Sportiness and style.

A creative concept that combines the elegance of a sedan with the spirit of a real gran turismo. Strong and harmonious lines, designed by the passion of Giorgetto Giugiaro and the Alfa Romeo Style Centre. Muscular features firmly planted on the asphalt, ready to turn every trip into a lifetime experience. Inside, finely crafted finish and extreme functionality combine to enfold you in a secure embrace. Meet the Alfa Romeo 159. Now also with new outfits and colours.

Even more powerful, even lower fuel consumption.

Alfa Romeo power unit engineering continues to evolve by offering increasingly competitive performance with regard to power and fuel consumption. This is borne out by the 147 kW 1750 Turbo Petrol that boasts a maximum torque level (320 Nm) available even from the lowest speeds (1400 rpm) that remains constant to 2000 rpm. Absolutely outstanding values to ensure excellent pick-up performance and limit the use of the gearbox by the driver. [The 159 engine complies with Euro 5 standards.](#)

Performance

Thoroughbred sports car.

The 159 engine range is ready to meet all your driving needs but, above all, the satisfaction of being behind the wheel of a thoroughbred sports cars.

Two petrol units, both powerful and flexible. From the 147 kW 1750 Turbo Petrol to the 191 kW 3.2 V6.

	1750 Turbo Petrol 147 kW	3.2 V6 191 kW
Displacement	1742 cm ³	3195 cm ³
Torque	320 Nm at 1400 rpm	322 Nm at 4500 rpm
Gearbox	6-speed manual	6-speed manual and automatic
CO ₂	182	260 (270 - Q4 Q-Tronic)
Environmental classification	Euro 5	Euro 4

Enjoy yourself behind the wheel!

That's exactly what happens when you grip the steering wheel and press down on the accelerator of an Alfa Romeo 159. Because that's when the raised double wishbone front suspension – a technology derived from the world of motor racing and applied exclusively by Alfa Romeo – comes into its own. This advanced suspension system ensures precise, linear steering, better traction and reduced pitching under braking. At the rear, multilink suspension controls wheel movement to ensure constantly optimised traction and grip. Alfa Romeo has developed the Electronic Q2 system precisely to make the most of this high-performance suspension. Electronic Q2 uses the ESP control unit to create an effect similar to that of a limited slip differential, but using the car's braking system instead. The system combines the benefits of front-wheel drive and four-wheel drive to improve road holding, traction and stability. The end result is highly effective sporting suspension and a feeling of complete control that only the 159 can offer.

Technology and control

A 5-star rating. The ultimate in motoring safety.

The new 159 also incorporates all the usual electronic safety systems including ABS with EBD, VDC electronic stability control, ASR anti-slip control, HBA emergency braking assistance and Hill Holder for effortless hill-starts plus a servo-assisted braking system that ensures responsive and progressive braking action and extremely short stopping distances.

The 159 is built to protect. And a maximum score in Euro NCAP safety tests shows that this objective has been easily achieved. 5 stars for the torsional rigidity of the body shell made from high strength steel, dual-phase steel and multi-thickness steel sheet, rigidly joined transversely and vertically using laser welding technology. 5 stars for the non-deformable floor pan, lateral beams and rigid engine mounting structure. There are even front, side, knee and window airbags to provide total protection.

And we've thought of your children's safety too and provided a three-point rear seat attachment for Isofix child seats.

Alfa Romeo 159 heads its category for active and passive safety. Because its equipment is so comprehensive, it received the most prestigious acknowledgement in the motoring safety field: a EuroNCAP 5 star rating.

Progression Outfit.

Innovative style, advanced technology.

17" alloys • 3D Sport cloth seats • Black Interior • Dual zone automatic climate control
• Leather-trimmed steering wheel and gear lever knob • Control panel with white lighting
• Electric rear windows • Radio/CD • Chrome-plated exhaust tail pipe • Third rear head restraint.

Available on:

• 1750 Turbo Petrol 147 kW Progression.

Progression

Distinctive Outfit.

For those that want more than standard fare. For those who want a 159 unlike any other.

17" spoked alloys • Leather and cloth seats • Sports steering wheel and gear lever knob in leather with black top-stitching • Panels in brushed black aluminium • Radio controls on the steering wheel • Cruise control • Sports control panel with white lighting • Dual zone automatic climate control • Fog lamps • Radio/CD with mp3 player.

Available on:

3.2 V6 Distinctive

3.2 V6 Q4 Q-Tronic Distinctive

Distinctive

Ti.

A pure distillate of Alfa Romeo sportiness. No uncertainties. No compromises.

Distinctive equipment, plus:

18" turbine alloys • Low ride • Red brake calipers • Side skirts • Seats in leather and Alcantara in sports configuration • Sports steering wheel and gear lever knob in leather with red top-stitching • Blue&Me™ • Sports pedal unit • Heated seats • Sill plate in aluminium with Ti logo

Available on:

Alfa Romeo Services

Customers who choose an Alfa Romeo car know that they can count on a vehicle that is technologically innovative with state-of-the-art safety but also on a world of solutions and services, designed to meet all the needs of both car and driver.

The Alfa Romeo 159 is fully personalisable, and that also applies to the way you buy and own it, due to a range of options that have been developed for you.

Alfa Romeo Financial Services is a division of Wesbank – A division of First Rand Bank Ltd.

An Authorised Financial Services & Credit Provider NCRCP20.

Tel: 0861 137 137
Fax: 0861 101 833
Email: finance@wesbank.co.za
Hours: Weekdays 8am to 5pm
Saturdays 8am to 12pm
