

TRIBECA

2011

SUBARU

Always a Subaru.

The difference in driving a Subaru is the confidence you feel. A deep sense of contentment that comes from a consistent balance of exciting performance, ingenious design and reassuring safety rarely found in such harmony. It starts with our exclusive engineering – Subaru symmetrical full-time All-Wheel Drive for greater control and the SUBARU BOXER engine for greater balance. And it extends to every component of your vehicle to create a thoroughly incredible driving experience that simply cannot be ignored.

Always

moving forward.

Experience the 2011 Subaru Tribeca and you'll feel this confidence and comfort from every one of its available seven seats. A study in contrasts, the Tribeca is neither too big nor too small, a mid-size SUV with plenty of interior space and seating configurations to suit a family with a wide range of interests. This Subaru also boasts a very high level of interior craftsmanship, a number of truly desirable high-end features and tremendous value for the dollar. What's more, the Tribeca is armed with a powerful and economical SUBARU BOXER engine and superior driving dynamics, making this the progressive SUV for the family on the go – wherever, whenever, whatever.

Tribeca

a Subaru Tribeca.

Always smooth, powerful and nimble.

Always functional, always form-fitting.

Always putting safety first.

Always thinking one step ahead.

The Subaru Tribeca features an expansive cabin that accommodates up to seven passengers and envelops each one in serious comfort. It also incorporates countless storage compartments and an extremely flexible approach to seating, so you can take everyone and everything with you on your next getaway. This is the progressive SUV as it was meant to be.

For every diversion, a versatile solution.

Whether your interests veer towards the adventurous (such as whitewater rafting) or the more laid back (antiquing, for example), the Subaru Tribeca has the versatility to match. With a cavernous passenger cabin and no fewer than 64 different seating configurations, there's always room for a raft, a hidden treasure and the people interested in either or both.

ONE PERSONALITY. MULTIPLE OPTIONS.

A well-designed cabin has the capacity to be a true multi-tasker. The interior of the Tribeca fits the description with a 40/20/40-split flat-folding second-row seat, a 50/50-split flat-folding third-row seat and 2106 L of storage volume. Also standard: roof rails and a cargo compartment with a 12-volt power outlet and six utility hooks. Plus, the Tribeca offers comfortable seating for up to 7 passengers. For everything from a weekend at the cottage to a weeknight soccer practice – the Tribeca fits it all in.

A PLACE FOR EVERY NEED

Not only does the Tribeca have ample storage space, it also boasts a wealth of compartments, nooks and crannies to carry virtually every possible necessity. The evidence: front-door compartments for drinks and maps. A centre console with space for CDs, a cell phone and a mobile music player. Cup holders for front- and back-seat passengers, driver and front-seat passenger seatback pockets, plus a handy sub-floor tray in the cargo area. If you can't find a place for it here, you probably don't really need it.

STORAGE ABOVE AND BEYOND

To increase storage capacity even further, the Tribeca comes standard with raised-profile roof rails, black in colour on the base model and silver on Limited and Premier Package versions. Simply add the proper accessory crossbars and roof carriers and you're set for transporting all manner of sports equipment, camping gear or other necessities.

Logical design, passionate execution.

The Subaru Tribeca is an example of left-brain thinking and right-brain thinking in perfect harmony. The sweeping dashboard surrounds you in comfort and convenience with all the controls placed logically, right where you would expect to find them. All amenities are close at hand as well, so your time behind the wheel will be an absolute pleasure, whether the journey is a scenic one or an everyday commute.

IN-DASH NAVIGATION / MONITOR / DVD ENTERTAINMENT SYSTEM
 The GPS DVD-based navigation system† allows you to get where you're going with simple, step-by-step instructions displayed on the 7-inch high-resolution VGA touchscreen. This multi-purpose screen also features a calculator and calendar for added convenience. When the vehicle is in park, you can even relax and watch your favourite DVDs* – it's like a drive-in movie without having to leave your driveway!

†Tribeca Premier Package. ‡Tribeca Limited Package and Premier Package.

REAR-VIEW CAMERA
 A clear view of the road ahead is a key safety consideration – and so too is a clear view of the road behind. The standard rear-view camera projects a full-colour image of what's behind the vehicle onto the centre screen, greatly increasing visibility, safety and ease of parking.

BLUETOOTH® HANDS-FREE CALLING
 Utilizing Bluetooth technology to bring superior clarity to your hands-free mobile phone calls, voice-activated blueconnect® represents the next generation in mobile communication. Available with both upgrade packages*, the system is simple to access: Select the hands-free profile on your compatible Bluetooth-enabled mobile phone and you're good to go. This voice-activated system can also be paired with multiple phones, store multiple numbers and function in English, French and Spanish.

*Tribeca Limited Package and Premier Package.

Tribeca Premier Package

All things luxury, from A to Z.

Picture what you expect in a luxury SUV and the Subaru Tribeca answers the call. A spacious and well-designed cabin with room for up to seven passengers. High-quality materials used throughout. Comfortable, well-structured seats. And top-flight entertainment features to keep everyone happy.

PREMIUM AUDIO SYSTEM

This 6-CD premium system boasts crisp audio reproduction and superb acoustics, as well as an auxiliary input jack, MP3-compatibility, steering wheel-integrated controls and six speakers tuned specifically for the interior. The Tribeca Limited and Premier Packages also come standard with SIRIUS® Satellite Radio and offer a free 3-month trial subscription to this fantastic service.

HARMAN KARDON® SPEAKERS

The available 10-speaker, 385-watt Harman Kardon® speaker system* is designed to take your listening pleasure to new heights. A powerful subwoofer provides rich, full bass, while a 7-channel amplifier ensures crystal clear sound overall.

**Tribeca Limited Package and Premier Package.*

REAR-SEAT DVD ENTERTAINMENT SYSTEM

Even the lengthiest drive can prove endlessly entertaining with the available rear-seat DVD entertainment system* that includes a 9-inch LCD screen, two sets of wireless headphones, remote control and audio/video auxiliary input for video game consoles.

**Tribeca Limited Package and Premier Package.*

Tribeca Premier Package

Thoughtfully equipped, inside and out.

Heated Front Seats

Individually adjustable heated front seats are just what the doctor ordered for relieving the mid-winter chills.

Rear Cooling Unit

The rear cooling unit provides separate fan control settings, bringing added comfort and convenience for back-seat passengers.

Courtesy Lights

Front- and rear-door courtesy lights illuminate when the door is open, creating a welcoming glow and guiding occupants when entering and exiting the cabin.

Automatic Dual-zone Climate Control

The driver and front-seat passenger can both select the perfect personalized temperature setting with the automatic dual-zone climate control system.

Door Mirror LED Turn Signals

LED turn signals incorporated into the door mirrors are a slick feature that also serve to boost road safety by giving other drivers a clear sense of your intended path.

Power-adjustable Door Mirrors

Generous door mirrors are aerodynamically sculpted for reduced wind noise, heated to defog or melt away frost, power-adjustable to create superior visibility, and foldable to better fit narrow parking spaces.

HID Headlights

(Limited Package and Premier Package)

For greater illumination at night, Xenon High Intensity Discharge (HID) headlights are just the ticket, casting a brighter and whiter beam.

Fog Lights

For those times when foggy weather threatens visibility, standard multi-reflector halogen fog lights answer back with a wide, flat beam for reduced glare and increased safety.

Map Spotlights

These convenient spotlights help illuminate small areas of the cabin and are perfect for reading directions in the dark.

Power-adjustable Front Seats

The power-adjustable front seats – 8-way for the driver, 4-way for the front passenger – ensure maximum comfort at all times. The Limited and Premier Packages bring added convenience: a 2-position memory feature on the driver's seat.

Monitor System

Gain instant information – the time, outside temperature, current fuel consumption and average fuel consumption – via the display screen centred on the dashboard.

Electroluminescent Gauges

The sporty gauge set features red needles that make a full sweep on start-up and electroluminescent lighting for easier legibility.

Power Sunroof

Operated electronically and featuring a manual sunshade, the standard sunroof is perfect for maximizing vitamin D intake on a sunny day and magnifying the stars on a clear night.

Roofline Rear Spoiler

Improved aerodynamics, a sporty look and a more visible integrated brake light are all part of the picture with the standard rear roofline spoiler.

18-inch Aluminum Alloy Wheels

The Subaru Tribeca comes standard with lightweight 5 double-spoke 18-inch aluminum alloy wheels that make a bold statement and deliver better handling response when cornering.

18-inch Aluminum Alloy Wheels

(Limited Package and Premier Package)

The 7-spoke 18-inch aluminum alloy wheels found on Limited and Premier Package models are elegantly designed and finished to enhance curb appeal even more.

Always adding to the driving experience.

Incredible levels of refinement combined with superior dynamics and nimble handling make driving the Subaru Tribeca a decidedly un-SUV-like experience. Smooth, comfortable and enjoyable no matter where your turn behind the wheel takes you, the Tribeca is a vehicle category unto itself.

Stay connected.

Subaru symmetrical full-time All-Wheel Drive

Symmetry gives you balance. Balance gives you control. This is why Subaru has spent nearly 40 years developing and perfecting the Subaru symmetrical full-time AWD system. Enhanced by the SUBARU BOXER engine for an almost perfectly symmetrical layout, it maximizes power delivery with exceptional traction and generates balance and stability for better control in all conditions. More control inspires more confidence behind the wheel and a more gratifying driving experience overall.

DYNAMIC PERFORMANCE

Exceptional traction, courtesy of Subaru symmetrical full-time AWD, makes acceleration feel immediate and exhilarating. Combined with its symmetrical drivetrain layout, the Tribeca is able to deliver responsive handling, stability in the corners and a unique feeling of control at all times.

CONSTANT CONTACT

The more your tires are engaged with the road, the more control you have. This is why power is routed to all four wheels while the vehicle is in motion, so the AWD system doesn't have to react to potential hazards like puddles, bumps or potholes in the road. Instead, the system is able to keep the tires connected to the road as closely as possible at all times.

AGILITY IN AN EMERGENCY

In poor weather, or in the precious seconds it takes to react to a sudden situation, the Subaru symmetrical full-time AWD system – which is almost perfectly balanced side-to-side – provides the stability, agility and traction that help you steer away from danger.

Tribeca

Stay balanced.

SUBARU BOXER engine

Few other SUVs drive with the surefooted confidence or the supreme refinement of the Subaru Tribeca, so it's little surprise that this result has been achieved by an innovative design that gives it a clear edge over the competition. The horizontally opposed configuration of the SUBARU BOXER engine places the pistons 180 degrees apart for a lower, flatter profile than other engine types. This gives the engine, and therefore the overall vehicle, a lower centre of gravity and better sense of balance. Furthermore, the pistons' opposing movements inherently counteract each other, naturally helping to reduce vibration and boost driving comfort.

INCREASED STABILITY

Because the engine block has a flatter profile and sits lower in the chassis, the vehicle is more balanced and resistant to side-to-side motion than other engine configurations.

SMOOTH POWER

At any rpm level, the engine delivers immediate, responsive power that comes on smooth. This occurs because the pistons lay flat and work against each other to reduce vibration, making the ride as easy and comfortable as it is exciting.

LONG-LASTING PERFORMANCE

The engine's flat design is inherently rigid and self-balancing, generating less vibration than V-type and most in-line engines for exceptional durability and reliable performance.

Tribeca

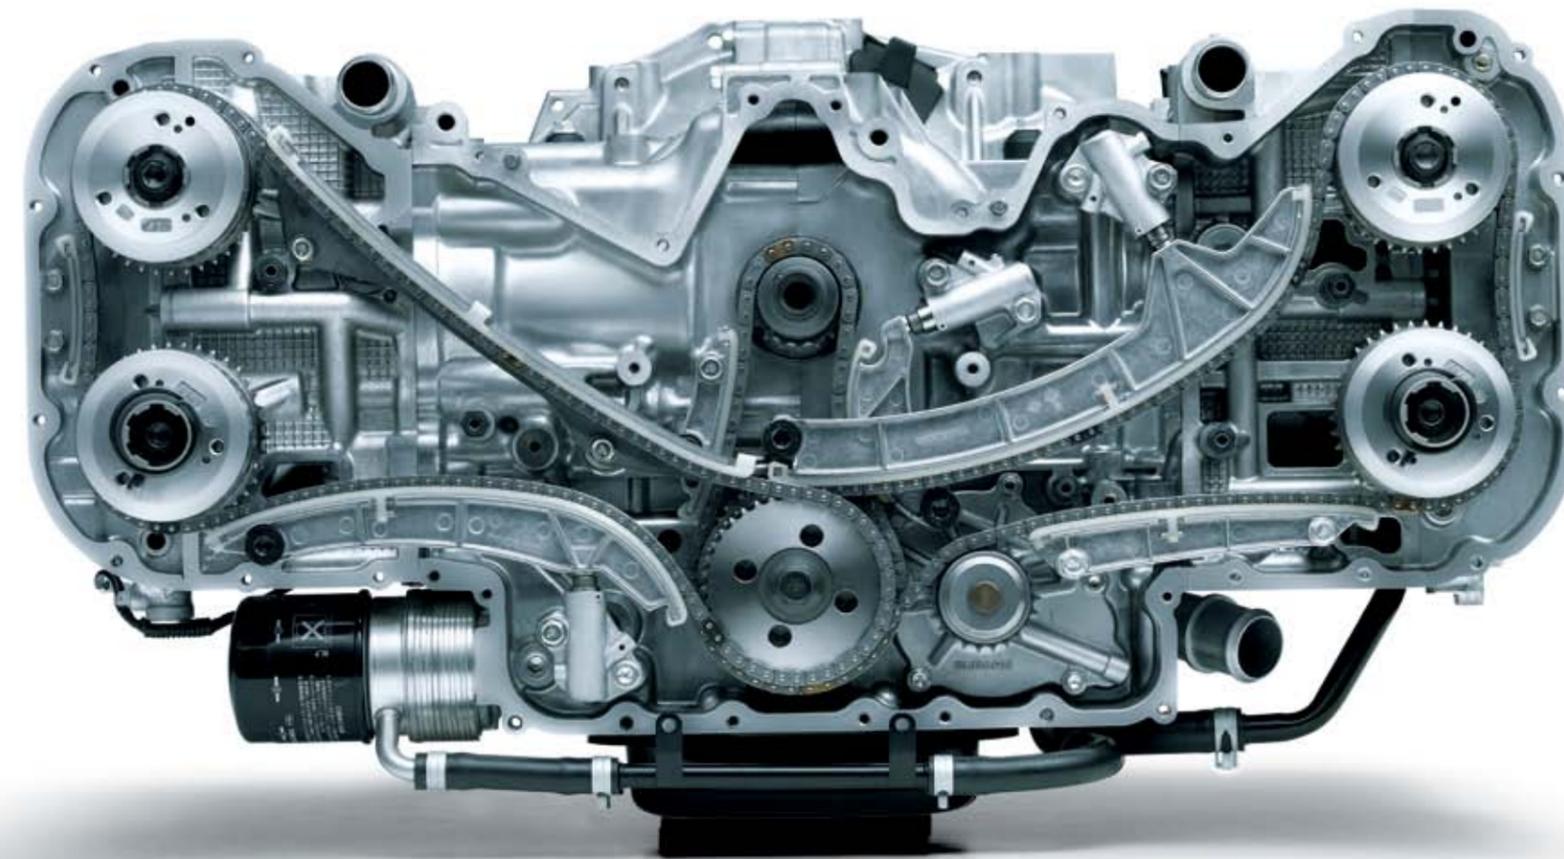

Powerful force, smooth performance.

THE DIFFERENCE:

The horizontally opposed design of the SUBARU BOXER engine fires with a powerful punch-counterpunch action.

THE ADVANTAGE:

It's naturally balanced for exceptional smoothness, inherently rigid for greater strength and has a lower profile for better handling.

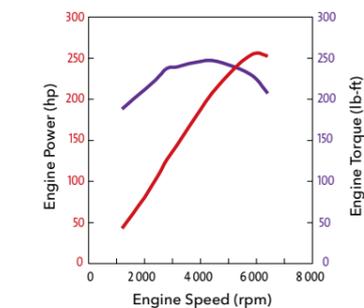

3.6-LITRE DOHC SUBARU BOXER

HORSEPOWER: 256 HP @ 6000 RPM

TORQUE: 247 LB-FT @ 4400 RPM

FUEL ECONOMY (L/100 KM): CITY 13.1 / HWY 9.4 (5EAT)

The largest engine in the Subaru fleet, the 3.6-litre DOHC 6-cylinder SUBARU BOXER offers an intoxicating blend of performance and efficiency. Benefiting from the highly advanced Dual Active Valve Control System, this mighty powerplant delivers excellent low- and mid-range torque, smooth acceleration throughout the rev range, robust fuel efficiency and surprisingly low emissions.

Control equals confidence.

THE DIFFERENCE:

The transmission is expressly designed and engineered to work with its own version of Subaru symmetrical full-time AWD.

THE ADVANTAGE:

Smooth power delivery, optimum fuel efficiency and an unmatched level of control simply heighten the level of driving pleasure.

5-SPEED AUTOMATIC TRANSMISSION + VARIABLE TORQUE DISTRIBUTION AWD

The 5-speed automatic transmission with Manual Mode employs advanced electronics and adaptive shifting logic to deliver smooth, quick and fuel-efficient performance – even when cornering or driving up and down hills. Two fully automatic shift modes (Normal for better fuel economy and Sport for better performance) and a manual shift mode allow the driver to choose between greater response and optimum fuel efficiency. The transmission also utilizes a Variable Torque Distribution AWD system that maintains a 45/55 front/rear torque split during normal driving conditions and automatically adjusts up to a 50/50 split under hard acceleration or when conditions warrant. This system is able to work in conjunction with the standard Vehicle Dynamics Control (VDC) to ensure power is distributed to all four wheels in a controlled fashion, creating superior levels of traction.

Calm, cool and connected.

THE DIFFERENCE:

A unique approach to SUV design creates a smooth, composed ride and unexpectedly sublime handling regardless of road conditions.

THE ADVANTAGE:

Confidence in all conditions and satisfaction in every situation comes from knowing that all four corners of the vehicle are in contact with the road at all times.

FRONT SUSPENSION

A fine-tuned strut-type front suspension with long wheel travel and a wide track give the Tribeca a level of handling, steering feel and ride quality completely unexpected in an SUV. Despite its generous ground clearance, this SUV also corners with tremendous stability.

REAR SUSPENSION

Compact in size but big in real-world performance, the double-wishbone rear suspension system is calibrated to handle rough roads and sharp corners with equal composure and is designed to free up more space in the cargo area. The end result is an SUV that fits the description: sporty with plenty of utility.

Always

standing on guard for thee.

At every turn, you need to know that your family is safe and secure. Under all possible driving conditions, you need to know they're protected by one of the strongest and safest vehicles on the road. Peace of mind equals genuine driving enjoyment.

Safety first and foremost.

THE DIFFERENCE:

Superior agility, all-wheel drive and additional active safety systems help keep you out of harm's way, while super-strong construction and advanced passive safety systems are standing by, just in case.

THE ADVANTAGE:

An all-encompassing approach to safety gives the driver all the tools needed to avoid a collision and all the reassurance if a collision is inevitable.

ACTIVE SAFETY, TO AVOID A COLLISION

Many of the same features that make the Tribeca a pleasure to drive also help to keep its occupants safe. The stable, responsive handling of Subaru symmetrical full-time AWD. The SUBARU BOXER engine's low centre of gravity. Vehicle Dynamics Control, surefooted suspension, anti-lock brakes and quick steering - all provide the driver with the excellent evasive capabilities needed to avoid an accident altogether.

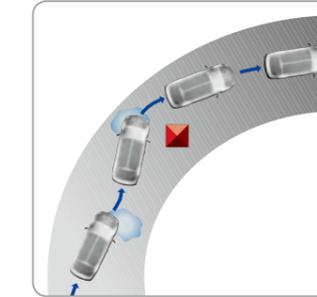

PASSIVE SAFETY, TO LESSEN THE CHANCE OF INJURY

Sometimes an accident is unavoidable. For this reason, the Tribeca is designed with occupant protection as a top priority. Its body structure is intelligently strengthened in critical areas to help minimize the impact energies that reach the cabin. Front airbags, front-side and side curtain airbags, active front-seat head restraints and 3-point seatbelts further contribute to the cause of passive safety. This is a core value of the Subaru philosophy: Peace of mind is crucial to fully experience true driving enjoyment.

VEHICLE DYNAMICS CONTROL SYSTEM

Standard on every Tribeca, the Vehicle Dynamics Control[†] system monitors and analyzes if the vehicle is following the driver's intended course via an array of sensors. If the vehicle approaches the limits of stability, the AWD torque distribution, engine output and brakes at each wheel are adjusted automatically to assist in keeping the vehicle on course.

[†]The Subaru Vehicle Dynamics Control system may also be known as Electronic Stability Control.

RING-SHAPED REINFORCEMENT FRAME

The advanced ring-shaped reinforcement frame creates a uniform, interconnected safety cell comprised of the roof, door beams, side pillars and floor. This cell helps to divert impact energy away from the passenger cabin in the event of a collision. The Tribeca also features crumple zones (front and rear) engineered to dissipate impact energy gradually, while the front is also designed to allow the engine to slide under the passenger compartment in a severe front-end collision.

BRAKING SYSTEM

The standard 4-channel Anti-lock Braking System (ABS) is equipped with Electronic Brake-force Distribution (EBD) to automatically adjust front/rear braking pressure when vehicle load changes. Electronic Brake Assist also provides greater braking force in panic situations.

SEATBELTS, AIRBAGS AND HEAD RESTRAINTS

The Tribeca comes standard with front, front-side and side-curtain airbags with rollover sensors (first and second row). Also part of the picture are height-adjustable front seatbelts with pretensioners to hold passengers firmly in place and load limiters that ease peak forces to the chest area. Rear passengers are also secured with head restraints and 3-point seatbelts in all seating positions. Last but not least, whiplash-reducing active front-seat head restraints automatically move in a rear-end collision to better support the passenger's head and minimize injury.

INSURANCE INSTITUTE
FOR HIGHWAY SAFETY

²
5-STAR ★★★★★
CRASH TEST RATING

National Highway Traffic Safety
Administration's (NHTSA's)
New Car Assessment Program

2010 model year ratings.¹Ratings of "Good" are the highest rating awarded for 40-mph frontal offset, 31-mph side-impact and 20-mph rear-impact crash tests conducted by the Insurance Institute for Highway Safety (IIHS) (www.iihs.org). A "Good" rating obtained in all three crash tests plus a "Good" rating in new roof strength testing and the availability of Electronic Stability Control (ESC) (Vehicle Dynamics Control) achieves a 2010 Top Safety Pick. ²U.S. Government star crash-test ratings are part of the National Highway Traffic Safety Administration's (NHTSA's) New Car Assessment Program (www.safercar.gov). A five-star crash-test rating is the highest government rating for a) Driver and right front seating positions in frontal crash tests and b) Front and rear seating positions in side-impact crash tests.

LINEUP

TRIBECA

Selected standard features:

Horizontally opposed, 6-cylinder, 3.6L SUBARU BOXER engine with Dual Active Valve Control System

256 horsepower and 247 lb-ft of torque

5-speed Electronic Direct Control Automatic Transmission with Manual Mode (5EAT) and blipping control

Subaru symmetrical full-time All-Wheel Drive

Vehicle Dynamics Control system and Traction Control System

Anti-lock Braking System, Electronic Brake-force Distribution (EBD) and Brake Assist

Driver and front passenger front and side-impact airbags; side curtain airbags with rollover sensor (first and second row)

Rear-view camera

18-inch aluminum alloy wheels; 5 double-spoke design

Power tilting and sliding glass sunroof

Multi-reflector halogen fog lights

Power-adjustable, foldable and heated body-colour door mirrors with integrated LED turn signals

Raised-profile roof rails (black)

Fuel economy: 5EAT (L/100km): City 13.1 / Hwy 9.4

Exterior colours available: Azurite Blue Pearl (shown), Caramel Bronze Pearl, Crystal Black Silica, Graphite Grey Metallic, Ruby Red Pearl, Satin White Pearl, Sky Blue Metallic, Steel Silver Metallic.

Interior colour: Slate Grey (shown).

Premium AM/FM/6CD/MP3/WMA audio system with 6 speakers, auxiliary audio input, steering wheel-integrated controls; pre-wired for satellite radio†

Automatic dual-zone climate control

Rear-seat cooling unit

Heated, power-adjustable front seats with lumbar support

40/20/40-split, flat-folding, reclining and adjustable second-row seating

50/50-split, flat-folding third-row seats with driver and passenger side access

Premium cloth upholstery

LIMITED PACKAGE

Upgrade features:

18-inch aluminum alloy wheels, 7-spoke design

Body-colour rocker panels, wheel arches and lower bumpers

Raised-profile roof rails (silver)

Xenon High Intensity Discharge (HID) headlights (low beam) with manual levelizer

DVD entertainment system with 9-inch screen, audio/video auxiliary input, 2 wireless headphones and a remote control

DVD playback (front screen)

Harman Kardon® 10-speaker system with 385-watt amplifier

blueconnect® Bluetooth® hands-free system (voice-activated)

SIRIUS® Satellite Radio installed (free 3-month trial subscription included)

2-position memory function on driver's seat

Leather seating surfaces (Slate Grey or Desert Beige dependent on exterior colour)

PREMIER PACKAGE

Upgrade features:

18-inch aluminum alloy wheels, 7-spoke design

Body-colour rocker panels, wheel arches and lower bumpers

Raised-profile roof rails (silver)

Xenon High Intensity Discharge (HID) headlights (low beam) with manual levelizer

GPS DVD-based navigation (touchscreen)

DVD entertainment system with 9-inch screen, audio/video auxiliary input, 2 wireless headphones and a remote control

DVD playback (front screen)

Harman Kardon 10-speaker system with 385-watt amplifier

SIRIUS Satellite Radio installed (free 3-month trial subscription included)

2-position memory function on driver's seat

Leather seating surfaces (Slate Grey or Desert Beige dependent on exterior colour)

ACCESSORIES

While every Tribeca comes extraordinarily equipped, the perfect accessory can bring added convenience, enhanced functionality and sharper visual appearance. Designed to provide the same fit and quality as your Subaru vehicle, Subaru Genuine Accessories can help tailor your Tribeca to better suit your life and your style.

- Battery warmer
- Bike carriers (trailer hitch-mounted and roof-mounted)
- Block heater
- blueconnect® Bluetooth® hands-free system
- Cargo area nets (rear, seatback)
- Cargo area tray
- Cargo area cover (retractable)
- Cargo basket
- Cargo organizer
- Compartment divider (dog guard)
- Crossbar set
- Hood deflector
- Kayak stacker
- Sunroof deflector
- Puddle lights
- Rearview mirror - auto-dimming with compass
- Rear bumper step pad
- Remote engine starter kit
- Reverse sensing system
- Roof cargo bin (several styles and sizes)
- Rubber floor mats
- Satellite radio kit (SIRIUS®)
- Security system upgrade (shock sensor)
- Side window deflectors
- Ski/snowboard carrier
- Subwoofer/amplifier
- Trailer hitch assembly
- Underguard (front)
- Wheel lock set

For more accessory options, visit subaru.ca or your local Subaru dealer.

Subaru Warranties

Every Subaru vehicle is designed and built to offer our customers the highest possible level of quality and reliability. We are proud of our vehicles and proud to stand behind them with a comprehensive warranty. For 2011 model year vehicles, the warranty on all Subaru vehicles consists of the following:

New Vehicle Limited Warranty (36 month/60,000 km) – Covers basic and major components for 36 months or 60,000 km.

Major Component Limited Warranty (60 month/100,000 km) – Extends coverage of major components (more than just powertrain) up to 60 months or 100,000 km.

Surface Corrosion Limited Warranty (36 month/60,000 km) – Covers surface corrosion to visible painted body panels for 36 months or 60,000 km.

Anti-Perforation Limited Warranty (60 month/unlimited km) – Covers perforation due to corrosion to body sheet metal panels for 60 months, regardless of kilometres.

Emission Control System Limited Warranty – Covers the majority of emissions components for 36 months or 60,000 km and the major parts of the emission control system for 96 months or 130,000 km.

Parts and Accessories Limited Warranty – Covers Subaru parts and accessories installed by the dealer prior to retail delivery of the vehicle for 36 months or 60,000 km, and Subaru parts and accessories installed by the dealer after the retail delivery of the vehicle for 12 months or 20,000 km from the date of the installation.

The above information is an overview of warranty coverage and is not a warranty statement. If you wish to see more details regarding Subaru warranties, please refer to your Subaru warranty booklet, contact your local dealer or visit our Web site at subaru.ca.

Subaru C.A.R.E. (Customer Assistance for Roadside Emergencies)

The Subaru C.A.R.E. program (which is backed by the Canadian Automobile Association [CAA]) is offered free of charge for the first three years from date of purchase on every new Subaru vehicle or as part of a Subaru Protection Plan. As a Subaru C.A.R.E. member, you can count on fast, courteous emergency roadside assistance 24 hours a day, 365 days a year. You will receive a membership card and have access to a dedicated toll-free telephone number (in English or French), allowing you to take advantage of over 20,000 roadside assistance contractors and 1,000 CAA and American Automobile Association (AAA) offices throughout Canada and the United States. Ask your dealer for details or visit subaru.ca.

Subaru Canada, Inc. is proud to be the first vehicle manufacturer to have a direct relationship with CAA, giving our customers the benefit of CAA's unparalleled level of experience and service.

Subaru Protection Plan

As a Subaru owner, you have expectations for a pleasurable, trouble-free ownership experience – now and into the future. Once your 36-month/60,000-km New Vehicle Limited Warranty period ends,* our Subaru Protection Plan (SPP) – the only vehicle service contract endorsed by Subaru Canada for Subaru vehicles – can prolong your hassle-free ownership experience with three levels of extended service contract coverage tailored to your needs: Powertrain Protection; Major Protection; or Complete Protection (best level of coverage to complement the 60-month/100,000-km Major Component Limited Warranty). SPP offers comprehensive mechanical and electrical coverage and a number of additional features and benefits, such as Roadside Assistance and Alternate Transportation, for up to 7 years or 160,000 km from your vehicle's in-service date. Whether your vehicle is purchased or leased, SPP protects you and your investment. Be sure to ask your dealer for details or visit subaru.ca.

*If you already own a Subaru vehicle and it is still within the 36-month/60,000-km New Vehicle Limited Warranty period, you are still eligible for SPP!

The Supplemental Restraint System (SRS airbags) affords the driver and passenger additional protection in some collisions. This system provides supplemental protection only, and seatbelts must be worn in order to avoid injuries to out-of-position occupants upon airbag deployment. The combination of SRS and seatbelts provides the best protection in a serious accident. The Supplemental Restraint System (SRS airbags) affords the driver and passenger additional protection in some collisions. This system provides supplemental protection only, and seatbelts must be worn in order to avoid injuries to out-of-position occupants upon airbag deployment. The combination of SRS and seatbelts provides the best protection in a serious accident.
