

Transporter 6.1 Kombi

Kombi 6.1

Enjoy the best **of all worlds**

The Transporter 6.1 Kombi is ideal for families, companies and social groups.

Be it for an airline, hotel or shuttle company, it's the smart way to transport up to eight people in comfort and style. With the Kombi, you're ready to go the distance. After all, who knows where your next venture may take you?

Local vehicle specifications may differ from model shown.

Why choose?

Complete with 3 powerful engine options (81kW, 110kW and 146kW), the Kombi 6.1 lets you blaze new trails on business and family adventures. Its versatile seating arrangements, extra storage and host of electronic features let you accomplish the most at work and play. Additionally, the 4MOTION system now comes standard on the 146kW Trendline Plus.

Refreshing **good looks**

The Kombi's bold redesign features a new colour palette, twin halogen headlights with the LED tail light clusters providing a striking rear light signature.

Reliability you can **take for granted**

Local vehicle specifications may differ from model shown.

Quality is tradition with the T6.1 range.

As you'd expect, the Kombi 6.1 is built to last with a highly stable body, durable materials and exceptional workmanship.

Local vehicle specifications may differ from model shown.

Technology that **works for you**

Connectivity

Keep in touch with your family, friends and business with the help of the latest infotainment systems and WeConnect Go.

Control

The electromechanical, speed-sensitive power steering offers active and adaptive support in almost all driving situations. The smart steering can be used to control a range of advanced driver assist systems. Drive comfortably with height and longitudinally adjustable steering column.

Safety comes first

State-of-the-art driver assist systems include: Crosswind and Park Distance Control, Post-collision Braking System and Tyre Pressure Monitor. Side and curtain airbags for the driver, front passenger and rear passenger compartment are optional. Windshield wiper intermittent control with rain sensor and washer fluid level indicator. Rear-view camera comes standard.

Local vehicle specifications may differ from model shown.

Connectivity comes standard

Local vehicle specifications may differ from model shown.

All Kombi versions include a radio system, interior lighting with LED technology and Climatic semi-automatic air conditioning. Climatronic air conditioning comes standard on the 146kW model.

International model shown, local specification might differ.

Local vehicle specifications may differ from model shown.

Unwind while **you drive**

The efficient driver workplace, electromechanical power steering, newly designed dashboard, driver's seat with lumbar support and excellent all-round visibility ensure a relaxed, stress-free driving experience.

Local vehicle specifications may differ from model shown.

Built for **big business**

Whether you're transporting active kids or corporate cargo, you'll need a vehicle that's both stylish and space efficient.

The Kombi 6.1 offers just that with folding armrests, excellent noise insulation, LED reading lights, extra head and legroom, intelligently arranged controls, solid feel switches and attractive trims.

Local vehicle specifications may differ from model shown.

Networking on-the-go

Local vehicle specifications may differ from model shown.

Kombi 6.1 is available to order with the optional Digital Cockpit, which features a high-resolution 10.25-inch display. It also features the latest touch-screen radio and navigation systems with App-Connect, WeConnect Go and Bluetooth®, to keep you informed while you're on the move.

Local vehicle specifications may differ from model shown.

Smart seating, **easy living**

The interior of the Kombi 6.1 is ready for any outing – from weekend trips to deliveries and shuttle services.

Its 'easy-entry' seating lets your passengers kick back and relax. But it's the Kombi's flexibility that really sets it apart. The standard seating for eight (including the driver) can be configured in multiple layouts, or completely removed to create a generous load area. All seats feature three-point inertia-reel seatbelts and adjustable head restraints. ISOFIX child seat mountings can be found on the second row. Even with a full house, the Kombi's rear luggage space and handy storage compartments mean there's always room for unexpected extras.

Create space in three steps:

Fold down the backrests. All backrests on the benches and single seats in the passenger compartment can be folded down.

Double-fold the seats. The three-seater bench seat in the third seat row can be double folded. This feature can be used to increase the size of the luggage compartment.

Remove the seats. All bench seats and seats can be removed without tools. This means the Kombi is ready for all transport jobs in an instant. The fastening rings in the vehicle floor can be used to secure cargo.

Local vehicle specifications may differ from model shown.

Local vehicle specifications may differ from model shown.

Go where **the action is**

The hard-wearing Kombi shines at any event.

Whether it's after a soccer match, the school run, or on the way to work. Muddy shoes? The rubber floor covering can be cleaned easily. Dirty hands? The interior trim can be wiped clean. Going on a short break? The tailgate provides shelter from sunshine and rain.

Stay connected **to what matters**

Enjoy the power of connectivity at your fingertips with state-of-the-art infotainment systems and the optional Digital Cockpit. The 10.25-inch display boasts intense colours and bright, high-contrast imagery. The Digital Cockpit (optional on 146kW model) is operated via the touch display of the infotainment system and via the leather trimmed, multi-function steering wheel. Fitted as standard, the Composition Colour radio system features a 6.5-inch TFT touch-screen colour display, two USB (type-C) ports, Bluetooth, SD card slot and six speakers. The high-resolution Digital Cockpit is perfect for listening to music, making calls or navigating.

Peace of mind during your daily grind

Intuitive driver assist systems help keep you safe while you focus on the next goal. These systems include Crosswind and Park Distance Control, Post-collision Braking System and Tyre Pressure Monitor. These systems make it easier to take control in critical situations.

Crosswind Assist. Crosswind Assist detects track offset caused by strong crosswinds on-time and thus helps the driver to remain in their lane. A sudden track offset of the vehicle can cause improper steering directions for the driver. That's why Crosswind Assist corrects the course of the vehicle automatically from a speed of 80 km/h without the driver being aware. The track offset is therefore significantly reduced, and the influence of the crosswind blasts is largely balanced out or reduced.

Post-collision Braking System. The Kombi 6.1 features an advanced safety system that breaks automatically after a collision to prevent a second impact. After a short delay, the vehicle begins a phased braking action down to 9.66 km/h during which time the driver can take over at any point.

LED headlights. Keep a constant, close eye on what's ahead. Even if you travel at night, the Kombi 6.1 is always the ideal companion. Especially if it's fitted with LED headlights which feature a long light beam and high lighting volume. For the best possible visibility and a safe arrival.

Park Distance Control. Park Distance Control at the front and rear helps make parking easier. When reverse is engaged, the vehicle alerts you with visual and audible warnings if you are getting too close to other vehicles, pillars, walls or pedestrians.

Tyre pressure monitoring system. Displays the current pressure for every tyre and warns of deviations from the set pressure.

Rear-view camera. The standard rear-view camera gives you an optimised view of the area behind your vehicle. The system utilises the screen integrated into the media system which helps you navigate a safe route when reversing.

Disclaimer

*A combination of leather and high quality durable materials

All diesel vehicles require low sulphur grade diesel of 50 ppm or lower.

Fuel consumption and CO² emissions values were obtained in accordance with the prescribed uniform measuring standard (SANS 20101: 2006 / ECE R101: 2005 in its currently applicable version). The verified values do not apply to a specific vehicle and do not constitute part of the product offer. They are provided solely for the purposes of comparison between different vehicle models. Because of the need to maintain strict comparability of results achieved by the standard tests, they cannot be fully representative of real-life driving conditions. Variations in driving styles and in road, vehicle and ambient conditions, will have a bearing on the results achieved on the road. For these reasons consumption achieved on the road will not necessarily accord with these verified values.

Based on lightest variable (no options) and 90% tank filling. Weight may vary depending on options fitted to vehicle.

Dimensions, capacities and abilities apply to standard vehicles.
