you need to take a break.

¹Standard on S, SE and Landmark Edition.

STANDARD

Lane Keep Assist

Lane Keep Assist detects when your vehicle is unintentionally drifting out of your lane, and applies a corrective torque to the steering wheel, encouraging you to guide your vehicle back.

Emergency Braking can help to prevent collisions with other vehicles or pedestrians. If a potential frontal collision is detected, a warning is displayed, giving you time to take action. A camera at the front of the vehicle monitors at speeds from 3mph to 49mph for frontal collisions and 3mph to 37mph for pedestrians. If a collision is still anticipated and you have taken no action, this system will apply the brakes to help reduce the severity of the possible impact.

OPTIONAL

360° Surround Camera

360° Surround Camera uses four digital cameras discretely placed around the vehicle, providing a 360° overhead view on the Touchscreen. With the capacity to display several different views at the same time, this helps with various manoeuvres from parking by a kerb, to getting in and out of tight spaces and junctions.

Blind Spot Assist² can help you prevent collisions. If your vehicle detects another car in your blind spot when you begin to change lanes, a small warning light illuminates in the corresponding door mirror. Corrective torque is also applied to the steering wheel, encouraging you to guide your vehicle away from the approaching vehicle.

²Optional on S, SE and Landmark Edition. Standard on HSE and HSE Luxury models.

OPTIONAL PACKS

Optional packs are available, featuring a range of technologies to enhance the driving experience. Park Pack enables you to park and manoeuvre safely and more easily in and out of tight spaces and into traffic that is obscured by buildings or other vehicles. While Drive Pack makes every journey safer and more relaxing, the Drive Assist Pack contains the most comprehensive suite of drive and park technologies.

PARK PACK¹

Park Assist

Park Assist makes parallel and perpendicular parking easier than ever by steering your vehicle into a suitable space. You just have to select the appropriate gear and control the vehicle's speed with the brake and accelerator pedals. Graphics and notifications guide you through the manoeuvres. Park Assist will also steer you out of a space, taking all of the stress out of parking.

Rear Traffic Monitor is particularly useful when reversing out of a parking bay. The system warns you of vehicles, pedestrians or other hazards approaching from either side of your vehicle, and will alert you with both audio and visual warnings so you know what's behind you even when the view is obstructed.

360° Parking Aid

360° Parking Aid gives you complete confidence when manoeuvring in tight spaces. Sensors located around the vehicle are automatically triggered when Reverse is selected, or can be manually activated, with a graphic appearing on the Touchscreen showing an overhead view of the vehicle. As you park, the Touchscreen display and audio feedback indicate how close you are to obstacles.

Clear Exit Monitor alerts passengers leaving the vehicle from the rear doors to any approaching cars, cyclists or other hazards. If an incoming obstacle is detected, a warning light will flash on the door.

DRIVE PACK²

Adaptive Cruise Control

Adaptive Cruise Control² will keep your vehicle a safe distance from the one in front should it slow or stop when you're cruising on the motorway or travelling in slow-moving traffic. Should the vehicle in front stop completely, your vehicle will come to a smooth halt. In stop-start traffic, Adaptive Cruise Control will automatically resume following the car in front. The system can be activated from 13mph and once activated will operate between 0-124mph where permissible.

High-speed Emergency Braking detects when a potential frontal collision with another vehicle may occur and displays a forward alert to warn the driver to brake. If the driver doesn't react, the vehicle will deploy the brakes in order to reduce the severity of the possible impact. High-speed Emergency Braking is ready and active from 6mph to 99mph.

Blind Spot Assist

Blind Spot Assist See page 49 for description.

Traffic Sign Recognition and Adaptive Speed Limiter keeps you informed and aware on the road, by displaying speed limits and 'no overtaking' signs in the instrument cluster, where they can easily be seen. When activated, Adaptive Speed Limiter uses Traffic Sign Recognition information to adjust your vehicle's speed accordingly.

²Only available on S, SE and Landmark Edition. Standard on HSE and HSE Luxury models.

DRIVER ASSIST PACK

The optional Driver Assist Pack offers a wide range of driver aids, including the features found in both the Park Pack and Drive Pack (see pages 50 and 51), together with 360° Surround Camera. It also includes Adaptive Cruise Control with Steering Assist which centres the vehicle in lane and maintains a set distance from vehicles ahead, making driving even easier and more comfortable.

 FRONT CAMERA 120m

 FRONT RADAR 160m

ADAPTIVE CRUISE CONTROL WITH STEERING ASSIST

Adaptive Cruise Control with Steering Assist works with you, assisting with steering, braking and acceleration as you keep your hands on the wheel and anticipate the road ahead. A camera and radar then work together to track lanes ahead to maintain a central position for your vehicle, and moderate its speed according to the behaviour of the traffic in front of you.

If the vehicle ahead slows, even to a standstill, the feature automatically slows your vehicle, bringing it to a stop where necessary to maintain a relaxed and composed drive in busy traffic situations. Should you remove your hands from the wheel, the vehicle will provide a warning. If the warning is not heeded then the Steering Assist is deactivated, but the Adaptive Cruise Control will remain active.

DRIVING AIDS

LOW TRACTION LAUNCH

Discovery features a dedicated launch function¹, which enables the vehicle to pull away smoothly and easily, even on tricky low-friction surfaces like ice, snow or wet grass. The software adapts the system's behaviour according to the current Terrain Response setting. When you pull away, you do so with certainty, composure and greater ease.

ALL TERRAIN INFO CENTRE

The All Terrain Info Centre² within your Touch Pro system allows you to view and activate various features and provides access to All Wheel Drive (AWD) information and guidance features for off-road driving.

The Touchscreen displays information about the vehicle's wheels, suspension, transmission and driveline, including suspension movements and articulation.

The system can show the angle and pitch of the vehicle on slopes and inclines, advice on the vehicle's current and maximum wading depth³ and includes a useful compass together with current latitude, longitude and altitude details.

The Info Centre provides a host of other helpful guidance such as vehicle dimensions – useful for entering tighter spots – and can be used to activate additional capability features, such as low traction launch.

Using the optional 360° Surround Camera, the Info Centre can also show the area directly ahead of the vehicle that may not be visible to the driver to help ensure the vehicle isn't damaged on unseen terrain.

²The number of features displayed on the All Terrain Info Centre is dependent upon the specification of the vehicle.

³Provided Wade Sensing is specified. Optional on HSE and HSE Luxury.

Interior shown above is the HSE Luxury in Light Oyster/Espresso.

TOWING AIDS

Discovery takes towing capability to a new level, with a capacity of up to 3,500kg* and a suite of features available to help make towing effortless and assured.

1 ELECTRICALLY DEPLOYABLE TOW BAR

Discovery has the option of an electrically deployable tow bar on SE, HSE, HSE Luxury and Landmark Edition. This is deployed using a convenient button in the loadspace compartment, or via the Touchscreen.

2 TOW HITCH ASSIST

Tow Hitch Assist makes coupling a trailer to the vehicle much easier by helping you visualise the hitching process; it displays the predicted path of the vehicle tow ball towards the trailer tow bar on the Touchscreen. Standard with 360° Surround Camera.

3 NOSE LOAD MEASUREMENT

HSE and HSE Luxury vehicles fitted with the electrically deployable tow bar feature Nose Load Measurement which allows you to quickly and easily measure the nose load of your trailer. This system can be operated via the Touchscreen.

4 REAR HEIGHT ADJUST

The standard Rear Height Adjust allows the use of switches in the loadspace or on the key fob to lower the rear ride height - useful when loading or unloading cumbersome items, or when hitching, unhitching or loading a trailer.

5 TRAILER LIGHT TEST

This industry-first feature enables you to test your trailer lights without sitting in the vehicle. When an optional electrically deployable tow bar is fitted, the automatic system is used to pulse the lights in a sequence, and is triggered via the Touchscreen or a button in the loadspace compartment.

6 TOW ASSIST

On the road, the Tow Assist feature helps with reversing by predicting the trailer's direction. You can even choose your trailer's width for precise guidelines displayed on the Touchscreen. Standard with 360° Surround Camera.

*3,000kg on Si4 Ingenium engine.

Towing feature compatibility may be affected by trailers equipped with LED lights. Please consult your nearest Land Rover Retailer for more information. Please ensure you comply with relevant legislation in the UK.

Vehicle shown left is HSE Luxury in Namib Orange with optional 'Style 5011' wheels.

ADVANCED TOW ASSIST

Discovery features our most advanced trailer reversing aid to date. Advanced Tow Assist enables the driver to guide a trailer into position by simply following its trajectory on the main Touchscreen, and controlling its path using the rotary knob from the Terrain Response 2 system on the centre console. This is much more intuitive than using the steering wheel because within one field of vision, it effectively steers the trailer along the desired path. This is rather than the opposing direction method which is what happens with conventional steering.

In addition to significantly reducing driver workload, the feature enhances manoeuvrability and safety when reversing, and will alert the driver when approaching a jack-knife situation.

Advanced Tow Assist* is only available with 360° Surround Camera and Capability Plus Pack. A Land Rover approved tow bar is required in order to enable this feature.

360° SURROUND CAMERA

For a complete, all-round view, the optional 360° Surround Camera incorporating T-Junction View helps to see everything clearly on the high-resolution full-colour Touchscreen. Using four digital cameras discreetly placed around the vehicle, the system provides an almost complete 360° view, including a bird's-eye overhead view. It is perfect for more complex driving assignments such as towing a yacht or a horsebox, as features such as Hitch and Load Assist work seamlessly through this system. Along with the ability to display several different views at the same time, this technology can also zoom and pan, ensuring objects and angles normally below the line of sight can be seen.

TRAILER STABILITY ASSIST

Trailer Stability Assist (TSA) is a standard feature that monitors the vehicle to detect movements in the trailer and then uses selective braking to help correct potentially hazardous situations.

*Not available with S models and Si4 Ingenium engine.

Towing feature compatibility may be affected by trailers equipped with LED lights. Please consult your nearest Land Rover Retailer for more information. Towing features may vary. Please ensure you comply with relevant legislation in the UK.

Vehicle shown is HSE Luxury in Namib Orange.

COMFORT FOR ALL

AUTOMATIC ACCESS HEIGHT

It's always good to arrive in style, so that's why we've introduced Automatic Access Height. When you pull up at your chosen destination and the ignition is switched off or the seat belts are unclipped, the vehicle lowers by an initial 15mm. Then, as you open the door, it drops to its full access height of 40mm below normal ride height, making exit - and entry - that much more relaxed and elegant. The ride height automatically returns to its normal height as you pull away.

HOMELINK® SYSTEM

A universal transmitter fitted to the underside of the interior rear view mirror. This transmitter can be programmed to operate up to three home or office wireless controlled systems, such as garage doors, automatic gates, or security lighting. By replacing the individual remote control units normally required for each system, the driver no longer needs to search the car interior for the correct handset when needed.

CABIN AIR IONISATION

This optional nanoe™ technology enhances the well-being of both driver and passengers alike. It improves the air quality within the vehicle cabin by removing allergens, viruses, airborne bacteria and associated odours. It does so by ionising particles in the air, making them attract to and neutralise the air contaminants. It can be switched on or off.

HomeLink® is a registered trademark of Gentex Corporation.
Vehicle shown is HSE Luxury in Silicon Silver with optional 'Style 5011' wheels.

PANORAMIC ROOF

The fixed front and rear panoramic roof¹ or sliding front sunroof and fixed rear panoramic roof², enhance the sense of space in the vehicle's interior and flood it with natural light. This benefits all three rows, as well as providing enhanced views of the surrounding environment.

Importantly, the toughened glass has a dark tint to maintain a comfortable temperature inside the cabin and protect occupants and the interior from the sun's rays. Powered interior blinds are also provided for added comfort when a panoramic roof is specified.

CONFIGURABLE AMBIENT INTERIOR LIGHTING

New levels of ambient refinement and personalisation have been reached with Configurable Ambient Interior Lighting featuring as standard on HSE Luxury.

This feature allows you to vary the shade of the cabin, changing the ambience to suit your mood. There are five colours in total, ranging from Ice White through to Moon Light and Racing Red.

CLIMATE CONTROL

To ensure that the interior is maintained at the perfect temperature, whatever the weather outside, Discovery features a highly efficient climate control system. The result of an incredibly rigorous development programme, the system has been tested in real-world conditions in temperatures ranging from -40 to +50°C.

Four versions are available. These range from manual air conditioning, to a two or three-zone automatic system, featuring separate temperature controls for driver, front passenger and second row seats. A premium four-zone system is available as an option on all models, which has separate climate controls for driver, front passenger and passengers each side of the second row.

With its independent heating and cooling capability, the four-zone system offers a significant improvement in rear seat luxury, with multiple outlets at face and foot level.

SEATING

Heated front and second row outboard seats are available as an option on S, SE, Landmark Edition and standard on HSE. Optional first-in-class heated third row seats are also available on HSE and HSE Luxury.

No matter the temperature, heated and cooled front and second row outboard seats are also available on HSE and HSE Luxury. This enables both the driver and passenger to set their preferred temperature independently and is controlled via the Touchscreen.

For the ultimate in comfort, optional massage front seats are available on HSE Luxury, allowing both the driver and front passenger to select individual programmes via the Touchscreen. Varying in intensity, there are five settings to choose from; each one delivers a soothing massage to improve both the driver and passenger's comfort.

¹Standard on HSE and Landmark Edition. Optional on S and SE.

²Standard on HSE Luxury. Optional on S, SE, HSE and Landmark Edition.

Features and their availability may differ by vehicle specification and market.

Please see pages 86-106, or contact your nearest Land Rover Retailer, for more information.

Interior shown is HSE Luxury in Light Oyster/Espresso with Four-zone Climate Control.

ACTIVITY KEY

Activity Key makes living life to the full even easier. For extra convenience, you can wear the Activity Key if you prefer not to carry a key fob. The wristband is robust and fully waterproof, allowing you to enjoy a range of activities - from sailing to skydiving - and keep your car key with you. Activity Key has been tested in a number of extreme environments and is therefore capable in depths of up to 30m of water and in temperatures ranging from -40°C to +85°C.

You can use the Activity Key to lock and unlock your vehicle. When exiting, you can leave the conventional key fob inside and present the Activity Key to the tailgate to lock it. The conventional key fob is then automatically deactivated for security. Enjoy the Activity Key as an optional feature with SE, HSE, HSE Luxury and Landmark Edition, or as a Land Rover Retailer fit accessory.

ENGINES

8-SPEED AUTOMATIC TRANSMISSION

All petrol and diesel engines in Discovery are paired with the advanced electronically controlled 8-speed Automatic Transmission, which has been tuned by Land Rover engineers to combine silky-smooth shifting with exceptionally rapid response. With eight closely spaced ratios, gear changes are almost imperceptible, with each shift completed in just 200 milliseconds.

Controls include steering wheel-mounted paddle shift as standard, enabling the driver to take control of gear shifting manually.

The optimised lightweight 8-speed Automatic Transmission is the perfect partner to the torque-rich petrol and diesel engines, and contributes to their notable fuel efficiency.

The transmission is tuned to select torque converter lock-up as early as possible to reduce slip and energy loss. Transmission Idle Control disengages 70 percent of the drive when the vehicle is stationary and the engine is idling in Drive, significantly reducing fuel consumption in urban conditions.

In cold conditions, the transmission selects a lower gear to promote fast warm-up and get the engine up to its efficient operating temperature as soon as possible. For engine availability see page 76.

Vehicle shown left is HSE Luxury in Namib Orange with optional 'Style 5011' wheels.

BODY AND CHASSIS

STRENGTH AND STABILITY

LIGHTWEIGHT CONSTRUCTION

With a state-of-the-art aluminium monocoque body, Discovery enjoys greater levels of performance, together with improved strength, sustainability and efficiency. At up to 460kg lighter than its predecessor*, it also benefits from a 4-cylinder engine which delivers improved fuel economy. Added to which, thanks to utilising the latest in materials and build technologies, the vehicle can readily take the knocks and impacts associated with off-road driving.

STATE-OF-THE-ART LIGHTWEIGHT SUSPENSION ARCHITECTURE

Another key factor in the driving capability of Discovery is the lightweight suspension architecture.

Primarily constructed from lightweight aluminium components, the suspension is fully independent, with a wide-spaced double-wishbone design at the front and an advanced multi-link layout at the rear.

The suspension concept is specifically developed to maximise Discovery's unrivalled breadth of capability, offering responsive and agile handling together with supreme ride quality and refinement.

To see the available suspension options on Discovery please see page 33.

SAFETY

5* EURO NCAP RATING

Discovery has been awarded the maximum five star safety rating from Euro NCAP – the European New Car Assessment Programme. All seating positions are assessed to ensure a high standard of occupant protection. Discovery also has a comprehensive occupant safety package including driver and passenger airbags, and side curtain and thorax airbags.

OCCUPANT SAFETY PROTECTION

Discovery's optimised aluminium body structure protects occupants using an incredibly strong and stable safety cell. The crash structure is extensively optimised using computer simulation tools which allows engineers to conduct a significant number of 'virtual' crash tests long before physical prototypes are available.

The occupant safety package includes a comprehensive system of airbags and restraint systems including driver and passenger airbags, side curtain and thorax airbags and seat belt pretensioners¹.

Discovery features eight airbags as standard.

SEAT BELT PRETENSIONERS¹

Acting in conjunction with the airbags, they provide additional protection in the event of a front impact by reducing the forward movement of the occupant.

ISOFIX POINTS

Up to five¹ lower ISOFIX/i-Size mountings and associated top tether anchor points are featured across all three rows of seats. These provide optimum safety for the fixing of child restraints. Please check local market for availability as standard.

CURTAIN AIRBAGS WITH ROLLOVER SENSING

In the event of a side impact or rollover, these are deployed to provide greater protection against head injuries.

DRIVING AND PARKING SAFETY AIDS

There are extensive driving and parking safety aids available including Emergency Braking, Blind Spot Assist, Park Assist and 360° Surround Camera². In addition, LED lights have been cleverly developed to wrap around the side of the vehicle to enable the indicators to be more visible to improve safety³. Adaptive LED headlights with signature DRL, available as an option on SE, HSE, HSE Luxury and Landmark Edition, combine practicality with distinctive design. For more relaxed night-time driving, adaptive lighting varies the light cast ahead of the vehicle so that the beams follow the curve of the road.

To see the range of driving and parking safety aids available please see pages 48-53.

PASSENGER SEAT BELT CHECK SYSTEM

SAFETY SYSTEMS

- | | | |
|---------------------------|--|-------------------------------|

| 2 PASSENGER AIRBAG | 5 AIRBAG DEACTIVATED SWITCH FOR FRONT PASSENGER | 8 ISOFIX/I-SIZE POINTS |
| 3 CURTAIN AIRBAGS | 6 SEAT BELT PRETENSIONERS | |

Vehicle shown above is a left hand drive model from the Land Rover Global range. The positioning of safety systems inside the vehicle will vary by market. Please contact your nearest Land Rover Retailer for more information.
 Vehicle shown above is HSE Luxury in Namib Orange.

ENVIRONMENTAL

SUSTAINABILITY

Discovery demonstrates Land Rover's continuing commitment to enhancing the sustainable performance of its products and operations and its determination to deliver vehicles that are both relevant and highly desirable. For example, as part of our commitment to reducing our environmental footprint, our Engine Manufacturing Centre in the UK features over 22,000 solar panels - one of the largest roof-mounted solar-arrays in the country.

Discovery has been designed with a life cycle approach, aiming to use fewer resources and more environmentally sustainable materials, and minimise the CO₂ emissions over the vehicle's entire life cycle. Its lightweight aluminium structure and optimised powertrains have reduced the environmental impact from material production and development, through to customer use.

Discovery is built in state-of-the-art manufacturing facilities operating to some of the highest environmental standards anywhere in the world. By focusing on innovation and efficiency in every aspect of its processes, the company has achieved a 38 percent reduction in operational CO₂ for each vehicle built, compared to 2007 levels. Water use has also been reduced by 34 percent and zero waste to landfill from manufacturing operations has been achieved. Investment, commitment and focus in these areas continue to drive further efficiencies. Responsible resource management is integral to the company's long-term sustainability strategy, for example all UK operations are powered by 100 percent renewable, or zero carbon electricity.

*JLR Data 2014/15 vs. 2007.

The figures provided are as a result of official manufacturer's tests in accordance with EU legislation. For comparison purposes only. Real-world figures may differ. Note that CO₂ and fuel economy figures can vary according to wheel fitment.

Vehicle shown is HSE Luxury in Namib Orange with optional 'Style 5011' wheels.

DISCOVERY OFFERS YOU GREAT
OPTIONS AND FLEXIBILITY TO
PERSONALISE YOUR VEHICLE.

The following pages take you through a logical series of steps to make it suit your lifestyle. There are several choices: from selecting your engine and model to exterior and interior colours, wheels, finishes and those detailed touches to enable you to personalise your vehicle.

If you'd like to bring your options to life, go to our online configurator at landrover.co.uk

76-77

1

**STEP 1
CHOOSE YOUR ENGINE**

You can select from a range of powerful petrol or diesel engines.

78-101

2

**STEP 2
CHOOSE YOUR MODEL
AND OPTIONS**

Compare the standard and optional features on each model. There's also a choice of pack options to personalise your vehicle.

102-105

3

**STEP 3
CHOOSE YOUR COLOUR**

There's a wide range on offer to enable you to express yourself.

106-107

4

**STEP 4
CHOOSE YOUR WHEELS**

There's a range of styles, each one designed to complement the bold exterior.

108-115

5

**STEP 5
CHOOSE YOUR INTERIOR**

When you choose your interior, you can personalise it by selecting the ideal colour combination of seats, materials and your preferred finisher. These three considerations help celebrate and enhance a sense of your own style.

6

**STEP 6
CHOOSE YOUR ACCESSORIES**

This range of stylish and practical accessories can be tailored to suit any lifestyle.

1

CHOOSE YOUR ENGINE

WHICH ENGINE IS RIGHT FOR YOU?

Petrol or diesel? Lots of people struggle with this. But the truth is there's no one correct answer. It really depends on what your priorities are and the type of driving you do. Diesel engines are more powerful than petrol engines. They have a higher torque and so give a smoother drive. And they're more fuel-efficient than petrol, particularly out of town on long journeys. On the other hand, the harshness, noise, and vibrations in diesel-driven cars are higher than that of a petrol-driven car. Also, the maintenance cost of diesel cars is greater. Petrol cars are generally quieter and cheaper to run on shorter journeys. In a nutshell, if you intend to drive a lot of miles it's worth going for diesel. But if you don't see yourself using your car that much or driving too far, you'll probably be better off with petrol.

INGENIUM DIESEL ENGINE

Sd4 240HP

This is the 240HP high output version of the Ingenium Diesel engine. The series sequential twin turbocharged engine delivers an ideal combination of class-leading performance and superior low-speed driveability. The engine features a unique piston design and optimised combustion bowls to support the increase in power and torque output. Solenoid injectors, operating at high pressures up to 2,200 bar with an increased injector flow rate of 32.5 percent, are utilised. These open and close at extremely high speeds with ultimate precision to inject fuel for an effortless and more economical drive

DIESEL ENGINE

Sd6 306HP

The 3.0 litre V6 Twin Turbocharged Diesel engine produces 306HP and 700Nm of torque and is ideal for higher power and torque demand usage with exceptional driveability. The innovative parallel sequential twin turbochargers - a concept pioneered by Jaguar Land Rover - feature a ceramic ball bearing on the primary turbo to reduce friction for maximum throttle response. A switchable coolant pump and two-stage oil pump are used for optimal thermal energy management, improving operating efficiency. The piezo common rail fuel injection system enables precise control of the amount of fuel injected creating a uniform mixture for more efficient combustion and less emissions. The engine utilises these technologies to offer premium refinement and performance

INGENIUM PETROL ENGINE

Si4 300HP

The 2.0 litre 4-cylinder Si4 Petrol engine utilises cutting-edge innovations to enhance every aspect of performance. Technologies such as Continuous Variable Valve Lift system, in combination with variable cam timing, delivers maximum efficiency, optimising both performance and fuel economy. The 300HP engine produces torque of up to 400Nm at 1,500-4,000 rpm and offers enhanced boosting technology through its turbocharger, featuring ceramic ball bearings and a high flow compressor wheel - an innovation ensuring the best possible launch performance and transient response while still delivering high peak power. The electronically controlled split-flow cooling system improves engine warm-up, resulting in lower fuel consumption and emissions.

2

EACH MODEL HAS A CHOICE OF UNIQUE FEATURES

This guide will help you to select your ideal Discovery. On the following pages you'll see the standard features for each model.

DISCOVERY S

- Brunel grille with Narvik Black surround
- Narvik Black fender vents
- Body-coloured door handles
- Brunel Discovery script (bonnet and tailgate)
- Anthracite tow eye covers
- Heated, electric door mirrors
- Halogen headlights
- 19" 5 split-spoke 'Style 5021' alloy wheels
- 8-way manual fabric front seats
- Emergency Braking
- Lane Keep Assist
- Sound System 125W with six speakers
- 10" Touchscreen
- DAB radio
- Air conditioning
- Third row seats
- Electronic air suspension
- Powered inner tailgate
- Powered tailgate
- Heated windscreen
- 19" full size spare wheel
- Analogue Dials with Central TFT Display
- Cruise Control and Speed Limiter
- Front and Rear Parking Aid
- Rear Camera
- Driver Condition Monitor.

DISCOVERY SE

- Contents of S, plus:
- Rain sensing windscreen wipers
- Automatic headlights
- Auto High Beam Assist (AHBA)
- Heated front seats
- Navigation Pro
- Protect with Remote Premium
- Pro Services and Wi-Fi Hotspot
- Auto dimming interior rear view mirror
- 360° Parking Aid
- Park Assist
- Clear Exit Monitor
- Rear Traffic Monitor.
- Replaces S content:
- Dark Atlas grille and fender vent ingots with Narvik Black surround
- Dark Techno Silver tow eye covers
- LED headlights with signature Daytime Running Lights
- Two-zone Climate Control
- Power fold, heated door mirrors with memory and approach lights
- Enhanced Sound System 250W with 10 speakers
- 12-way (10-way electric) memory grained leather front seats
- Heated washer jets.

DISCOVERY HSE

Contents of SE, plus:

- Signature Hi-Line tail lights
- Keyless Entry
- Adaptive Cruise Control
- Blind Spot Assist
- High-speed Emergency Braking
- Traffic Sign Recognition and Adaptive Speed Limiter
- Electrically reclining rear seats
- Powered third row seats
- Front fog lights
- Powered gesture tailgate
- Heated front and rear seats.

Replaces SE content:

- Atlas grille and fender vent ingots with Narvik Black surround
- White Silver tow eye covers
- Auto-dimming, power fold, heated door mirrors with memory and approach lights
- 20" 5 split-spoke 'Style 5011' alloy wheels
- Fixed front and rear panoramic roof
- Interactive Driver Display
- Electrically adjustable steering column
- 16-way (14-way electric) memory Windsor leather front seats
- Meridian™ Sound System 380W with 10 speakers plus a dual-channel subwoofer
- Treadplates with metal inserts.

DISCOVERY HSE LUXURY

Contents of HSE, plus:

- Sliding front sunroof and fixed rear panoramic roof
- Intelligent seat fold
- Terrain Response 2*
- Winged front headrests
- Heated steering wheel
- Rear Seat Entertainment
- Premium carpet mats.

Replaces HSE content:

- Atlas Discovery script (bonnet and tailgate)
- Body-coloured door handles with Atlas surround
- 21" 9 spoke 'Style 9002' alloy wheels
- Heated and cooled front seats with heated rear seats
- Four-zone Climate Control
- Meridian™ Surround Sound System 825W with 14 speakers plus a dual-channel subwoofer
- Configurable Ambient Interior Lighting.

*Not available with Si4 300HP engine.

HSE Luxury model shown with optional 20" 10 split-spoke 'Style 1011' alloy wheels.

PERSONALISING YOUR DISCOVERY

NEW DISCOVERY LANDMARK EDITION

Discovery Landmark Edition conveys a strong sense of modernity. From unique Landmark badging to the Dynamic Exterior Design Pack which features Narvik Black accents, each detail of the vehicle exemplifies compelling design. These features are perfectly complemented by 20" 5 split-spoke 'Style 5011' wheels with Gloss Black finish or the optional unique 21" 5 split-spoke 'Style 5085' Gloss Mid-Silver wheels with contrast Diamond Turned finish. A fixed front and rear panoramic roof, privacy glass and signature Hi-Line tail lights complete its sleek and contemporary appearance.

The vehicle's interior exudes versatility and sophistication. Features include grained leather seats in Ebony or Acorn, and an exclusive Aluminium finisher to the fascia and doors - all accentuating its refined and purposeful look. Meridian™ Sound System comes as standard and provides authentic sound for every seat.

Technical Lozenge Aluminium finisher

Unique Landmark badging

Interior shown is Ebony/Ebony with grained leather.

PERSONALISING YOUR DISCOVERY

DYNAMIC DESIGN PACK

Bold. Arresting. Available on HSE and HSE Luxury models, this option allows you to enhance Discovery's recognisable design cues even further.

A unique front bumper design gives the exterior a sportier feel. Narvik Black features include the unique mesh grille, fender vents, Discovery bonnet and tailgate script, tailgate appliqué, and mirror caps to further enhance the appearance.

Carefully selected interior touches add to the impact of the three colourway choices available in Windsor leather, with premium details including contrast stitching and micropiping. Dark Brushed Aluminium centre stack side rails and the distinctive Titanium Mesh trim finisher complete the look.

The interior is further enhanced with bespoke premium carpet mats, Bright finish paddle shift and aluminium sport pedals. Please refer to page 97 for Dynamic Design Pack options.

To complement the Dynamic Design Pack, choose from our optional Designer's Choice 21" Satin Dark Grey or 22" Satin Dark Grey with contrast Diamond Turned finish alloy wheels, with the option to add a Black contrast roof* (see image on the left for an example). Other optional wheels are also available. See pages 106-107 for details.

Tailgate appliqué

Ebony seat with Light Oyster contrast micropiping

Titanium Mesh trim finisher

Optional alloy wheels in Satin Dark Grey with contrast Diamond Turned finish

*Please refer to pages 102-105 for availability.
Body-coloured roofs are also available.

PERSONALISING YOUR DISCOVERY

BLACK DESIGN PACK

For a striking effect, Discovery can be personalised with the optional Black Design Pack on SE, HSE and HSE Luxury models. The Black Design Pack is available with all exterior colour options and includes a Narvik Black grille, fender vents and mirror caps, with Black 'DISCOVERY' bonnet and tailgate script.

To complement the Black Design Pack, choose from our optional Designer's Choice 20", 21" and 22"* Gloss Black alloy wheels. Other optional wheels are also available. See pages 106-107 for details.

Narvik Black grille

Optional Gloss Black alloy wheels

Narvik Black mirror caps

Narvik Black fender vents

*22" black wheels only available on HSE and HSE Luxury models.

CHOOSE YOUR COLOUR

Now you have chosen your Discovery model, you can select your exterior paint colour. From rich, deep lustres to incandescent metallic patinas, our paints incorporate the latest in pigment technologies. Our solid paints produce a deep, flat colour. Our metallics deliver a sparkle finish that is sure to catch the eye. And our premium metallic paints enhance both the colour and the intensity of the sparkle, providing a sleek metallic finish to give your vehicle even more presence.

You can select either a body-coloured or contrast roof in Black to further enhance your vehicle's exterior. Metal and panoramic roofs available with all colour finishes.

CHOOSE YOUR INTERIOR – SEAT CONFIGURATION

Electrically Reclining Rear Seats

Standard on HSE and HSE Luxury, these seats have forwards/backwards movement of 160mm, allowing truly flexible use of space for luggage or to maximise passenger legroom. The seats also power recline up to 27° and allow for load-through to provide even greater comfort and convenience.

Seven Full-Size Seats with Stadium Seating

A neatly integrated third row of seats gives you even more versatility, with the third row easily accessed at the touch of a button. On HSE and HSE Luxury models, the third row has the option of heating, a first for the segment, as well

as the capability of power folding. Discovery makes light work of carrying you and six other adults in the most comfortable and contemporary surroundings.

CHOOSE YOUR INTERIOR – COLOUR COMBINATIONS

Now you have chosen your model, you can use this table to select the perfect combination of interior colour, exterior colour and interior finishers.

LAND ROVER GEAR – ACCESSORIES

Discovery is so capable and adaptable it can get straight to work across a huge variety of vastly differing conditions and roles. Even so, some owners want to add their own stamp of individuality by tailoring their Discovery to their specific needs with a range of stylish, practical accessories that are tough, versatile and bring an opportunity for personalisation.

Importantly, these accessories can be added by your Land Rover Retailer at any stage during the vehicle's life - not just when it's new. Naturally, Land Rover Approved Accessories are designed, tested and manufactured to the same exacting standards as the original equipment fitted to your vehicle.

DESIGN

Loadspace Organiser¹

Convenient loadspace organiser provides segregated compartments to stow wet, dirty or delicate items or separate shopping/luggage. The front and rear compartments also have flexible dividers to create smaller compartments within them. Featuring two lockable lids, it is secured via loadspace 'D' loops.

Stainless Steel Undershield - Front²

The off-road designed undershield, manufactured from stainless steel, features a premium Bright Polished finish for the front and rear of the vehicle.

Sports Pedal Covers³

Stainless steel Bright finish sports pedal covers are easy to fit and feature hidden fixings for a clean finish.

Bright Side Tubes⁴

Highly polished stainless steel side tubes provide an off-road inspired appearance, designed to complement the vehicle's exterior design.

Deployable Side Steps⁴

Please contact your nearest Land Rover Retailer for fitment options. These smart, practical steps make it easier to get in and out of the vehicle. Neatly stowed under the sills, the side steps automatically deploy as soon as the door is opened, or when activated by the key fob. They stow automatically when the door is closed.

Fixed Side Steps⁴

The side step aids entry and exit to the vehicle, improves access to the roof and also provides a rugged, off-road style to the vehicle. Features embossed 'Discovery' Branding and bright metallic trim finish to complement the vehicle's exterior design cues.

¹Cannot be used in conjunction with other loadspace accessories and where specified third row seats must be stowed.

²Not available with Dynamic Design Pack. ³Automatic transmission only. Standard as part of Complete Dynamic Design Pack.

⁴Fitting of side tubes and side steps may affect the off-road capability of the vehicle.

TOURING

Click and Go System

Click and Go base required for all attachments. Click and Hook is a universal hook that creates extra storage space for items to be hung. Click and Work is a folding table especially useful on long journeys and offers the rear passengers a practical surface providing some office space and a cupholder.

Click and Go System

Click and Hang is a removable coat hanger, allowing shirts and jackets to be kept crease-free whilst transporting. Click and Play is a removable tablet holder attachment which is available for various tablets, and can be easily positioned in multiple angles for in cabin comfort and rear entertainment. Click and Go base required for all attachments.

Centre Armrest Cooler/Warmer Box

Food and drinks chiller and warmer that acts as a rear centre armrest. With a leather-covered top, it is held in place by the centre seat belt and powered from the rear auxiliary socket. Ideal for long journeys with the family.

Sunshades

Easy to install sun blinds provide increased comfort helping to protect the interior from heat and glare of the sun.

Roof Rails¹

Roof rails facilitate easy fitment of cross bars for roof carrying. Pre-set positioning points ensure cross bars are fixed in optimum position for weight distribution and dynamics. Maximum payload 80kg².

Cross Bars¹

Easy to attach and remove lockable cross bars, in a durable bright finish aluminum. Aerodynamic profile minimises drag and wind noise. Incremental height of roof rails and cross bars when fitted is up to 110mm. Maximum load capacity 74kg².

Roof Box¹

Available in a range of sizes, all versions can be mounted either side for kerbside opening in any country and include integral locks for security and peace of mind. Carrying capacity ranges from 320 litres for the Sports Box to the 410 litre Luggage Box or the capacious 430 litre Large Sports Box. Maximum payload ranges from 52kg² on Large Sports Box, 56kg² on Sports Roof Box, 57kg² on Luggage Box.

SPORTING

Detachable Tow Bar

Convenient and easy to use, the detachable tow bar ensures a clean look when not in use. 50mm tow ball. Approved for up to 3,500kg⁴ maximum towing capacity and 195kg⁵ nose weight. Towing electrics are included.

Multi-Height Tow Bar

The multi-height tow bar contains a towing armature and slider plate. 50mm tow ball. Three different towing heights. Approved for up to 3,500kg⁴ maximum towing capacity and 350kg⁵ nose weight. Towing electrics are included.

Electrically Deployable Tow Bar

The electrically deployable tow bar is operated via a switch in the rear loadspace or by the infotainment system in the cabin. Stowed discreetly behind the rear bumper when not in use, providing a clean, attractive finish. The towing electrics are also hidden until deployed. Approved for up to 3,500kg⁴ maximum towing capacity and 350kg⁵ nose weight. Includes a unique trailer light test facility which allows the driver to check if the trailer lights are functioning correctly.

Tow Bar Mounted Bike Carrier³

Tow bar mounted bike carrier available for two or three bikes. A quick release design for ease of use and lockable for security. Maximum load capacity 51kg on the three bike carrier, 40kg on the two bike carrier.

Ski/Snowboard Carrier¹

Carries four pairs of skis or two snowboards and incorporates slider rails for easy loading, and is also lockable for security. Maximum payload 36kg².

Protective Seat Covers

Helps protect seats from mud, dirt, wear and tear. Easily fitted and wipeable.

Body Side Mouldings

Enhances the side of your vehicle and provides protection for your door panels from accidental damage by adjacent vehicles.

³Heat shield is required for two and three tow bar mounted bike carrier. ⁴Towing capability varies by powertrain. ⁵Towing nose weight dependent upon powertrain and wheels fitted.

ACTIVE

Tailgate Event Seating in Ebony Leather¹

The tailgate event seating is handcrafted from beautiful Windsor, Ebony leather with a highly durable aluminium frame. Stowed in the loadspace, these seats can be quickly and easily fitted to provide comfortable seating for two adults on the lower tailgate, when the vehicle is stationary. The seats come complete with a luxury storage bag with soft lining, which also acts as a useful protective mat to prevent the users' clothes coming into contact with the exterior vehicle surfaces when in use.

Loadspace Partition and Luggage Divider

Designed to prevent luggage from entering the passenger compartment. The design of the luggage partition has been optimised to second row seating featuring tilt functionality. The luggage divider partition can be fitted to the luggage partition to separate the loadspace into two sections. Semi-rigid waterproof loadspace liner tray with a raised lip on three sides to protect loadspace floor and side wall carpets from dirt or wet equipment.

Loadspace Rubber Mat

The Land Rover branded waterproof rubber mat helps to protect the rear loadspace carpet from general dirt.

Passenger Footwell Net

The passenger footwell net provides additional storage space within the cabin. It is easily accessible and ideal for everyday small items such as maps and letters.

Mudflaps

Mudflaps are a popular upgrade for reducing spray and ensuring paintwork is protected from debris and dirt. Engineered to complement the vehicle exterior design.

Rubber Floor Mats

Rubber footwell mats help provide protection from general dirt.

LIFESTYLE

Pet Loadspace Protection Pack

Designed to provide water resistant protection and easy cleaning of the loadspace from wet and muddy paws. Combines the quilted loadspace liner, full height luggage partition and spill resistant water bowl.

Pet Transportation Pack

Convenient option to provide a comfortable environment for transporting pets, which can be fitted or removed quickly as and when required. Combines the foldable pet carrier, spill resistant water bowl and loadspace rubber mat.

Pet Care and Access Pack

Taking the effort out of transporting pets, this option ensures everything required is to hand to transport pets in comfort. Combines the full height luggage partition, quilted loadspace liner, pet access ramp and portable rinse system.

Wireless Phone Charging Cupholder

The wireless phone charging cupholder has been designed to charge utilising the cup holder space in the centre console. The holder will accommodate varying phone sizes securely in place. The charger displays an LED light to indicate when charging, and turns off when complete. Fits phones up to 72mm wide.

Aqua Sports Carrier²

Carries one sailboard, canoe or kayak (two Kayak Carrier carries two kayaks or canoes). Includes lockable multi-purpose holder to carry oars or paddles. Tilts to facilitate easy loading/unloading. Features lockable straps and rubber supports to maintain optimum weight distribution whilst protecting the kayak and vehicle from scratches/scuffs. Maximum load capacity 45kg³.

Aqua Sports Carrier - two Kayaks (not shown)²

Versatile Roof Rack²

The versatile roof rack has a lightweight and fully integrated design which provides a large volume carrying capacity. When fitted maximum load capacity 60kg³.

²Roof rails and cross bars are required for all Land Rover roof mounted accessories. Objects placed above the roof mounted satellite antenna may reduce the quality of the signal received by the vehicle and could have a detrimental effect on the navigation and satellite radio system, if fitted. ³Maximum payload equals the load capacity of the roof mounted accessory.

THE WORLD OF LAND ROVER

Your Land Rover has been designed and engineered to help you make more of your world. It can take you to places other vehicles simply can't reach in a style that cannot be matched. To celebrate the Land Rover lifestyle, we've put together a range of experiences, publications and the Land Rover Lifestyle Collection. There's a world to explore. Get out there and enjoy it.

EXPERIENCE DRIVES

Bring out your adventurous side and experience Land Rover's legendary capability for yourself. Under the expert guidance of a world-class instructor, head to the most exciting and challenging off-road terrains and take the vehicle to its limits.

landrover.co.uk/experience

ADVENTURE TRAVEL

From the sheer exhilaration of the Arctic ice to the awe-inspiring dunes of Namibia, Land Rover Adventure Travel offers you once-in-a-lifetime experiences that bring the spirit and emotion of our vehicles to life.

BRAND PARTNERSHIPS

Integrity. Courage. Pride. These are the values that Land Rover shares with its partners. Whether it's the Invictus Games, Virgin Galactic, Rugby World Cup 2019™ or the British and Irish Lions, each one is driven by exceptional people. Those who push their capabilities to the very limits and champion the determination to go above and beyond.

landrover.co.uk/sponsorship

HUMANITARIAN PARTNERSHIPS

Since 1954, Land Rover is proud to have supported the incredible humanitarian work of the International Federation of Red Cross and Red Crescent Societies (IFRC). Through vehicles, funding and combined expertise, this ambitious global partnership has helped to transform the lives of over one million people, across four continents.

YOUR PEACE OF MIND

CUSTOMER SERVICE

When you bring your Land Rover to us, we use cutting-edge diagnostic equipment to assess all your vehicle's mechanical and electronic systems. Our qualified Technicians use tools specifically designed for our vehicles and only fit genuine Land Rover parts and Gear Accessories.

For further details contact your local Land Rover Retailer or search 'Land Rover Ownership'.

LAND ROVER ROADSIDE ASSISTANCE

Land Rover Assistance provides assistance in motoring emergencies, from immobilisation due to breakdown or accident to minor problems such as punctures. You can rely on our roadside assistance, whatever the situation, wherever you happen to be.

For further details please consult your Warranty Benefits handbook, contact your nearest Land Rover Approved Service Centre or search 'Land Rover Roadside Assistance'.

LAND ROVER FINANCIAL SERVICES

Getting the keys to your very own Land Rover has never been so simple. And it's more affordable than you might think. New or used, for personal or business use, we have an option that puts you in complete control.

For further details contact your local Land Rover Retailer or search 'Land Rover Finance'.

FLEET & BUSINESS

Land Rover is dedicated to being the premium manufacturer of choice for fleets and businesses, by providing a highly attractive range of vehicles and exemplary customer service. Distinctive, capable and versatile, all Land Rover vehicles deliver low Total Cost of Ownership through strong residual values, competitive service, maintenance and repair costs, and impressive fuel economy and CO₂ emissions.

We are also committed to providing a totally customer-focused aftersales service, which will ensure every Land Rover vehicle is kept on the road and in top condition, in the easiest and most cost-efficient way for businesses.

Search 'Land Rover Fleet and Business' for full details.

IMPORTANT NOTICE: Jaguar Land Rover Limited is constantly seeking ways to improve the specification, design and production of its vehicles, parts and accessories and alterations take place continually. Diesel Particulate Filter (DPF)	■		■		-	

*The figures provided are NEDCEq calculated from official manufacturer's WLTP tests in accordance with EU legislation. For comparison purposes only. Real world figures may differ. CO₂ and fuel economy figures may vary according to wheel fitment and optional extras fitted. NEDCEq are figures calculated using a Government formula from WLTP figures equivalent to what they would have been under the old NEDC test. The correct tax treatment can then be applied. **WLTP is the new official EU test used to calculate standardised fuel consumption and CO₂ figures for passenger cars. It measures fuel, energy consumption, range and emissions. This is designed to provide figures closer to real-world driving behaviour. It tests vehicles with optional equipment and with a more demanding test procedure and driving profile. †TEL (Test Energy Low) and TEH (Test Energy High) figures are shown as a range under WLTP testing measures. TEL refers to the lowest/most economical figures (with the lightest set of options). TEH refers to the highest/least economical figures (with the heaviest set of options). WLTP legislation dictates that where there is <5g CO₂ variance between TEL and TEH, only the TEH is declared.
