ABOVE & BEYOND

Ever since the first Land Rover vehicle was conceived in 1947, we have built vehicles that challenge what is possible. These in turn have challenged their owners to explore new territories and conquer difficult terrains. Our vehicles epitomise our brand. Vehicles with exemplary design credentials and engineering capabilities. Which is how we continue to break new ground, defy conventions and encourage each other to go further. Land Rover truly enables you to make more of your world, to go above and beyond.

DESIGN

[BUILD YOUR OWN](#)

Range Rover Evoque's confident design ethos makes a statement. Its distinctive coupé-like silhouette is finished with flush deployable door handles and optional 21" wheels. Whilst inside, the latest technologies make your journey easier and more connected. Our Pivi infotainment system and an optional Interactive Driver Display are featured, together with beautifully appointed material options. Helping to create a luxuriously finished modern, urbane space.

In-car features should be used by drivers only when safe to do so. Drivers must ensure they are in full control of the vehicle at all times.

Pivi and InControl features, options, third party services and their availability remain market dependent - check with your Land Rover Retailer for local market availability and full terms. Mobile network connectivity cannot be guaranteed in all locations. Information and images displayed in relation to the InControl technology, including screens or sequences, are subject to software updates, version control and other system/visual changes depending on options selected.

LEAD THE WAY

Range Rover Evoque features a range of innovative technologies, including sleek optional Matrix LED headlights with signature Daytime Running Lights* (DRL) and an adaptive beam. By splitting the main beam into vertical strips, the number of sections is maximised for ultimate visibility, while casting a shadow over oncoming traffic to help to prevent dazzling. Plus, Animated Directional Indicators* are available, which reduce the time it takes other road users to recognise the direction you're heading.

SIMPLICITY AS STANDARD

Find what you're looking for quickly - without getting lost in menus, screens and hidden features. Range Rover Evoque's infotainment system, Pivi, features an intuitive Touchscreen interface, for greater efficiency and enjoyment. Reach everyday tasks in two taps or less, right from the home screen. Upgrade to Pivi Pro with Connected Navigation* and you'll be accompanied by the latest in-car artificial intelligence, providing features such as the self-learning navigation system.

*Connected Navigation will require further subscription after the initial term advised by your Land Rover Retailer.

PREMIUM FUNCTIONALITY

With Land Rover Remote¹ as standard, your Range Rover Evoque is always in the palm of your hand. Preset your navigation, confirm your vehicle's location, check fuel levels and set the interior temperature - all before you've opened the car door. Along the way, intelligent re-routing can find you the best path to take, as well as updating parking availability, fuel price comparisons, café locations and traffic hotspots. Plus, optional Head-up Display² is available, which projects key information onto the windscreen in your line of sight, so you can sit back and just focus on the road ahead.

¹Remote contains subscription services that can be extended after the initial term advised by your Land Rover Retailer. The Remote App will need to be downloaded from the Apple App Store/Google Play Store. ²Navigation directions on the windscreen only appear when Pivi Pro with Connected Navigation is fitted to the vehicle.

Cutting-edge capability technologies are at the heart of every Land Rover, and Range Rover Evoque is no different. Featuring All Wheel Drive (AWD) to give you confident vehicle handling both on and off road, torque can be redistributed to maximise traction on slippery surfaces such as grass and snow. Or in extreme conditions where the front or rear wheels lose resistance completely, up to 100 percent of engine torque can be distributed to the opposite axle for optimum grip.

Vehicle shown is Range Rover Evoque S in Fuji White with optional features fitted.

EVERYDAY CAPABILITY

Optimise your vehicle by allowing intelligent Terrain Response 2¹ to select one of five terrain options, along with All Terrain Progress Control¹ which enables you to set and maintain a steady speed between 1mph and 18mph in challenging weather conditions. It will help you out in mud, wet grass, ice, snow and on dirt roads. The result of this combination of systems working together is a vehicle undeterred by tough environments. Plus, with the addition of optional Advanced Tow Assist², you can take any equipment wherever you want to go.

Electric power now propels our vehicles into an exciting new era. Range Rover Evoque Plug-in Hybrid combines a 3-cylinder, 1.5 litre petrol engine with an electric motor to deliver a total output of 309HP. The electric motor can either supply its power in parallel with the engine, or drive the vehicle in the selectable Electric Vehicle (EV) Mode. The 15kWh battery gives the vehicle an all-electric range from a full charge that is capable of managing most city commutes.

EV range figures are based upon production vehicle over a standardised route. Range achieved will vary dependent on vehicle and battery condition, actual route and environment and driving style.

MILD HYBRID ELECTRIC VEHICLE (MHEV)

Producing maximum-efficiency power, Range Rover Evoque offers Mild Hybrid engines that use a battery to harvest, store and cleverly redeploy energy normally lost during deceleration. MHEV vehicles also incorporate an enhanced Stop/Start system that enables the engine to shut down as the vehicle decelerates, preserving even more energy.

P300 HST (MHEV)

The powerful P300 engine offers class-leading flexibility and a more engaging drive, with near-instantaneous boost pressure delivery. Featuring Active Driveline technology, you can switch seamlessly between two and four-wheel drive, as the demands of terrain and weather conditions change. DRIVER ASSISTANCE PACKS

BLIND SPOT ASSIST PACK¹

Blind Spot Assist² - If another car is detected in your blind spot when you begin to change lanes, a warning light illuminates in the corresponding door mirror and steering torque encourages you to guide your vehicle away from potential collision.

Clear Exit Monitor - Warns passengers as they exit of approaching hazards, such as passing vehicles and cyclists.

Rear Traffic Monitor - Warns you of vehicles, pedestrians or other hazards approaching from either side. Particularly useful when reversing out of a parking bay.

DRIVER ASSIST PACK¹

Blind Spot Assist Pack - Contains Blind Spot Assist², Rear Traffic Monitor and Clear Exit Monitor.

Rear Collision Monitor - If a vehicle approaching from behind is not slowing down, Range Rover Evoque will attempt to alert the approaching driver to brake by automatically flashing the hazard lights.

Adaptive Cruise Control - Keeps your vehicle a safe distance from the vehicle in front, should it slow or stop when you're cruising or travelling in slow-moving traffic. If the vehicle in front stops, you will come to a smooth halt.

¹Optional feature. Model dependent. The option shown has linked features. ²Blind Spot Assist can help prevent collisions. If your vehicle detects another car in your blind spot when you begin to change lanes, a rotational force is automatically applied to the steering wheel - indicating a steering correction should be made.
